WHY NOT A CLEAN SWEEP OF INCOMPETENT OFFICIALS

While they are at it the voters of this county should make a clean sweep of all officials who have been found wanting in the conduct of their offices. Clerk Crichton was defeated for nomination, ditto Sheriff Chrisman and Assessor Davis. There is one other official whose days of usefulness so far as Wasco county is concerned, is about over, and who should be relegated to the junk heap, and he is Francis V. Galloway, for several years cluttering up the office of district attorney.

Galloway, as head of the legal department of the county, is to blame for the illegal taking of fees by the county clerk; he should have advised the sheriff that taking the money left over from the actual cost of feeding prisoners belonged to the county. He should have attended to the duties of his office ahead of his private practice and should have given ear to such matters when presented to him instead of practicing dilatory measures and putting off such matters to suit his convenience.

As an attorney he has been anything but a success in his office. During the past year he has not succeeded in securing conviction in half of the cases he has taken to court. He has been arbitrary in many cases, even going so far as to refuse to take the advice of the circuit judge in bringing cases to trial. In one case he told the judge he had nothing on the defendant, and when advised not to bring the issue to trial ignored the advice and proceeded on his own initiative. That case proved a failure and the county and defendant were put to needless expense. That was not the only case wherein the county's money was needlessly expended. A glance at the records will convince voters and taxpayers that they have been retaining a man in office who has not proven to be a success, and that the sooner he is relegated to private practice the sooner the county will benefit.

We expect to have something in our next issue that will open the eyes of Wascoites to a practice which, we have been told, has no standing in law and which concerns the office of district attorney.

JOHN B. YEON

Oregon has lost one of its shining lights in the death of John B. Yeon, who passed away as the result of an operation at Portland on Monday of this week.

Mr. Yeon's life was an example for all young men. His courage and steadfastness of purpose accomplished much, and he died beloved by all who knew him. Coming to Oregon as a young man he at once grasped opportunity as it passed by and by clear reasoning, industry and perseverance accomplished more than seemed possible. He amassed a fortune, and that by his own efforts. He attained celebrity by his advocacy and assistance in the road program of the state and his advice and precept was followed by all who recognized his sterling worth and honesty.

Yes, Oregon has lost one of its outstanding citizens and the state as a whole will mourn at his departure. If there is a heaven for departed mortals truly John B. Yeon has been

given a place there, for his life was an open book, and his good deeds far overspread all that might be said against him.

With loads of cattle, sheep and hogs going to market from the Dechutes valley there should be no dearth of ready money among our ranchers. In time this section will attract many settlers and Juniper Flat will be a dairy section second to none on the coast.

In days of old knights fought for ladies' favor. It seems that that custom has not been forgotten by some Maupin young men, but instead of lances they used nature's weapons, with a few stones added as good measure.

More than 20,000 sheep have come out of the mountains and are now at the home ranches adjacent to Maupin. The sheep evidently summered well, for all are fat and frisky, ready for another crop of lambs and wool in the spring.

Miss Edith Jorgensen, the most beautiful woman in Denmark, has been hired at \$20,000 a year by Earl Carroll, New York show producer. Wonder if he will cast her as a feature in a wine bath.

BOB BUTLER IS THE CHOICE

In the race for the position, made vacant by the advancement of Nick Sinnott, there is but one choice to be made as his successor, and that choice is Judge Bob Butler, nominee on the republican ticket.

Judge Butler needs no introduction to the people of this section. He has made a mark as a successful attorney, and as a jurist stands as high as any on the bench today. He is conversant with the needs of this district and will work to the end that the district is recognized and given what is justly entitled to. He is not bound by any pre-election promises, having made a campaign upon a purely personal basis.

By electing Judge Butler his constituents may confidently look for his appointment to those committees on which Congressman Sinnott served. He has been in close touch with Sinnott's activities and the record made by the retiring legislator would be added to and kept intact by the man from The Dalles. Make no mistake. Vote for Judge Butler for congress and put an able man at work for our interests.

In 1925 there were approximately 414 million chickens in the United States compared with 280 million in 1910. The egg production increased from approximately 1575 million in 1910 to 1913 million in 1925. Oregon was responsible for less than one per cent of these totals.

Every purchaser of a new Ford is entitled to Free Inspection Service for the first 1500 miles

THE modern automobile is a finely built piece of machinery and it will stand a lot of abuse. Considering the work it does, it gives surprisingly little trouble. But there isn't a car made that will not run better and longer if given proper care.

The first few hundred miles are especially important because that is when the mechanism of your car is being broken in.

Proper attention during this period will lengthen its life and prevent unnecessary trouble later on.

We are particularly interested in this matter because we believe it is our duty not only to make a good automobile, but to help the owner get the greatest possible use over the longest period of time at a minimum of trouble and expense.

With this in view, the entire Ford dealer organization has been specially trained and equipped to service the new Model A car.

Furthermore, we have instructed every Ford dealer to give the following Free

Inspection Service at 500, 1000 and 1500 miles:

- Check battery
- Check generator charging rate
- Check distributor adjustment
- Check carburetor adjustment
- Check lights
- Check brakes
- Check shock absorber adjustment
- Check tire inflation
- Check steering gear
- Change engine oil
- Lubricate chassis

No charge is made for labor or materials incidental to this service, except, of course, where repairs are necessary through accident, misuse or neglect. The only charge is for new oil.

See your Ford dealer, therefore, and get this Free Inspection of your new car at 500, 1000 and 1500 miles. Find out, too, how little it will cost to have your car given a thorough going-over at regular periods thereafter.

A checking-up by experienced mechanics, together with oiling and greasing every 500 miles, will add months and years to the life of your car and mean more economical and pleasurable motoring every mile you drive.
