**::: MAUPIN HI TIMES :::**

**Grass Valley vs Maupin**  
Last Friday the football team went to Grass Valley. The day was cold, windy and cloudy, however the grass covered field was in excellent condition. The result of the game was a 7 to 7 score. Maupin received the kick off, and returned the ball some distance. An end run by Estel Stovall, a few line plunges and the ball was over the line. Maupin smashed the line for the extra point. The touchdown was made in the first four minutes. In the second quarter the opponents tricked Maupin for a touchdown. They gained the extra point by a forward pass. The last half was a hard struggle although neither team scored.—Kenneth Snodgrass.

**Appreciation to Mrs. George McDonald**

Mrs. George McDonald sent a large bouquet of chrysanthemums to the High school last Monday noon. The flowers were white, red and yellow and were very pretty. We are glad that she has gathered these bright tokens from her many flowers for us. They take us back to the time not so long ago when she was our teacher. We remember well her pleasant smile and her help in our studies.

Our football team, eager to make a strong finish to the football season, invited the ex-football stars of Maupin to their scrimmage. Those who participated were Earl Crabtree, Raymond Crabtree, Dee Talcott, Ed-

Semmes, Laverne Fischer, Verle Bonney, Budge Greene and Arthur Morris. The workout was about equal in score. The High school played the defensive.

The Friday morning assembly enjoyed a special piano selection, "Simple Confessions," played by Irene Matthews. The new song books were distributed. Mr. Poling led in some songs new to the student body as well as some old favorites. Mr. Poling manages both music and mirth during the singing period. Merle Snodgrass has been equally active in arranging for special numbers by the students.

**High School to go to Wapinitia Game**

When Mr. De Voe asked those who would like to go to the game at Wapinitia to stand, you can be sure that no one remained seated. He then kindly asked if they would be ready for work at 8:30 in the morn-

ing to make up the time. They might have known that there was a fly in the ointment. Regardless of this fact, however, every one agreed to be on time.

The Manual Training class has been doing good work. The boys have erected a chinning bar for the grades, made a book-case for the rooms, installed soap containers, and wired the shop for lights. They are now ceiling the shop with deadening felt and fir ceiling to keep down the noise. "Bo" Wilson built a model monoplane representing the "Spirit of St. Louis" and has placed it on a pole near the grade school. Glenn Alexander built a piano bench for the grades. Ivan Donaldson and Eldin Allen are making bows from Oregon yew wood. Oregon yew is a rare wood, but they were fortunate enough to obtain some from Mr. De Voe, which he brought from the coast. The boys plan on skiing during the holidays.

Nearly all of the bookkeeping I class have completed the first practice set, and are studying the use of Special Journals. They expect to open book II sets soon, in which the transactions are recorded from bills, vouchers, and checks representing the business deals.

**Grade Notes**

The little scholars of Miss Harris' room enjoyed a Hallowe'en party Thursday afternoon. They played games, lit jack o' lanterns, which seemed real scary when the shades were lowered. The black cats and witches on the board made the atmosphere more mysterious and creepy.

Last Monday Jack Bothwell brought some good specimens of cat-tails from the marshes.

The primary rooms have been reading and studying about the Eskimos of the far north. They They draw and cut out the figures

of the Eskimos and their modes of living.

Bernice Hollis and Jean Renick play the piano for the pupils of the grade school when they march in and out of the rooms, recesses and noons.

**From Art to Chuck**

"Maupin Oregon, Nov. 7, 1928.  
"Dear Chuck:  
"The football game last Friday, which resulted in a tie, 7 to 7, between Grass Valley and Maupin was Maupin's game all the way thru. Our boys smashed thru their old and experienced line at will, and gained yardage every time. After such a clean game the boys are 'rarin' to go.  
"Toodle doo,  
"ART."

**A Sophomore Aviator's Dream**

A few years I dreamed that I was able to climb out on the wing of an airplane, or do most anything while it was flying. This dream began with me climbing into the front cockpit with a parachute strapped to my back. As I sat there in the plane I could look back and see the pilot and in front of me was the mechanic reaching up to take hold of the propeller. The mechanic pulled the propeller around three or four times, took a step backward and called "contact" to the pilot. After the pilot repeated the word and turned the switch he stepped up and gave the propeller a pull. Then he stepped back out of the way as the motor began to roar. We bipped down the field and then the ground began to drop away from us. We were soon several thousand feet in the air. I climbed out on the wing, jumped, counted five, pulled the ring to the rip cord and kept on falling. The parachute did not open. Down I plunged with a peculiar sensation as the earth came up to meet me. I met the ground and knew nothing more. I opened my eyes—and found myself on the floor beside my bed.
