Do you think about how you are standing or sitting when doing your housework? Much fatigue that is blamed on hard work is really due to faulty posture. Keep the back straight, bend from the hips rather than the shoulders, sit well back in chairs with feet squarely on the floor, and do not allow the abdomen to sag forward.

Pick Ups About Town

Oliver Resh and wife and Billy Miller spent Armistice Day in Portland. There they took in shows and otherwise enjoyed themselves. The party returned Monday night and Mrs. Resh remarked that she came home with Oliver, Billy and another hog.

Frank Creager is disconsolate these days. One day recently the Ladies Aid met at his house and the next meeting occurred some other place. Frank is wondering the why of the slight, and says that if it occurs again he will be tempted to withdraw from membership in the society.

"Shorty" Miller is one of the most ambitious young men of this place. He is kept busy catering to the wants of many in the pool room and at times assists in the cafe. One morning recently he was discovered sweeping the pool room at the early hour of 4:30 a. m., and now those who know of the occurrence are wondering how he managed to get up at that unseemingly time.

Freddie Anderson, who is becoming quite well known in Maupin, puts in his spare time fishing. He is at the piscatorial sport even during the noon hour after eating lunch, and, according to his say, catches no less than 10 big ones. Some fisherman is our Freddie.

George Morris has the right idea regarding music at the Legion dances. He says that with good music and a good floor larger crowds will attend, and such are what's wanted to keep up the post's exchequer. The night of Nov. 29 the popular Sexton orchestra will hold forth and our dancers will be given a real treat when the get on the dance floor and keep time to some of the best music ever played in Maupin.

Why We Often Say "No"

Its a matter of sound business

Often we say "no," perhaps we have to you, when a request is made to us for a loan. It isn't an easy thing to turn down our friends, but we have to do it sometimes. Here's the reason.

Positive safety for the funds intrusted to us is our first consideration. We are eager to loan our funds to business men and farmers in our territory for its our first obligation—to assist in the development of our community.

So if you wish a loan, be prepared to furnish us with information about your affairs that will satisfy us that the loan is justified. We know you appreciate our insistence on this conservative policy. We know you would want us to say "no" to questionable loans. Its a matter of sound and sensible business practice.
