CHARGING ALL TO FUTURE,
BAD HABIT

The question of taxation is out-
standing among present day prob-
lems. It is a rare community that
is without indebtedness, and to a
greater or lesser extent, a tax bur-
den.

Investigation shows that communi-
ties which have the largest bonded
indebtedness and the highest tax
rates are not usually the most pros-
perous. "Improvements" and gov-
ernment ventures which are made
without sound economic foresight
are doomed to become expensive
failures. It is easy to vote bond is-
sues. The rub comes when they
have to be paid in the tax bills.
We will have general tax reduc-
tion when communities learn the
difference between improvement
and extravagance and prefer to "pay
more as they go" instead of charging
it all to the future.

Free Christmas Trees—

Following his usual custom Oscar
Renick, manager in Maupin for the
Tum-A-Lum Lumber company, will
give away Christmas trees this sea-
son. Oscar intends to go to the
mountains on Sunday next and will
then harvest a crop of trees for the
benefit of Maupin people. Get
your order in early and avoid the
rush.

Press Manager Calls—

Harris Ellsworth, field manager
for the State Press association, was
a welcome caller at The Times shop
yesterday morning. Mr. Ellsworth
was accompanied by Alfred Powers
who holds the position of director
of the extension department at the

state university. The gentlemen
were making a circle of the territory
traversed by The Dalles-California
highway, intending to return to
Eugene via the Mackenzie pass.

Hachler-West—

Word comes to this office that
Ishom West, Juniper Flat rancher,
and Mrs. Albertine Hachler were
married at The Dalles on Tuesday.
Both are well known in this section
and are receiving the congratu-
lations of their many friends over
their recent venture.

Shipped Capons—

Art Gutzler shipped a crate of
50 caponized Rhode Island red
roosters to the Portland market
Tuesday. Art makes a specialty of
that breed of fowls and has been
rather successful in raising some
very large birds.

Married Portland Lady—

V. B. Tapp, Wapinitia Plains
rancher, was married at Portland
last Friday, his bride being a lady
from the big city. They will make
their home on the groom's ranch.
Many friends of Mr. Tapp here-
abouts congratulate him and wish
he and his bride a long and happy
married life.

**INFLUENZA IS SPREADING
OVER ENTIRE NATION**

**Epidemic is More Milder Than
That of Years 1918-19, Is the
Latest Official Report**

A special form Washington to
the various news agencies says
the United State public health ser-
vice Tuesday an influenza epidem-
ic now centered in the middle west,
is spreading eastward and may
sweep the entire nation.

Reports from 26 states compiled
then showed that 21,238 new cases
developed in the week ending De-
cember 8, and officials said this
was probably but one-fifth of the
total cases. In Kansas, 13,596 new
cases were reported officially.

Deaths so far are not numerous
and health officials, although warn-
ing the public to take precautions
against the disease, said the mor-
tality rate probably would be much
lower than in the winter of 1918-19.

For the week previous, 19,000
new cases were reported. The fol-
lowing are statistics for states
where the epidemic is most severe.
Montana, 4,580 new cases; Col-
orado, 1,936; New Mexico, 170;

Arizona, 100; Wisconsin 107; North
Dakota 194.

So far the epidemic has not been
felt seriously in the southeastern
states.

PAGE, LINE AND PARAGRAPH

See that the water for the cattle
is kept above freezing temperature.
They will not drink so much water
as they need in winter if it is ice
cold. Fattening cattle need from 5
to 10 gallons per head daily, and 2-
year-old steers should have at least
10 gallons a day.

Treat the farm horse to a visit to
the "dentist," or veterinarian, once
a year and have the long, sharp
corners of his teeth filed off. A
horse's teeth wears unevenly, and
the roughness will cause sore
tongues and cheeks, resulting in poor
mastications and digestive troubles.

An abundance of home-grown hay
is the basis for an economical dairy
ration, says the Bureau of Dairy In-
dustry of the U. S. Department of
Agriculture. Farmers' bulletin No.
1573-F, recently issued by the de-
partment under the title of "Legume
Hays for Milk Production," describes
the feeding value of legume hays to
the dairyman.

Ice is one crop that costs little or
nothing to raise. The small amount
of time, labor, and expense incur-
red in harvesting and storing natural
ice will pay big dividends next sum-
mer. Under average dairy farm
conditions about one and one-half
tons of ice per cow are needed an-
nually. This allows for shrinkage
and for household use also.

When beef cattle are to be finished
on grass with supplementary feeds,
it is better to rough them through
the winter on a ration of silage,
straw, and cottonseed or linseed
meal, or on a hay and straw or
stover ration with some protein meal
in the absence of a legume hay, and
to save the grain for summer feed-
ing on grass, states the U. S. De-
partment of Agriculture.

Now that feed grains are lower
in price than at other times of the
year, buying in quantity will result
in saving for the poultry keeper pro-
vided the feed is well stored. Grains
should be thoroughly dried before
storing and should be kept where
they will not be rained on or absorb
