LEADING IN GROCERIES & MEATS

The utilities of a city
are combined
in your motor car

YOUR automobile is something like a miniature city. There is an electric light and power system, a water system, a fuel system.

In the new Ford, you will find each of these systems of the latest design and best materials. Every part has been made to serve you faithfully and well at a minimum of trouble and expense.

Take, for example, the generator—one of the most important parts of the electrical system which supplies the current for lighting and for engine ignition.

In the new Ford, the generator is of the power-house type and is distinctive in many features. It has been specially designed to prevent most forms of trouble. Oiling is necessary only once a year. About the only thing you need do is to have the charging rate changed as the seasons change.

Closely allied to the electrical system is the ignition system. It, too, is of new mechanical design in the new Ford. There is but one high tension cable and that connects the coil with the distributor. Even cables from the distributor to the spark plugs have been eliminated. Special care has also

been taken to make the distributor water-proof, thus preventing short circuits from rain, etc.

The entire electrical and ignition systems of the new Ford are so simple in design and so carefully made that they will give you surprisingly little trouble. Yet that doesn't mean they should be neglected. Certain little attentions are needed from time to time.

The storage battery should be given water and the connections kept clean. The generator charging rate should be changed as indicated. Spark plugs should be cleaned at regular intervals. Distributor points should also be kept clean and the distributor cam given a light film of vaseline every 2000 miles.

These are just little things, but they mean a great deal to your car. You can have them looked after at very small cost by the Ford dealer when you take the car in for oiling and greasing.

A thorough checking-up at regular intervals will lengthen the life of your car and give you many thousands of miles of carefree, economical motoring.

FORD MOTOR COMPANY

Personalities:-

John Powell has hauled sawdust for his ice house.

Wayne DeJavier accompanied Elza Derthick to Portland Sunday.

Oscar Renick and wife made a business trip to The Dalles on Tuesday.

John Karlen was a registrant at the Bank hotel, The Dalles, Monday night.

Lloyd Woods and wife sat in at the Legion smoker, coming in from Wapinitia.

Wallace Fargher was an interested onlooker at the Legion smoker Saturday evening.

H. E. Wray and family are going to start picking turkeys on the 19th for Christmas market.

Don Hagel and wife with Freddie Anderson went to Portland Monday for a four-days' visit.

Raymond Crabtree and Dee Talcott have been hauling sawdust for refrigeration of buildings.

Frank and Rena Batty are busy getting their fine flock of turkeys ready for Christmas market.

Billy Hunt and sons, Billy Jr. and Clarence, came down from Criterion and took in the smoker.

Willis Norval of Tygh Valley was among those who attended the Legion smoker Saturday night.

W. B. Sloan and wife of Tygh Valley attended the funeral of Mrs. Claude Hendrix at The Dalles on Monday.

L. C. Henneghan and wife and James Chalmers and wife attended the funeral of Mrs. Claude Hendrix on Monday.

A. B. Mathews and wife were trading with Maupin merchants yesterday, coming over from their Tygh Valley ranch.

Mr. and Mrs. D. L. Rutherford and children attended the funeral of Mrs. Rutherford's sister, Mrs.

Hendrix, at the county seat Monday.

Thos. Connolly arrived from Portland Tuesday afternoon, after being on a visit to the big city since Thanksgiving.

Noel Shearer and wife and his mother, Mrs. H. I. Shearer, were in from their Three-Mile ranch a short time yesterday.

K. L. Hauser, wife and daughter, Mrs. Rose Dahl, came over from Shady Brook and took in the smoker Saturday night.

Wm. Davidson, who went to Portland last week for a short visit, returned home on Tuesday's afternoon O. W. train.

Back From Salem—

Otto Herrling, who has been visiting with relatives and friends at and near Salem for a month past, has returned home. Otto says the part visited received copious quantities of rain while he was there, therefore realizes more than ever the superiority of our own climate.

More Pork For Portland—

Bobby Davidson and Elza Drithick each took a truckload of hogs to the Portland market Sunday. Bobby was accompanied as far as Hood River by his wife, who returned with him on Monday.

Children About Recovered—

The little children of Mr. and Mrs. George Cunningham, who have been under quarantine for scarlet fever for several weeks, have about recovered from the malady and the quarantine will soon be lifted.

Mrs. Kramer Librarian—

Mrs. J. F. Kramer will act as librarian at the Maupin city library during the absence of Mrs. Frank Dyer. Mrs. Kramer has had experience in such work and Mrs. Dyer could not have chosen a better substitute.

Arm Seriously Burned—

While washing a pair of overalls in gasoline on Monday of this week, Mrs. O. P. Weberg was seriously burned when the saturated garment came in contact with a hot boiler. Mrs. Weberg had used gasoline to soften the dirt in some clothes in the boiler, and when the overalls took fire it communicated the flames to the boiler. The lady carried the burning boiler from the

Where Has Your Money Gone?

At the end of a year, do you know where your money has gone? Do you keep a careful and accurate account of expenditures? Do you operate a budget system? Handle your funds in the modern practical way? In these days of income tax returns and better business methods, most everyone has adopted some definite financial plan. It's a sensible thing to do. For not only does it give a definite record of your money matters, but it helps you make real financial progress.

One of the most important aids in a correct financial system is a checking account. It gives a definite check on expenditures. And a receipt for every bill paid. It shows your balance at any time, and helps in many ways in operating a successful budget.

Maupin State Bank

(INCORPORATED)

basement, and in so doing her left arm was burned to the elbow. I was a narrow escape from her incineration.

Mrs. DeVoe's Mother Here—

Mrs. J. T. Snyder, mother of Mr. Vere DeVoe, spent Thanksgiving holiday with her daughter in Maupin. Mrs. Snyder was met at The Dalles by Mrs. DeVoe. While here the visitor was taken ill, and last week left for her home at Spokane, where she is somewhat improved in health.

Father No Better—

A. W. DeVoe writes from Spokane that his father does not seem to be getting better. Mr. DeVoe was called to his father's bedside after Thanksgiving, and is at the side of the sick man. He did not say when he would return to Maupin.

Neat Christmas Display—

Frank Stuart is somewhat of an artist when it comes to showing original ideas about trimming for Christmas. This week he decorated the south window of the bank by erecting an imitation of a room.

This he lined with green, scattering silver stars all over the walls. At the rear is a Christmas tree and running around the bottom of that is a miniature railway, operated from a light socket. The cars bear the bank's wishes that all might have a very happy Christmas.

Health Inspector Calls—

A state inspector from the health department made a visit to Maupin on Saturday and as a result some places were told to effect a real housecleaning. The recommendation was followed and by a liberal use of soapsuds, scrubbing brushes and mops some places were rendered more healthful than before the inspector's visit.

Some Fine Pigs—

Oliver Resh recently made a purchase of some extra fine pigs, getting them from Harve Morris. He secured a whole litter, they being of a size and being as clean a bunch of hogs as ever came to Maupin.

Sandy—Electric light and power line under construction in Victory district near here.
