Wapinitia Items

The following pupils from the Primary grades have received certificates in writing: Laurel Hartman and Everett Hammer. Herbert Wall and Frances McCoy received buttons at the same time, all being in the Fourth grade. Third graders to be honored were Harvey Wall, Wallace Woodside, Winnifred McCoy. Agnes Lewis of the Second grade also received a button.

Program and Basket Social
 The Primary and Intermediate grades are sponsoring a program and basket social, to be held at the school on the evening of February 16, at 8:00 o'clock, weather conditions permitting. The main feature of the program will be a play: "Cousin Susan's Jade Earring," in two acts. The offering is a comedy and contains many ludicrous situations. The grades will be assisted by some members of the High school in the program. The purpose of the entertainment is to raise funds with which to purchase needed things, such as a piano bench and curtains to be used in the program.

Debate Season On
 The debate season is on. The local High school is represented by four strong speakers and one eloquent alternate. A great deal of study and thought has been exercised in presenting the question—"The Federal Child Labor Amendment—and we are expecting our team to creditably represent the school.
 Only two schools in Wasco county are clashing in this annual statewide debate—Wapinitia and The Dalles. By mutual agreement the debates will be held, one at Wapinitia and the other at The Dalles, on February 19. Marion O'Brien

and Robert Holman, affirmative speakers, will debate at The Dalles. Ella Powell and Marion Howard, on the negative, will debate here. Roscoe Batty is the alternate.

Short School Notes
 Robert Hollman is making his headquarters at the E. A. Hartman home during the inclement weather and bad roads.

Melvin Walters is trying to keep an open trail between his home and the school.

Wilbur Mathews walked seven miles thru the snow Tuesday morning to renew acquaintance with his fellow students and Prof. Broughton. He spent the night with Marion O'Brien.

Our school janitors have been doing double duty these past two weeks carrying in extra supplies of wood and sweeping paths. Franks says carrying water and thawing drinking fountains is the most fun.

Kecess time finds the High school and grade boys battling for possession of a snow covered basket ball. Sixteen inches of snow is being rapidly converted into a hard floor for our playing court.

Frank Hackler, Marion O'Brien and Robert Hollman helped Mr. Broughton initiate a new set of "Lindy" last week. Incidentally considerable work on the debate question was accomplished.

Prof. Broughton and wife motor-ed to Maupin last Wednesday night to meet the latter's sister, Mrs. F. E. Stangland of Madras, whose visit was occasioned by the 7th birthday of her nephew, Don. The two ladies made a short call at the school Friday afternoon.

Wapinitia's games with Maupin were called off Thursday night of last week, due to bad weather and bad roads.

Crystal Hartman and Wilton McCoy, ex-graduates, will assist in a play connected with the basket social being arranged by the elementary department of our school.

Those of our pupils who have been snowed in are back again, they being Melvin Walters, Roscoe Batty and Wilbur Mathews. The Freshmen of the High school are selecting a play to be put on in the near future.

Principal Broughton has had his troubles also, but has managed to make the trip to and from school thus far but says he will have to get wings for the Essex if the snow gets

any deeper. Roscoe Batty's tin Lizzie was towed to Brown's service station and for the past 10 days Roscoe, with the other Batty children, has had to walk, catch on, stay over night or, in extreme weather, stay at home. All the other drivers stopped driving except Ellwyn Sturgis, who, with his sister, is now staying at Delore's and driving the Chev. Mose Delore believes in auto traffic in winter. When the snow was at its worst last week he plowed the road from his place to the postoffice. Now let's hear from those farmers who have horses in other sections. The market road needs plowing badly.

Sorrow is depicted on the faces of some of our Juniors. As several of the upper classmen are preparing for the debate with The Dalles, Prof. Broughton recently suggested that the "rest of us" prepare a 2,000-word theme.

Wapinitia basketball players visited the Dufur team on Friday, January 25. Although the score was very much unbalanced in favor of Dufur, the Wapinitia players are not convinced that Dufur has the better team. The "Cyclones" only wished to show what they could do with so little practice.

WHAT'S NEW

Frank Wilson, 73-year-old blacksmith of Omaha, has invented an airplane propeller with curved ends which he believes possesses many advantages over the ordinary kind.

With twisted strands between which garments may be inserted, a new clothesline eliminates the use of clothespins.

Protected by a strong spring, a new valve for gas ranges can not be opened accidentally.

Antiseptic paper sheets for covering telephone mouthpieces is an English invention for preventing the spread of disease germs.

Operated by compressed air, a powerful new hoisting apparatus can lift 10 tons to a height of 16 feet.

Dr. Frank G. Atwood of New Haven, Conn., announces the discovery of a vaccine for the prevention of influenza.

PROVIDES PENALTY FOR SELLING TO MINORS

Senator Dunn Hits at Clubs Which Pay no License Yet Peddle Booze

(Voter Reporting Service)

Salem, Feb. 7.—"The penalties for selling intoxicating liquor to minors are so small, they merely pay the fines and go ahead as it is now," said Senator George W. Dunn, of Ashland, "and for this reason senate bill No. 27 changing such an act to a felony, punishable by imprisonment in the penitentiary has been introduced."

"They have all kinds of methods for evading the law. These kids go out to a public dance and get drunk and dance until far after 12 o'clock. As this is against the law in a public dance hall they have invented so called clubs, where they pay to much and become a member. These clubs are not required to have a license. They join one night and then forget all about it until the next time. To remedy this situation I have introduced a bill including these so-called clubs under the public dance hall license act."

Mr. Dunn reports that there has been a great deal of trouble in all counties, especially farming sections, where young boys drive to a distance from their homes and attend these dances where liquor is freely sold. Several sheriff's have asked help in competing with such situation as the organization of these clubs creates.

Change in Drivers—

Jack Ingram, who for some time past has been connected with the Spiekerman truck service a driver, has succeeded Johnny McLeod as driver of the bread truck of the Oregon bakery, making his first trip yesterday. Jack is a steady young man and will give customers of the bakery first class service.

Creighton a Grandpa—

A message from his wife, who is at the home of his daughter in Seattle, on Tuesday, conveyed the information that Arthur Creighton and wife were grandparents, a daughter having been born to their daughter that day. Arthur says the experience of being a grand dad is something new, and that he will have to get used to the appellation.

A Once-a-Week Service to Weeklies and Semi-Weeklies

This year Oregon honey is poorer in quality and less in quantity than in past years, finds the experiment station. Growers who find their honey dark and strong may get some white eastern Oregon alfalfa honey to mix with their own, making a pleasing blend. The mixing may be done while the honey is still hot after being melted out of the cans. This improves both the color and flavor.

The demand for manure in farming has increased so greatly that we now bring in goat manure by the boatload from South America. This manure is landed along the eastern coast, principally Florida, and largely goes into the making of mixed commercial fertilizer.

EXPERT SERVICE
Chevrolet
GENUINE PARTS

We have in our shop all the necessary tools for fixing the Chevrolet right. Take for example the main bearing reamer. All the main bearings are reamed in one operation to the exact size. This being the case, they must be in line. We also have our own Reboring Tools and Hone for fitting oversize pistons if the Engine becomes badly worn in use or neglect. These are only two of the special tools to be found in our modern shop. Over head track and carriage with necessary stands for motors and other parts with all necessary tools are to be found. But these tools would be of no use if we did not have men who knew how to use them. To get the men there is only one way—that is to train them. They have in Portland a complete shop and ask us at least once a year to send our men for a five day period of training. All our men except one have been through the school at least twice. They are going again on February of this year, including the man that has not been there. Our service foreman has been through the school at least three times besides other courses of one or two days each. We have not a man in our employ who has not been with us two years or more.
