

Personalities

Lewis Walters and son were in town from their Juniper Flat home today.

N. G. Hedlin has returned from a two weeks' session at the sick bed of his sister in Portland.

Laverne Fischer was a witness in circuit court in the Patrick trail on Wednesday.

Jesse Crabtree helped out in the Resh store yesterday during the absence of Oliver and Mrs. Resh.

Marcus Shearer indulged in a short visit at The Dalles yesterday, and while there took in the Patrick trail.

Mr. and Mrs. J. V. McFarlane were trading in Maupin today, they coming from the McFarlane mill at Pine Grove.

Mrs. Julius Shepflin expects to leave on tomorrow's noon train for Portland, where she will visit her daughter, Ella, and friends for a time.

Mrs. O. P. Resh and Mrs. O. J. Williams accompanied Mr. Resh to The Dalles yesterday morning. Oliver went as a witness in the Patrick case.

Mrs. F. M. Piercey and son, F. D., mother and brother of Mrs. F. D. Stuart, left for their home at Hood River yesterday morning, going down as far as The Dalles with Frank Stuart. They had been visiting her the past week.

MAUPIN MAN'S BROTHER PERISHES IN BLIZZARD

Wm. Endersby, Montana Horse Rancher, Found After All Night Search

U. S. Endersby of Juniper Flat received a message Friday afternoon which told of the finding of the frozen body of his brother, Wm. Endersby, a horse rancher, near Whitetail, Montana that morning. No particulars have been received other than contained in the message. It is supposed the unfortunate man went out after young horses and was overtaken by the storm. His body was found about five o'clock in the morning, which leads to the conjecture he had been out all night.

Mr. Endersby was 58 years of age. For some time past he has been engaged in raising horses, having had as partner his nephew Claude C. Endersby, son of the local man and brother of Mrs. Julius Shepflin. He visited here about five years ago.

The departed man leaves four brothers and one sister, they being U. S. Endersby, Juniper Flat; Lon Endersby, Foryth, Montana; Ted Endersby, Santa Cruz, California; Ran Endersby, Hillsboro, Iowa; and Mrs. Ottie Rage, also of Hillsboro, Iowa.

Antacid tablets for sour stomach, heartburn and indigestion—35 tablets for 25 cents at the Maupin Drug Store.

ATTEND TYGH VALLEY SHOW

Extra Efforts Being Made to Make It the Best Ever

Those who like the drama and also desire to give encouragement to High school pupils in their efforts to provide pleasing entertainment should attend the show at Tygh Valley this week Saturday. The play—"Be An Optimist"—is a clean comedy, filled with laughable situations and carries a plot well worth following. The school will give a

dance after the performance and the newly reorganized school orchestra will be on hand to furnish real dance music for the hop. Maupin people are especially invited to take in both show and dance.

PATRIOTIC PROGRAM AT HIGH SCHOOL AUDITORIUM

Grade School Pupils Will Display Talent on Washington's Birthday

Talent of Maupin youth will be displayed in the High school auditorium the night of February 22, at a p. m. sharp, by means of dialogues, drills, songs, and a special reference to birthdays of the month.

The ladies quartet has kindly consented to add to the interest of the evening by singing some old-time songs. The patriotic drill will be of interest. The housekeeper should sympathize with the trails of Dudley Ashton in trying to secure capable help.

As this program is given by the first six grades of the school the money will be used for them in the purchase of supplementary readers, class room pictures, art materials, etc.

You can't afford to miss it. The children like to play to a full house. Admission, 35 cents and 15 cents.

REV. MERSHON HAS CHARGE IN BLUE GRASS STATE

Has Jurisdiction Over Six Churches in Western Kentucky—Says Roads are Fearful

Rev. W. A. Mershon, erstwhile pastor of the Maupin United Brethren church, writing from Reynolds, Kentucky, tells of his work in the Blue Grass state. He says he has charge of all the U. B. churches in western Kentucky, six in number. The Mershons are living at Boling and the church there has a membership of 267. There the church maintains a large parsonage (standing on 20 acres of land. He says the principal products of his region are sorghum molasses and tobacco, also that the church land will be cultivated next season for his benefit, the members furnishing teams, seed and doing the work.

Boling is among the mountains and Rev. Mershon says the people there are the best he ever met. Everyone for miles each way belongs to the church, the sheriff of the county, the jailor, police force and a number of the teachers. All are hard on bootleggers and shiners.

Rev. Mershon says he has held four revival meetings with the result that there were 73 conversions and 13 accessions. Besides his church work our former minister is teaching school, having just received his certificate from the state.

Speaking of roads we quote the reverend gentleman: "Our roads are not as good as Oregon's. They are closed now and will remain closed until May. Pearl (his wife) and I walked to town today and waded in mud ankle deep right in the main road. Having spring weather; very warm today; birds singing like June. Lots of flu."

The Mershons made the trip from near Salem to Kentucky in their old Dodge. The preacher says he and his wife glean much news from the columns of The Times. They wish to be remembered to all old friends and hope to be able to visit all some time in the future.

Weather Gets Sheep

The recent cold snap has made inroads on some of the sheep flocks of this section. Ernest Troutman lost between 15 and 20 old sheep and the Abbotts also had their flocks diminished by the loss of old sheep. All the sheepmen of this section are feeding and some of them had hay shipped in from other places.

FLEMING BUYS LARSON RANCH

Told of in Maupin Monitor of February 22, 1912

Frank S. Fleming, the well known Bakeoven rancher, has added to his land holdings by the purchase last week of the A. B. Larsen ranch of 280 acres. The deal includes all the stock on the place, but the consideration is not given. The Larsen ranch lies one mile east of the present Fleming ranch. Mr. Larsen, who has lived in this country a number of years, expects to spend a few weeks at Shipard's spring, after which he will go to Southern Oregon and do prospecting in the mountains.

McFarlanes Have Boy

Word was recently received at Pine Grove which conveyed the information that Mrs. George McFarlane, who is at the home of her sister-in-law at Banks, had given birth to a little son, the newcomer making his advent on Sunday, February 10.

Came After Team

Fred Bischof of the county seat came over last Thursday and when he went home took the team left here by Elder Patterson with him. Mr. Patterson, it will be remembered, was the old man who suffered so severely from frost bite on Criterion hill a couple of weeks ago while on his way to The Dalles from Redmond.

Superintendent Visits Maupin

Rev. Pontius, superintendent of this district for the U. B. church, made his first visit to this part of last Saturday, remaining over Sunday and preaching here that evening.

Shows No Improvement

Mrs. Wm. Beckwith, who recently returned from a Dalles hospital, shows no improvement. Her ailment seems to be firmly seated and medical attention of no help.

Pick Ups About Town

Ernest Kramer is not in love with the present cold weather, especially when called upon to journey miles into the country for the purpose of towing froken cars to town. Saturday night Ernest was ready to hit the hay when a call came from beyond Criterion. He warmed up the Ford truck and went to the source of the call. There he found a car in the ditch, and straightened it out. Upon returning he was called to the Flat, where he found Roy Ward's car had succumbed to the weather. It was towed to town and then Ernest called it a day and went to bed.

The recent cold weather has not been beneficial to sheep on the open range. Ernest Troutman has lost some 20 old ones, and the Abbotts have also suffered the loss of some old stand-bys from their flocks. Sheep will not thrive on snow, neither does their woolly coats always prove a protection against severe cold.

The Maupin garage is proving a good hang out for the young fellows of the town. Orville Fraley is a good fireman and besides furnishes cards and lap-boards so his companions may enjoy an occasional game of pounce. It keeps the boys out of mischief and proves a means of enjoyment they otherwise might not have a chance to indulge in.

While on his trip to the southland Floyd Richmond worked his camera overtime. He secured some beautiful views of various places, all of which he has mounted in a book. Among the pictures taken are a few of the huge log which nearly proved his executioner; pictures he will keep for many years and recall the narrow escape he had from death in the big Pacific ocean.

A stool pigeon is the lowest specimen of humanity existing on this old earth. He is without conscience, morals or sense of right. He works upon his friends as does a pestilence and accepts remuneration for his acts with no more compunction than has a hawk when it pounces upon a sparrow. Several of that ilk have polluted the air of Maupin recently and have left a trail of stench after them that is hard to pass through.

The recent visit of superintendent Pontius to the local U. B. church discloses a condition that does not speak any too well for the town as a christian center. The local pastor supplies two punts and is supposed to be paid something on his salary by both. The recent meeting developed the fact that the pastor

had a pretty large chunk of his salary due. He has a family to provide for, must buy gas and oil for his car, keep it in repair, meet doctor's bills and pay rent. This he cannot do unless he is paid. It seems to us that the people of Maupin should interest themselves in the matter and make some move tending to ameliorate the condition existing in the church.

What appeals stronger to the taste than a good huckleberry pie? That piece of culinary product occupies a niche all by itself, and is not lorded over by any other fruit buried between two flaky crusts. Nick Karolus has several cases of fine berries, picked and put up in the mountains. They are sweet and juicy and may be had of Nick at a comparatively low price. See him if your palate desires something out of the ordinary.

ELEVEN YEARS AGO

From The Times February 15, 1918

K. L. Hauser and E. Fitzpatrick sold their sheep to Hauser & Dahl, who in turn sold them to Ed. Mays, receiving a price of \$18.00 a head. They are being delivered to the Mays Bakeoven ranch this week.

Virgil Mayfield and Miss Alta Richardson of Pine Grove were married at The Dalles yesterday, February 14. Ben Richardson, father of the bride, accompanied the couple to The Dalles and gave his daughter to the groom.

Dr. Elwood received a call, from headquarters, to present himself for military duty and left for his post early Sunday morning. A farewell party was held in his honor at Shattuck's hall Saturday night, being attended by nearly every Maupinite, who wished him God speed and safety in his work among the soldiers in France.

The dog poisoner it at work in Maupin and has succeeded in killing dogs belonging to Will Ray, W. H. Williams, Ira Flynn and E. J. Styer. The dogs belonging to Dr. Elwood, W. C. Vanderpool and A. Martin also were poisoned by recovered from the effects.

The local Red Cross ladies made their first shipment of finished articles this week, the shipment consisting of one sweater, eight dozen pillow slips and eight dozen and eleven towels.

Maupin State Bank (INCORPORATED)

This bank is a home product in that it is financed by home capital, officered by home men and does business chiefly with home people. Our services are at your disposal; use them freely.

Maupin State Bank (INCORPORATED)

some work to go with the appropriation. Ora Maynard of Wapinitia has had a force of men at work blasting out a big hole to be used as a cistern. At present the hole is 25 feet deep and 26 feet in circumference. It will be ready for cement in a few days and when completed will be filled with water to be used in irrigating a garden.
