"RED LIPS" BILL FOR SUNDAY NIGHT NEXT

College Play That Shows Speedy School Life of Today—Chas. Rogers in Lead

The college play, "Red Lips," will be the attraction offered by Manager Miller on next Sunday night. The story tells of life at college as it is today and is a rollicking drama, full of fire and pathos, mixed with comedy appealing to all.

The tendency of girls and boys of today to vie with each other in the pursuit of pleasure is touched upon with accurate psychology in "Red Lips." Universal picture of ultra-modern college youth with Charles Rogers and Marian Nixon in the starring roles.

The picture presents the contrast of a youth of unusually high ideals who falls in love with a girl whose philosophy of life is of the most extremely modern type. They are both of college age, the susceptible period, and the girl's love of pleasure exerts a marked influence on her companion. Cynthia and Buddy are saved from themselves when the boy's room-mate takes a hand.

Youth has been depicted on the screen with real truth in "Red Lips" according to critics. Director Melville Brown has set the glamorous side of college and university life before screen audiences with sincere understanding.

"Red Lips" is from a story by Percy Marks, author of "The Plastic Age," sensational college-life novel of last season.

The next show will be on September 8, at which time "The Shake-down" will be the bill.

Catons at Enterprise—

After looking around for a location A. E. Caton and wife have finally settled at Enterprise, where they are conducting the Hotel Gotter. Mr. Caton writes The Times that his wife and he crave the paper and asked that it be sent to him there. He also says that fishing at Enterprise is good, some nice catches of big trout having been made in both lakes and rivers.

Under Surgeon's Knife—

Ernest Confer took his little son, Merle, to The Dalles on Sunday, and with him was Frank Dyer and wife and Mrs. Geo. Cunningham and children, Leo and Eleanor. While at the county seat the two boys were relieved of bothering tonsils and Mrs. Dyer cautioned about his diet.

Boy's Foot Injured—

While riding horseback on his father's ranch last Monday the son of Don Stogsdill had his right foot badly cut by the horse rubbing against a post. The lad was brought to Maupin and Dr. Elwood took six stitches to close the wound, which was in triangular shape and open to the bone.

Has Blood Poisoning—

While in the mountains recently Mrs. George Cunningham was so unfortunate as to suffer a number of burns from flying grease, some of the drops striking her on the arms and face. The worst burn occurred

on one foot. She applied local treatment to the burn, but since then the scar has refused to heal with the result that infection now affects the member. Mrs. Cunningham suffers much pain from the wound, which seems to be spreading all over her foot.

Dee Woodside Back—

Dee Woodside, who has been on the grand western racing circuit for the past several months, has returned to his home on Juniper Flat. Dee disposed of nearly all his racing horses, bringing home with him but the Mays mare and one other galloper. He will begin fitting some of his colts, now in pasture at the ranch, for the coming races at the county fair.

Nursing Aching Jaws—

Lester Kelly is in anything but a pleasant frame of mind these days. He recently had several teeth extracted and the consequent inflammation and accompanying pain, greatly upsets his otherwise pleasant demeanor.

"Phenix Flyer" Here—

The much heralded "Phenix Flyer" a new Ford stock car which is making a circuit from Phenix, Arizona, was in Maupin several hours on Tuesday. The drivers of the car took pains to explain the wonderful accomplishment of the car while on the trip. They claim the car is making 23 1/2 miles to the gallon of gas and that it has worked in perfect manner since starting out.

Will Make Circuit—

After the races are run at the coming fair Wallace Conley will take his string of horses to Moro for the fair at the place. Then he will go to Condon, Goldendale and after that meet will go to the Valley, appearing at Gresham for the races at Multnomah county fair. Wallace has some new horses and has been fitting them on the Tygh Valley track until they are now in the best possible condition.

Little Girl Convalescing—

Little Patsy Fraley, who has been under the doctor's care the past 14 days will be released from quarantine today. She had a mild attack of smallpox and has stood confinement like a little martyr.

Twins Registering—

Labor Day at Albany will be the time when twins of this state will gather in competition. Many entries have so far been made 160 pairs already having registered. Among them will be twin brothers, W. W. and W. R. Miller, coming from Curry county, who were born in Marion county before Oregon was admitted into the Union.

Lost Some Cuticle—

Kelly Cyr is limping with a flat wheel these days. While watching a couple of pheasants near the slaughter house Monday evening Kelly inadvertently stepped through a hole in a walk, badly scraping his right leg and tearing his pants beyond repair.

Will Show Foxes—

W. H. Williams is preparing a pair of young foxes for exposition at the coming fair. Bill has groomed the fur bearers until their coats shine like a nigger's heel and by showing them at the fair will do a stroke of advertising that may aid the fox growing business considerably.

Boy Scouts Will Exhibit—

Maupin troop of Boy Scouts will make a general exhibit of fruit, vegetables, grains and grasses at the next week's county fair. The scouts have been indefatigable in preparing their exhibits and by making such at the coming fair will mark a new feature in youthful showings.

Old Settler Dies—

Milton Wing, one of the oldest settlers of the Wamic section, died at his home near that place Tuesday afternoon. Mr. Wing had been ill for some time, he suffering from the infirmities of old age, and his death was not unexpected. Funeral was held at Wamic today with interment in the Wamic cemetery.

Attended Stockholders' Meeting—

L. C. Wilhelm went to The Dalles this morning and there will attend a meeting of the stockholders of the Clarno Basin Oil company. The company is progressing in drilling a well at Clarno, and the prospects of striking oil appear to brighten as the drill goes down.

Scouts To Ollalie—

Maupin's troop of Boy Scouts will go to Ollalie lake Saturday and spend the night there on an outing. They will be taken to the lake by volunteer truckmen, and will be accompanied by several non-members of the troop.

LaLasine, the famous French anti-septic—good for all purposes. Thirty-five cents at the Maupin Drug Store.

NEW MOTOR LAW BOOK JUST OFF THE PRESS

Contains Information of Interest to All Auto Owners, Drivers and Motorists Generally

Secretary of State, Hal Hoss, has sent The Times a copy of the 1929-1930 compilation of the motor vehicle laws, which has just come off the press.

The volume contains not only the laws which are in effect at this time, but also those which become operative the first of next year. This is especially applicable to the schedule of fees for the period commencing January 1, 1930. In fact the booklet contains all information regarding motor vehicle laws enacted by the state legislature, taking each subject in order.

A table of weights and license fees contained in the front of the booklet, this of itself being invaluable reference to auto owners and payers of licenses.

Copies of the book may be had by addressing Mr. Hoss at Salem.

BE CAREFUL WHEN DRIVING

Safe Handling of Autos Reduces Appalling Casualty List

Motor Commissioner R. B. Stoeckel of Connecticut believes that constant education of drivers in safe practices will be the greatest factor in reducing the appalling casualty list from automobile accidents.

He holds that no person can be a good driver unless "he thinks about his driving every moment that he is out." He must regard every one he meets on the road as a "potential trouble maker." Calmness in driving he holds to be more important than "perfect ability to handle the wheel."

PREPARING ALFALFA SEED

Poor Stands Attributed to Faulty Preparation of Soil

Many failures of alfalfa stands are due to a poorly prepared seedbed. The ideal seedbed is a well-settled subsurface with a fine surface that is loose to a depth of two inches. The best plan is to plow in the fall, disk in the spring, and harrow occasionally to keep down weeds until sowing time. Where the land has not been plowed in the fall, it should be broken several weeks before sowing, and the soil disked and harrowed frequently to settle the bed. A "cultipacker" is of help in getting the soil into condition. For late-summer or early-fall sowing land that has been in such crops as early potatoes, peas, or sweet corn can be prepared by removing the vines or stalks and harrowing. In general, sod land is not recommended for alfalfa, but where it seems advisable for some reason to put the alfalfa on clover sod, the land should be plowed as soon as the crop is removed and thoroughly disked and harrowed to make a firm, fine seedbed.

FARM REMINDERS

Ladino clover pasture on Wapato silty clay loam soil is being irrigated with a gravity ditch by the strip border method and giving very large returns on the experiment station farm. A carrying capacity of over three cows to an acre is reported. The pasture is divided into three

lots of four acres each for rotation grazing.

An abundance of clean, cool water is important for the poultry flock during hot weather, says the Oregon experiment station.

If plenty of range is available for the growing pullets, both the grain and mash can be fed in hoppers without danger of over-feeding.

Reduced ROUND TRIP FARES

Now In Effect via

OREGON TRUNK RY. MAUPIN
