NUMBER 7

### MUCH INTEREST SHOWN

#### IN DIPHTHERIA CLINIC

Last Thursday evening at 8:00 o'clock, Miss Lord, county health nurse, held a meeting at the gymnasium which was well attended by both people from the town and surrounding communities. The purpose of the meeting was to explain to parents the use of Diphtheria Toxin Anti-Toxin as a preventive of diphtheria. A modern preventive has been found whereby the germ is not permitted to live within the human body. Miss Lord states that the universal use of Toxin Anti-Toxin serum would eliminate diphtheria from the world. Ninety per cent who take this are absolutely immune for life after from three to six months. As the old saying goes, "An ounce of prevention is worth a pound of cure." The cost of diphtheria is all out of proportion to the cost of prevention. Often the senses are impaired; of ten death results.

### CUBS SURPRESS CYCLONES

The Wapinitia "Cyclones" hit Maupin Friday, October 18, but had lost all their force as they were defeated 12-0 by the Cubs.

The first score was made with a pass from Elton to Glenn. The next was made after a series of line bucks by Bill making the total score for the day.

In the first quarter a tick down was made by Maupin on a pass. The second quarter was a hard fought battle with neither side scoring. After a rest at the half, another score was made by Maupin with an end run and line bucks. The last quarter was slower and no scores were made.

The team as a whole is improving with each game. The line is now stopping them better than in the earlier games.

Football strategy consisted of an unbalanced line and a new formation in the backfield which worked well. The officials, Bob and Art Sanders were fair in every respect.

The net receipts amounted to \$19.95, after the officials had been paid.

The Maupin Hi girls put color and pep into the game with their yells and formations.

### GIRL SCOUTS ORGANIZE

Last Wednesday afternoon mothers and girls met at the Legion hall for the purpose of learning about Girl Scout work. The purpose and outline of the work was given by Mrs. Carr of the Primary department.

A very happy hour was spent by all singing and playing games. Mrs. Miller was accompanist for the songs.

The result of the meeting was that twenty girls were enrolled as Girl Scouts.

The second meeting will be held in the Legion hall Wednesday, October 23, at four o'clock.

One project has already been launched for the purpose of raising money to carry on the work.

The Girl Scout organization has aroused much enthusiasm among the girls and it is hoped that all will enjoy the new work.

Those who are charter members are: Bernice Hollis, Jean Renick, Margaret Appling, Bethel Snodgrass, Irene Woodcock, Francis Lindley, Myrtle Kramer, Betty Slusher, Nina Chastain, Lena Turner, Alene Wilson, Dorothy Doty, Dorothy Greene, Kathleen Foley.

At the assembly last Tuesday morning prizes were awarded to the first class salesmen of the Curtis Publishing company campaign.

Prizes were received by all who made three sales or more. They consisted of fountain pens, eversharp pencils, a key and card case, and a notebook.

The selling of the magazines was good practice in salesmanship and also increased the Student Body treasury a considerable amount.

Those who received prizes were: Gladys Martin, Nina Mathews, Mabel Weberg, Mary Greene, Lelah Weberg, Elton Snodgrass, Elden Allen, and Alta Chastain.

Mrs. Stodgill, Mrs. Mayhew and Mrs. Chastain were visitors here last week.

### SCHOOL RENEWS MAGAZINES

The Maupin Public School takes many current papers and magazines, which are read with much interest by all classes. The Literary Digests are available to all students of the High. The Scientific American is of great importance to the General Science and Physics classes. The Fashion magazines cause many a sigh and wish for new dresses in the sewing class. The Maupin Times is a paper that is read by all the students, since it represents home interests. The Oregon Emerald of the University and the Oregon State Barometer are of great interest to the football boys. The High school also takes the New Republic and the Current History. The First, Second, Third and Fourth grades are interested in My Weekly Reader. The St. Nicholas magazines are cherished by the Fifth and Sixth grades. The Seventh and Eighth grade boys are inclined towards adventure and read the American Boy with appreciation.

Every student in school is encouraged to read more about topics of the day.

### ACTIVITIES IN GRADES

#### Seventh and Eighth Grades

Twenty-five books from the Wasco county library have been rechecked in this room. Much interest is shown but lessons cannot be neglected, so the books must be read outside of school time.

The magazines that were subscribed from the school board for the different grades are beginning to arrive. Several issues of the American Boy have already come. This magazine is received by the Seventh and Eighth grades.

#### Fifth and Sixth Grades

The children of the Fifth and Sixth grades who did not see the football game Friday decorated the windows of the school room with cats, bats and owls for Halloween. After this was completed they cleaned the blackboards.

Our bulletin board has come realistic pumpkins and vegetables of crepe paper, which were brought by Geraldine Peters.

The first copy of the Weekly Reader which the school board provided for this room, has duly arrived and is going to prove an interesting and instructive paper for these grades.

Margaret, Allene and Floyd are reading stories from St. Nicholas, which they report as being excellent.

#### Third and Fourth Grades

The plant which the janitor put up in the Third and Fourth grade is called Wandering Jew.

The Fourth grade geography class are making land forms of different countries on the sand table.

Alma Fraley was absent today on account of sickness.

The Third and Fourth grade room is now decorated for Halloween.

#### First and Second Grades

Cheri Pratt and Veril Confer are desk inspectors this week.

The policemen are Gar Mayhew.

In art the pupils have been working with water colors, paints and making apples, oranges and pears.

Den Stodgill was absent from school this Monday on account of a very bad cold.

In the Primary room the pupils have started practicing for their Christmas program.

### LIGHT'S GOLDEN JUBILEE

This week the world is celebrating the fiftieth anniversary of the invention of the incandescent lamp. Henry Ford has moved Edison's original Menlo Park laboratory to Dearborn, Michigan, and on the twenty-first of October Mr. Edison re-enacted the invention of the incandescent lamp.

It is believed that this invention has done more for the world than any other invention. It has revolutionized industry and has brought about great advances in our civilization.

Although Edison is one of the world's busiest men, he finds time for the advancement of youth. His career should be an inspiration to all boys and girls.

The Maupin Hi Times invites its readers to take note of the celebration for this great work.

### ELABORATE SETTING FOR MINSTREL PRODUCTION

"What you-all cogittatin', Niggah?" "Oh, Ah aint a cogittatin' nuffin!" "Then Ah reckon I'll have to loppogize for ma igernis."

The press agent for the Mysterious Melancholy Minstrels of Maupin is determined that nobody will have to "loppogize" for their ignorance of the date of the Minstrel show, to be presented November 26th.

The troop of performers will rest in the shade of silver palms. A background of gay color combined with a plantation air will form the setting for the show.

Skits are being practiced, among which are the dialogue of six performers, "Adam Love Apple," a story of love in the twenty-first century; "Airport Airs," a coon quartette number, and "His Sister's Best Man." Nothing better could be hoped for in the line of amusement than "Loppear" Crabtree and "Mudheel" Rutherford when they give the "come hither" on the night of November 26.

### MAUPIN HI FINANCES

The Maupin Hi Student Body, re-Richardson Crabtree, treasurer of sports that receipts thus far have been larger than the disbursements by a margin of \$6.80. The largest profit on a single item has been the profit from the Curtis Publishing Co. campaign, \$22.61. Next in line is the Wapinitia game with a profit of \$18.95. The settlement has not yet been made with Tygh Valley school for the game there, and the bills are still out for the refreshments at the Frosh party.

Madrax Game—	Receipts, by guarantee	\$20.00
	Deficit	.45
		\$20.45

**THE editor of The Maupin Times does not want to be considered a Petroleum V. Nasby or to emulate Josh Billings, although some of our readers may incline to that idea after reading this week's paper. Our linotype motor got its back up, stripped a pinion and bucked all over the shop. As a result we could not correct proofs, having had to run our news matter in the raw. Better next week.**

### VENISON STEAK

Fat, juicy venison steaks, savoring of the fresh green pastures of the wild! Rick dark meat that surpasses all other! The hunter goes long distances into the mountains for this rare treat. It is not the flesh of the deer that lures him into the hills, but the desire to be in the open and to pursue the game in the fairest time of the year. In the autumn, a time of cold clear nights and warm bright

days, he goes from camp into the hills at the break of day to return often after nightfall. It is not the venison steak for which he longs, oh, no! It is the wild and beautiful scenery in the alluring mountains. But when he returns to camp dragging a two-hundred and twenty-pound buck, Oh Boy! how wonderful is that fat, juicy venison steak.

### COURT OF HONOR HELD ON TUESDAY

Scout Executive Belcher and Local Scout Officials Enjoy Camp Pictures

Troop No. 33, Boy Scouts of America, enjoyed a court of honor at the Legion hall on Tuesday evening, at which Scout Executive Belcher was the leading figure. As a side attraction Mr. Belcher showed several reels of pictures taken at Summer Lake, where the Scouts foregathered for a summer outing. The pictures depicted Scout activities at the lake.

An examination of merits of the Scouts resulted in Harry Rutherford, Ivan Donaldson, Edmund Wilson, Melvin Lindley, Delbert Alexander, Bonny Duss, Ralph Kai er, Eldon Allen passing and receiving medals representing them as Scouts of the first class.

Albert St. Dennis was admitted as a Tenderfoot and was given a badge of that rank. Scout Master Stovall imparted instructions to the initiate and conferred the badge.

At the Court of Honor Carl Pratt officiated as judge and W. H. Staats, foreman and Raymond Crabtree, Earl Crabtree, Dr. Short, D. L. Rutherford, Frank Turner, Wm. Fulker and R. E. Wilson as jurors.

Each Scout received from one to five merit badges in personal health, agriculture, leather craft, gardening, firemanship, pathfinding, horsemanship and poultry keeping.

Executive Belcher propounded the quizzes in the first class tests and at their conclusion presented those passing with the badges. Mr. Belcher was accompanied to Maupin by

### TELEPHONE CREW NUMBERS THIRTY-FOUR WORKERS

Digging Holes and Will be Followed By Crew to Put Up Poles

The crew that is preparing for the erection of poles on the long distance telephone line between The Dalles and the California line, numbers 34 men, including the foreman and clerk. Most of the men are housed in Maupin proper, although several occupy cabins at the two camp grounds and at the East side hotel. The personnel of the crew is: J. T. Ensign, foreman; Roy Thurston, clerk; Martin H. Johnston, Joe Dodge, Robert Tapp, S. W. Randles, George Dams, W. A. Shuey, W. A. Roberts, Bob Thompson, James Appling, Alfred Mikklesen, R. Mortenson, Walter Hickok, Wm. Luthy, Wilbert Manning, Tod Robinson, Henry Rover, Frank Wright, James Webster, C. Wineland, Ernest Patrick, Frank Arnold, Felix Kirsch, Peter Kirsch, Hollis C. Gove, Clinton Shoney, Ben Howard, Roy A. Pummill, Byron Corwin, Jack Disney, Tom Leach and Roger Sanford.

### HAS DOUBLE BIRTHDAY PARTY

Peterson Children Celebrate Natal Days Last Saturday

Margaret and Bob Peterson, children of Mr. and Mrs. J. H. Peterson, Sherars, celebrated their birthdays by a party at the parental home last Saturday by inviting a number of their little friends in for a good time. Their birthdays come but one day apart. A fine dinner was served by Mr. Peterson, after which games were played. The favors consisted of comical little animals, being formed out of gum drops. Prizes were given and later a group picture of the hosts and guests was taken. Mrs. Lucile Cantrel and little daughter attended and were guests at the Peterson home until Sunday forenoon.

### KENTUCKY HITCH-HIKERS MADE HOME QUICKLY

Accomplish 2,300-Mile Trip in Same Time as Coming Here; Both Now in College

Ester Davis and Max McDonald, the two Kentucky boys who hitch-hiked from Barbourville, that state, last spring in 14 days, arrived home October 6, having made the trip in about the same time it took them to come west.

The boys left Maupin September 19, intending to go by way of the southern route. They changed their itinerary and went by way of Denver. From that city they caught a ride clear into Kansas City, a distance of better than 800 miles. They went to St. Louis and from there to Lexington, Kentucky, where they visited a few days with Max's father, then on to Barbourville.

Both boys are attending Union college, Ester being particularly active in athletics. He is a member of the college football team, also playing on the baseball team and listing in most other college events.

They say they want to come back next summer, and knowing the pulling power of his part of the country we do not hesitate to say that both will be here for harvest next season.

### BOB LEWIS GIVEN BIG HONOR

Chosen Beaver Knight of Hesperian Club

Oregon State College, Corvallis, Oct. 24.—Robert Lewis of Wamic, Oregon, was chosen the Freshman Beaver Knight of the Hesperian club, a social organization of non-fraternity men on the campus of Oregon State college. Each social organization has at least one member of the Beaver Knights, which is an organization for the purpose of instilling campus traditions and college spirit into entering Freshmen. Lewis is a forestry student.

### Served Many Dinners—

That the Sunday dinners at the Maupin cafe are attracting many of our people was shown last Sunday when over 75 partook of chicken there. With superlative service, viands cooked just right and a sufficiency served the wonder is that more patrons of the Maupin do not take advantage of the dinners offered on Sundays.

### CARNIVAL AND DANCE ON LEGION SCHEDULE

Old Time Doings and Plenty of Money on Hand to Tempt Dame Chance's Games

Once each year the Maupin Legion post essay: a real carnival and dance. This year the event will occur on Saturday, November 2, and arrangements promise something out of the ordinary. Games of chance, hot dog stands, red lemonade and western hilarity and a jitney dance will include a few of the features of the evening.

"Seck's Columbian" will on hand and when that orchestra is billed all know that only the best in dance music will be purveyed. Seck has had his wind lammers and drum twisters rehearsing new stuff and when the floor is cleared for the dance the inspiration will be such that the most sedate "dogs" will incline toward the floor. Remember the date and attend the carnival.

### SUPER PICTURE AT HALL NEXT SUNDAY NIGHT

"Foreign Legion," Best Story of Screen, Next Attraction; Many in Cast

"Beau Geste," a story of the war in Egypt, called forth vast audiences wherever shown. It was a story of thrills and complex situations with a vien of love permeating all through. Now comes a picture that far exceeds "Beau Geste" as a thriller—"The Foreign Legion"—a story of the burning sands of the desert, a story of sex, strife, soldiers, passion. Sex—unrestrained 'neath the burning tropic sun. Soldiers—the daredevil of the Legion, in most realistic presentation of their life on the desert sands, ever screened. Strife—between father and son, between sister and sister. Passion—mad passion of the flesh, sublime passion of pure love, a conflict that has endured since the beginning of time.

Norman Kerry, Lewis Stone, Mary Nolan and June Marlowe are in the leads with hundreds of others making up the cast.

### Home From Mitchell—

W. L. Gage, owner of the old Bonney place on Tygh creek, returned on Tuesday from a combined business and hunting trip to the Mitchell country. Mr. Gage did not succeed in getting a deer but done some worth-while business while away. He was in from the ranch yesterday.

### Sale Going Over Bib—

The special stock reducing sale now being conducted at the Shattuck store is drawing customers from all sections. Last Saturday the store was crowded with buyers, the sales being within a few dollars of those made at the clearance sale of a year ago. All line are included in the sale and some good bargains are offered. Prices have been reduced to a minimum and purchasers are saving money on each article they buy. The sale will continue all next week, closing on Saturday, October 31. Many new items have been added, they being late arrivals.

### Done to Ranch Home—

Hurstel Hollis and wife left today for their stock ranch up the river. Hurstel has been directing work with the John Karlen sheep on the ranch for some time but will now go into the sheep business for himself.

### Burned His Arm—

Bill Schilling was so unfortunate as to badly burn his left forearm yesterday. He was making a weld and the torch slipped, bringing the flame across the back of the member and inflicting a big burn. Bill is now going around with his arm done up in a package of dressing.

### DR. CLARKE COMING

Will Be at Home Hotel Tuesday October 29—See Him

Dr. Clarke of the Clarke Optical company, 326 1/2 Washington street, corner Sixth, Portland, Oregon, will be at the Home Hotel in Maupin all day and evening of Tuesday, October 29. SEE HIM ABOUT YOUR EYES.

Johnston's Town and County fancy boxed chocolates, \$1.00, \$1.50 a box at the Maupin Drug
