

FREE PROGRAM

at American Legion Hall, on

Saturday Night, Dec. 28

GIVEN BY

Legion Auxiliary

and consisting of

A ONE-ACT COMEDY

AND OTHER NUMBERS

and Drawing for the

HOPE CHEST

A pleasant evening is in store for those who attend this entertainment, and as it costs nothing why not turn out and give the Auxiliary a full house.

Never use soda on aluminum ware. Steel wool or fine scouring powder is the best to use on aluminum.

Flavor a few glasses of your apple jelly with mint extract and color with green vegetable coloring. The jelly will be enjoyed with lamb.

Pruning the heavy side of a wind blown tree drafts that side but does not materially help the light side of the tree, says the Oregon Experiment station. Under these conditions the topsided tree is usually the more profitable tree.

Bad flavored milk commonly occurs during the winter when cows have been receiving dry feed or have been on dried up pasture for some time. While there is no certain remedy for this, some good often results from a sudden change of feed. Otherwise the condition will probably continue until the grass comes in the spring.

Cod liver oil added to the mash or grain at the rate of one pint for each hundred pounds will often prevent or cure lameness of laying hens caused by insufficient sunshine, suggests the Oregon experiment station. There is no known remedy for lameness due to paralysis, however, and it is best to dispose of birds so affected, as they seldom recover. If the condition is due to lack of sunshine the birds often appear to recover in a few hours or a few days.

The over-wintering form of the pear and cherry slug is in the soil. Control of often greatly aided in Oregon by thorough cultivation in the fall and spring which destroys many of the hibernating forms, says the experiment station.

Unwrap meat as soon as it is delivered, and place on a clean plate in the coldest part of the refrigerator. A piece of parchment paper may be loosely laid across the top of the meat but not wrapped around it.

Oregon City—Four and one-half mile section of paving south of here opened for travel.

HOME POINTERS

Salad greens can be kept fresh and crisp if washed and wrapped in damp paper, or shut in air-tight containers and kept in a cool place.

Cabbage has more food value and is more easily digested when eaten raw than when cooked.

Peanuts, botanically speaking, are not nuts at all, but lemons, and a member of the same family as beans and peas.

Junket is easily made and provides a pleasing method of adding milk to the diet.

Mayonnaise becomes thin and watery if placed on the salad too long before serving, as the vinegar or other acid draws the water out of the materials in the salad. This also causes the greens to lose their crispness.

WERNMARK SHOE STORE

Shoes and Repairing

Wasco County's Exclusive Shoe Store

Shoes for the Whole Family General Repairing The Dalles, Ore.

PRE-INVENTORY SALE

2 for 1

Women's Shoes in Pumps, Straps Spike and Cuban Heels

4 Rounds, 135 pounds

Maupin's pride, Floyd Holloman will again try conclusions with Jimmy Larson, who got the decision over the Maupin lad at the last Dalles smoker.

Neighborhood School Notes

Wapinitia

CHRISTMAS HOLIDAYS

The Christmas holidays began on Tuesday December 24, and will last until Monday of the coming week, December 30. We will have school Monday, Tuesday and Wednesday, New Years Day will also be a holiday.

Basketball

The basketball team turned out for a work-out in the Lewis hall last Friday. Everyone was on his toes and ready to go. Although the hall is small we are getting some good practice, which we hope will prove valuable in the near future.

Christmas Program

The Christmas program will be Monday night, December 23, at the Wapinitia High school. The program will consist of songs, recitations and dialogues. After the program Santa Claus will give out Christmas candy and presents.

Primary and Intermediate rooms are Decorated

School was dismissed last Friday afternoon, the purpose being to erect a stage for the Christmas program. With the aid of a team and hobsled the lumber was quickly secured from Mr. Graham's place. The stage was quickly, but not quietly, erected. Frank Hachler was appointed as manager of the construction job.

SCHOOL NOTES

The Higher Arithmetic class is coming along fine. They have finished "Measurements of lumber and timber" and are now on "Measurements of Volumes."
Since the snow and the bad weather quite a few of the High school students are absent.

Grade Notes

Last Monday afternoon a Christmas party was held in the Primary room. Sometime ago the students drew names and at the party presents were distributed.

The Primary room is now decorated with the Christmas tree and other decorations.

The monitors in the Primary room are:

Chairman, Vern Hachler; Pencil Monitor, John Lewis; Desk Monitor, Vivien McCoy; Paper Monitor, Rose Hartman; Library Monitor, Chloe Holloman.

Wapinitia Jottings

Wapinitia Flat had a fall of snow which was about a foot in depth.

"Buck" Hachler rode an unbroken colt last Sunday while visiting his sister, Mrs. Lena McCoy.

Marion Howard is suffering with a felon on his thumb.

The community was sorry to hear of the death of Mrs. J. S. Brown. Many friends attended the funeral services held at the Wapinitia church Sunday morning.

Frank Heckman and Arnold Gosnell made a trip to Maupin Saturday.

Albert Hachler was in Wapinitia a short time Saturday afternoon.

All of the teachers left Monday night after the program to spend the holidays at their respective homes.

Melvin Walters has been obliged to "hoof" it to school, as the snow has become too deep to come in his old Ford.

Lyle Endersby visited with Kenneth Endersby over Saturday.

S. E. and U. S. Endersby attended a water holders' meeting at Wamic Saturday last.

Ruth Walters spent Monday evening with Helen Endersby.

Alva Hammer is visiting with his father, Burt Hammer.

Mrs. Glennie Middleton is visiting with Mrs. Sam Wall.

Let us have your magazine subscriptions. Will give you the best price possible. The Maupin Drug Store.

Holly berries are borne only on the pistillate or female trees.

Mololla—Construction of extension of P. E. P. power and light line south of here to start at once.

When making bread, if the cans are not filled too full a lighter product will result.

"INSIDE" INFORMATION

Thousand Island dressing is a mayonnaise dressing with finely chopped materials added—as many as you like, chosen from the following, according to what you have on hand: Pickle, olive, radishes, hard-cooked eggs, hard cheese, celery, green peppers, pimientos, capers, onion. It is excellent on plain lettuce and other salads.

Did you ever hear of "three-day" or amber marmalade? It doesn't take three days to make it, though. With an orange, a grapefruit and a lemon, and the right amount of sugar, and water, you can make a surprising amount of delicious preserves in the course of a single morning. The Bureau of Home Economics will tell you how.

The popular toasted sandwiches are easily made at home, even if you do not have a special griddle such as the sandwich shop or drugstore uses. To make a toasted cheese sandwich, cut a thin slice of cheese, season, and lay it between two buttered pieces bread, slip into the toasting oven, and when delicately browned on both sides, serve hot.

A good use for stale bread is to make it into "twice-baked" bread to accompany soup or salad. Trim the crusts on each side, making a rectangular loaf. The trimmings can be dried in the oven and rolled out for bread crumbs. Slice very thinly and put in a rather cool oven to brown delicately. These are crisp and "crunchy" but not hard. They are often served in hotels and restaurants.

Learn to know the attachments of your sewing machine and how to use them. Keep your tensions adjusted to the kind of material you are using. Use good needles and the right size for your thread and the material to be used.

Serve foods which have to be carved on platters large enough to allow the one who carves free play. Never place around a roast foods which are likely to have their appearance spoiled in carving, or get in the way of the carver.

Tin and enamelware cooking utensils which have foods stuck to them may be cleaned by boiling them in a weak solution of washing soda.
