SHEEP MEN MEET AT DALLES

Will Gather at Place Where Organization Was Formed

The Oregon Wool Growers' association will convene in annual session at The Dalles next Monday and remain in session over Tuesday. One of the principal matters to be discussed will be that of farm relief legislation and how it may be used in furthering the interests of the organization. Another matter to be considered is that of a public land policy for the administration of public lands by President Hoover's recently appointed commission. A fine program has been arranged for the entertainment of the visiting wool growers, that feature being in the hands of people of Wasco county's seat of government. It is probable that all sheep men of this section will attend and take part in the meetings.

Pick Ups About Town

Twenty-seven years ago a young lad, coming from Indiana, with two companions, stopped off in The Dalles. The three were of diverse notions regarding their destinations—one desiring to go to California, one to Alaska and the other to Portland. Learning that Indiana friends had settled on Juniper Flat but wanting to keep an agreement that the three stick together, the boys cut the cards, agreeing to abide by the deck. The high card proved to be the ace of spades and the one who cut it was the boy who desired to go to Portland. Julius Shepflin, the Hoosier lad, came to the Flat worked around for several years, married, raised a family and is now a resident of Maupin. All of which goes to show there sometimes is a directing hand in a deck of cards.

The daughter of The Times family has been suffering from an attack of rheumatism. Recently she obtained a violet ray machine and has been greatly benefited thereby. Tuesday evening, while taking a treatment, a knock sounded on our sanctum door. Upon responding we were confronted by a young fellow who stated the ray machine was interfering with his radio and requested that the daughter cease her operation of the machine. Just a case of not taking into consideration that health was of more value than waves through the air.

At the conferring of the "Eats" degree at the Odd Fellows hall last Sunday night one of Maupin's professional men was "made up" by another member as the Prof. was to be a leading character in the degree work. When the make-up was completed he was so thoroughly disguised that he failed to recognize himself in a mirror. At that he proved to be one of the most entertaining of the "degree" team when the eats were confronted.

Doctor Stovall is retiring as Scoutmaster at the head of the local bunch of Boy Scouts. He will be succeeded by Dan Poling. The doctor has made a wonderful showing since assuming the leadership of the troop. He has been a boy among boys, still retaining his business and organizing sagacity. Although he will not be an active member as an official the troop may rest assured the members will be accorded all the assistance possible by Dr. Stovall during the time to come.

Our little grandson made a get away from home last Tuesday. His grandmother was attending a session of the Ladies Aid and the old man being at work in the shop failed to notice the boy's absence. His attention being called to that fact he proceeded to hunt up the recalcitrant lad. He was seen in front of the drug store with one arm around the neck of Fulkerson's big coyote dog and petting John McMillian's sheep dog, Rover, with the other hand. Surrounding him were Renick's "Pal," Kramer's "Teddy," and his own little feist, "Pedro." We herded him home, although he was determined to "go to mamma."

BOY SCOUT MOVEMENT PROGRESSES IN MAUPIN

(continued from first page)
The teachings of the Scout ritual are far reaching in their effect. It is noticeable that an improvement has been made in the deportment of many of the members; that they carry themselves more like real men and that they are learning and practicing those little amenities that go toward building up character and manliness. The retiring Scoutmaster is deserving of much credit for the excellent standing of his troop of Scouts.

TUM-A-LUM TICKLER

Published in the interests of the people of Maupin and vicinity by THE TUM-A-LUM LUMBER CO., Phone Main 72
Vol. 1 Maupin, Oregon, January 9, 1930 No. 21.

<p>According to the plans and specifications of the Supreme Architect, Noah builded an Ark, that withstood the rain of forty days and forty nights. The plans called for a certain kind of material of certain dimensions. Water prevailed upon the earth one hundred and forty days and every thing died except those protected by lumber. Lumber is one of man's best friends and in our yard you will find exactly what you want for any occasion.</p> <p>T-A-L I never hire a cook, I vow I like my wife to hire 'em. But I can tell you anyhow, I'd rather hire than fire 'em.</p> <p>T-A-L Oliver Resh orders material for stock rack for his new truck. James Chalmers will do the work.</p>	<p>Warning Beware of Jack Frost. At large and carrying a piece of ice in each hand. Has white hair. Has habit of breaking into homes with empty coal bins. Our burgular insurance is of the best. Let us fill that coal bin today.</p> <p>T-A-L Don't it get your goat to be sitting quietly by the fire reading some wild eyed political organ and listening now and then to the rain falling on the roof, when all at once a drop hits you on the head? You know right away the roof leaks, but you can't do a thing till it stops raining. Fix it before the rain starts, then sit back and laugh.</p> <p>T-A-L You never heard of a poor old man marrying a rich young girl.</p>	<p>Facts Not Worth Knowing The rungs of a ladder are built a foot apart for convenience and ventilation. It is impossible to build a jail that will give perfect satisfaction to all parties concerned. The distance from Here to There is the same whether you walk from tie to tie or skip every other one.</p> <p>A hornet isn't dangerous if you keep his face towards you.</p> <p>Dealers sell birdseed by the pound, as that is easier than counting them.</p> <p>There are no cleaves in vests.</p> <p>T-A-L A coord of our wood will warm you up for a while.</p> <p>T-A-L Don't cry over spilt milk, hunt another cow.</p>

GIRLS SCOUTS' FIRST PARTY

Entertain Boys Scouts and Others at Legion Hall
Maupin's Girl Scout troop was organized about two months ago and since have been holding regular weekly meetings, studying and preparing for tests. A week after organization the members took their Code of Honor and were given Tenderfoot pins.
To celebrate the advancement of the troop the members invited the Boy Scouts, mothers and a few friends to a party, which was held at Legion hall last evening. The time was spent in games, then the party adjourned to the basement where Scout Leader Mr. Ziegenhagen, assisted by Mrs. John Confer, served hot chocolate and cake.
The Girl and Boy Scouts present were: Jean Renick, Bernice Hollis, Frances Lindley, Dorothy Greens, Evelyn Powell, Betty Slusher, Myrtle Kramer, Kathleen Foley, Lena Turner and Margaret Appling of the girls, and Theodore Kirsch, Bonney Duss, "Bo" Wilson, Laco Greene Earl Addington, Albert St. Dennis, Ivan Donaldson, Marvin Lindley, Jim Slusher and Elden Allen.

Oregon Air Good

As a testimonial of the strength of Oregon air we mention the fact that Farghers have driven a Ford truck 8,000 miles without a puncture or change of tires, much of the travel being over very rough roads. Of course the make of tires might have had something to do with their keeping fit. The tires contain the same air injected into them when they left the Ford plant at Portland.
Nyssa—State highway bridge over Snake river will be improved soon.
