NUMBER 26

### Cubs Win From Mosier And Comets Lose

Last Friday night the Maupin Comets and Cubs met the Mosier "shooters" on the home floor. Although the Mosier girls had the ball in their possession most of the time during the first half, the game was fast and well played by both teams. In spite of the height and long arms, Lelah made a two-point shot, and Mary a free throw which left the score 3-8 in Mosier's favor at the half.

The last half, the Comets had better possession of the ball, but the Mosier guard, succeeded in breaking the passes. Nevertheless, the Comets showed much improvement since the last game, and more confidence.

When the final bell rang, the score stood 20-9 in favor of Mosier. The Comets appreciate the cheering of their friends at this game.

The boy's game promised to be close from the start. When the half time came Mosier was in the lead 10-9. Bothwell got eight of Maupin's nine points in the first half.

The second half was just as close of the first and ended with Maupin at the big end of 22-18.

Bryant and Race were the high scorers for Mosier getting 10 and 5 respectively. Bothwell, Crabtree and Alexander got Maupin's scores with 10, 7 and 5.

After the game the Mosier team and fans were served cocoa and cake at the Maupin cafe.

Both Comets and Cubs were genuinely pleased with the large and lively crowd of fans, who tendered them \$23.64 in admission fees. All fans are hereby warned that the last game on the home floor in 1930 will be with Grass Valley on Saturday, February 22.

### BASEBALL WEATHER HERE

With these warm bright February day's the school grounds are becoming dry. The students are eager to get out and play baseball. However, the field needs repair; the back stop needs to be propped and the netting patched. The ground should be dragged soon, and some new bases put in. Then the field will be marked off for the spring games of baseball. If the weather stays the same everyone will be playing baseball before long.

### MRS. DE VOE VISITS SPECIALIST

Mrs. DeVoe has returned from a visit to a hay fever specialist. She reports that an exhaustive series of tests has shown that all varieties of sage and several relative plants act as acute poisons to her. She is taking injections of dilute solutions of these poisons in the expectation of gradually immunizing herself to these vexatious plants.

### JUNIOR BASKETBALL TEAM

Douglas, Herbert, Ralph, Harry, Boney, Emery, Jim, Theodore, Earl, Bonney and Melvin have turned out for the Seventh and Eighth grade basketball team with Mr. Hampton as coach.

The boys practice every Thursday night, and would practice every night if it were possible. Recesses are also spent in practice.

Dufur scheduled a game for Tuesday night but called it off because of lack of transportation. Mr. Hampton is trying to get a game with Mosier at The Dalles during the county tournament.

The boys are eager to play and will make a good showing against any team of their size.

### HEALTH CLUB ACTIVE

Health club members are acquiring the rosy bloom of health. The secret is, eat vegetables. Eat carrots for color! eat spinach for iron; and by all means get plenty of sleep at night.

A record of what he eats is being kept by each member. Members underweight are watching diet; and trying to gain. Overweights are trying to omit sweets.

Miss Lord, county health nurse, is eager to help health club progress.

### SPRING BECKONS MAUPIN

*Mallifluous Potpourri*  
"Sweet spring, full of sweet days and roses,

A box where sweets compacted lie."

Everyone welcomes the early spring this year. The beginning of February brought, sunny days, causing the snow to disappear rapidly. The birds are coming back; robins can be heard singing their cheery songs of springtime; the bluebirds are seen. One can hear frogs singing in the ponds. The evenings are warm and mild. Housewives welcome their old enemy "fly" with the swatter. Bees are buzzing about but no one has reported any butterflies or other wild flowers yet.

### KENT BASKETBALL GAME

The Maupin Cubs went to Kent Saturday evening to play a return game with Kent on their big floor.

Due to sickness and absence from school only six of the Maupin players went over. On the large floor Kent proved to be too fast for the Cubs. The final score was 27 to 4, Alexander and Greene dividing the honors for Maupin. Allen of Kent was the fastest player and surest shot. Mr. Fischer, Mr. Poling and Glenn Alexander provided transportation. Members of the team enjoyed the fine large Legion hall at Kent.

### NEWS NOTES

Mrs. Stow, salesman of Remington typewriters, looked over the school machines Saturday. He says that the Maupin school machines are better oiled, cleaner and in better condition than any school in his territory. When told Maupin always appreciated flattery, Mr. Stow insisted he was serious.

Harry Rutherford has been absent from school for the past week on account of a serious attack of flu. His school mates will be glad to know he is recovering and will soon be back to his classes again.

### TRY BAKEOVEN HOP

High school and Seventh and the Eighth grade students are interested in a little "hop, step, glide," which they alternate with the regular march. The exercise has been named the "Bakeoven Walk" owing to its rugged and vigorous movements.

The steps are given here and all are invited to practice them to the tune of Marching Thru Georgia.

### Part 1—

(a)—Start with the outside foot and take 8 marching steps forward.

(b)—A three-quarter turn outward, starting with the outside foot and turn on four counts. This brings the partners facing each other.

(c)—Courtesy with the outside foot backward, hold 2 counts, straighten and raise left arm to a semi-circle over head—2 counts.

### Part 2—

(a)—Three slides left, cross the right foot in back of left, and bend knees—4 counts. Same opposite.

(b)—Take hold of partner's right hand with the right, 6 skips around, release hand and courtesy, the person on the outside steps forward and each has a new partner.

The Maupin Hi students suggest you try it at home; it might even be used as a reducing exercise.

### ASSEMBLY PLANS

Plans which are being held for the assembly next Friday, February 21, include songs by school, and piano numbers by students taking music lessons.

The special feature of the assembly will be an interesting exercise in Palimentary Procedure by the public speaking class.

To add to the delight or otherwise of the assembly Professor Crabtree's "Jazz Phoney" orchestra will "render" several mouth organ classics. The boys practicing are: Bonney Duur, Wendell Lindley and Val Miller. Either Val or Mr. Poling will titillate the Steinway.

Baseball season is at hand. We have a new assortment of things used in the game. See them at the Maupin Drug Store.

### Combined Valentine and Lincoln Party

The program last Friday afternoon was a great success for all those who participated.

The pantomime entitled, "And the Lamp Went Out," given by the Seniors was one of the best ever presented in High school, and it brought many laughs from the audience.

The song, "Jimmy Valentine," sung by Glenn, Bo, and Val, proved a winner, as they were encored.

The "Gettysburg Address," was given by Douglas, proved that he was an inspiring orator as was Lincoln who delivered the speech.

The High school enjoyed hearing Mr. DeVoe's reading "Kubla Khan," and hope to hear him on other programs.

The school also possesses some fine musical talent, which was proven when Blanche, Jean and Bernice rendered a fine trio, "Mignon."

After the program the students formed in two lines and proceeded to march. The letter "M," was made and after "Bo" led a yell the serpentine was thrown from one end to the other.

Green, red, yellow, purple, blue, pink, and black paper hats were worn during the latter part of the party.

Elden Allen proved to be the best folk dancer and for his good work received a "Krinkly Klown."

Irene Woodcock and roommates distributed the valentines from an overstuffed box.

The refreshment committee prepared a delicious lunch of sandwiches, pickles, jello, heart cookies, cinnamon drops, candy hearts and porto.

Bethel Snodgrass robed herself in a gypsy's outfit and proceeded to hand out mysterious and delightful fortunes until four o'clock.

### WASCO COUNTY TOURNAMENT

A letter has been received from the County School Superintendent, T. F. Brumbaugh, calling attention to a meeting to be held at Dufur, February 22, at 10 o'clock. The purpose of this meeting is to make plans for the coming county basketball tournament.

The Dalles floor was used last year because of its large seating capacity, and since The Dalles teams are excluded, the floor is neutral. Another advantage is that The Dalles is the most central point available.

Maupin boy's basketball team carried away the pennant last year and will give just as good a showing this season.

Five schools will be represented and four schools have both girl's and boy's teams.

The annual district tournament will be held at Hood River or Mosier, but the date and place has not been definitely set.

### MAUPIN HI VALENTINE TO MAUPIN TIMES

Maupin's community newspaper plays a real part in the lives of its subscribers. The paper provides a necessary contact among people of the community, tends to unite factions and groups on matters of common interest, furnishes a local means of advertising, introduces to people modern and scientific methods of progressive living, contributes to the joy of living thru neighborly news notes, encourages education by permitting different schools to use its columns for school purposes, supplies a means of preserving the best traditions of the community by promoting common interest and hope.

The Maupin students enjoy the privilege of appearing on the first page of The Maupin Times, and in gratitude for this privilege they, hereby sincerely present the delayed valentine to their friend, the editor, Mr. Semmes, and son, Edward.

### GRADE NOTES

Seventh and Eighth Those neither absent nor tardy for the last school month were: Jim Slusher, Greatha Turner, Irene (continued on last page)

### Union Hi Plan Given Up At Tygh Valley

Opponents of Scheme Wise up Some Proponents, and Names Taken Off the Petitions

A move was recently made by the people in and around Tygh Valley to inaugurate a movement looking to the construction of and maintenance of a union high school. Petitions were signed and everything seemed to be sliding along nicely.

However, a monkey wrench was thrown into the machinery and at this writing the matter is about dead. Some interested people began figuring just what taxes would be, the probable cost of a new building, cost of transporting pupils to, and from school, etc., and when their findings were made known many who had signed the petitions revoked such signatures and the plan fell by the wayside.

### MRS. BICKERT IS COMING

With a Fine Line of Things for Ladies and Misses Wear

Mrs. M. E. Bickert of Portland will display spring's most attractive apparel for ladies' and misses' attire, at the Maupin hotel on Wednesday evening and all day Thursday, February 26-27. In this assemblage you will find coats, hats, dresses, ensembles and colored jewelry to match costumes. Real merchandise that is clever and new from San Francisco, Portland and New York, and at prices that will be to your particular advantage.

### Adding to Chicken House—

Such has been the success of Frank Turner with chicken that she is making an addition to the chicken house erected last fall. Mrs. Turner is arranging to bring up a large family of chickens this spring, therefore needs more room, which is being provided by the erection of a large addition to the already commodious hen hotel.

### Gone to California—

Dr. L. S. Stovall and wife left yesterday on a trip which will take them to Pasadena, California. On the way they will visit relatives in various towns and expect to spend a few days with the doctor's brother, Dennis Stovall, in the southern state. They will be gone about 10 days.

### Delivered Tractor—

Shattuck Bros. have delivered the first of their fleet of McCormick-Deering tractors recently received, that one going to Ed. Gabel. Ed. intends to hurry through his spring work and with the new power machine will be able to do more and better work than with horse power.

### Potomaine Poison—

While at Portland last week Bob Wil on partook of what he supposed was fresh smelt. Result was he was attacked by symptoms of potomaine poison and for several hours truly suffered greatly. Bob came home Tuesday morning feeling somewhat better but for a day or two was rather weak.

### Hospital Patients—

Mrs. Charlie Steele was dismissed from The Dalles hospital on Tuesday and the same day Mrs. Albertina West was admitted to the Mid-Columbia hospital. Mrs. Steele intends to join her husband at Clatskanie as soon as she is able to make the trip.

### Sign of Spring—

One of the surest signs that spring is about to break is that of Ollie Weberg warming up his tin Lizzie. Ollie got busy one morning recently, gave Liz a drink of warm water then jerked the crank a few times and was rewarded with a genuine cough from the old bird. Yes, spring is here.

### Back to California—

Lawrence Powell and sister, Rilla, will leave today for Gerber, California, where they are holding positions. Lawrence has a job with a big stock ranch while Rilla is waitress in a hotel. They have been in this vicinity for a week or so, visiting with relatives and friends.

### OLD MAIDS FORGET AIM OF CLUB AT CONVENTION

Stage Best Show Ever Pulled Off In Maupin— Played to a Capacity House

Maupin's "Old Maid" are a non-entirety. None such occupy quarters within the confines of our fair city. Just why? Because each one reached the pinnacle of her desire at the regular meeting and convention held at Legion hall last Thursday night.

The meeting opened with the regular routine of business. President Jerusha Eliza Bang, Secretary Rebecca Retrace, committees and members generally were present. The president stated the object of the meeting—being the consideration of ways and means toward acquiring husbands. The matter was discussed pro and con and the consensus of opinion was that all legitimate means be employed toward the accomplishment of the desire. Right here a bright fly dropped into the would-be-wives' ointment in the form of a French inventor, who carried a machine which was ordained to change live, opinions and desires of the maids. The members were told that if they cared to make the experiment each would be granted her desire.

Miss Bangs had a predilection for golf and as a result, when she emerged from the cabinet, had assumed the shape, face and attributes of a beautiful golfer.

Secretary Retrace had her mind set upon being a bathing beauty. Her desire was granted and instead of an old maid who stepped into the professor's contrivance became a pretty and very beautiful maid of the sea.

Maid Plack was a homebody and desired that she be made over into a good cook. That was done and her subsequent entry pictured her as a youthful compounder of things held a man through the medium of his stomach.

Desire Aman thought that being a college girl was the height of glory. She reached that height as when she came forth was young, beautiful and possessed of the pep usually attributed to the present-day period.

Aspsediah O'Della Olds desired above all else to be a musician. Her new self appeared and at the piano rendered a fine solo. A most laudable desire on the part of Hepsey.

Minta Clovertop's ambition was toward dramatics. She desired to win fame as a reader. She won it for her double appeared and rendered a distasteful on the trials and tribulations of an Irish waiting maid.

Ann Patterby thought it the best ever to be able to play tennis. When she made her second appearance she was equipped with tennis racquet, wore a fitting costume and her face was wreathed in a bewitching smile.

Serena Haabben was so frustrated she failed to make a wish but for all that was forced to undergo a change. In her stead emerged a fine appearing lady who possessed a marvelous voice, which she at once used in rendering a beautiful solo.

Petunia Pickles, with an idea of doing the greatest good to the greatest number, chose to be a nurse. She bravely entered the cabinet and upon coming out was younger and wore the uniform of a nurse.

Charity Hopegood desired to use her vocal cords in elocution. Her double came forth in the person of a youthful and attractive lady, who showed her ability by rendering a talking song, much to the delight of all present.

Rachel Ketchum desired, above all things, a husband forgotten, to be a society girl. She attained her desire, for in place of a staid old maid a young lady appeared, dressed in the latest function costume.

Belinda Blis was next to try the experiment. She uttered a wish for beauty, so she could catch one of Maupin's bachelors. Her next appearance showed her wish was gratified, for one of the best looking (continued on last page)

### Maupin Man In Ranks of Utility Inventors

Wm. Schilling Devices Burglar and General Alarm

Wm. Schilling recently received advice from a Washington, D. C., patent attorney relative to an invention of the Maupin man. The device is designed to notify car drivers of the condition of oil, gas and water showing just how much is in the proper receptacles. It can be applied to all makes of cars as well as to steam boilers, heating plants, etc.

The invention also acts as a burglar alarm, being arranged to tell when prowlers are at work. That part of the device is arranged somewhat on the order of a phonograph record, which gives voice when come in connection with. Bill will have his invention patented, then expects to arrange for its manufacture and sale.

### SCHOOL MUSS AT TYGH VALEY

Charges Brought and Pupils, Desert School—Testimony Heard

Tygh Valley is in the throes of a school muss, one that has scattered trouble over the whole community. The principal seems to have been the target of some of the pupils because of some of his rulings and, it is said, charges have been preferred against him by some of the pupils. The school board is neutral in most lines of the trouble but is with the principal in others. The county superintendent and district attorney have been called in and will attempt to bring order out of the school chaos now existing in our neighboring village.

### Reservoir Work Progressing—

Tom Baird has a crew of men at work on the new reservoir. A supply of powder has been received and with the aid of a compressor many holes are being put down preparatory to blasting. Tom is using extreme care in shooting, as he does not want to crack the walls of the old reservoir and thereby cause Maupin to be without water.

### Charlie Steele Visits—

Charlie Steele came in from Clatskanie Tuesday morning. He is now employed in a Ford shop and says business is good with his employers, they having sold 10 cars of that make since the first of the year and also have all the work two men can do. Charlie came after his wife but she being ill, will remain with her parents for a time.

### Begun Excavation—

Richmond & Son have begun excavating for their garage and shop. A trench has been dug up to the front property line and extended to the rear line of the contemplated building. A fill of four feet will be made at the rear of the lot. The new building will be 40x50 feet in size.

### Auction Sale Billed—

Raymond Crabtree has announced an auction sale of livestock and farm implements, household goods, etc., at the John McCormick ranch for this week Saturday. Raymond recently purchased the McCormick ranch with its stock and implements and finds himself in possession of more of such than he cares to keep, hence the auction. Sale begins at 10:00 o'clock sharp.

### Birth Announcement—

Announcement of the birth of LaRita Jean Farlow was received by Maupin friends the latter part of last week. The newcomer made her appearance at the home of Leonard Farlow and wife on the 13th instant and weighed six and one-half pounds. The Farlows are living at 1702 Fisher street, Portland.

### Improving Residence—

Lew Wilhelm is at work on the Fraley residence and will complete a new sleeping porch and kitchen. The kitchen will be 10x16 feet and will be 10 feet by 16 feet and the porch 8x16 feet in size. The Fraley's will move to their own home as soon as the addition is completed.

Take Sargon and regain your health. Widely recommended and sold in Maupin by the Maupin Drug Store.
