

The Maupin Times
AN INDEPENDENT NEWSPAPER
C. W. SEMMES, Editor
C. W. Semmes and E. R. Semmes
Publishers

Published every Thursday at Maupin, Oregon
Subscription: One year, \$1.50; six months, \$1.00; three months, 50c.
Entered as second class mail matter September 8, 1914, at the post-office at Maupin, Oregon, under the act of March 3, 1879.

Cooked Food Sale
The 4-H clubs of Maupin will hold a cooked food sale on Saturday at the Resh store. The mothers of the members will prepare the viands and the members of the clubs will preside at the sale. A great variety of cooked foods have been promised and the funds realized from their sale will be applied to cover the expenses of some 4-H club members to summer school at Corvallis.

Singing Over Radio
Thousands of radio bugs were enlightened to good singing recently when N. G. Hedin of Maupin sent his voice on the air through the medium of station K O I N, the Portland News. Mr. Hedin is an exceptionally fine singer and those who were on the air at the time he broadcast heard something out of the ordinary.

Visitor From Yakima
Mac Mayfield, son of Frank Mayfield, former resident of Smock, drove into Pine Grove Saturday night and visited over Sunday with his brother, Virgil. He was accompanied by his wife. The visitors now live at Yakima.

Drove Recklessly
Cecil Mott exceeded the speed limit of 20 miles per hour on the streets of Maupin last Sunday. Constable Kramer took him in tow. The next morning Cecil appeared before Recorder Woodcock, who thought \$5.00 was about sufficient to cover the misdemeanor. Cecil pungled up and is again at the wheel of his speed wagon.

Working in Same Office
Aida Pugh and Oliver Turner, two Maupin graduates, who attended the same business college in Portland, are now working side by side in the main office of the Fulop clothing establishment.

Mrs. Foley in Hospital
Mrs. John Foley is confined in a

ward at the Mid-Columbia hospital at The Dalles, to which place she was taken last week. Mrs. Foley recently underwent a serious operation and at this writing is reported as making satisfactory recovery.

Dyer's On a Visit
Frank Dyer and wife will leave tonight for Portland and after a short stay there will go to Banks. At the latter place they will visit for a time with relatives, returning in time for Frank to resume his work on the O. T. section.

Tested Cattle
Dr. Stovall tested the cows comprising the Job Crabtree dairy herd on Tuesday. The cows were found to be in good condition. This test is required whenever cattle are to be sold. Job will hold an auction sale of his herd and dairy equipment on Saturday, March 29.

More Babies Arrive
The name Davis seems to carry a fondity with it that is surprising. Last week chronicled the birth of a boy to Len Davis of Smock, and this week there are two more of the same name to be mentioned. Chas. Davis and wife of Wapinitia are taking care of a dandy baby girl, who arrived at their home Saturday last; James Davis and wife of Tygh Valley are harboring a husky 8-pound son, he arriving on Sunday. Another newcomer, to arrive on Friday last was a 12-pound boy at the home of Mr. and Mrs. Lloyd Morrow of Wamic. Babies, mothers and dads are getting along nicely, according to report from Dr. Elwood, who played stork in the coming of the babies. There is no relation between the Davises.

Attended Sister's Funeral
Dr. W. A. Short and wife returned from a trip to Lebanon, to which place they were called last week Monday by the death of a sister-in-law of the doctor. Deceased's husband, Dr. Short's brother, died about a year ago. The Shorts returned on Sunday evening.

Rev. Hazen Returns
Rev. Everett Hazen, who has been filling a charge in the U. B. church at Weston since last September, has returned to Maupin and is at work as carpenter. The congregation at Weston failed to pay the minister's salary, therefore Mr. Hazen thought it a good policy to come back to Maupin where he was able to find employment.

Mother: "What made you say so late? Have a flat tire?"
Daughter, dreamily: "No, I'd hardly call him that!"

"INSIDE" INFORMATION
It the clothing has been left out, wipe it carefully with a damp cloth before using. Clothespins must be perfectly clean.

Pockets made like shoe bags and hung on a sewing room screen or a closet door in the sewing room provide a handy way of keeping patterns and findings.

Do you know leaflet 39, "Eggs at any Meal" issued by the U. S. Department of Agricultural? At this season of the year eggs are plentiful and the bulletin suggests a variety of uses in the menu.

Children who profess not to like eggs or milk will often eat custards, omelets, milk pudding, milk-vegetable soups, and egg-milk drinks if they are well flavored. The wise parent will not call attention to the ingredients of such dishes, but will simply offer them as a matter of course in their regular place in the meal.

Mercerization is a process used in finishing some cotton fabrics that adds not only beauty, in a glossy finish, but durability. Sometimes mercerized yarns are combined with plain ones to make strips, checks, and figures of unusual attractiveness. The more or less temporary glossy finishes applied to fabrics by means of paste mixtures should not be confused with mercerization, nor should rayon, which is quite different from mercerized cotton.

Bright colors like red, green, orange, vivid blue, or yellow, are desirable for children's out-of-doors play clothes, especially if the little ones must play where automobile traffic is passing. Motorists see these colors easily, although they may not notice the browns, grays, and other dull colors used for outer wraps which blend with the landscape. Children like the bright colors best, and are protected by wearing them. Much the same is true of bathing suits in bright shades. The child is visible wherever he ventures.

PAGE, LINE AND PARAGRAPH
To grow quickly, chicks need high-protein feeds the first few weeks. Chicks will grow rapidly if fed for the first 3 or 4 weeks, feed that contain 20 per cent good quality protein, and for the next 5 or 6 weeks, feeds that are from 16 to 20 per cent protein.

Studies in breeding foxes at the Experimental Fur Farm of the Biological Survey of the United States Department of Agriculture at Saratoga Springs, N. Y., show that the characters of a "samson" fox—one that lack guard hairs and thus produces a nearly worthless pelt—are probably inherited, making such animals worthless for breeding.

A southern dairyman in a territory recently freed of cattle ticks was skeptical concerning the merits of a registered dairy bull and hesitated to buy one. Later he stated that the difference in the value of a few yearling calves of the first "crop" from the purebred bull that he finally bought, and the value of the same number of yearling scrub calves, was greater than the entire cost of the bull.

Many dairy cows are undersized and low producing because they did not get enough of the right kind of feed when they were young and growing. After a heifer has freshened and is producing milk it is difficult for her to make up for growth lost through poor feeding when young.

The salesman who is full of hot air usually finds it hard to keep his feet on the ground.

Pick Ups About Town

Forty years ago two brothers, then living in the "Show Me" state agreed to never do any hard work. One of the brothers has religiously lived up to the tenets of that agreement. The other has done but little work in the past 40 years, yet both seem to have gotten along alright. The brothers are Link and Hank Harpham. The former is living in California and Hank is numbered among the citizens of this section.

Driving on Maupin streets has its compensations. One such is that the pleasure of a fine highway. Some, however, seem to think our main street is a speedway and to show just how fast they can drive their car "step on it" and whirl through as though on wings on the wind. A young fellow was caught facturing our speed laws Sunday afternoon. A fine of five dollars cooled his ambitions to be a speed king, and now he will observe the ordinance of the city against reckless driving when coming to town in the future.

City Marshal Joe Karmar has been instructed by the city council to collect dog licenses. Those who have canines as part of their property will "kick through" if they value the dog. On our part we are undecided whether our little fies is worth the \$3.00 or not. As he is a playmate of our mail grandson we will dig up and preserve his life against Joe's threat to make way with him if the tax is not paid.

Ben Richardson conducts a service station and camp grounds on the Wapinitia cut-off at Pine Grove. As a side issue Ben cut wood, logs and what not. Incidentally the first and last chance station carries a line of auto oils, gasoline, accessories and a fine stock of camper supplies. Ben was in town on Tuesday and stated he expects the cut-off road will be the one principally used by tourists out of Portland and is preparing to do a bigger and more remunerative business this year than ever before.

Maupin gas dealers have reduced the price of gas to its former level—25 cents per gallon. The recent raise in gas tax caused dealers to pass the additional two cents per gallon on to the consumer, but realizing that a smaller profit and more sales was the better part of business restored last year's price.
