

## Neighborhood School Notes

### Wapinitia

#### SCHOOL NEWS

Wilbur Mathews was absent from school four days of last week and Monday morning of this week.

The Higher Arithmetic class is studying bank discount.

The American History class is studying the chapter entitled "Prosperity, Panic and Slow Recovery."

The Bookkeeping class is now struggling with the first ledger closing exercise in Keelands' Practice Set.

The Intermediate room washed windows and cleaned the play ground last Friday afternoon.

The Biology class is studying on the chapter "Adaptations for Pollination" which deals with self, artificial and cross pollination of all plants.

#### Upper Grade Room

The officers for this week in the upper grade room are: Mayor, Viola West; secretary, Laura Hartman; councilmen, Ellen Hachler, Beth West and Les Woodside; Boys' Class Reporter, Cleo Holloman; Girls' Class Reporter, June Hachler; bell ringer, Norbet Wall; door keeper, Oren Pechette; paper monitor, Howard Pechette; desk inspector, Frieda Hachler; writing paper, Glenn Hammer; temperature Cleo Holloman; eraser dusters, Frieda Hachler and Howard Pechette.

#### Baseball Practice

The officers in the Primary room have been practicing baseball with the High school boys. Some of them are proving to be good players. It has been prophesied that Cleo Holloman will make the team this year.

Cleo Holloman was the only member in the upper grade room last Monday.

The Eighth graders have nearly finished all their books for the year.

#### Primary Room

The officers in the Primary room for this week are: Chairman, Ted Hachler; Paper monitor, Alice May Sturgis; Pencil monitor, Agnes Lewis; Library monitor, Winifred McCoy; Desk monitor, Harvey Wall. The Third and Fourth grades are

planning a field trip for some time this week.

#### Sports

The "Cyclones are showing good progress in baseball so far this season. The schedule for the pennant games are as follows:

- March 21—Tygh at Wapinitia.
- March 28—Dufur at Dufur.
- April 4—Maupin at Wapinitia.
- April 11—Tygh at Tygh
- April 18—Dufur at Wapinitia.
- April 25—Maupin at Maupin.

#### He Heant Business

A tourist traveling through a country stopped at a gas station. He noticed four holes cut in the door of the station.

Tourist: "I do not want to be so inquisitive, but why are those four holes cut in that door?"

Owner: "You see I have four cats and those holes serve the purpose for those cats to jump through."

Tourist: "Why not have one big hole? Wouldn't that serve the purpose?"

Owner: "Oh no, stranger, you don't know me. When I say scat I mean business."

#### BASEBALL

(Marion O'Brien)

Baseball is a game which nearly every one knows and understands. All or nearly all have played some time in their life. Some like the game better than do others. Nearly every school has a team in baseball seasons. Some schools are very successful, some are not.

But all must practice. This is suggested by the proverb, "Practice Makes Perfect." Practice is not the fun that some think, although a certain amount of enjoyment is obtained from such practice as is attained after school and at noons when the squad is divided into two teams.

In practice nearly every one some time or another is corrected or instructed in the fundamentals of baseball. To some this correcting gets under the skin, to others it has the desired effect, but all, regardless of how good they are, are not so good but they can be better.

Some teams after winning a game of two think that they are good enough and do not need any more practice, so begin to cut

practice or practice half heartily. Is this the attitude to take when your coach and team mates have worked hard to have a winning team and then you will not work to the best of your ability? Some fellows who could play baseball if they tried say, "What's the use of trying? Bill has got me beat anyhow."

Friends, as I have said before, is no fun. The enjoyment in baseball comes from the games that are played. Even then no great amount of joy is obtained if a team has no rooters to cheer the team on, and to console them when defeated.

This year Wapinitia has prospects of a fairly good team, but it will be much better if you, the citizens of the community, will come out to all home games and even accompany the team to other places. Come on, folks, let's support the home team against all invaders!

### Wapinitia Jottings

I. Ham West, Bill Forman and Earl Cunningham branded cattle Sunday. Several from the Flat attended the St. Patricks dance at Maupin Saturday evening.

Miss Helen Endersby called at the Chas. Cox home Thursday evening.

Miss Myrtle Shorthill was a Sunday guest of Mr. and Mrs. Isham West.

Frank Heckman attended the principals' meeting at Dufur Saturday.

A baby girl was born to Mr. and Mrs. Charles Davis Thursday.

Mr. and Mrs. Everett Hazen and family, Mr. and Mrs. Julius Shefflin, Rev. Clark Smith and son, Ralph, were guests at the Roy Ward home Sunday.

Mr. and Mrs. Ernie Enderby visited at the Earl Cunningham home Sunday.

A large crowd attended Christian Endeavor and church at Wapinitia Sunday evening.

Mrs. L. W. West visited relatives in Dufur Saturday.

Ernie and Avis Endersby, Ed Beebe, Crystal Hartman and the Laughlins had dinner at Mr. and Mrs. Cunningham's Sunday.

Mr. and Mrs. Lou McCoy and Arnold Gosnell were at Maupin Saturday.

Sunday morning Crystal Hartman and Hazel Laughlin drove to Pine Grove for Sunday school.

Stick-to-it-ness is what makes for success.

#### FARM REMINDERS

Experienced tree grafters collect the grafting wood while the tree is still dormant and preserve it by putting it in cold storage or packing in moist ground, moss or sawdust and storing in a cold place until needed. Detailed instructions for grafting and budding, formulas for grafting wax and other information are contained in extension bulletin 384, which may be obtained free of charge from the college at Corvallis.

Probably the safest way of handling bee colonies infected with American foul brood is to kill the bees with calcium or sodium cyanide and then burn the hive, say bee specialists of the Oregon experiment station. The burning is best done in a pit in order that the remains may be entirely buried, thus preventing spread of the disease.

Rickets in young turkeys, due to lack of sufficient sunshine, may be prevented by feeding about 1 pint of cod liver oil for each 100 pounds of grain and mash, says the experiment station. The oil, however, may be discontinued as soon as there is ample sunshine, which is ordinarily about the latter part of March.

#### HOME POINTERS

Soiled powder puffs, if washed and hung up to dry without being wrung out, will dry smooth and without wrinkles.

Much time may be saved by keeping an old salt shaker filled with powdered silver polish by the kitchen sink. When washing silver, any piece that needs it can be shined without much extra time or trouble.

#### MAUPIN HI TIMES

(continued from first page)

class has observed pond mosses or algae and also tiny animals forms living in the water and on land.

Report, are being made on Luther Burbank's life, his great contributions to the science and development of plant life.

#### New Spring Dresses

The girls of the Sewing class have their new spring dresses well

#### GRADE NOTES

#### Seventh and Eighth

The Seventh and Eighth grade teams played the Tygh Valley team a return game last Monday, Maupin winning by the score of 28 to 4. The "Baby Cubs" held Tygh scoreless until the last three minutes of play. The starting lineup was: Center, Douglas; forwards, Henry and Herbert, guards, Bonney and Jim. Those playing at least part of the game were Franklyn, Ralph, Earl, Jack, Theodore and Melvin. Douglas, Henry and Franklyn were the high scorers of the game.

The Eighth grade agricultural class is studying about the different breeds of sheep.

The Seventh grade History class is studying about the Lewis and Clark expedition.

#### Fifth and Sixth

Floyd Addington was absent on Monday on account of illness.

Nina Chastain has been practicing a song, under Mrs. Bothwell, for a folk dance which the Fifth and Sixth grade children are going to learn. When they have this step learned they will be willing for visitors to come and watch them.

The Sixth grade is taking frequent written tests so that the members will know something about their final grades.

In Geography the Sixth grade is studying about the Plateau States. Maps are posted on the wall showing the products of each state.

Primary

Don Stogdill has been absent several days on account of illness.

The First and Second graders wish him a speedy recovery.

The Primary room is beautified by bouquets of dainty yellow bells.

The inspectors for this week are: Beulah Richmond, Cheri Pratt.

Jack McLeod and Jack Bothwell are the newly elected policemen.

There were several little guests in the Primary room the past week. They were Jeanne Turner, Marcia McLeod, Marie Foley, Paul Kirsch.

The Second graders will soon finish their third and last required reader of that grade.

Mrs. P. Kirsch visited the Primary room for a brief time Friday afternoon.

Now at Docherty-Powers'—

## THE FAMOUS Reliable Gas Range

for burning the new bottled gas

WILL BURN STANDARD OIL FLAMO or SHELL OIL COMPANY SHELLAINE

These ranges are tested and approved. They are the only major improvement in home cooking in many years. The new bottled gas is hotter, cleaner, faster and more convenient than city gas.

Investigate this wonderful convenience. Do not select a range before seeing **The Reliable**. A product of the American Stove Company. Sold in this section by

**DOCHERTY-POWERS**  
Furniture Company  
Corner 2d and Washington. The Dalles, Ore.
