THE MAUPIN HI TIMES

VOLUME II. — MAUPIN, OREGON, MARCH 27, 1930. — NUMBER 31

Maupin Hi Students Go Into Movie Game

Although a typical small town boy in many ways, who had never been out of Simsbury in his life, movie mad Merton's determination to follow his star gave him courage to forsake his job in the grocery store and set out for Hollywood and his movie career. His experience with hard-boiled directors, his endurance of hunger and rebuffs serve but to strengthen his faith in human nature. Would you like to see how he finally wins through to success? Then don't miss "Merton of the Movies" which will soon be presented on the local stage by the Maupin Senior class.

The important role of Merton has been entrusted to Elton Enodgrass. Although the exactions of this unsophisticated but appealing character are great enough to get Elton all "hot and bothered," his ability will produce an outstanding interpretation.

DUFUR-MAUPIN BALL GAME

The Cubs met the Dufur team last Friday at Dufur, for the first baseball game of the season, which resulted in a 6-0 score in Dufur's favor. With but three practices the Cubs were scarcely in true form. The line-up for Maupin was: Laco, pitcher; Orville, catcher; Bo at first, Val at second, Elton short, Charles on third sack, Bob left field, Wendell center, and Glenn and Richard in right field. The battery for Dufur was: Knight, pitcher and Steuber, catcher.

Charles Bothwell succeeded in reaching third base but no runs were made by Maupin.

Those taking cars to Dufur were Mr. Fischer, Mr. Poling, Mr. Kaiser and Richard Crabtree. Mr. Fischer who umpired bases, had a difficult time keeping warm, although he had an overcoat on. The day was both windy and cold for baseball. The Cubs are eargerly looking forward to their coming engagement with Tygh Valley next Friday, on the home field, and expect a big crowd of fans. Tygh has promised to come over in force and Maupin fans will be needed.

BASEBALL ITEMS

(By Elton)

The Wapinitia Cyclones defeated Tygh Valley, 13-2. Zumwalt and Rhodes were in the box for Tygh while Claymier and Endersby threw for the Cyclones.

Sunday Coach Gosnell's fast team took the Indians into camp for a score of 18 to 6. A few of the Cubs feel highly flattered to have the chance of participating in this game. Gosnell's team will meet the Maupin Housecats this coming Sunday at Maupin.

Friday, March the 28th, the Cubs will meet Tygh Valley on the local field. Everybody come and help the Cubs "growl."

STUDENTS ENJOY SINGING

Lst Friday the students spent the assembly hour in singing school songs, some of which were new and rather difficult to follow.

The singing showed improvement, as each one applied himself diligently and took an active part in the program.

At the end of the hour, Mr. De Voe presented typing certificates to Harry Rutherford, Mary Greene and Eldon Allen for successfully making twenty-five words per minte for fifteen consecutive minutes. The students adjourned at 9:45 p. m.

BOY SCOUTS WILL VISIT THE POWER PLANT

A trip to the White River power house for next Sunday is planned by members of Troop No. 33, Boy Scouts of America.

Floyd Kelly, as assistant scoutmaster, is arranging a series of trips to keep up the Scout spirit pending the selection of a scoutmaster. The boys will leave Maupin at 8:30 a. m.

After the generators and turbines are inspected, the boys will go on an exploring hike. Lunches will be taken and the troop is looking forward to a day full of enjoyment.

MAUPIN-TYGH JOINT ASSEMBLY PLANNED

Mupin High school students, at a regular student body meeting, decided to invite the Tygh Valley High school to our assembly on Friday at 1:15 p. m. preceeding the baseball game between Tygh and the Cubs on the Maupin diamond. Tygh students will be gusts at the Tygh students will be guests at the

A program with Mr. DeVoe as chairman and Lelah. Bo, and Nova as members, will take charge of the coming assembly. Special music including the Jazz Phoney Harmonious Harpists, school singing and piano numbers will be provided. The Student Body hopes to have Rev. Matthews of Simnasho to speak to

The Student Body will appreciate the joint assembly.

other visitors from the outside who are intere ted in the school and care to come to the joint assembly to be followed by the big ball game.

MANUAL TRAINING BOYS MAKING PLAY PROPERTIES

The boys of the Manual Training classes are busy making stage scenery for the Senior play, "Merton of the Movies."

Wendell is making a moving picture camera. Others will be employed in the construction of a country store, to include counters and shelves. Railings and other properties used in representing a studio will be also made for the play.

SPRING TRAINING TO BEGIN AT ONCE

A meeting was held the eighth period Tuesday to arrange a schedule of all the events and to find out the number who will participate in the different classes. The weather is fine now for practice in field events.

Former Maupin track winners are interested in Maupin's spring training and report seeing other schools getting ready for the meet. Maupin expects to live up to the record established by its notable athletes of last year.

Although Maupin has not much material this year, we still expect to win the meet.

MAUPIN ALUMNI

The Maupin High school is pleased to know that several of her alumni are attending higher institutions of learning and that a few of them will soon be completing their course to enter into life careers.

Winifred Kaiser, who has been a student at the University of Oregon for four year, and Velma Crofoot, a student at Monmouth Normal for one and a half years, will both complete their courses in the spring. During their recent spring vacation both girls are interviewing prospective employers. Both will enter the teaching profession. Maupin Hi remembers Winifred for her high scholarship and for being high point girl in track. Velma is remembered for her musical ability and for her excellent grades in all subjects. Maupin Hi extends her best wishes for success to them in their new field of work.

Estel Stovall is attending O. S. C. and is studying pharmacy. He visited school last Thursday and he said, "Although chemistry takes most of my time, still I am turning out for track." Everyone remembers Estel as being the fastest "sprinter" around here, and wishes him success in the track at O. S. C.

Harold Kramer is employed in a general merchandise store at Dufur.

Art Appling is busy digging the coyotes out of their dens and he extended an invitation to the Faculty to come out to Criterion and help him bag the varmints.

Kenneth Sndgrass is "turning over the old sod" on the home ranch.

Merle Snodgrass Crabtree keeps her interest in the school with frequent visits and with loyal and generous support.

About ninety school pictures have been ordered by the High and grade schools. The school is endeavoring to get reduced rates because of the large order. The order will not be sent off until all the money has been collected. The sum involved is nearly fifty dollars.

Students Learn Plan of Cooperative Market

Mr. DeVoe, Harry and Charles had the priviege of listening to the address of Mr. E. L. Ludwick, who is assistant manager of the Pacific Northwest Wool Growers association, given at the Legion hall last Tuesday. Mr. Ludwick explained to the local wool growers the Federal plan of financing the marketing of wool. The marketing will be done through the local co-operative associations. The storage, the loaning of money to growers, and the final marketing cost will total $.0324 per pound.

Sale of the wool will be made by Draper, a national wool selling house at a cost to growers of3-10 a cent per pound. The wool on the coast will be sold by the Pacific Northwest Wool Growers association. All similar wools will be sold in one pool. Mrs. Ludwick gave the personnel of the Federal Farm Board and a brief history of each member. This board is financed by the Federal government. The Federal Farm Board is attempting to stabilize the selling of wheat and wool this spring. This Hoover plan of farm aid is one of the most important measures in recent years, and its success or failure is attracting great interest among the farmers throughout the land.

HONOR THE DEAD AND SERVE THE LIVING

(By Gladys Martin)

Again this year the American Legion Auxiliary is sponsering plans for giving publicity to the poppy sale prior to Memorial Day. Last year a state wide essay contest was held for the purpose of urging students to honor the dead. This year a new plan has been adopted, whereby students may have a chance to display their ability along the line of art, through constructing and designing of posters to commemorate World War heroes. No special requirements are contained in the plan for the posters as regards size, style or pattern. Mottoes are recommended as a device for expressing the meaning of the poster. Three five dollar prize are offered by the American Legion Auixliary for the best posters in a state wide contest Arrangements for the distribution of the prizes allow one prize to each of the respective divisions of schools: the Fourth, Fifth and Sixth grades, the Seventh and Eighth grades and the High school. The American Legion Auxiliary of this district is offering an additional prize of $1.00 for the best poster from each of the above divisions of the Maupin school.

NEWS NOTES

While in The Dalles last week end Mr. DeVoe visited the old Historial building. He says that it is worth anybody's time and money to see this treasure of local historcial relics.

The building is one of the oldest remaining in The Dalles. Inside there are hundreds or fine arrow heads, spear heads and other Indian relics of many different tribes. In addition many rifles and pistols, which were used by soldiers during Indian wars, may be found. all indicative of legendary times characteristic of this country.

After much discussion the Senior class has selected and ordered its announcements which, to say the least, represent the very latest in the announcement line. It is interesting to note that the erstwhile familiar cognomen of "Elt" appears under the alias of "Elton Perry perkins Snodgrass," while that of our "Little Abbie" reads "Abner Silas Ely St Dennis."

4-H CLUB FOOD SALE

The food sale, which was held on March 22 at Resh's store under the direct supervision of Mrs. Kirsch, netted $23.10. This fund will be used to send members to the 4-H Club Summer School which is held each year on the campus of the Oregon State College. Assistants to Mrs. Kirsch were: Mrs. Maud Joynt, Mrs. Lucille Contrell, Mrs.

MAUPIN TO GO "ON THE AIR" THRU K. O. I. N.

Maupin Business Men Take Steps to Inform World of Our Fine Position and Attributes

The business men of Maupin have given concrete evidence that they have the best interests of the town at heart, and have shown a spirit of progressiveness that is worthy of notice locally, and following this we predict that newspaper space will be given over to Maupin by the press of other cities througout the country.

The cause of the above outburst on our part is contained in the fact that on Monday the associated firms and professional men of Maupin have combined to foster a proposition to broadcast a high-charactered program of one hour's duration over the great station K O I N of Portland.

While the local broadcast is primarily to interest the potential trade or purchasing power of our own county, secondary to reach statewide trade of the tourist traffic that may be routed through our town, the main object of the broadcast is to acquaint outsiders of the extent of our attributes, our expanding agricultural area, our stock industry and last, but not least, to make known the unapproachable opportunity of the Deschutes as the home of the giant redside trout.

The Maupin city broadcast hour has not been definitely set. The Times expects to be informed of that time soon enough to publish it in our next week's issue, although, from what we have learned regarding the time phase of the broadcast, the date may be arranged for April 7, in time to inform sportsmen and fishermen of Oregon of fishing conditions of our river before the opening of the fishing season. It is not enough for us of Maupin to know about the Deschutes; it is not enough for the "old guard" of our visiting anglers to know it; we must advance and in that advance see to it that more and more of Oregon's population are informed of what we have here.

As a newspaper we are not primarily interested in air advertising, but as a voice for Maupin we have learned that the greatest advertisers on the air are the heaviest buyers of newspaper space, so we cheerfully throw our hats in the air and holler "Whoopee!" By contracting with K O I N Mupin will lead all central Oregon in going on the air with a program at once edifying, instructive and pleasing, thus showing we will not play "second fiddle" to any community of this section. On the other hand we will have established a precedent and one which will be followed by other places in this part of Oregon.

The Maupin firms and professional men who have sponsored the movement to exploit our city on the air are: O. P. Resh & Co., Shattuck Bros., Dr. J. L. Elwood, Dr. L. S. Stovall, H. R. Kaiser, Williams Auto Park, Hotel Kelly, Fraley Garage and Restaurant, Kramer Bros., Garage, Maupin Hotel and Cafe, Woodcock Bros.,—power plant and flour mill, Richmond Service Station, Maupin State Bank, Shell Oil Co., and The Maupin Times. Watch for date announcing time when Maupin will be on the air.

WILL CLEAN SNOW OFF ROAD

J. F. Kramer to Operate Cletrac Tractor on Job

Contractor Harness, who will complete the building of the Wapinitia cut-off road this season, and who is now at Burns engaged on another road job, recently telpehoned Joe Kramer and offered the use of his Cletrac tractor in clearing the cut-off road from snow. The beautiful lies rather thick on the roadway in the vicinity of Bear Springs and from there to Clear Lake. Kramer will take the tractor from the Hedin garage at Pine Grove and get at work on the clearing job soon.

If that work is done now it will clear the road earlier than at any time in its history and will enable the Harness company to get at work on their contract very soon.

CHURCH MEETINGS DRAW ENTHUSIASTIC AUDIENCES

Revs. Hartman and Smith Spread Messages of Good Faith to Maupinites.

The meetings being held at the U. B. church each evening by Revs. Hrtman of The Dalles church and Smith local pastor, are drawing large numbers of Maupin people each evening. The sermon series closes next Sunday with the evening service.

On Sunday next Sunday school will be held at the usual time—10:00 a. m., with church service immediately following. The preaching will be followed by a basket dinner. As soon as the tables can be cleared of the dinner another, and last meeting of the revival will be held, this being scheduled for 7:00 p. m.

The choir is rendering special numbers at each meeting, the music body being augmented by many singers not of the church. Bring your dinner and attend all the Sunday services.

Rev. Smith will hold a service at Pine Grove at 10:00 o'clock Sunday, morning. Pine Grove has a flourishing and promising Sabbath school.

Wapinitia Sabbath school will convene at the regular time. There will be no preaching either morning or evening, on account of Maupin meetings.

DIDN'T KNOW ABOUT HOCKEY

Young Man of The Dalles Asks If Ice is Frozen

A party of Dalles sports were talking about taking in the last few games of the Hockey league, to be played at Portland. They went into the intracacies of the game and remarked that that sport was as exciting as baseball. Attentively listening to the conversation was a young shoemaker. With eyes bulging and a hesitancy in speech he asked: "Do they freeze the ice?" Being informed that such was the fact and that hockey was played on congealed water, the young fellow immediately signed up to accompany the gang on its Portland trek.

BUILDING A NEW RESIDENCE

J. H. Chstain Will Renovate Old Creager Home Building

J. H. Chstain has completed the foundation for a new residence. The new structure is 22x26 feet in size and includes a full basement, which will also contain a garage. The old Creager home building will be moved to the foundation and then undergo a complete renovation. When that work has been completed Joe will begin work on another house of the same size on the east side of the lot.

SCHOOL BUS COST TOLD BY OUTSIDE SCHOOL MAN

P. J. Kirsch Writes Concerning Saving In Sending Children to the Maupin Schools

Some agitation has been rampant recently concerning the cost of operating a school bus and the employment of teachers for the outlying schools. Peter J. Kirsch of Criterion, in the following communication, plainly shows the saving by bus operation.

"Do you find transporting your school children to Maupin a success?

"This question has been asked me quite often. Thinking that some of the readers of The Maupin Times might be interested, I decided to write of the benefits. District No. 85, known as the Criterion school, has derived from such transporting.

"School District No. 85 and district No. 88 own and operate their school bus jointly. The school bus is operated a distance of 20 miles. The driver is paid $100 per month. All expences are divided equally between the two districts. All High school students are transported to the Maupin High school free.

"The three years district No. 85 operated their school, prior to transporting to Maupin, cost the district an average of $1,362.54 per year to operate our school.

"We have operated the school bus four years before this term. During the four years of transporting to Maupin the district's expenses averaged $862.96 or a saving of $1,998.32 in the first four years of of bus operation. District 85's one-half interest in the school bus cost $1,138.00. Deducting $1,138 from $1,998.32 leaves a net saving of $860.32 the first four years.

"Our school bus has nearly completed its fifth season and still has considerable value. Our bus never failed to make its regular trips and has been late very few times and then only when the roads were icy, forcing the driver to drive slowly.

"For three reasons I consider transportation a success:

"1 Our children are in one of the best schools in Wasco county instead of a one-teacher school.

"2 Our children can attend High school from home.

"3 Our school district is saving money."

Melvin Fulkerson came up from Portland Friday evening and stayed until Sunday, when he returned to his work with the Howard Auto company in the big town.

Calories for Kids

"MARY-JANE and Junior are having guests for luncheon today."

This is the weekly statement of a wise mother who finds time to give her youngsters an opportunity to play host and hostess. She maintains that having Tommy-from-Next-Door or Joan-from-Around-the-Corner introduces the children to better table etiquette and to a variety of foods that they like because Tommy or Joan like them.

Recipes for Decorative Dishes

Calories and vitamins are skillfully concealed in creamed chicken that deluges a mainland of toast triangles, carrot boats hoisting real sails and bearing cargoes of golden pineapple, and cocoa with a marshmallow island afloat. There's a hidden treasure of real caloric content in these recipes:

Cream Chicken on Toast: Two cups cold cooked chicken cut in dice (if you haven't left-over chicken, the canned product is delicious), two cups white sauce, a pinch of celery salt. Heat chicken dice in sauce and add celery salt.

Carrot Boats with Pineapple: Scoop raw carrots into boat shapes and fill with segments of canned pineapple. A toothpick and plain white card make a marvelous sail.

Party Cocoa: This need not cut into your precious "quart-a-day" bottle if you keep condensed milk on hand. One teaspoon cocoa, one cup boiling water, two tablespoons condensed milk. Mix cocoa and one-half cup boiling water. Boil three minutes. Pour this mixture into the diluted milk and beat with egg-beater. Top with marshmallow.
