# MAUPINITE HITS HIS GAIT

Newton G. Hedin came up from Dufur to n1-Portland recently to visit with his the sfamily and while here stirred up thnatives to a special opportsetting on the air-jafishing season angling.

> anity of ... as the state "wakens lovers of

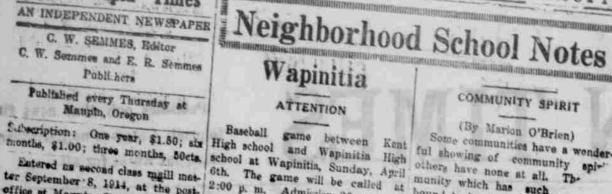

wewton canvassed our ness and professional people regarding a subscription to enable the Portland broadcasting station KOIN. to give one hour to telling what we have here and hereabouts. The station will be on the air with Maupin's story some evening shortly, and after that for short intervals at different times.

Hedin knows Maupin, its farming community, its stock raising district, its close proximity to fine timber. Besides his acquaintance with the general public, both as singer and speaker, and as an official at the mike he will tell the world all about us. Hedin is directly responsible for winding the publicity main spring of Maupin. He has ever been ready and willing to contribute his talents to all worthy enterprises affecting our city and now that he has chown us how to bring our city to the attention of the outside world shows that he has an affection for Maupin, its people and its attributes.

If Maupin had more Nwt Hedins within its confines, each one pos cessing the heart to go out and tell what we are and what we have. Maupin, instead of being "A Town on the Deschutes," to pharaphase a statement of a certain inconoclastic writer, would be a shining star in the bright firmament of Oregon municipalities.

Shake, Newt, Maupin's people are with you.

One of the best fertilizer, for a lawn is a mixture composed of three cent attendance last Monday. parts of cottonseed meal and one part suplhate of ammonia. Apply 10 to 15 pounds to 1,000 square feet day. in the early fall and again in the spring after the danger of severe good growth.
