

Personalities

Jess Derthick has concluded his work at the Jaekel lambing camp and is at home in Maupin again.

George Morris, Cyril Fraley and Jesse Crabtree fished the turbulent waters of Deep Creek last Sunday.

Ellis Hughes, who has been at Farghers during lambing, has come down and will remain in town a day or so.

James and Maggie Wray were up from Portland over Sunday, coming in Saturday evening and returning Sunday evening.

W. E. Hunt was in town from his sheep ranch yesterday. Billy reports his lamb crop as far exceeding his expectations.

Mrs. Howard Wattles went to The Dalles on matters connected with the recent death of her husband by electrician, on Monday.

Leo Hamel and wife of Dufur attended the mass at the Catholic church last Sunday, coming over from their home at Dufur.

The Catholic church presented a beautiful interior last Sunday, the altar and railing being banked with cultivated and wild flowers.

Tom Swett, wife and the latter's niece, Miss Edith Spickerman, were caught in a near cloudburst on Tygh grade on Monday. They arrived home all right but were drenched.

Among those who attended the services at the Catholic church on Sunday last was A. J. Conroy and family. Mrs. Conroy is now living at The Dalles where her children are attending school.

Free Kodaks— A free kodak to a boy or girl who becomes 12 years of age during 1930. Call with parents any time during May at the Maupin Drug Store. Bring us your picture work.

Federal Aid for Oregon— The Federal Farm Board will have for use in Oregon in the year 1931 the sum of \$1,996,112. This fact was made known to us through a circular sent out from the office of the secretary of state.

Fished on Metolius— Clarence Ziegenhagen and wife and the latter's sister and husband, Mr. and Mrs. Leo Harbing, of Bend, fished on the Metolius last Sunday. The party were somewhat lucky, catching a few trout, but not enough to say that a good catch was made.

Kent Downed 3-0— Kent came over last Sunday to play ball. That team put up an excellent example of the national past-time but Maupin's team was faster, the score being 3 to 0 at the end of

the game. Poling, as pitcher, for Maupin struck out 15 while Young for the visitors got credit for causing eight Maupinites to return to the bench via the strike-out route. The Maupin team will go to Grac's Valley next Sunday to play the team of that place. Come out and help the team.

Many Fox Litters— The Williams fox pens show increased activity these days. One of the mother foxes recently gave birth to a litter of five puppies; another one burrowed in the ground and there had a litter, but just how many has not as yet been ascertained. Four other females are expected to pup before long. When all have given birth to puppies the Williams pens will have as large a colony of foxes as any in this part of the state.

Stage Service to Resume— The Bend-Portland stage is to resume service for the summer on May 1, running daily stages each way. The line is privately owned and conducted by Myrl Hoover. A slight reduction in rates from last year's schedule will be made. The stage to Portland will leave Maupin at 10:00 a. m., stopping at Government Camp for lunch and arriving at Portland at 2:00 p. m. The stage to Bend will leave Maupin at 4:45 p. m., reaching Bend at 8:00 in the evening.

Rebuilding Road— A county crew of roadbuilders is at work on the old road leading from Tygh Valley to the fair grounds. The road will be made wider and put in such shape that danger on the sharp curves will be minimized. It was thought a new road leading directly from the highway near the shady Brook turn-off would be built, but the county dads evidently thought the old road, with a little fixing up, would suffice, therefore the present work.

Sme Gas Tax— Statistics sent out from Washington, D. C., and touching on the gas tax paid by the various states having such a measure, show that Oregon received the sum of \$4,542,602 during 1929 as revenue from gas tax. The net amount of gasoline used in the collection of that money was 152,090,900 gallons.

Elza On Crutches— Elza Derthick has learned not to chase hogs. In absorbing that lesson he recently made a misstep and as a result is now walking with the aid of crutches. He was trying to induce some hogs to go into a pen, fell down, colliding with the ground in such manner that he sprained the muscles in the calf of his left leg. Very bad sprain and it will be some time before our young rancher is able to "call the hogs" home again.

Free to Public The only place in the U. S. where catalogs and advertising matter covering any line of business or product can be obtained Free and Without Obligation is the American Industrial Library. Write for Business Advertising Matter you are interested in; same will be promptly forwarded. AMERICAN INDUSTRIAL LIBRARY Engineering Building, Chicago, Illinois

Delayed Easter Program— The delayed Easter program of the U. B. Sabbath school will be given at the church next Sunday morning at 10:00 o'clock. After the program the Sunday school will be held, to be followed by a preaching service. During that service a number of seekers will be taken into the church as members. The preaching service will be followed by a basket dinner. Rev. Everett Hazen, former pastor of this church will bring the Easter message. No evening service.

Old-Timer Visits Here— C. V. Durham, an old-timer of 1876, is in Maupin for a few days' fishing in the Deschutes. Mr. Durham is a brother-in-law of Joe Chastain and has been traveling the country for some time. He tells of shearing sheep near the Staats springs in '76 and also of ranching near the victor school house at that time and in later years.

Reservoir Work Delayed— Work on the new city reservoir has been somewhat delayed by the non-arrival of gravel from Hood River. Superintendent Tom Baird tried to secure gravel in this vicinity but was unsuccessful so was compelled to go further after it. Several carloads have been received and used in the concrete work, and as soon as more arrives work will be resumed with a vim. It is expected, providing the gravel gets here, to complete the reservoir by the latter part of next week.

Receives Baby Chicks— Cyril Fraley is another Maupinite who believes there is money in chickens. This morning he received a shipment of 150 baby chicks of the Rhode Island Red strain, they coming from Salem. Cyril has fitted up a commodious chicken house and will make chicken raising a side line to his clerical work at Resh's store.

Maupin's Relative Here— T. J. Maupin, a second cousin of Howard Maupin, for whom the town of Maupin was named, was a visitor in this city today with his wife. Mr. Maupin is in charge of the pipe lines and headworks of the Portland water system and while here met with many friends of early days.

Arrested in Portland— Tom Swift, giving Maupin as his residence, was arrested on a charge of driving while drunk in Portland last Monday. Police say Swift was so full that he fell out of his automobile. He has been in trouble on a like charge before, so say the Portland officers.

Wouldn't Name Party The "cullud" lady gave her name, her address and her age; and then the clerk of registration asked this question: "What party do you affiliate with?" "Does I have to answer dat?" "That is the law." "Den you just scratch my name offen de books. Ef I got to tell dat party's name, ah don't vote, das all. Why, he ain't got his divo'ce yit."

HOME POINTERS The surest way to get the family to eat vegetables is to make them look so good that they can't be resisted. When making lemon, chocolate or other one-crust pies where cornstarch or flour is used in the filling, mixing the cornstarch or flour with the sugar will often keep the mixture from lumping.

Although there is a temptation to use some substitutes for eggs in cakes and other batters when eggs are expensive, there is no substitute for them in point of food value.

Slightly beaten eggs may be carefully combined with a soup to add food value for the invalid or young child.

Gasoline for any sort of cleaning should never be kept in the house. It is so inflammable and so explosive that the fire laws of many states prohibit storage in the house of any but the smallest quantities. Keep the bottle or container tightly corked at all times, and do not open or use it in a room where there is a fire, a gas, oil, or candle flame, or in bright sunshine. Only a little liquid should be poured out at one time. Cook green vegetables just as short a time as possible and cook them in an open kettle to help keep their fresh green color.

Serve all lamb dishes hot on very hot plates. The texture of lamb fat is not always agreeable after the meat has cooled off somewhat.

RESH & CO.'S SPECIALS April 26 to May 2 New Potatoes, 3 pounds for 29c New Peas, 3 pounds for . . . 34c Bacon, per pound 29c Sugar, per Sack \$5.49 Mayonaise, pint jar 29c EXTRA SPECIAL A REGULAR 10c bar Toilet Soap, 12 bars 59c and 6 beautiful dessert dishes free. We have a limit number. Come early.

Pick Ups About Town

This is the reason of the year when the young man's thoughts turn to love, the eradication of ants from his underwear, barber shop haircuts, baseball, hives, and a general desire to get out and commune with nature.

Many papers of Oregon are taking up the cudgel favoring butter as against the universally used "ole." They claim the butterfat producer is losing out through use of the product of copra, peanut and cottonseed oils and a host of other nauseous ingredients. Maybe so, maybe no. One thing regarding the butter situation is that many dairymen send their cream to the butter factories and then turn around and buy "ole" for their own use.

Tom Baird has about concluded operations on construction of Maupin's new reservoir. Excavation has been completed and the forms are being installed under direction and by that incomparable carpenter, Mike VanLaanen. Concrete is being poured on that part of the forms already made and it will not take long before Maupin will be a fire-proof town, when the water supply is considered.

Tom Swett is shuffled around like a marble in a bottle. First he is given an old truck, then a brand new Graham is turned over to him for his own. After a few trips the Graham is given to some other driver and to Tom is given an old GMC. Then a White is thought to be about Tom's size. Maybe his bosses will eventually conclude that one certain truck should be given to our freight truck driver and after that to be allowed to continue on The Dalles-Maupin freight run.

It is seldom a tramp turns down a good meal. That thing happened at the Rainbow last Sunday. A specimen of genius hobo called at the cafe, asked for a half dollar to buy a meal with. He was informed that no halves were given away but that a meal awaited his pleasure. That seemed okay with him. The meal was placed on the counter but Mr. hungry man was nonexistent. He had ducked out. Later he was observed walking along the edge of the sidewalk and anon deftly picked up the discarded butts of many cigars lying on the roadway.

A certain Maupin lady who is noted for the excellence of the cakes she makes, was preparing a cake for last Sunday dinner. The cake

was intended as a compliment for a visitor, who had a predilection for maple frosting. The cake was baked, the frosting prepared, all but the flavoring. When the culinary artist was ready to mix that in she grabbed a bottle of what she thought was maple and added the con-

tents to the frosting. Imagine her surprise when the cake was cut to learn she had made a mistake and had gotten hold of a bottle of sheep dip instead of the delicacy garnered from the hard maple tree. It is needless to say the party went without maple flavored cake for dinner.

TUM-A-LUM TICKLER Published in the interests of the people of Maupin and vicinity by THE TUM-A-LUM LUMBER CO., Phone Main 78 Vol. 1 Maupin, Oregon, April 24, 1930 Number 35

Editorial After ten years the country has finally come to its census. The general consensus of opinion is that we are growing bigger and better. Our only doubt is—should the census taker be called a censor?

A haughty dame at a Washington function viewed the various celebrities with indifference until the head of the Agricultural department was pointed out. "Is that really the Secretary of Agriculture?" "Yes."

A sleeping porch? Ask us. Our office cynic found that a stork stands on one leg because if he lifted it he would fall down.

O. F. RENICK, Editor.

"Introduce me. I want to talk to him about a rubber plant I am trying to raise."

To clean up and paint up isn't enough. Repairs and remodeling should also be done.

Say, talking of insulation—against heat or cold, you should see the big ad in the Saturday Evening Post for this week. We can give you more information about insulation.

No problem is too big or too small to talk over with us. We may not know how to raise onions or such but we sure know building.

Our cement is being used in building Maupin's new reservoir. We have plenty left for your use. Rastus says A. D. means all done. So we are A. D. for this week.
