

#### DODGE ITEMS

The sun is shining and everyone is happy, unless the weeds have gotten too much the start of them--it is pretty hot hoeing.

Rex Gordon was home last week, and made out a bill of furniture for the new house.

Cora Keller is at home visiting.

Albert Smith is home from Astoria.

Mrs. James Marrs visited her brother and sister at Colton recently.

Mazelle Mulkey's school is out and we are all feeling blue; she has returned to her home near Myrtle Creek, such a long way that our hearts ache for that young carpenter, it will only be a matter of a few weeks until he will have that hungry and haunted look that Rex has had for the last three months. Never mind boys, sheep shearing is not such a picnic.

Mrs. Cherry was visiting in Dodge last Sunday; it was good to see her dear old face once more.

Mrs. Gordon wishes to thank James Shibley and wife for a nice ride, Sunday.

E A Miller and family, old neighbors and friends at Dodge, but recently of Springwater, have bought in Estacada, and will put up a neat one story cottage and will make that their home. Sorry to lose them, but our loss is Estacada's gain.

Everybody who had good clothes went to Springwater, Sunday listened to a good sermon by Brother Allen on "How to Raise a Family", and then partook of a delightful luncheon prepared by the snowy hands of Springwater's fair ladies. After which all were entertained by the Children's Day exercises, all of which were very enjoyable, and then returned home happy to take up the hoe and plow and fight weeds with a determination to conquer or die.

A. DOGER.

Frank Harkenrider began cutting vetch yesterday and the crop is pretty heavy.

Blackberries are so plentiful that people are making strawberry short-cake with them.

# Are You Interested In A DEERING?

#### DEERING FOOT LIFT AND CUTTER BAR

By means of the Deering foot lift on the Deering mower the immediate raising or lowering of the bar is perfectly under control of the operator at all times. It is easy to operate, quick to respond and never fails. A coil spring assists in the raising and enables the bar to be floated at will.

#### THE ADJUSTABLE DRAG BAR

The Deering Ideal mower has no side draft, consequently the wheels can be located just far enough apart to carry the cutter bar and the draft rod connected to the adjustable drag bar almost in line with the knife. The inner shoe floats and adapts itself to the varying surfaces

#### DEERING VERTICAL LIFT MOWERS

The Deering lift mower is operated with extreme ease and the pitman never stops, even when the cutter bar is in a vertical position, consequently it is always ready for action. It is an ideal machine for use in groves or stumpy fields and on sloping banks. Farmers using this mower will find it all that could be desired.
