

ESTACADA, OREGON

The new terminal city of the Oregon Water Power and Railway Company's standard gauge electric railroad, is 36 miles Southeast of Portland on the Clackamas river. A rich farming, fruit-raising and stock raising country surrounds the place. Any amount of the best of timber abonds which is converted into lumber by numerous sawmills and sold at reasonable prices. The railroad facilities are the best, see time table elsewhere. Estacada is situated to become a manufacturing center, the river will supply any amount of power. The railway company is now constructing a 15,000 horse power electric plant one and a half mile above here. A large woodworking factory is in operation Here is a good field for a furniture factory, an implement and handle factory, wagon and carriage factory, box and basket factory, shoe factory, and other industries. A fruit cannery would pay well. The city is nicely located and the site is easily drained. A visit to Estacada by prospective homeseekers will convince them that this is the place in which to locate.
