All Business Given Careful Attention

ESTACADA, OREGON

TO THE PUBLIC

The Bank of Estacada will be opened and ready for business in a few days. We have been somewhat annoyed in getting our supplies which were ordered over two months ago from a large Eastern Lithographing company. These goods were ordered shipped on one of the Northern lines of road which has been tied up by a strike—the cause, most likely, of the delay.

It will be our most earnest endeavor to always deal with our patrons in such a manner as will merit their patronage. This bank will do business on strictly banking principles and guard the interests of our depositors with the strictest scrutiny. There will not be any business done except on the strictest banking principles of the best regulated institutions in the country. We have a good vault that will give safe fire protection. The money chest will set inside the vault; this is a fine Chrome steel chest of an improved pattern with a double time lock which makes it as near burglar proof as possible. We have a lawyer in connection with the bank to attend to all legal business such as drawing deeds, mortgages and other papers properly so that any patron having such business can get it all transacted in the bank. Remember the Bank of Estacada is the white building on Main street. We are going to remain in Estacada notwithstanding reports that are being circulated that we were going to sell out and go East. We are here to stay, and will be pleased to see you whether we do your business or not.

ALL GOOD THINGS

must win upon their merits. The International Dictionary has won a greater distinction upon its merits and is in more general use than any other work of its kind in the English language.

A. H. Sayce, LL.D., D.D., of Oxford University, England, has recently said of it: It is indeed a marvelous work; it is difficult to conceive of a dictionary more exhaustive and complete. Everything is in it—not only what we might expect to find in such a work, but also what few of us would ever have thought of looking for. A supplement to the new edition has brought it fully up to date. I have been looking through the latter with a feeling of astonishment at its completeness, and the amount of labor that has been put into it.
