

## ACTIVITY OF THE GULF STREAM.

STAR SHOWS POINT WHERE TEMPERATURE WAS TAKEN.

That the gulf stream is active six hundred miles east of New York city at a point in the Atlantic Ocean, where, according to the best authorities, it should be hardly discernible, and with such a flow as to hold back to a serious extent the Moltke on her western way, was asserted by Captain Ruser, of that ship, when she arrived at Hoboken from Hamburg, Boulogne and Dover.

Captain Ruser said that never before in his many trips across the western ocean had he observed the gulf stream so active, and the temperature recorded was almost phenomenal. The Moltke had fine weather all of the way, and the engines were driving her at a seventeen-knot gait, when the gulf stream was encountered. For two days before this the ship had dropped in her speed in an almost unexplainable manner. On Monday the midday reckoning showed 401 knots, the next day 397 knots, then 389 and 382 on the following days, and Captain Ruser began to seek for the cause. The water suddenly began to grow warmer, and in streaks, or, as the captain said, "like fingers," and there were high temperatures that were startling.

Coming out of water showing from 12 and 67 degrees Fahrenheit, the thermometer registered 80 degrees. At this time the ship fell off in her speed fully a knot and a half an hour, and the water took on the blue tinge so noticeable in the tropics.

For five hours, a distance of nearly eighty miles, this high temperature was recorded, and all day the peculiar activity of the gulf stream was apparent. When the day's run was compared it was found that the ship had logged only 367 miles.

Heiress—Do you like my fiance's looks?

Friend (examining photograph)—Yes—he's worth the price.—Translated for Tales from Meggendorfer Blaetter.

### Disraeli's Tribute to Gladstone.

Disraeli remarked of Gladstone, his rival in politics and yet the subject of his profound admiration, that "he had no redeeming defects."

Every man becomes extra hungry on Sunday. One Sunday a man put up this written notice in his kitchen: "I will wait until 2 o'clock for dinner, but no longer. At that hour, if dinner is not ready, a strike will begin, with rioting features."

## GOOD BLOOD TELLS ITS OWN STORY

And tells it eloquently in the bright eye, the supple, elastic movement, the smooth, soft skin, glowing with health, a body sound and well, an active brain, good appetite and digestion, refreshing sleep, energy to perform the duties and capacity to enjoy the pleasures of life. The blood is the most vital part of the body; every organ, muscle, tissue, nerve, sinew and bone is dependent on it for nourishment and strength, and as it circulates through the system, pure and strong, it furnishes to these different parts all the healthful qualities nature intended. When, from any cause, the blood becomes impure or diseased, it tells a different story, quite as forceful in its way. Itching, burning skin diseases, muddy, sallow complexions, disfiguring sores, boils, carbuncles, etc., show the presence, in the blood, of some foreign matter or poison. Rheumatism, Catarrh, Contagious Blood Poison and Scrofula, are effects of a deeply poisoned blood circulation. These may either be inherited or acquired, but the seat of trouble is the same—the blood. S. S. S., a purely vegetable blood remedy, cleanses and purifies the circulation and makes it strong and clean. Under its purifying and tonic effects all poisons and impurities are expelled from the blood, the general health is built up, all disfiguring eruptions and blemishes disappear, the skin becomes soft and smooth and robust health blesses life. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison and all diseases of the blood are cured by S. S. S. Book on the blood and any medical advice, free of charge. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**
