Self-Supporting Park.

Following the example of many European cities, Los Angeles, Cal., will turn Griffith Park, with an area of 3,000 acres of beautiful land, into a self-supporting park. Four experts, with a view to converting this practically waste piece of land into a productive tract, made a comprehensive plan for the place for the trees, which will not only pay for its cultivation and care through the sale of mature timber, but will prove a constant source of pleasure and recreation for the citizens of Los Angeles. Los Angeles is the first American city to adopt this plan, but it is predicted that other municipalities in this country will soon follow in its footsteps.

Controlling Nature.

Everybody knows that of late years natural forces have been wonderfully subjected to man's need. We are dazzled by the spectacular achievements in science and electricity, but are likely to forget the less noisy but no less marvelous conquest of animal and plant life. Horses are swifter, cattle heavier, cows give more milk and sheep have finer fleeces than in days gone by. In plants the transformation is even more marked. People now living can remember when the number of edible fruits and vegetables was far less than at present and even those that could be grown were vastly inferior to what we now have. For example, our parents knew nothing of the tomato, except as a curious ornament in the garden. Sweet corn was hardly better than the commonest field sort. All oranges had seeds. Celery was little known and poor in quality. In the flower bed the insignificant heart's ease from which we developed, and the sweet pea in all its dainty splendor traces its origin to the common garden vegetable.

This progress has been made in spite of the great tendency manifested in all plants and animals to go back to the original type. It is indeed a battle to keep strains pure and up to the standard and they have already attained, let alone any improvement. The practical results are accomplished by men operating largely for love of the work, like Luther Burbank, in California, and Eckford in England, as well as by the great seed merchants, D. M. Ferry & Co., of Detroit, Mich., who are not only eternally vigilant to hold what ground has been gained, but have a corps of trained specialists, backed by ample means, to conduct new experiments. The results of their experiences can be found in their 1906 Seed Annual, which they will send free to all applicants.

"Mr. Dustin Stax says he isn't going to endow any more libraries."

"But I thought he was devoted to literature. He has written books himself."

"That's the trouble. The people let the dust lie on his books and stand in line to get 'Maxie's Wooling' and 'When True Love Was in Bloom' and 'Works of that character.'—Washington Star.

CATARH ANNNOYING DANGEROUS

Catarh is usually regarded as nothing more serious than a bad cold or slight inflammation of the inner skin and tissues of the head and throat, when it is, in fact, not only a vexatious and troublesome disease, but a complicated and dangerous one. It is true that Catarh usually begins with a cold in the head, but when the poisons, which are thrown off through the cold in the head, enter the blood, it becomes a constitutional trouble, and affects all parts of the body. It has more annoying and disgusting symptoms than any other disease. There is a sickening and offensive discharge from the nostrils, a constant buzzing noise in the ears, headaches and pains in the eyes are frequent, while filthy, tenacious matter drops back into the throat requiring constant hawking and spitting, and in certain stages of the disease the breath has an odor that is very offensive. Catarh is worse in winter, because the cold weather closes the pores and glands, and the poisons and unhealthy vapors, which cause the inflammation which starts on the tender linings and tissues of the head, are absorbed by the blood. When the blood is diseased, it carries the poisons to all parts of the body, and the patient feels despondent and half sick all the time. But worst of all, if the trouble is not checked, the lungs become diseased from the constant passage of poisoned blood through them, and Catarh terminates in Consumption, the most fatal of all diseases. You cannot get rid of Catarh by treating it with sprays, washes, etc., because they only reach the membranes and tissues, while the real cause, the poison in the blood. These relieve the annoying symptoms for a while and when they are left all the while getting a stronger hold on the system. S. S. S. is the greatest of all will manifest itself in worse form than before. S. S. S. is the greatest of all blood purifiers, and when it has cleansed the blood, the poisons circulate through the body, carrying healthful power to the diseased parts. Then the inflamed membranes and tissues begin to heal, the discharges cease, the general condition of the system is strengthened, every one of the annoying and disgusting symptoms pass away, and the patient is left in perfect health. S. S. S. is the best remedy for Catarh. It goes right into the blood and removes all effete matter and catarrhal poison and cures the disease permanently, and at the same time builds up the entire system by its tonic effect. S. S. S. is a purely vegetable remedy—non-injurious to the system and a certain, reliable cure for Catarh. Catarh sufferers will find our free consulting department helpful in advising local treatment to be used with S. S. S.

CHRONOLOGY OF 1905.

BRIEF RECORD OF YEAR'S PRINCIPAL EVENTS.

Internal Disturbances in Russia and Independence in Norway—Close of the War in the East—Many Great Names in List of Dead.

Most significant of the events of 1905, because it indicates unmistakably the inexorable advance of man toward high ideals of liberty, justice and perfect civilization, is the political and economic upheaval now taking place in Russia. Warring under a heavy burden of taxation, rendered well-nigh unbearable by the burdens imposed by the war, the peasants and workers started a revolt against the tsar, and the tsar, in turn, was forced to concede a free constitution, a free press, and a free assembly.

1. One hundred persons killed in disturbances in Poland.

2. Serious strike riots in streets of Chicago.

3. Pat Crowe gives himself up to authorities in Omaha, but disappears later.

My Hair is Extra Long

Feed your hair; nourish it; give it something to live on. Then it will stop falling, and will grow long and heavy. Ayer's Hair Vigor is the only hair-food you can buy. For 60 years it has been doing just what we claim it will do. It will not disappoint you.

My hair used to be very short. But after using Ayer's Hair Vigor a short time it began to grow, and now it is fourteen inches long. This is a splendid result to me after being bald for many years. —Mrs. J. H. Fiske, Colorado Springs, Colo.

Made by J. C. Ayer & Co., Lowell, Mass. Also manufactured at SASSAPARILLA, PILLS, CHERRY PECTORAL.

Value of Elephants. An African elephant is of value only for its ivory, of which a full-grown animal yields from \$250 to \$300 worth. On the other hand, a working Indian elephant cannot be bought for less than \$2,500 to \$3,500.
