**Boundless.**  
Far and away stretched the waving grasses and the low hills. On and on wandered the little boy. He did not know where he was, and yet he did not weep.

He was a very brave little lad and a mere child withal, so that, although he had lost his bearings, was not alarmed.

For did he not have his nice new rubber ball with him? And would it not be fine to bounce it about over the hard, smooth ground?

Selecting a spot bare of grass he threw the ball down, with all his might.

But it lay lifeless just where it had alighted.

Again the puzzled lad threw it down, but the resilient gutta percha spheroid lay dead and inert exactly as it had fallen.

Then, as the fearful truth broke upon the lad, he broke forth into walls of despair. He was on the boundless prairie—Judge.

**Hood's Sarsaparilla**

Has surpassed all other medicines in merit, sales and cures.

Its success, great as it has been, has apparently only just begun.

It received more testimonials in the last two years than any previous two—over 40,000.

It has the abiding confidence of the people—the strongest proof of its unequalled worth.

It purifies the blood, cures all blood diseases, all humors and all eruptions.

It strengthens the stomach, creates an appetite and builds up the whole system.

It cures that tired feeling and makes the weak strong.

In usual liquid, or in new tablet form, 100 Doses One Dollar.

**To Get Eggs All Winter.**

A flock of early hatched pullets with a comfortable house free from vermin, with proper ventilation, a scratch pen and box of grit, all grain buried in litter, will do nobly during the whole winter, but the roosts must be sprayed with kerosene oil twice a week; their bodies dusted each month with good insect powder, plenty of fresh drink at comfortable temperature, green feed such as sliced beets, steamed clover, or loose cabbage to pick at freely, all the green cut bone with clean, fresh, sweet adhering meat that they will eat at one meal twice a week must be supplied. A mash of middlings with one part in three of corn meal in zero weather stirred thick enough to be crumbly, oats or wheat at night except in zero weather when corn should be fed warm at night are also excellent, provided only about two-thirds as much as will be eaten up clean in ten minutes is fed at a time. Pullets require more than hens and Leghorns less than heavier breeds.

**IN THE NATIONAL HALLS OF CONGRESS**

Monday, February 12.  
Washington, Feb. 12.—The senate today adopted a joint resolution reported by Tillman from the senate committee on interstate commerce, which directs the Interstate Commerce commission to investigate the charge of discrimination and combination in restraint of trade made against the railroads. It was a joint resolution, and must be passed by the house and signed by the president before it becomes effective. The adoption of the resolution was preceded by a speech by Tillman, in which he practically charged that the administration was not proceeding in good faith to secure railroad legislation, because he was not satisfied with the president's advisers. Among those mentioned Secretary Root and Senator Knox.

Lodge also spoke at length on the railroad question. He delivered a carefully prepared speech, in which he took a position for governmental regulation of rates, but advised the utmost caution against too radical action. He expressed the opinion that the giving of rebates was practically the only evil existing in connection with the railroad systems of the country.

Washington, Feb. 12.—The house today had up the bill providing for the whipping-post for bill providers in the District of Columbia, and then laid it on the table, effectively disposing of it, by a vote of 153 to 60.

A new gavel was dedicated to the memory of Lincoln, by Speaker Cannon in opening the house, and the birthday of the martyred president was remembered in the prayer of the chaplain.

**Friday, February 9.**

Washington, Feb. 9.—Almost the entire session of the senate today was devoted to the consideration of the urgent deficiency bill, which was passed practically as it was reported from the committee on appropriations. The only discussion was over an amendment suggested by Patterson to strike out the provision relieving alien workmen on the canal from the operation of the eight-hour day law. Patterson contended that to require men to labor more than eight hours a day in the tropics was inhuman, and argued that the requirement would do injustice to American labor. Several senators on both sides of the chamber controverted the position. The amendment was voted down without record to the roll call. The senate adjourned until Monday.

Washington, Feb. 9.—The house today ground out its usual semi-monthly grist of private pensions, passing in 72 minutes 429 bills for the benefit of veterans who are barred for one reason or another from coming in under the general statute, and thus made a new speed record for such bills. Seventy-five per cent of the beneficiaries are either blind or bed-ridden. This order, with a number of minor bills and the passage of two amendments to the Philippine tariff act of 1905, constituted the transactions of the day. The tariff amendments place American cotton goods on an equality, so far as the cost of production is concerned, with European goods. Low grades of shoes were admitted at a lower tariff. The house adjourned until Monday.

**Thursday, February 8.**

Washington, Feb. 8.—Just enough morning business was allowed in the house preceding the vote on the Hepburn railroad rate bill today to permit delayed members to reach their seats before the rollcall ordered the night before began. Three hundred and forty-six members voted for the bill. Seven, all Republicans, voted against it. Applause greeted the announcement of the result by the speaker to the house, which had given its undivided attention to the question of government rate-making for seven days.

Those voting against the bill were: Littlefield, of Maine; McCall and Weeks, of Massachusetts; Perkins, Jouthwick and Vreeland, of New York; and Sibley, of Pennsylvania. Sullivan, of Massachusetts, voted "present," and was not paired. There were 28 members paired, but these pairs were generally political ones. None of them was made upon the bill, and consequently did not indicate opposition.

**New Naturalization Bill.**

Washington, Feb. 6.—The house committee on immigration and naturalization practically agreed today on the Howell naturalization bill in a slightly amended form.

**Spanish Trade Growing.**

Washington, Feb. 13.—Trade of the United States with Spain and Portugal amounted in the fiscal year 1905 to over \$54,000,000, according to a report issued by the department of commerce and labor. Of this, \$15,000,000 was imports and \$39,000,000 exports. Of the imports, \$6,500,000 was from Portugal and \$8,500,000 from Spain. Of the exports, \$2,000,000 went to Portugal and \$17,000,000 to Spain. Imports from Portugal have greatly increased during the last few years, while the exports to that country have declined.

**Germany Hopes for Agreement.**

Berlin, Feb. 7.—It was reported in commercial circles today that a tariff arrangement between Germany and the United States, to last one year, had been agreed upon, but inquiry at the American embassy and at the foreign office established the falsity of the report. The foreign office, however, apparently is more hopeful now. The officials expect that some sort of an agreement will be reached before the end of the month.

**Wallace Before Committee.**

Washington, Feb. 6.—John F. Wallace was before the senate inter-oceanic canal committee today and made a statement regarding the severance of his relations with the Canal commission. In it he spoke of the violent attack of Secretary Taft and Mr. Cronin, the only basis of which, he said, a difference of opinion between himself and Taft and Cronin was to his right to decide when he thought the welfare of the enterprise and his own justified his resignation. He was liable to be dismissed at any time.

**Taft's Plea for Philippines.**

Washington, Feb. 6.—Secretary of War Taft today was heard before the senate committee on Philippines in favor of the Philippine tariff bill. The obligations of the United States to the islands provided the theme for an earnest appeal made with an emphasis that he has not ordinarily exhibited in addressing committees of congress. The islands are being used for the purpose of improving business in the United States, he declared, and he asked where was the justice a guardian should show his wards.

**Jones Wants Experimental Farms.**

Washington, Feb. 6.—Representative Jones introduced a bill appropriating \$120,000 to establish and maintain experimental farms in Washington to determine the kind of crops best adapted to various parts of the state. Mr. Jones also secured an order from the Agricultural department for the drainage of 30,000 acres of swamp land in Stevens county. The land, when drained, will be valuable agriculturally.

**Reserve Policy Live Issue.**

Washington, Feb. 13.—Senator Heyburn's three hour speech in denunciation of President Roosevelt's forest reserve policy will probably have the effect of making forest reserves a live issue which must be met and disposed of by congress at the present session. The speech of the Idaho senator was a full and complete argument on the side of the opposition; it was severe in its arraignment; it was caustic in its criticisms.

**The Jar of Coughing**

Hammer blows, steadily applied, break the hardest rock. Coughing, day after day, jars and tears the throat and lungs until the healthy tissues give way. Ayer's Cherry Pectoral stops the coughing, and heals the torn membranes.

**Deafness Cannot Be Cured**

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness cured by Catarrh. It cannot be cured by Hall's Catarrh Cure. Send for circulars free.

**A Twice-Told Tale.**

A Massachusetts lawyer has a notorious treacherous memory for details. This failing occasionally leads him to gamble a joke in repeating it. Recently he met a friend, who, clapping him upon the shoulder, said enthusiastically: "Well, old man, this is a fine day for the race, isn't it?"

"Why, what race?"

"The human race," said the friend—and fled.

This was the first time the lawyer had ever heard this very ancient joke, so he determined to get it off on the next man he met—and he did, in this manner:

"Hello, Godfrey, isn't this a fine day for the trot?"

"Trot—what trot?"

"By gad," stammered the lawyer, "I swear there was a joke there, but I can't find it now!"—Lippincott's.

**Her Little Mistake.**

"Excuse, madame," he said, "but—ah—you remember, in the restaurant, after the theater, the other night, you were kind enough to notice me. I hope I am not mistaken in supposing that your interest was—ah—not altogether—"

"Oh, no, not at all. I remember now. I thought for a moment that you were the coachman my husband discharged a few weeks ago for trying to hake love to the cook, and I wondered how you could afford to eat in such an expensive place."—Denver Post.

**When Lincoln Won His Spurs.**

Leaving the question of his relative standing in the profession at large for further consideration, it is confidently submitted that Lincoln was a creditable position at the local bar, almost at the outset of his career, among contemporaries who were not only capable lawyers, but men of exceptional force and character. Indeed, it is exceedingly doubtful if the bar of any other State in the Union possessed as much native talent and ability as the frontier State of Illinois when Lincoln won his spurs.—Century.

**DOCTOR CASCARET**

Office - In your own Vest Pocket

On call any Minute - Day or Night

When Heartburn, Sour Stomach, Headache, Bad Breath, Coated Tongue, Belching of Stomach Gas, or any of these forerunners of indigestion appear, Old Dr. Cascaret wants to be right on the spot in your pocket.

He wants to check the coming trouble instantly before it can grow into a habit of the Bowels to be costly.

Ladies, who extend to Dr. Cascaret the hospitality of their Purses or their Dress Pockets, will be rewarded with a fine complexion, and healthy Happiness.

These will about fifty times repay for the trifling space occupied, and the ten cents per week at cost.

Dr. Cascaret guarantees to cure the most obstinate cases of Constipation and Indigestion, without discomfort or inconvenience.

His medicine does not gripe nor purge, nor create a drug habit.

Because it is not a "Bile-driver," nor a Gastro-Juice Waster, but a direct Tonic to the Bowel Muscles.

It exercises naturally the muscles that line the walls of the Intestines and Bowels.

Want of Exercise weakens and relaxes these Bowel-Muscles, just as it weakens Arm and Leg muscles.

Old Dr. Cascaret goes directly after these Bowel-Muscles. He wakes them up just as a cold bath would wake up a lazy person.

**"First Aid" to the Bowels**

Then he works them (through the nerves) till they get so strong from that Exercise that they don't need any more help to do their duty.

But Dr. Cascaret wants to be right on the spot, in your Pocket or Purse, where he can regulate these Bowel-Muscles all the time, in health, and out of health.

Because, even the strongest Bowel-Muscles may be overworked.

Heavy dinners, late suppers, whiskey, wine, or beer drinking, nervous excitement, sudden exposure to cold or heat and a dozen other every day little habits tire the Bowel Muscles.

In such cases a little Cascaret in time is worth fifty dollars worth of Treatment later on, to say nothing of the suffering, discomfort, loss of Business Energy, and loss of Social Sunshine it saves.

Old Dr. Cascaret carried constantly in your Pocket, or in "My Lady's" Purse is the cheapest kind of Health-Insurance, and Happiness—Promotion, that ever happened.

Little thin enamel Cascaret Box, half as thick as your watch, round-cornered, smooth-edged, and shaped so you don't notice its presence.

Contains six Candy tablets—Price Ten Cents a Box at any Drugstore's.

Be sure you get the genuine, made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "C.C.C."

**BLOOD POISON THE BLACK FLAG**

The black flag is an emblem of horror and dread. When it is hoisted by an army, the order has gone forth that "no quarter" will be given, everything must be destroyed. Helpless women and children, as well as opposing soldiers, meet the same fate, and a trail of desolation, suffering and death is left behind. Contagious Blood Poison is the black flag of the great army of disease. This vile disorder is known as the blackest and most hideous of all human afflictions, overthrowing its victims and crushing out the life. It is no respecter of persons; no matter how pure the blood may be or how innocently the disease is contracted, when this awful virus enters the circulation the hideous, hateful and humiliating symptoms begin to appear, and the sufferer feels that his very presence is polluting and contaminating. Usually the first sign of the disease is a little sore or ulcer, but as the blood becomes more deeply poisoned the severer symptoms are manifested, the mouth and throat ulcerate, the glands in the groins swell, a red rash breaks out on the body, the hair and eyebrows come out, and often the body is covered with copper-colored spots, pustular eruptions and sores. In its worst stages the disease affects the nerves, attacks the bones and sometimes causes tumors to form on the brain, producing insanity and death. Not only those who contract the poison suffer, but unless the virus is driven from the blood the awful taint is handed down to offspring, and they are its innocent victims. Blood Poison is indeed a "black flag." Mercury and Potash, so often used, never can cure the trouble. These minerals merely drive the symptoms away for awhile and shut the disease up in the system, and when they are left off it returns worse than before. This treatment not only fails to cure blood poison but eats out the delicate lining of the stomach and bowels, produces chronic dyspepsia, loosens the teeth and frequently causes mercurial rheumatism to add to the patient's suffering. S. S. S., the great vegetable medicine, is the conqueror of this vile disease. It goes down to the very root of the trouble and cures by cleansing the blood of every particle of the poison. S. S. S. does not hide or cover up anything but clears the entire circulation of the virus and puts the system in good healthy condition. It cures safely and as certainly, because there is not a particle of mineral in it. We offer a reward of \$1,000.00 for proof that S. S. S. is not purely vegetable. When the blood is purified and strengthened with this great remedy the symptoms all pass away and no sign of the disease is ever seen again; nor is there left the trace to be handed down to posterity. Special book with instructions for self-treatment and any medical advice desired will be sent without charge to all who write.
