

Spring Medicine

The best is Hood's Sarsaparilla. It is the best because it does the most good. While it makes the blood pure, fresh and lively, it tones the stomach to better digestion, creates an appetite, stimulates the kidneys and liver, gives new brain, nerve and digestive strength.

An unlimited list of wonderful cures—40,366 testimonials in the past two years—proves its merit. In buying medicine always *get the best*—get Hood's.

Sold everywhere.
Liquid or tablets, 100 Doses B.

The Inevitable.
Porkand (of Chicago, showing friends his new residence)—Now, what do you think of that for a Looney-Quint dining room? I guess them Astor-Astor hotels ain't got nothing on that, eh?

Friend (from New York)—I should say not! By the way, you have not shown me the library?
Porkand—Lib'ry? Wake up, wake up! Why, Carnegie's made 'em so common, all the best families are cutting 'em out!—Puck.

A GUARANTEED CURE FOR PILES.
Itching, Bleeding, Protruding Piles. Druggists are authorized to sell if PAIN OINTMENT fails to cure in 10 to 14 days. 50c.

Electric fishes, exposed to the action of radium, have been found to lose their electric power completely, and to suffer in health.

FITS Permanently Cured. No more nervousness. After first day's use of Dr. King's Great Nerve Restorer, send for Free 82 trial bottle and treatise. Dr. R. H. King, 149 N. 10th St., Philadelphia, Pa.

A cremated adult human body leaves a residuum of gray ashes which altogether do not weigh more than about two pounds.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. S. S. S. Cures, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to 50. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc. Hall's Family Pills are the best.

President Diaz is not so wealthy as accredited. His fortune is short of a million.

Sliding seats were first used in rowing races in 1873.

Paris has the largest debt of any city in the world. It amounts to \$400,000,000.

IN THE NATIONAL HALLS OF CONGRESS

Monday, March 26.

Washington, March 26.—Following the president's suggestion, the house today passed resolutions to correct the needless printing of documents and to empower the printing committees of the two executive bodies to fix the number of documents to be printed, and, should a demand arise for additional copies of a publication, then to have authority to order another edition. It was claimed this action would result in saving the government upward of \$1,000,000 annually. Nearly the entire day was devoted to District of Columbia business.

The fortifications appropriations bill was sent to conference.

Washington, March 26.—There was a hint in the senate today at an effort to fix a time for a final vote on the railroad bill, but it was surrounded by so much circumspection and doubt that no prediction as to the time would be justified. Tillman stated that he would bring the matter up tomorrow, unless objection was made, he may ask to have a day specified. The suggestion as to a time arose in connection with the more-serious effort on the part of a number of senators to secure immediate consideration of amendments offered by themselves.

Saturday, March 24.

Washington, March 24.—Hazing at the Annapolis Naval academy was dealt with by the house today in the passage of a senate bill with a house substitute. The action was taken after a protracted debate, which placed on record the impressions of the special committee which investigated the subject recently and a severe criticism by Hepburn of efforts to condone hazing. Several amendments were proposed, but all were rejected save one, it being the duty of cadet officers, as well as other cademy authorities, to report infractions of the rules. The bill repeals that portion of existing laws which makes it compulsory to dismiss midshipmen guilty of hazing in any degree, and substitutes punishment according to the nature of the offense. Cruel and brutal hazing may be punished by dismissal. Provisions for consideration of the hazing bill, 265 pension bills were discussed and passed.

Friday, March 23.

Washington, March 23.—Spooner today concluded his speech in the senate on the railroad rate bill, and the fortifications appropriation bill was taken up and passed. It carries an appropriation of \$125,000 for the erection of a powder manufactory, and Daniel spoke at length in support of the provision. He declared that the nation was entirely at the mercy of a powder trust, and urged that the amendment should be adopted as a safeguard. As passed, the bill carries an appropriation of \$5,278,993. Tillman also spoke on the railroad rate bill, suggesting that the Interstate Commerce commission should have authority to enjoin the railroads from increasing their rates. He said the suggestion had been made by a "corn field lawyer" in Oklahoma.

The following bills were also passed: Creating a steamboat inspectors' district in Alaska; providing for filling in the naval station at Honolulu; authorizing the Chicago, Milwaukee & St. Paul railroad to construct bridges across the Missouri, Yellowstone, Snake and Columbia rivers.

Washington, March 23.—The consideration of the legislative appropriation bill in the house today was enlivened by a small spat between Prince and Tawney, a proposition to buy a private car for the president, which was ruled out of order, and a jarring speech by Smith, of Arizona, about the suppression of debate by the rules. An echo of the statehood controversy yesterday resulted in an effort to correct the journal. Williams maintained he was put in the ridiculous position of moving to instruct the conferees after they had been appointed, a motion clearly out of order at that time. The correction was made as suggested.

Thursday, March 22.

Washington, March 22.—The statehood bill was taken from the speaker's table in the house today, placed in the hands of three selected conferees and a request made of the senate for a conference on the disagreeing votes of the two houses. This action was not accomplished without many words and votes. It was developed, however, that

Washington, March 22.—The statehood bill was taken from the speaker's table in the house today, placed in the hands of three selected conferees and a request made of the senate for a conference on the disagreeing votes of the two houses. This action was not accomplished without many words and votes. It was developed, however, that

Wednesday, March 21.

Washington, March 21.—The entire day in the senate was devoted to the consideration of the railroad rate bill. Culberson began the proceedings by presenting an amendment prohibiting corporations coming under the operation of the proposed law from making campaign contributions and he was immediately followed by his colleague Bailey, who offered an amendment so long omitted by him and followed this action with a speech in which he explained that he would not now present the amendment but for the fact that Dooliver had referred to and criticized it in an interview. He indicated some displeasure over the interview, but exonerated Dooliver from discourtesy in the matter. The Iowa senator disavowed any intention to reveal a secret and the incident was closed pleasantly. Both Bailey and Dooliver made speeches reiterating their views and they were followed by more or less extended remarks by Tillman, Patterson, Heyburn and Knox. Bailey was interrupted in the middle of his speech by the announcement of his father's death, and immediately left the senate chamber.

Washington, March 21.—Representative George R. Patterson, of the Twelfth Pennsylvania district, died suddenly here today. Heart failure is ascribed as the cause of death. The house adjourned immediately after it was called to order, out of respect for Mr. Patterson. The statehood bill will be taken up tomorrow.

Tuesday, March 20.

Washington, March 20.—In less than 20 minutes the senate voted away \$140,000,000 of the public funds. The sum is carried by the pension appropriation bill, which brief document was made the subject of very little discussion. The railroad rate bill was laid aside for the day and the major portion of the time was devoted to the consideration of the fortification bill. In that connection the question of the necessity for seacoast fortifications in the Philippines was discussed at length with the result that all provisions for such fortifications in these islands was eliminated. The consideration of the measure was not concluded. There was also a brief discussion of the power of the conference committee to amend the bill providing for punishment for premature divulgence of government secrets so as to make the inhibition extend to senators and members of the house of representatives, but the subject was left undisposed of for the time.

Washington, March 20.—The house of representatives today did business with a microscope in one hand and the bill making appropriations for the salaries of its officers and employees in the other. The result was that, although 5 1/2 hours were spent in reading the legislative appropriation bill for amendment, less than 25 pages were completed. The spirit of economy in little things was all absorbing. Points of order were made and many of them were fatal to proposed increases in the salaries of officers, janitors, doorkeepers, messengers and laborers.

Monday, March 19.

Washington, March 19.—The house today passed resolutions to correct the needless printing of documents and to empower the printing committees of the two executive bodies to fix the number of documents to be printed, and, should a demand arise for additional copies of a publication, then to have authority to order another edition. It was claimed this action would result in saving the government upward of \$1,000,000 annually. Nearly the entire day was devoted to District of Columbia business.

There were votes enough to carry out the program of the leaders. Then followed 40 minutes of fiery speeches, some of which provoked much amusement among the large attendance of members and the crowded galleries. Then came the final vote on the adoption of the rule, which 175 members approved and 156 opposed.

The legislative appropriation bill constituted the subject for the remainder of the day. Criticism was made of the management of the library of congress, and Hardwick, of Georgia, found himself opposed by members of both sides of the chamber in his endeavor to restrict the white house appropriation so as to eliminate a social secretary for the wife of the president.

Washington, March 22.—The railroad rate bill occupied practically all of the time of the senate today. There were two speeches, one by Lodge and the other by Spooner. Lodge spoke in advocacy of his amendment, looking to the enlargement of the Interstate Commerce commission, and in doing so replied sharply to some recent utterances of Commissioner Prouty. Spooner devoted his attention to the constitutional powers of the inferior courts, contending that these courts could not be destroyed nor their jurisdiction taken from them.

Washington, March 21.—The entire day in the senate was devoted to the consideration of the railroad rate bill. Culberson began the proceedings by presenting an amendment prohibiting corporations coming under the operation of the proposed law from making campaign contributions and he was immediately followed by his colleague Bailey, who offered an amendment so long omitted by him and followed this action with a speech in which he explained that he would not now present the amendment but for the fact that Dooliver had referred to and criticized it in an interview. THE KING OF BLOOD PURIFIERS

No other remedy has given such perfect satisfaction as a blood purifier and tonic or is so reliable in the cure of blood diseases of every character as S. S. S. It is known as "The King of Blood Purifiers," and the secret of its success and its right to this title is because "IT CURES DISEASE." It is an honest medicine, made entirely of purifying, healing roots, herbs and barks, which are acknowledged to be specifics for diseases arising from an impure or poisoned condition of the blood and possessing tonic properties that act gently and admirably in the up-building of a run-down, weakened or disordered condition of the system.

One of the greatest points in favor of S. S. S. is that it is the only blood remedy on the market which does not contain a mineral ingredient of some kind to derange or damage the system. It is the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family, and persons who have allowed their systems to get in such condition that most medicines are repulsive to the stomach will find that S. S. S., while thorough, is gentle and pleasant in its action, and has none of the nauseating effects of the different mineral mixtures and concoctions offered as blood purifiers.

As every part of the body is dependent on the blood for nourishment and strength, it is necessary that this vital fluid be kept free from germs and poisons. So long as it remains uncontaminated we are fortified against disease, and health is assured; but any impurity, humor or poison acts injuriously on the system and affects the general health. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that continue to grow worse as long as the poison remains.

But all blood diseases are not acquired; some persons are born with an hereditary taint in the blood and we see this great affliction manifested in many ways. The skin has a waxy, pallid appearance, the eyes are often weak, glands of the neck enlarged, and as the taint has been in the blood since birth the entire health is usually affected.

In all blood troubles S. S. S. has proved itself a perfect remedy and has well earned the title of "KING OF BLOOD PURIFIERS." It goes down into the circulation and removes all poisons, humors, waste or foreign matter, and makes this stream of life pure and health-sustaining. Nothing reaches inherited blood troubles like S. S. S.; it removes every particle of the taint, purifies and strengthens the weak, deteriorated blood, and supplies it with the healthful properties it needs and establishes the foundation for good health. As a tonic this great medicine has no equal, and it will be found especially bracing to weak, anemic persons. Rheumatism, Catarrh, Sores and Ulcers, Skin

Diseases, Scrofula, Contagious Blood Poison and all other blood troubles are cured permanently by S. S. S., and so thorough is the cleansing of the blood that no trace of the disease is left to break out in future years or to be transmitted to offspring. If you are in need of a blood purifier get "THE KING" of them all, S. S. S.—and good results are assured. Book on the blood and any medical advice desired furnished without charge to all who write.

It penetrates to the seat of torture, and relief promptly follows. Price, 25c. and 50c.

To Get More Strength from Your Food

LOTS of people are starving with a full stomach. You know, it's not how much we eat, but how we digest that makes us Strong, or Brandy, or Successful.

When the Bowels are filled with undigested food we may be a great deal worse off than if we were half starved for want of Food.

Because, food that stays too long in the Bowels decays there, just as if it stayed too long in the open air.

Well, when food decays in the Bowels, through delayed and overdue action, what happens?

The millions of little Suction Pumps that line the Bowels and Intestines then draw Poison from the decayed Food, instead of the Nourishment they were intended to draw.

This Poison gets into the blood and, in time, spreads all over the body, unless the Cause of Constipation is promptly removed.

That Cause of Constipation is Weak, or Lazy, Bowel Muscles.

When your Bowel-Muscles grow flabby they need Exercise to strengthen them—not "Physic" to pamper them.

There's only one kind of Artificial Exercise for the Bowel-Muscles. Its name is "CASCARETS," and its price is Ten Cents a box.

Cascarets act like Exercise on the Muscles of the Bowels, and make them stronger every time they force these Muscles to act naturally.

The stronger these Muscles propel the food, the stronger does the friction of the food act on the flow of Digestive Juices.

The more of these Juices that act on food, the more Nutrition does that food turn into, and the richer nourishment do the little Suction Pumps of the Intestines draw out of it.

Don't fail to carry the Vest Pocket Cascart Box with you constantly.

All Druggists sell them—over ten million boxes a year, for six years past. Be very careful to get the genuine, made only by the Sterling Remedial Company and never sold in bulk. Every tablet stamped "CCC."

FREE TO OUR FRIENDS! We want to send to our friends a beautiful French-designed, GOLD-PLATED BONDON BOX, hard-mounted in colors. It is a beauty for the dressing table. Ten cents in stamps is asked as a measure of good faith and to cover cost of Cascarets, with which this Satisfy trinket is loaded. Send to-day, mentioning this paper, Address: Sterling Remedial Company, Chicago or New York.

SILVER FILINGS
Often times a silver filling is so well visible that you'd think some dentist used the material allowing the most profit to themselves. You have to leave this to the judgment of the dentist. Why not go to dentists who have built and maintained a reputation for reliability? examinations free.
