

Spring Humors

Impure or effete matters accumulated in the blood during the winter cause in the spring such disfiguring and painful troubles as boils, pimples, and other eruptions, also weakness, loss of appetite and that tired feeling.

The best medicine to take to rid yourself of them is Hood's Sarsaparilla, which thoroughly cleanses the blood, and effects permanent cures by giving healthy functional activity to the stomach, liver, kidneys, bowels and skin.

This is the testimony of tens of thousands who have taken this great spring medicine.

Accept no substitute for Hood's Sarsaparilla, but insist on having Hood's and get it today.

A REAL KING IN AMERICA.

Man of Great Ambition and Wealth
Could Make Potatoes Cringe.

What about these sons of the rich, these princes of our money aristocracy? How much chance is there that one of them will develop the genius of the founder of his line, and instead of squandering millions will accumulate tens of millions; instead of living in useless luxury on his income will prove himself a force in the industrial and financial world, a man able to fight and conquer like his father or grandfather?

Extraordinary happenings are always unexpected, yet once in a century or so, like the advent of a mighty conqueror or reformer, they do come to pass. And if there should arise in this land a man of thirty or forty who, starting with two or three billions (owned or controlled by him) should be great enough to brush aside the trammels of indolence and temptation, great enough to see that never in modern times has there been offered to a man, not even to Napoleon, so stupendous a chance as this to wield absolute power, great enough finally to use his two or three billions to its full potentiality, then—well, there would surely be interesting history made in that man's lifetime! We have had our iron kings, railroad kings, copper kings, sugar kings and others, but there is one kind of king we have not had yet. A real king? Yes, for how long, pray, would this republic stand against the aggressions of such a man, a great-minded despot without conscience or bounds to his ambition, one in comparison to whom our Rockefeller and Carnegies would seem like millionaire beginners? Already our billionnaire magnates have begun to buy our courts and legislatures, to corrupt our cities, to debauch the public conscience; he would finish the work and do it thoroughly, he would make the laws, own the newspapers, subsidize churches and colleges, mold public opinion, direct the machinery of justice, control the industries, the banks, the insurance companies, the conditions of labor, regulate supply and demand, fix prices, absorb profits, centralize everything, be everything. Why not? Even as things are, has the world any king more powerful than J. P. Morgan or John D. Rockefeller? Remember how Europe cringed to Mr. Morgan at his last visit, with emperors seeking his favor and princes waiting at his door. A real king? Why, we practically have two of them already!—Cleveland Moffett in Success Magazine.

Broken and Mended.
On swept the little red automobile that was built for two.

"You—you seem so quiet," whispered the beautiful girl, anxiously. "Is there anything about this machine that is broken?"

"Yes," hissed the tall man at her side, bitterly. "My heart."

Feeling remorseful at having jilted him so cruelly the beautiful girl leaned over and added:

"Cheer up, George! If your heart is really broken we can stop at a repair shop."

"Nonsense! What kind of a repair shop could mend a broken heart?"

"Why, the parsonage, George!"

Twenty minutes later the "repair shop" was reached.

"Well, what is she, then, if she isn't a liar?" challenged the indignant champion of truth.

The ancient preceptress and gentleman sighed, and did not answer at once. Then she admitted, with delicate but reluctant indirection, "I am afraid my dear, that Henrietta is addicted to hyperbole."—Youth's Companion.

Identification Necessary.
"Is your mistress at home," inquired Mrs. Borem, standing in the shadow of the doorway.

"I don't know, ma'am," replied the servant. "Can't tell whether she's home or not till I get a good look at ye."

He lay a wart on the side of yer nose, ma'am, she ain't!—Philadelphia Ledger.

IN THE NATIONAL HALLS OF CONGRESS

Monday, April 2.

Washington, April 2.—The amendment to the house railroad rate bill agreed to at the White House Saturday by friends of the bill, providing for a limited review of orders of the Interstate Commerce commission, was offered in the senate today by Long of Kansas, but he was not able to get the floor to make his speech. The principal speech was made by Fulton, of Oregon, who spoke for the bill. It was a legal argument bearing upon the constitutional questions involved, and interruptions were so frequent that the speech amounted to a debate on law points, where the speaker divided time with the majority of the lawyers of the senate. Nelson, of Minnesota, and Heyburn, of Idaho, made brief speeches on the bill.

Washington, April 2.—Chief among the measures passed by the house today was the so-called "personal liability" bill, which has been favored by the array of railway employes throughout the country, and which practically had a unanimous report from the committee. Members of the house showed great interest in the measure, and had a division been called for, the bill would have had an almost unanimous vote. Another measure changing existing law which excited a blustering opposition, was the bill permitting the fortification of sweet wines and levying a tax of 3 cents a gallon on all wines thus fortified. A number of bills were passed under suspension of the rules.

The personal liability bill makes each party responsible for its own negligence. It also renders void any contract intended to restrict the liability of the employer for the negligence of employees.

Saturday, March 31.

Washington, March 31.—This being war claim day in the house, only those directly interested in the legislation in the private calendar were in attendance. The house during the four hours it was in session considered and passed 179 bills, many, however, sending the particular claim to the court of claims for adjudication.

Previous to taking up the calendar a bill was passed granting to the Capital City Improvement company, of Helena, Montana, the right to construct a dam across the Missouri river in Montana.

A bill to pay the claim of the French Trans-Atlantic Cable company for \$77,712, growing out of the cutting of cables during the Spanish war, was passed.

Another bill recalling the war with Spain which attracted little or no attention was that appropriating \$13,694 to the Ferro Carries Railroad company, of Porto Rico, for mail service performed by this company during the military occupation by the United States. The bill was passed.

Friday, March 30.

Washington, March 30.—The house today passed the legislative, executive and judicial appropriation bill, carrying \$30,000,000, after considering the measure two weeks. The feature of today's proceedings was the elimination of the age limit of clerks, a provision which created much discussion and which incited the fight against the bill. The bill as passed carries nearly \$700,000 less than the last appropriation bill for similar purposes.

Thursday, March 29.

Washington, March 29.—The senate today listened to speeches on the railroad rate bill by Clay, Carmack and Hale, and passed a bill which provides for the reorganization of the medical department of the army by authorizing the appointment of officers to take the place of contract surgeons. All the senators who spoke on the rate bill indicated a purpose to support it, but Clay expressed the hope that it would be amended so as to afford a limited court review of the orders of the Interstate Commerce commission. Hale criticized the military medical bill, saying it showed a tendency to increase the army, which was not desirable in time of peace.

Culberson presented and had the clerk read a memorial from the Cattle-raisers' association of Texas, urging the passage of the railroad rate bill as it came from the house.

A bill was passed authorizing the erection of three life saving stations on the coast of Washington between Cape Flattery and Gray's harbor. The senate adjourned until Monday.

Square Deal in Alaska.

Washington, April 2.—The secretary of the interior today sent to congress a draft of a bill which he recommends to be passed providing that, whenever mineral entries are made in Alaska, six months' notice shall be given instead of 60 days, as at present. Under existing laws it has become a common practice, particularly in remote mining districts, for entrymen to hold off until the mails are virtually closed by bad weather and then forward their notices to Juneau. In this manner persons wishing to institute a contest are precluded.

St. Paul Bridge Bills Pass.

Washington, March 27.—The house today passed three of the six bills authorizing the Chicago, Milwaukee & St. Paul railroad to bridge navigable streams between Chamberlain, S. D., and Pudget sound. Strange to say, the three Washington bills introduced by Cushman were not passed, because Cushman, who is a member of the committee to which they were referred, was not on hand to see that they were reported or call them up in the house for passage. The bills will no doubt go through.

Repay Adams' Stealings.

Washington, March 27.—Senator Pileo today introduced a bill authorizing the appointment of a commissioner to ascertain the losses sustained by various persons who were robbed by George E. Adams, the defaulting cashier of the Seattle assay office. The bill provides that the findings of this commissioner shall be final, and that congress shall make a sufficient appropriation to pay the losses, in the event that Adams' property fails.

Washington, March 29.—Today was a busy day for the house, considerable progress having been made on the executive, legislative and judicial bill. The committee on appropriations suffered a defeat, the committee of the whole, by a vote of 88 to 22, expunging a paragraph from the bill which was alleged to be properly part of the postoffice appropriation bill. An increase of \$10,000 over the appropriation carried by the bill was voted for confidential agents of the interior department to aid in ferreting out land frauds.

Wednesday, March 28.
Washington, March 28.—Knox made his first speech in the senate today. He spoke on the railroad rate question, and dealt almost exclusively with the legal features of the problem. When he concluded the senate entered upon the consideration of the conference report on the bill regarding the final disposition of the affairs of the five civilized tribes of Indians and much objection was expressed by many of the changes. Several senators, including La Follette, Clark, of Wyoming, and Tillman, expressed disapproval of the conference provision authorizing the secretary of the interior to lease land.

Washington, March 28.—The president today transmitted to the house the report of Assistant Secretary of State Herbert H. D. Peirce, regarding the consular service in the Orient. The visit of Mr. Peirce included many cities, but his severe criticism is reserved for ex-Congressman McWade at Canton, and Consul Williams at Singapore. The charges against McWade, ex-consul at Canton, are drunkenness, employment of a felon, issuance of fraudulent Chinese certificates, extending protection to Chinamen who claim to be American citizens, persecution of American citizens for purposes of revenge, and corruption in office. The charges against Goodnow are 82 in number, some serious and some slight. Some are sufficient to support suits at law and give evidence of corruption in office. The opinion of the better element was unfavorable to him in Shanghai.

Tuesday, March 27.
Washington, March 27.—Tillman and McCumber divided the time of the senate today, the North Dakota senator devoting himself to the railroad rate question exclusively and the South Carolina senator discussing various questions. Tillman made a special inquiry concerning the status of his resolution relative to the use of national bank funds in politics, and incidentally spoke of District Attorney Jerome's recent utterances and of Judge Humphrey's decision in the beef trust cases, declaring in the latter matter that the decision against the attorney general had merely repeated what he had seen in the case of ex-Secretary Paul Morton.

Foraker defended Judge Humphrey and Tillman declared that he had not meant to attack the judge, but the law. McCumber picked innumerable flaws in the rate bill, predicting that, if enacted into a law, it would fall entirely on its face. He said that the public, he said, however, he would vote for the bill if properly amended.

Washington, March 27.—The house today witnessed a most unusual scene, the speaker rising on the floor in the midst of a spirited discussion on reciprocity and tariff revision and disclaiming responsibility for differences between minority members. It was toward the close of the debate on the urgent deficiency bill, which appropriated, among other things, for the forthcoming conference at Rio de Janeiro. The bill was passed.

On motion of Tawney, the legislative and judicial bill was taken up, when Prince, of Illinois, and Hardwick, of Georgia, resumed the tactics inaugurated last week by raising a point of order against every paragraph in which there was a departure from existing law. A half dozen points of order were made and sustained affecting the officers of the subsidiaries at New York, Philadelphia, New Orleans and St. Louis.

Washington, March 30.—General Luke E. Wright today took the oath of office as ambassador to Japan. He ceased to be governor general of the Philippines today. Henry C. Ide, of the Philippines commission, the present acting governor, will continue until April 2, when the will be inaugurated governor general.

Asks for Large Damages.
Washington, April 3.—The president has received a letter of 20 closely written pages from O. J. Markell, of Orville, O., who threatens to sue the government at once if he is not paid \$500,000 as damages for the blighting of the writer's literary prospects through various persecutions. Markell says that while in government employ he was nagged and tantalized by his fellow clerks and as an instance states that whenever his back was turned some clerk would exclaim, "damn you, I can lick you."

Bill for Cattle Shipping.
Washington, March 27.—The house committee on interstate commerce today favorably reported a substitute for Representative French's 36-hour livestock bill. The committee bill confers absolute power on the secretary of agriculture to regulate stock shipments, permitting him to extend or shorten the periods as he may deem proper. Under this bill, the secretary could continue to enforce the present 28-hour law, he could permit shipments for longer periods, or require unloading every eight hours, as demanded by some.

Money for Klamath Tribe.
Washington, April 2.—The Indian committee of the senate has attached to the Indian appropriation bill all the amendments offered by Senator Fulton. One appropriates \$537,000 to pay the Klamath Indians for lands relinquished to the government; another permits the sheepmen of Umatilla county to cross the Umatilla reservation with their flocks in going to and from the summer range in the Wenaha forest reserve.

THE WINNING STROKE

If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all-important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectually, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating, or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well worth considering in making purchases.

It is because of the fact that **SYRUP OF FIGS** is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists and that full name of the company—California Fig Syrup Co., is plainly printed on the front of every package. Regular price, 50c per bottle.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

According to Signs.
An Irishman was walking along a road beside a golf links when he was suddenly struck between the shoulders by a golf ball. The force of the blow, says a writer in the New York World, almost knocked him down. When he recovered he observed a golfer running toward him.
"Are you hurt?" asked the player.
"Why didn't you get out of the way?"
"An' why should I get out of the way?" asked Pat. "I didn't know there were any assassins round here."
"But I called 'fore,'" said the player, "and when I say 'fore,' that is a sign for you to get out of the way."
"Oh, it is, is it?" said Pat. "Well, then, when I say 'foive,' it is a sign that you are going to get hit on the nose."
"Foive."
