City Surely Doomed. Oakland, April 19 .- At 11 o'clock this morning San Francisco is a mass of ruins and the flames continue the work of destruction, obliterating the few remaining habitations. There is oakland has been placed under martial law. The San Pablo ferry was sunk by flying debris. All night the heavens were lighted by the light of the vast conflagration. This morning a mass of smoke marks the continunce of the destruction amid scenes of unspeak-able horror. The estimated loss in San Francisco will reach from \$150,000,000 \$200,000,000 in the town.
The limits of the fire at this hour are

onth street on the west, Townsend street on the south and Broadway on the north. Everything between these streets and the waterfront is devastated.

Day Dawns Hopeless San Francisco, April 19.—Day dawned on a scene of death and destruction. During the night the flames consumed many of the city's finest structures and spread in a dozen directions to the residence portions.

Theater Houses Homeless.

Oakland, April 19.—Thousands of refugees rendered homeless by the terrible calamity which has overtaken San Francisco, have come to this city. On learning of this, the Realty Syndicate at once offered Idora park for the use of those left without shelter by the earthquake. The offer has been accepted by the police and fire departments and 100 cost have been placed in the theater for the use of the refugees. SOON REOCCUPY BUILDINGS.

Steel Structures Only Had the In

San Francisco, April 23 .- Today The dreadful earthquake shock came without warning at precisely 5:13 o'clock this morning, its motion apparently being from east to west. At first the upheaval of the earth was gradual, but in a few seconds it increased in intensity. Chimneys began to fall and buildings to crack, tottering on their foundations. People became panic stricken and rushed into the streets, most of them in their night attire. They were met by showers of falling buildings, bricks, cornices and walls.

will be rushed to completion; the Claus Spreckels building on Market and soon as men can put in the lumber it will be ready for occupancy. The St. Francis Hotel is in the same category, cation was shut off for a time. The Western Union was put completely out of business, and the Postal company was the only one that managed to get a wire out of the city. About 10 o'clock even the Postal was forced to suspend and could, after slight repairs, be used

the woodwork in the interior being in-tact, and the owner, Herbert E. Law, announced tonight that within ten days he would be renting offices in this building. The Monadnock is a large structure of steel and brick almost completed when the fire came. Marble and lumber have been ordered from Los Angeles, and a big force of men will rush the building to completion.

STEEL MILLS ARE CROWDED.

Structural Material for Bay City May Be Made Abroad.

Pittsburg, Pa., April 23 .- According to Pittsburg steel men the rebuilding of San Francisco may be greatly retarded on account of the inability of Pittsburg steel mills to supply structural shapes for the new city. The Carnegie Steel Company and the Jones & Laughlin Compnay, the big independent con-cerns, are already so crowded that they have practically closed their order books of delivery of building material within eight months' time.

Never before in the history of structures has there been such a demand for material as this year, and it is feared that it will be well nigh impossible for the mills to take on additional work. According to the local steel men, the San Francisco people will be compelled to go to Great Britain and Germany for Major H. C. Tilden, of General Ro large amount of their building mate

The mills of Germany are busy at take on but little additional work. Those of Great Britain, however, will orders. On account of the high freight rates from the east to the Pacific Coast the foreign steel mills will be able to deliver structural shapes at San Fran-cisco as cheap and probably cheaper than the local mills will be able to do.

The Pennsylvania and Lackawanna Steel Companies and the Illinois Steel Company will be able to handle some of the work. It is believed that the lo-

The people were fed today in a thoroughly businesslike and systematic manner. From the water front, where the boats loaded with provisions dock-ed, there was an endless procession of carts and drays carrying food to the scores of sub-stations established throughout the city and parks. A these stations food and drink, bread prepared meats, canned goods, milk and a limited amount of hot coffee was served to all those who applied.

BLAZE LIGHTS MIDNIGHT SKY.

Conflagration Seen From Oakland Appears Unchecked.

Oakland, Cal., April 19. - (Midnight) - At this hour the light from burning San Francisco does not appear to have diminished, and is almost, if not quite, as brilliant as last night. Although the flames have swept their way three miles westward from the water front, the entire sky is illuminated by the glare of the unchecked conflagration. There is no wind and only the faintest suspicion of a breeze here tonight, but it is said there is a stiff breeze blowing over San Francisco. A gigantic column of smoke hangs over the desolated city, the apex forming fantastic shapes thousands of feet in the air and slowly drifting away to the northward.
