

Is Your Hair Sick?

That's too bad! We had noticed it was looking pretty thin and faded of late, but naturally did not like to speak of it. By the way, Ayer's Hair Vigor is a regular hair restorer. It keeps the scalp clean and healthy.

"I am well acquainted with Ayer's Hair Vigor and like it very much. I would especially recommend it as an excellent dressing for the hair, keeping it soft and smooth, and preventing the hair from splitting at the ends."—MRS. J. V. VEDDER, Ypsilanti, Mich.

IN THE NATIONAL HALLS OF CONGRESS

No Mystery at All.
"Speaking of strange and unaccountable experiences," remarked the man with the thin nose, "an incident occurred that happened to a friend of mine in the summer of '03, while he was at the Columbian exposition. He was in the Fine Arts building, looking at the picture they call 'Breaking Home Ties,' when he heard a voice behind him say distinctly, 'That's what is happening to your house, over on the west side.' He turned and looked to see who it was that spoke, and there was nobody near him."
"Is that all?" asked the man with the big eye.
"No; the strangest part is to come. When he went home in the evening he found that his youngest brother had eloped with the hired girl and gone to St. Louis. It had taken place, too, at the exact moment when he heard the voice. How do you explain that, or what was it? Was it telepathy? Or was it a spirit?"
"Humph! Who tells that story?"
"The man himself—like Stringham."
"O, Stringham tells it, does he? Why, you go ahead, that's the explanation!"—Chicago Tribune.

The new administration and jobbing house building erected by the W. L. Douglas Shoe Co. as a part of its mammoth manufacturing plant in Brockton, Mass., was dedicated June 19. The program included open house from 11 in the morning until 8 in the evening. There was a musical program and refreshments were served all day. Fifteen thousand invitations were sent out including over 11,000 retail dealers in the United States who handled the W. L. Douglas shoes. Mr. Douglas says that his three large factories, also the new building just dedicated, will always be open to inspection and visitors from everywhere will be welcome.
The new jobbing house just dedicated will enable hurry orders for Douglas shoes to be shipped the same day they are received. The new building is 260 feet long, 60 feet wide and two stories high. The jobbing department occupies the entire lower floor and the new offices of the Douglas Shoe company occupy the entire second floor. In the new building there will be special offices occupied by the Western Union and Postal Telegraph companies; also by the telephone companies and there is an elaborate mail department. The completion of this new administration building marks the establishment of a modern, up-to-date wholesale jobbing house and office building.
Mr. Douglas has long considered the advisability of a jobbing house, not only for the purpose of supplying his own retail stores more readily, but that the 11,000 dealers throughout the United States handling the W. L. Douglas shoes might be able to obtain shoes for immediate use with greater facility.
The new building is said to be the most complete and convenient of any ever built for a commercial house in the United States, so were the expressions of appreciation by the many persons who visited it for inspection sincere and of a highly congratulatory nature. Architectural beauty as well as adaptability to the uses to which it is to be put has been the aim in construction, and the result is most satisfactory to the visitor as well as the firm.

No Recombinance.
The Young Man (at the other end of the sofa)—"Er—It isn't true, I hope, Miss Pirtle, that you told Miss Gawsip I was a—sardine."
The Young Woman—If I did, Mr. Faintair, I take it back. You're not the least bit in the world like a sardine. You seem to be terribly afraid you are crowding somebody.—Chicago Tribune.

Uncle Allen.
"My boy," counseled Uncle Allen Sparks, "it is a mighty serious thing to be a young man these days, and to have to make your choice between Opportunity and Responsibility. That's where a lot of you go wrong."
In the Sweet Subsequent.
Reporter—It's to be a quiet wedding, isn't it?
Prospective Bridegroom (prominent ward heeler)—Yes, sir; de wedding 'll be quiet enough, but we're goin' to have de pol-whoppin' shivaree dat ever was pulled off in de precinct!"

TORTURED WITH GRAVEL.
Since Using Doan's Kidney Pills Not a Single Stone Has Formed.
Capt. S. L. Crute, Adjt. Wm. Watts camp, U. C. V., Roanoke, Va., says: "I suffered a long time with my back, and felt draggy and listless and tired all the time. I lost from my usual weight, 25 to 170. Urinary passages were too frequent and I had to get up often at night. I had headaches and dizzy spells also, but my worst suffering was from renal colic. After I began using Doan's Kidney Pills I passed a gravel stone as big as a bean. Since then I have never had an attack of gravel, and have picked up to my former health and weight. I am a well man, and give Doan's Kidney Pills credit for it."
Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Saturday, June 30.
Washington, June 30.—Promptly at 10 o'clock tonight, Vice President Fairbanks in the senate and Speaker Cannon in the house declared the final adjournment of the first session of the Fifty-ninth congress.
For the first time congress adjourned on the day which closed the fiscal year. Other sessions had adjourned before and some later June 30, but the Fifty-ninth congress ended its first session on the day when the government strikes its balances and closes its books.
The work of the first session of the Fifty-ninth congress is summed up as follows:
Railroad rate bill passed.
Pure food bill passed and meat inspection agreement passed.
Stricter naturalization laws passed.
Law providing immunity for witnesses in government inquiries passed.
Denaturalized alcohol bill removing internal revenue tax passed.
Lock treaty settled upon for Panama canal.
Consular service remodeled and reformed.
Total of nearly \$900,000,000 appropriated for various purposes.
"Largest battleship afloat" authorized, but naval increases receive setback.
Annual appropriation for state militia doubled; to be \$2,000,000 hereafter.
Bill to preserve Niagara Falls passed.
Puliphin tariff revised.
Employers' liability law passed.
Appropriation of \$1,325,000 for Jamestown exposition granted.
Appropriation of \$2,500,000 for relief of San Francisco fire sufferers granted.
Private pension bills in usual number passed.

Friday, June 29.
Washington, June 29.—"We're going home; we're going home tomorrow," was on the minds of the members of the house today when they assembled for the last day's work previous to adjournment. Conference reports were considered throughout the day. The final report on the agricultural appropriation bill, containing the meat inspection provision, was adopted, the senate eventually agreeing that the government should pay the cost of inspection.
Other matters of vital moment were the agreement to the conference report on the pure food bill, the Ohio and Lake Erie ship canal and naturalization bills.
Both houses of congress tonight adopted the conference report on the sundry civil appropriation bill and that measure now goes to the president for signature. Hale presented the report in the senate. The total amount carried in the bill as agreed to is \$98,257,184.
The senate receded on the amendment providing for a steel light vessel at Swiftsure bank, at the entrance to the Straits of Juan de Fuca, Washington.
The Jamestown exposition appropriation stays in the bill as arranged by the conferees.
The appropriation of \$3,000,000 for the building for the department of State, Justice and Commerce and Labor was stricken out, that being provided for in the public building bill.

Thursday, June 28.
Washington, June 28.—The senate consumed the greater part of the day discussing the public building bill. Efforts by several senators to secure increases for public buildings in cities and towns of their respective states were in no instance successful. For San Juan Puerto Rico, Senator Foraker secured an advance from \$200,000 to \$300,000. In reporting the bill, Senator Scott, chairman of the committee on public buildings and grounds, referred to it as "the pork barrel."
The agricultural bill reappeared in a partial conference report. The report was complete, except with reference to the meat inspection provision, and on that another conference was ordered.
There was some desultory discussion of the conference report on the pure food bill, but its disposition was postponed until tomorrow.

Wednesday, June 27.
Washington, June 27.—The senate was in open session for about five hours and a half today, and notwithstanding the session began with a roll call in order to assure a quorum, the day was crowded with business of importance, including the announcement by Senator Proctor, chairman of the senate committee on agriculture, of a deadlock in conference on the meat inspection provision of the agricultural appropriation bill; a reply by Senator Bailey to the recent attack upon him in the Cosmopolitan magazine; the passage of the naturalization bill; the continuance of Senator La Follette's effort to pass his bill limiting the hours of service on railroad trains, the acceptance of an almost complete report on the sundry civil appropriation bill, and a speech by Senator Warren in support of his resolution relative to the livestock industry.

Storm in Oklahoma.
Guthrie, Okla., June 26.—Two killed, extensive damage done to crops, houses demolished and a heavy loss among live stock constitute the sacrifice demanded by one of the worst general winterstorms in years that swept over Oklahoma and Indian Territory yesterday afternoon and last night. Thomas Graham, who lived near Roosevelt, Okla., was struck by lightning and instantly killed and the scorched body of Mrs. Tobin, near Perry, Okla., was found in a barn during the electrical storm.

Chicago Saloons Limited.
Chicago, June 26.—After July 31 of this year no more saloons than are then in existence can be opened in Chicago until the population of the city is nearly double that of the present time, according to an ordinance passed by the city council tonight. The ordinance limits the issuance of saloon licenses to those in force on the last day of July, prohibiting any new ones until the population has so increased that new licenses can be issued at the rate of one to every 500 persons. The measure received little opposition.

Flood in California.
Stockton, Cal., June 26.—Union island, containing ten square miles of the richest reclamation land in California and bearing heavy crops of potatoes, beans and asparagus, is being rapidly flooded from a break in the levee on Old river, which occurred at 1 o'clock this morning. At 9 o'clock the break had widened from 50 to 2,000 feet, and though a fleet of dredgers hastened to the scene, the situation seems hopeless. The damage cannot be estimated yet.

CUTTING NEW CHANNEL.
Colorado Flood Waters Now Flow Into Salton Sink.
Imperial, Cal., July 3.—Flood water from the Colorado river, finding its way into Salton Sink, has been cutting a new channel about 30 feet deep through the flooded country at the rate of about a third of a mile a day. As the channel has proceeded it has lessened the threatened serious damage to Calexico and Mexicali, the two towns on the international line.
Three or four days ago the river cut a channel across the line, passing Calexico at sufficient distance to relieve it from the pressure of water, but cutting into the Mexican town to the extent that the Southern Pacific depot was undermined and fell into the stream.
Three or four small adobe houses on the outskirts of the town have also gone into the water, but as yet the business portion remains intact. Whether the town will escape further damage cannot now be told. There is also a bare possibility that Calexico may be damaged, though this is now believed improbable.
Mexicali is a town of about 500 inhabitants, of neat appearance but of no large investments in buildings, the Southern Pacific railroad being the chief sufferer. Aside from the damage to these towns the water situation has seemed to improve from the standpoint of the Imperial valley.
The flood season is believed to be drawing to a close, and the Southern Pacific is accumulating a great force of teams and men on the lower Colorado with a view of turning the river back to its old channel when the water falls to the 20 foot level, which should be by July 20.

Wants Water Works Too.
Standard Oil Not Content With San Francisco Gas Monopoly.
San Francisco, July 3.—The Bulletin today says: The Standard Oil company is preparing to invade the local water field and give battle to the Spring Valley Water company, which has enjoyed a monopoly in San Francisco for more than 40 years. The Rockefeller concern is believed to be the purchaser of the Blue Lakes and Sierra Nevada Water & Power company. The price agreed upon is said to be \$5,000,000.
Standard Oil already controls the gas situation here, having purchased the plant of the San Francisco Gas & Electric company. It is now proposed not only to give San Francisco a new water supply system, but also to furnish power for the gas corporation and possibly to the United Railroads as well. It is also declared that the new system will supply Sacramento and Stockton, giving them light and power and a new water system.
E. A. Maxwell, president of the Sierra Nevada Water & Power company, says he is not in a position to give out the names of the men with whom he is dealing, and he cannot at this time say whether or not the Rockefeller interests have acquired the property.

MERELY UNDRILLED MOB.
Salvador Openly Supporting Guatemalan Revolutionists.
San Francisco, July 3.—Among the passengers on the steamer City of Panama, which arrived today from the isthmus, was George W. Phelps, a railroad official from Guatemala. Mr. Phelps believes that President Cabrera will be able to hold his own against the revolutionists, but this belief is not shared by his fellow passengers.
According to Phelps, Cabrera has 6,000 trained troops in the western part of the republic. The other passengers refuse to dignify the Guatemalan army to the extent of calling them troops at all.
"They are underdrilled and underdrilled," said one passenger, "and if they meet any real opposition will melt like hail in the sun."
When the City of Panama left San Jose it was understood that a division of the revolutionary army was crossing the Mexican border and that more rebel troops were pouring in from Salvador.
The officers of the City of Panama confirm the report brought by the City of Peking that Salvador was openly supporting the revolution, and was virtually at war with Guatemala.

Root to Visit South America.
Washington, July 3.—Secretary Root will accept the hospitality of Chile and make part of his trip along the west coast of South America in a Chilean warship. The United States cruiser Charleston, on which Secretary Root will sail for South America, is too large a craft to work its way along the inside passage from the strait of Magellan to Valparaiso, Chile, and as a result Secretary Root and his party will leave the Charleston at Sandy Point, in the strait of Magellan, and go aboard a Chilean man-of-war.
Regulations Are Changed.
Washington, July 3.—With a view to giving effect to the plans of Secretary Root for the regulation of a consular service on merit basis, and as far as divorcing it from political affiliations, the president issued an executive order making important changes in the method of appointment and promotion of officers in that service. According to the regulations made by the president, consular officers' salaries at more than \$2,500 are to be filled entirely by promotion from the lower grades, based upon ability and efficiency.

Money for Jamestown Exposition.
Washington, July 3.—The Jamestown Tri-Centennial exposition will receive government aid amounting to \$1,325,000, in addition to \$50,000 appropriated a year ago, as the result of the agreement by the senate and house on the sundry civil bill. An item of \$100,000 for the transportation of troops was struck out, but this expense will be paid from the appropriation of \$12,000,000 in the army appropriation bill.
Workmen Beat Government Spies.
St. Petersburg, July 3.—Detectives disguised as workmen were denounced and nearly battered to death with "knuckles" at a workmen's meeting today. They were removed to the hospital in a dying condition.

Varied Language in New Mexico.
Washington, June 26.—The senate today passed a bill regulating jury service in New Mexico after Senator Spooner, on behalf of the judiciary committee, had withdrawn the amendment which made it necessary that all jurors in that territory should speak the English language. Senator Spooner, author of the amendment, He stated today that the attorney general had told him that in 10 out of the 25 counties of the territory it would be utterly impossible to secure a jury if the amendment should become a law.

Extradition Cost \$100,000.
Washington, June 26.—It cost the government \$100,000 to extradite Greene and Gaynor and bring them to trial. This statement is contained in a letter written by Attorney General Moody to Chairman Tawney, explaining a request for a deficiency appropriation. Of this sum, he says \$22,500 is to be paid to foreign counsel in this case. "Their services," he said, "were completed during the current fiscal year by the return of Greene and Gaynor to Savannah for trial."

Bill for Government Buildings.
Washington, June 26.—The omnibus public building bill, as agreed upon by the house committee on public buildings and grounds, was presented to the house today by Chairman Bartholdt. Some of the appropriations are for additions and repairs. The buildings authorized, together with the amounts to be expended, include: Idaho—Moscow, \$100,000; Washington—Spokane, \$100,000; Tacoma, \$100,000; Bellingham, \$25,000; North Yakima, \$20,000.

THE GREATEST OF ALL TONICS

The ingredients that enter into S. S. S. and the method of combining and preparing them so that they build up and strengthen every part of the body, make it the greatest of all tonics. S. S. S. is nature's remedy—PURELY VEGETABLE—and while it is restoring the lost appetite, overcoming that tired, run-down feeling, and other ailments common to Spring, which warn us that it is necessary to take a tonic, it is purifying the blood of all poisons and waste matters so that it can supply to the system the strength and nourishment it needs to keep it in perfect condition during the depressing summer months that are to follow.
Spring is the season when most every one needs a tonic. It is nature's time for renewing and changing; and as everything puts on new life, the sap rises in vegetation, the earth thaws out from its winter freezes, and all respond to Spring's call to purge and purify themselves, there is a great change also takes place in our bodies. The blood endeavors to throw off the poisons and accumulations which have formed in the system, and been absorbed by it, from the inactive winter life, and calls upon every member to assist in the elimination. The system is often unequal to the struggle, the appetite grows feeble, the energies give way, the spirits are depressed, and a general run-down condition is the result.
Then the body must have assistance—it must be strengthened and aided by a tonic, and S. S. S. is the ideal one. Being made entirely from roots, herbs and barks, it does not disagreeably affect the system in any way as do most of the so-called tonics on the market, which contain Potash or some other harmful mineral ingredient to derange the stomach and digestion, unfavorably affect the bowels, or otherwise damage the health. S. S. S. tones up the stomach and digestion and assists in the assimilation of food; it rids the system of that always-tired, worn-out feeling, and imparts vigor and tone to every part of the body. It re-establishes the healthy circulation of the blood, stimulates the sluggish organs, and calms the unstrung nerves which make one feel that he is on the verge of prostration. S. S. S. gives an appetite and relish for food that nothing else does, and by its use we can find ourselves with as hearty, hungry an appetite in Spring as at any other season.
It acts more promptly and gives better and more lasting results than any other remedy, and is absolutely safe because of its vegetable purity. Dyspeptic, irritable, nervous, debilitated people will find S. S. S. is just the medicine that is needed for the purification of the blood, which, from its diseased or impure condition, is causing their trouble, as well as for toning up and helping the entire system. When you take your tonic this Spring do not experiment, but get the best—the tonic with forty years of success behind it, and the one endorsed by the best people all over the country—S. S. S., THE GREATEST OF ALL TONICS. It is necessary at this time, when the system is depleted and weakened at every point of Spring the system will be so built up and strengthened that the disagreeable affections of the season will not be felt as warmer weather comes on.

AN EFFORT TO PULL THROUGH THE DAY.
I have used S. S. S. quite extensively and unhesitatingly recommend it as the best blood purifier and tonic made. I am a machinist by trade and at one time my system was so run down that by 10 o'clock every day I would be completely exhausted, and it was with the greatest effort that I could pull through the balance of the day. Since taking S. S. S., however, all this has disappeared. I am a strong, vigorous man, abundantly able to do my day's work, my appetite has been whetted up so that I can eat anything, my sleep is sweet and refreshing, and I know further that it has purified my blood and put it in good condition. I cannot speak too highly of your great remedy, S. S. S., 817 W. Broad St., Columbus, O. A. B. MONTGOMERY.

SHE FOUND IT THE BEST SPRING TONIC.
On two occasions I have used S. S. S. in the spring with fine results. I can heartily recommend it as a tonic and blood purifier. I was troubled with headache, indigestion and liver troubles, which all disappeared under the use of S. S. S. My appetite, which was poor, was greatly helped. I can eat anything I want now without fear of indigestion, and my blood has been thoroughly cleansed of all impurities and made rich and strong again. As a tonic and blood purifier it is all you claim for it.
