MONEY FOR KLAMATH.

Hitchcock Adds \$1,000,000 to Fund

Washington, July 16.— The acting secretary of the Interior has transferred another \$1,000,000 of the reclamation fund for the Klamath irrigation project, making \$2,000,000 now immediately available for construction. The greater part of this will be spent in Oregon, a small portion of the irrigated land being in California. Work is being energetically pushed on the coning energetically pushed on the con-struction of the outlet tunnel from Kla-

math lake.

The secretary also pledges \$2,400,000 to complete the project. This additional money is to be available as soon as needed. This increase is the result of Senator Fulton's work during lest section.

This increased allotment is possible because the public land receipts for the past year greatly exceeded the department's estimates. While the returns are not complete, it is found that the receipts will exceed the estimates by more than \$2,000,000, and this increase has been divided among four states, Oregon and California on the Klamath project; Washington, whose increases have been heretofore announced, and Idaho, which gets additional money for

its two projects now building.

Doubling the cash allowance for the Klamath project opens the way for the letting of new contracts to reclaim land not included in the first unit, now unnot included in the first unit, now un-der construction. Just what work will be taken up next has not been fully de-termined. Much will depend on the recommendations of Engineer Henry, who now has full charge of this project. The Klamath project can be built as

The Klamath project can be built as a whole or in sections. It was origin-ally intended to build it by units, com-pleting one unit before taking up the next. It has been found, however, that there will be no trouble in getting set-tlers upon these lands as fast as water is ready and for this reason it was de-termined to push work hereafter.

While only \$2,000,000 is actually available for immediate use, another \$2,400,000 will be forthcoming by the time the engineers are able to use it. Considerable land to be reclaimed is now lake bed or swamp. Until the water has been drained off and these lake beds dried, it will be impossible to complete the project. This draining and drying process will require several years; but in the meantime all land now arid which is intended to be reclaimed will be brought under ditches Under the allotment just made it is be lieved that work on the Klamath project can proceed without interruption until the last ditch is dug and water

turned on every available acre.

The allotment for the Boise-Payette project is increased to \$1,490,000, and for the Minidoka to \$1,555,000. The previous allotment for each was \$1,-300,000. The Boise-Payette project will cost more than the original allot-

## WILL BUILD GREAT CANAL.

J. J. Hill Says He Will Connect Hud son Bay and Great Lakes.

Chicago, July 16 .- Not satisfied with his gigantic railroad undertakings, which after 30 years appear to be only a little more than half completed, James J. Hill is now turning his attention to canal building and has given his word to his friends that boats will be running from the Great lakes to Hudson bay before the first vessel passes through the Panama canal. As the of some point on Lake Superior is ex-plained. The building of the canal will make him practically master of the transportation tusiness of the Northwest and will protect him against the incursions that have been made into

his territory by other railroad interests within the past few years.

It is proposed to have the canal start from some place on Lake Superior, traverse the district northwest through the Rainy river and the Lake of the Woods to the Winnipeg river and past the city of Winnipeg to Lake Winnipeg. From there it would be necessary only to dredge out the canal channel into Hudson bay, thus connecting the Great lakes with the bay and Atlantic

## OREGON STATE ITEMS OF INTEREST

GROW RUBBER IN UMATILLA.

Colorado Man Says the Climate and Soil Are Good.

Pendleton- There is a prospect that Umatilla county may become the rub ber growing center of the Pacific North west in the near future. G. T. Doug las, of Durango, Col., representing the rubber trust of the United States, is rubber trust of the United States, is here for the purpose of looking over the country and making an examina-tion of the soil. He is now looking over the country in the vicinity of Echo, where the soil and climate is similar to that of New Mexico, Arizona southern Utah and southern Colorado where the plant is grown very successfully. The plant is said to flourish in dry sandy soil, and in semi-arid districts. Mr. Douglas believes this sec-tion to be adapted to the successful growing of the plant which he says requires about two years to come to ma-curity. It can be put in at from \$8 to \$10 per acre and will yield from \$100 to \$200 per acre. Mr. Douglas will make a report of his investigations to his company in a few days.

Sodaville as Seat of Learning. Albany — Articles of incorporation have been filed in the county clerk's office for the Mineral Springs college, at Sodaville. The college will be opened next fall in the building at Sodaville formerly occupied by the old Mineral Springs seminary, which closed its doors several years ago from lack of financial assistance. It is now planned to establish a school the equal of any institution in Oregon, except those supported by the state. Classical, scien tific, literary, normal, business and musical courses will be taught, and the institution plans to give degrees as high as master of arts.

Albany-There is no excuse for a laoring man to complain for lack of work in Oregon this year. In Linn county there is a demand for laborers of every sort, and especially those wno will do farm work during the harvest-ing season, and who are willing to work Farmers in Linn county are looking in vain for needed assistance to garner their crop<sup>1</sup>, and the lumbering mills along the rivers of Linn, Marion and Lane counties are advertising for help all the time. Salem - As an illustration of hos great is the demand for manual and team labor in the Willamette va'ley, Willamette Valley Traction com pany, in commencing work upon the Portland Salem electric line, was unable to secure men and teams, and employed a steam traction engine to do the ground breaking. It is quite prob-able that help will have to be imported from other states in order that the comwith the city council of Salem-to have the line completed between this city and Chemawa and ready for operation on or before September 10.

Wasco Farmers Begin Harvest. The Dalles-Haying is well advanced Thirty-nine laundry companies of Cincinnati, Ohio, have been indicted for violating the anti-trust law.

Thirty-nine laundry companies of Winnipeg and Lake Winnipeg, the Manitoba and the second cutting of alfalfa has capital the eastern terminal of his new begun. More hay has been cut in the previous. This was owing to so much of the grain having been injured by heat, making it unfit to thresh. Next week cutting of grain will begin in sec-tions where fall grain is raised, and in most sections barley will be ready to cut by the last of the week. Hot Weather Hurries Harvest. Eugene-The condition of the crops in the Upper Willamette valley, especially around Eugene, during the rast week have been excellent, and all the farmers are happy. The haying season is about half over and the crop to be harvested will be one of the largest for years. The warm wave which has ex-tended over the valley has been some-what detrimental to the wheat crop, which, a cording to the farmers, has advanced too far. Harvest hands are reported scarce, even with the good

Hot Wave Spoils Prospects. Moro-The hot wave that has pra-iled in this section for the past two weeks has materially shortened the very flattering prospect for a big wheat crop. Reports from farmers are con-flicting, but there can be no doubt but that all grain is more or less shriveled and there will be not over half an aver age crop. Legal Interpretation of Two Words

Salem - Upon the legal interprets tion of the words "adulterants" and "adulteration" hangs the fate of Oregon's pure food law when it comes up for decision before Judge George H. Burnett, of the Circuit court, for this county in the case of the state vs. George Fendorick, who is charged with selling the state lard that has been

Fondorick, who is a meat dealer in this city, is under contract to furnish the state insane asylum with a quantity of lard, and it is charged by the state dairy and food commissioner that the lard furnished contains a certain perentage of tallow.

The point at issue is whether an

tion of a substance which is injurious to the human system for a pure article and if the court holds that tallow is not an adulterant it will throw the whole act open to technical violation in all lines of trade in foodstuffs.

Freighter Now Wheat King

La Grande-A B. Conley is the large est individual owner of farming land in Union county, being assessed on 10,118 acres, every foot of which is first-class tillable land. A little over a quarter of a century ago his principal stock in trade was a freighting outfit about as poorly equipped as any on the road. Mr. Conley's rise is due principally to wheat raising, but the advancing value of farming land in the past few years has had a great deal to do with it. He is generally known as "Eastern Ore-gon's Wheat King."

Big Real Estate Deal at Eugene. Eugene — One of the largest real es-tate deals ever made in Lane county was consummated recently when Eli Bangs, Eugene's pioneer liveryman, sold a quarter block of ground at the sold a quarter block of ground at the corner of West Ninth and Olive streets to G. M. Bonnett, a farmer of this city, for \$35,000. A two story brick building and a large frame livery stable building are on the ground, and they are included in the sale. Mr. Bangs secures in the deal a 960 acre stock farm in Harney county, which his son, Abraham, of this city, will conduct.

Construction Slow. The Dalles-W. F. Nelson, president of the Oregon Trunk road, says construction work is progressing slowly be-cause of the scarcity of laborers. Mr. Nelson expects to secure plenty of la-borers after harvest. It is the purpose of the company to push the road on to Madras, a distance of 110 miles from the Columbia, as soon as it can be built, and then to build through Central Oregon and make connection with

Grocers Not To Buy Infected Fruit. Salem-County Fruit Inspector E. C. Armstrong has called upon all retail grocerymen and secured from them an agreement not to buy from farmers any fruit infected with San Jose scale. The dealers were willing to make the agreethe sale of diseased fruit to them, the about town direct to the consumers.

SHOT BY SISTER.

Slayer of Holy Roller Creffield Mur

Seattle, July 13. — Esther Mitchell shot and killed her brother George, the slayer of Franz Edmund Creffield, in the Union depot at 4:20 o'clock yesterday afternoon, as George and his brother Perry were on their way to take a Northern Parific train for Port. take a Northern Pacific train for Port-

Miss Mitchell was walking behind the two brothers, in company with a third brother, Fred. She had gone to the depot for the purpose of killing her brother, and though she greeted him with a smile and a hearty handsbake, she l i ered behind to get her opportu nity. A revolver purchased the da before by Mrs. Creffield for the assassi nation was carried concealed under a cape thrown carelessly over Esther Mitchell's left arm. Fred Mitchell offered to carry the

cape, and as she banded it to him, the sieter raised her revolver and fired. The bullet struk young Mitchell behind the left ear and he died instantly. As the gun was brought up Fred Mitchell leaped to seize the weapon but he was too late. He grabbed Es-ther's arm just after she fired and the girl collapsed in his arms. She stayed there until depot policemen hurried up

and placed her under arrest.

Both Esther Mitchell and Mrs. Creffield, who was arrested at 7 o'clock last night while on her way back from the cemetery where "Joshua" Creffield is buried, acknowledged in statements taken before Chief Wappenstein that they had conspired to kill George. Had it been necessary Esther Mitchell was prepared to follow her brother to Portland. It was this insane demand for vengeance that prompted her to refuse to accompany her father on his return to Illinois.
"I killed George because he had

killed an innocent man, and because he had ruined my reputation by saying that Creffield seduced me," Esther Mitchell declared, but both her statement and that of Mrs. Creffield indicate that the two had conspired to as-

sassinate.

Mrs. Creffield prompted the shooting and she bought the gun with which i was done. It had been agreed between them that the first one seeing George should slay him.

REBELS WIN GREAT VICTORY.

General Toledo Routs Governm Forces With Great Loss.

Mexico City, July 13 .- According to advices received here, General Toledo, the Guatemalan revolutionist, who has been recruiting his forces and has now some good artillery, offered battle yesterday to Guatemalan regular troops in the department of Jutinpa, at a point about four miles from the Salvadorear border, inflicting decisive defeat on Guatemalan forces. There was heavy loss on both sides. The revolutionist are jubilant over their success.

Regalado, former president of Salva-dor, and the leader of the Salvadorean troops in the present conflict with Guatemala, was killed in the battle.

Guatemala Claims Victory. Panama, July 13. - Senor Parrios, foreign minister of Guatemala, cabled to the Panama government this after-

noon as follows: "Guatemala, July 12 .- The Salve dealers were willing to make the agree-ment and will keep it in letter and spirit. If the retail merchants prevent the sele of diseased fruit to them, the the sale of diseased fruit to them, the inspector can give his entire time to watching the far ners who peddle fruit about town direct to the commander of the Salvaderean army, was killed."

St. Petersburg, July 12. - The preparations which the War office has een making at all principal cities to neet an armed revolutionary movement prove to have been very elaborate. The plans for the defense of Riga have fallen into the hands of the revolutionary paper Misla, which this morning publishes the entire plans of de-

divisions of two battalions of infantry, half a company of Cossacks and three machine guns each, to prevent the invasion of the city from three open sides, namely, the canal, the dam and the river Dana.

Asks Root to Give Help. San Juan Porto Rico, July 13 .- The lower house of the insular legislature adopted a resolution asking Secretary Root to use his good offices in behalf of Porto Rican citizenship and an elective insular senate. The Republicans, who onstitute the minority in the legislature, opposed the resolution, holding that Mr. Root was the island's guest and that the time and place were portune. It is reported that the docu-ment was not presented before the sail-ing of Mr. Root, the authorities not desiring to interfere with his visit,

Uprising in Transvaal. Johannesburg, Transvaal, July 13.— The disquieting rumors that the blacks of the Rand contemplated an uprising July 17 are borne out by the fact that the native servants have warned their mistresses to retire to places of salety. Similar rumors have been circulated in the Reef, but the police ridicule them. However, much anxiety is expressed over a paper read at a conference of the Ethiopian church which says an upris-ing has been openly advised.

London, July 13. - In June of las year there arrived at the Albert docks from Boston and New Orleans 27,000 cases of tinued meats; in June of this year the receipts were only 4,000 cases. In July, 1905, 24,000 cases were re-ceived, but thus far this month none TAKES ON NEW LIFE

BIG BUILDING BOOM HAS BEGUN

When Insurance Companies Pay Up Reconstruction of Metropolis Will Proceed in Rush.

San Francisco, July 12.—Although the city's building laws were in a chaotic state during the month of June, building permits were issued to the value of \$1,600,000, and in this sum are not included those one story temporary structures which may be erected for a time without special permit. Now that the building law has been promulgated, reconstruction will take its real start. It is hampered solely by the slowness of the insurance comthe slowness of the insurance com

panies.

Up to the present time but \$15,000,-000 has been paid out in insurance.

Were the various companies to loosen their purse strings as the situation demands, San Francisco would at once enter upon a building boom such as has never been known before. As it is, plans at this transitory stage are being drawn for a down tall, buildings to ing drawn for a dozen tall buildings to erected in the heart of the burned district.

An Oakland department store, serving that it was unable to meet its augmented trade by the small order system, determined to place an order for a train load of goods in the East. A few days before the goods arrived, the proprietor of the Oakland store be-came alarmed, fearing he had placed an order beyond his capacity to handle. He telephoned to a large department store in San Francisco, asking to be releved of half of the consignment. The

San Francisco firm consented.

When the goods arrived, the San Franciscan disposed of them before he had fairly placed the goods on the shelves, telephoned to his Oakland friend, purchased the rest of the con-signment and disposed of it with the same alacrity as he had done the first part. This simply illustrates that San Francisco is not to be displaced as the

main trade center.

The bridging of the bay, which was a pet scheme of some of the earlier railroad magnates, is now to be put through. President Harriman has ordered that work begin immediately. By this improvement freight will not be brought across by beat from Oak-land, but all freight trains can be deflected south around the loup and brought direct into San Francisco. In connection with this work the railroad is also building a cut-off into San Franco for its coast trains.

JOHN BULL IN GLASS HOUSE. Disgusting Conditions in Sausage and

Jam Factories.

ndon, July 11 .- The Britisher London, July 11.—The Britishers, who have been so virtuous recently over the Chicago meat packing revelations, were today confronted with the annual report of the inspector of factories and workshops, which shows that the conditions here are quite as revolting as anything alleged of the Western packing centers.

Dirty factories and disgusting m thods seem to be the rule, instead of the exception. Jam factories, bakeries and

exception. Jam factories, bakeries and sausage makers are all censured as be-ing equally filthy, and the description of one fits most of the others. Here is the report of a typical jam factory:
"The boiling factory lay between the

The sanitary accommodation was hardly separated from the rooms where the fresh fruit and uncovered jam were kept, and the floors were dirty and undrained." Another factory inspector found jam pots being washed in "liquid like dark soup, which smelled abominably." The manager informed the inspector

that the water was changed "about once a week." When fished out of these evil-smelling tanks the pots were allowed to stand until dry, when they were considered ready to refill. Inspectors of bakeries found that it was a frequent custom to bathe the children in them after the close of work on Saturdays, and the family's weekly ollection of dirty clothing was sorted

in the bakeries for dispatch to the laundry. The sausage factories, says the report, are mostly owned by Germans, are small, dilapidated and poorly lit, and are infested with rate.'

Sheffield, England, July 11 .- The rocers' federation, whose annual conference is proceeding here, has received a communication from Ambassador Whitelaw Reid, enclosing a message

from President Roosevelt, as follows:
"You are at liberty to inform the
Grocers' federation that under the new aw we can and will guarantee the fitness in all respects of tinned meats bearing the government stamp. If any trouble arises therewith, protest can at once be made not merely to the sellers of the goods, but to the United States

or the goods, but to the United States government itself."

The secretary of the federation stated that Mr. Roosevelt's message was in reply to one sent by him on behalf of the federation, saying trade was almost paralyzed and that dealers must be assured of the wholesome character of tinned goods, or otherwise they would have to stop stocking up with American brands. The speaker hoped-the publication of the president's message would lead to a revival of the trade. He said the loss to the members of the federation in the canned meat trade had been very heavy.

Drastic resolutions were referred to ommittees, one of which pledged the grocers not to stock with American can-ned meats until the packers have initiated an inspection system guaranteeing the wholesomeness of their output.

MITCHELL IS FREE.

Slayer of Holy Roller Leader is Ac-

quitted by Jury. Seattle, Wash., July 11 .- George H. Mitchell, who shot Franz Edmund Creffield, leader of the Holy Rollers, First avenue, May 7, was acquitted late yesterday afternoon. After nearly an hour and a half in the jury room the 12 men who have listened to the testimony in Mitchell's trial filed

back and announced their verdict: "Not guilty." Despite the advance warning of the court that no demonstration would be permitted, irrespective of the verdict, a roar of applause greeted the annement and the court officers were powerless to still it. The courtroon was crowded, but aside from those who sat in the front row, directly under the eye of the presiding judge, the spectar-ors applauded almost unanimoulsy when the clerk had read the words that reed Crettield'r slaver

Turmoil Grows in Strength. Odessa, Russia, July 11.—Agrarian outrages and politico-industrial strikes occur daily, and are alarmingly spreading in the Southern provinces. The revolting peasantry are now evidently or-ganized and led by profesisonal propa-gandists. In an interview today a marshal of the nobility of Kherson ex-pressed the firm conviction that the situation is inevitably and rapidly drifting to a colossal and calamitous uprising of the peasants against the landowners and that the movement

will be supported by the soldiers.

St. Petersburg, July 11. — From additional details of the mutiny of the Seventh cavalry at Tambov, both the infantry and the Cossacks sent to sub-due the mutineers refused to fire on them, the infantry bayoneting the officer who gave the command. Only a detachment of dragoons, who, it is said, had been plied with liquor, attacked the mutineers. The officers of the Seventh fired on their own men. The number of killed or wounded has not been established, but is not thought to be great on either side.

Philadephia, July 11.—Virtual set-tlement of the strike of coal miners in the bituminous coal field, which began the bituminous coal field, which began last April, was made in the city tonight at a conference between representatives of the United Mineworkers of America and the operators in that field.
