

HON. W. H. KELBAUGH OF WEST VIRGINIA PRAISES PE-RU-NA

A Cold at Any Time of the Year, Especially in Hot weather, is Very Depressing to the System. Pe-ru-na is an Equated Tonic for Such Cases. Read What People Say About it.

Hon. W. H. Kelbaugh, Ex-Member W. Va. Legislature, 204 9th street, N. E., Washington, D. C., writes: "You can use my name and word as often as you please for Pe-ru-na as a tonic and stimulant. I have tried it for a stubborn cold and badly run down system. I tried all sorts of other medicines and paid several expensive doctor bills. Pe-ru-na cured me, strengthened me more than ever, and saved my money."

Mrs. Clara Litterer, Seaside, Ind., says: "Last fall I took a severe cold. I took Pe-ru-na, began to improve and kept on so until I was able to do my work."

Corroborative. Caller—Don't you consider Prof. Jones by a man of much practical wisdom—not at all correct or opinionated, you know, but full of accurate knowledge and plain common sense?

Mrs. Lapsing—Yes, indeed; I think he's one of the most sapacious men I ever met.

You Can Get Allen's Foot-Ease FREE. Write Allen S. Olmsted, Le Roy, N. Y., for a free sample of Allen's Foot-Ease. It cures sweating, hot swollen, aching feet. It makes new or tight shoes easy, certain cure for corns, ingrowing nails and bunions. All druggists sell it. 25c. Don't accept any substitute.

Only Way of Escape. "One jurymen brought all the rest of you around to his way of thinking? He must have presented some pretty strong arguments."

Mother's Will and Mr. Winslow's Soothing Syrup the best remedy to give for their children during the teething period.

Small Satisfaction. The man from West Pullman was making a complaint at the water office. "The way we are treated in our suburb," he said, "is outrageous and unbearable! Water, sir, is one of the prime necessities of life!"

Admirable Arrangement. "Where are you going to spend your vacation this summer, Crossway?" "We are going out to my brother's farm in the country."

Wise Bros Dentists. Young MEN, Old MEN, Middle-Aged MEN. Tell for free pamphlet in plain cover. Tells about an appliance that insures happiness, health and success in life. Free—send today.

20-Mule-Team Borax is an Economical Labor-Saving Aid to the Household. Cleans without injury the most delicate fabrics, as well as kitchen utensils, wood work, silver, china, glassware, linen, blankets, woolens, silks. It is of the highest value to the toilet, bath and laundry, and is a harmless natural disinfectant.

GENERAL STRIKE ON

Workmen in Russian Capital Responding to Call.

SIGNS POINT TO A DICTATORSHIP

Grand Duke Nicholas to Lead Fight on Reds—Disturbances and Mutinies Continue.

St. Petersburg, Aug. 4.—St. Petersburg is in darkness tonight. The employees of the electric lighting plants, always the earliest barometer record of political conditions, ceased work during the afternoon in obedience to the call for a general strike.

The pickets of cavalry and infantry were the most conspicuous features on the streets of St. Petersburg last night. Business houses generally have boarded up their windows as they did in the days of the great October strike.

St. Petersburg, Aug. 3.—The crew of the armored cruiser Pamyat Azova mutinied off the Estonian coast and is now in full possession of the ship, which has sailed northward in the direction of the Finnish gulf.

Reval, Aug. 3.—The cruiser Pamyat Azova has arrived in the roadstead here in the possession of the loyal portion of her crew. One hundred and fifty of the mutineers have been sent ashore and imprisoned. The mutineers were overpowered by the loyal sailors while the ship was at sea.

St. Petersburg, Aug. 3.—The crew of the Russian cruiser Asia, which was sent to Abo, has hoisted the red flag. The vessel has left in the direction of Sveaborg.

St. Petersburg, Aug. 3.—Military disorders have broken out at Reval. Details cannot be obtained.

St. Petersburg, Aug. 3.—Although the mutinies at Sveaborg have been ended and the one at Cronstadt has been practically put down, the outlook is still black. The revolutionists, whose hands were suddenly forced by the premature rising at Sveaborg, apparently are undaunted at these initial reverses and intend to persist in their program of calling a general strike on Saturday or Monday.

St. Petersburg, Aug. 3.—On the heels of the other bad news comes the startling statement that the emperor has flatly refused to accept the conditions to which Premier Stolypin agreed in his negotiations with Count Heydorn, Alexander Guchkoff, Prince Nicholas L'vov, Paul Vinogradoff and Senator Koni for the reorganization of the cabinet.

There is an increasing apprehension that the emperor purposes to take the final step of turning the country over to the military dictatorship of Grand Duke Nicholas.

ISLANDS' RICE IMPORTS SMALL. Manila, Aug. 3.—Governor Ide has received reports stating that during the fiscal year ending June 30 the importations of rice to the Philippines decreased 61,072,411 pounds, valued at \$3,084,783 in gold.

Both companies have been known to be in financial trouble since the fire. The Home Fire & Marine has announced that it will do no more business. The Fireman's Fund has resumed its operations to the amount of \$372,884,750, carrying premiums amounting to \$4,471,117 with the new Fireman's Fund corporation, which has been organized since the fire.

Japanese Police Send Aid. Washington, Aug. 4.—On behalf of the Association of Police of Japan, K. Ouraka, its president, has forwarded to the chief of police of San Francisco 500 yen in aid of the police sufferers from the earthquake and fire in that city.

Subpenas for Standard Men. New York, Aug. 4.—Forty or more subpenas for officers and employees of the Standard Oil company have been forwarded to New York from Chicago.

Investigation in Philippines. Washington, Aug. 4.—An investigation of alleged irregularities in the Philippine islands is now being conducted by order of Major General Wood, the inquiry being in charge of Colonel Wood, inspector general.

Seattle, Aug. 4.—Rich strikes reported in Southeastern Alaska have attracted the longshoremen of Skagway, Juneau and other towns. The men who work along the front have stamped to Windy Arm in such numbers that the sailors on the coastwise fleet have to unload their own boats.

DARK HOUR IN RUSSIA.

New Mutinies Break Out as Fast as Others Are Suppressed.

St. Petersburg, Aug. 3.—Nearly 3,000 rappers, sailors, pioneers and miners at Cronstadt mutinied about 11 o'clock last night. They planned to seize the forts and the bridge leading to Fort Cronstadt, but their plans were foiled by the precautions taken by the commander.

St. Petersburg, Aug. 3.—The crew of the armored cruiser Pamyat Azova mutinied off the Estonian coast and is now in full possession of the ship, which has sailed northward in the direction of the Finnish gulf.

Reval, Aug. 3.—The cruiser Pamyat Azova has arrived in the roadstead here in the possession of the loyal portion of her crew. One hundred and fifty of the mutineers have been sent ashore and imprisoned.

St. Petersburg, Aug. 3.—The crew of the Russian cruiser Asia, which was sent to Abo, has hoisted the red flag. The vessel has left in the direction of Sveaborg.

St. Petersburg, Aug. 3.—Military disorders have broken out at Reval. Details cannot be obtained.

FARMERS' CORNER

Automatic Chicken Feeder. The feed box or trough at the bottom for the chickens to eat out of is made out of 1x3 inch boards, 3 feet long, with slats on the side 3 inches wide, making the trough 2 inches deep; end pieces of 1-inch lumber, 1 foot wide, 18 inches high. The middle partitions are cut 6 inches wide at the bottom to fit bottom of trough 3 inches high, then tapers out to 10 inches at top, that makes it a V-shape from both sides, so chickens can eat from either side of feeder.

Reval, Aug. 3.—The cruiser Pamyat Azova has arrived in the roadstead here in the possession of the loyal portion of her crew. One hundred and fifty of the mutineers have been sent ashore and imprisoned.

St. Petersburg, Aug. 3.—The crew of the Russian cruiser Asia, which was sent to Abo, has hoisted the red flag. The vessel has left in the direction of Sveaborg.

WALL WOUNDS IN HOOF.

It has long been known that nail pricks and other similar injuries in the horse's hoof lead to an infection followed by formation of pus under the horn of the hoof and a serious general disease of the horse or at least the loss of the hoof.

St. Petersburg, Aug. 3.—The crew of the armored cruiser Pamyat Azova mutinied off the Estonian coast and is now in full possession of the ship, which has sailed northward in the direction of the Finnish gulf.

Reval, Aug. 3.—The cruiser Pamyat Azova has arrived in the roadstead here in the possession of the loyal portion of her crew. One hundred and fifty of the mutineers have been sent ashore and imprisoned.

Too Much of a Good Thing.

"Even assuming that humor is the salt of life, we don't want to eat salt with a spoon. But here in America everything seems to be sacrificed to humor. Your politics have to be made humorous. Your courts of justice have to amuse. Before a great time has gone by you will be having funny sermons. We shall hear that Rev. Mr. So-and-so's Sunday morning sermon was a real screamer—that it was received with roars of laughter. Then the church service will be considered a bit too slow, and will have to be rewritten by some bright young humorist from a newspaper office. Your very murder cases will have to be made 'bright.' It is a foregone conclusion that domestic tragedies shall be side-splitting. I really am not sure that in time America will not get a comical funeral service, with a low-comedy undertaker."—Jerome K. Jerome in the Cosmopolitan.

My Hair is Scraggly

Do you like it? Then why be contented with it? Have to be? Oh, no! Just put on Ayer's Hair Vigor and have long, thick hair; soft, even hair; beautiful hair, without a single gray line in it. Have a little pride. Keep young just as long as you can.

"I am fifty-seven years old, and until recently my hair was very gray. But in a few weeks Ayer's Hair Vigor restored the natural color to my hair so now there is not a gray hair to be seen."—J. W. HARRIS, Boulder, Colo., Cal.

Made by J. C. Ayer Co., Lowell, Mass. Also manufactured by SERRAPALLA PILLS, CHERRY PECTORAL.

A Colored Nurse. "Miss Belle," said the teacher, "I notice one thing peculiar about your work. Your botanical specimens are exactly like those of Mr. Brown. Did you gather them, or did he do the work for you?"

Why, er, began the girl, "you see we just happened to be always near the same flowers at the same time."—Detroit Free Press.

Cataract Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. (Cataract is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Cataract Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Cataract Cure is not a quick medicine. It was prescribed by one of the best physicians in the country for years, and in a regular prescription. It is composed of the best tonic known, combined with the best blood purifier, acting directly on the mucous surface. The perfect combination of the two ingredients in this medicine produces a quick and permanent cure. Catarrh, send for testimonials free.)

Where He Excelled. Church—What degree did your son get at college? Gotham—S. S. "Never heard of such a degree." "Oh, yes you have. Short stop."—Yonkers Statesman.

Still More Difficult. "Did you ever notice how awkward the average woman is in driving a horse?" "Yes. Strange, too, for a lot of them are pretty graceful at managing a mule-of-a-husband."—Detroit Free Press.

THE AUTOMATIC CHICKEN FEEDER.

In one and grit or oyster shells in a third. The chickens can help themselves whenever they want to eat, and their feed is always clean and they can't waste their feed by getting it in the mud or snow, and the lid is on hinges, so it can be shut down and fastened, so that feed is perfectly dry. Each bin will hold one peck of feed.—Farm Progress.

Summer Cultivation. Summer plowing will answer well on ground that has long been in sod, and which has been turned under in the spring. Such land is usually planted to corn or potatoes, and the frequent use of the cultivator keeps the ground loose and promotes decay of the sod. But potatoes for an early stock are harvested as soon as possible, which leaves the soil not only rough, but in an excellent condition for weeds. By plowing the soil after the potatoes are off it will be reduced to a finer condition, the weeds will be destroyed and the second crop of weeds retarded, so that by the time the land should be gotten ready for wheat (when it should be plowed again) the seed bed for the wheat can be harrowed down fine and nice, while all the weeds will not only have been destroyed, but prevented from seeding. If the plowing on corn land is done as soon as the corn is out, and again the land plowed before seeding the wheat, it will be a great benefit to the wheat.

Fine Wool Sheep. The Wensleydale breed of sheep is far from common even in its home, England. None is in America. It is a fine sheep, superior in some respects to all others. It is said that for crossing on any other breed the Wensleydale has no equal. Since the Royal Agricultural Society of England commenced giving prizes for wool three years ago, the Wensleydale wool has each time secured first prize in the "any other long-wooled class." No long wool produced in the British Isles is equal to the Wensleydale in quality or value.

Calling Live Stock. A great many breeders fail to achieve the results at which they aim simply because of their reluctance to discard the occasional animal which contains a slight blemish. Wanting the best, they use what they know is not perfect to produce it, hoping nature will kindly give over and not reproduce the defect. Such a policy is suicidal. The breeder who would enjoy the highest success must not be afraid to cull. Let every animal which can not be rated as first-class, and strictly so, be matured and sold. Breed from only the best, and on no condition or consideration let your flock deteriorate through failure to reject the imperfect.—Agricultural Epitomist.

Use of Coal Ashes. While coal ashes contain no fertilizing value they are certainly useful on the farm and should be saved. They are not entirely valueless in the soil, for they will materially assist in making a stiff clay soil more workable if well mixed with it. The best use for coal ashes, however, is in the filling in of wet spots, shifting them and using the fine ashes in the dust boxes in the poultry houses and the coarser portions for the making of walks alone or mixed with gravel. They may be used to advantage as a mulch around trees mainly for the purpose of keeping the soil moist and keeping grass from growing around them.

New Varieties of Potatoes. Many varieties of potatoes come and go, and, but for the introduction of new varieties, potatoes would soon be scarce. This is due to the careless selection of seed. All the tubers of a crop are sold for seed, when only the best should be selected. If only the largest tubers from the thriest and strongest plants were retained for seed, there would be an improvement in the old varieties instead of deterioration in quality. But as long as seed potatoes bring good prices, there will be both good and inferior seed used.

Vines in the Barnyard. The barn should never be built near the house, and wherever it is, it should be kept as sanitary as the house itself. A country barnyard should be as neat and tidy as the dooryard. There is no reason why vines should not grow over the walls and fences, and trees shade the inclosed animals. It is possible to have lilacs and mock oranges growing around the barn, as freely as about the shrubbery. The animals are not any less happy, and one can pick great bunches for oneself and friends.

Apply a Good Fertilizer. The value of vegetables depends largely upon quick growth, and if crops are not growing well some quick-acting fertilizer like nitrate of soda, guano or poultry droppings, should be worked into the soil close to the roots. Frequent cultivation of the soil with the cultivator, rake or hoe will often be all that is necessary.

Farm Tools and Implements. On many farms, hoes, forks, shovels and other tools have to be looked up when wanted, and this looking up sometimes consumes more time than would be required by the job of work itself. Oftentimes plows, harrows and cultivators, instead of being carefully housed, are left out of doors all winter.

How to Exercise the Bowels. Your Intestines are lined inside with millions of little suckers, that draw the Nutrition out of food as it passes them. But, if the food passes too slowly, it decays before it gets through. Then the little suckers draw Poison from it instead of Nutrition.

They do not waste any precious fluid of the Bowels, as Cathartics do. They do not relax the Intestines by greasing them inside like Castor Oil or Glycerine. They simply stimulate the Bowel Muscles to do their work naturally, comfortably, and nutritiously. And, the Exercise these Bowel Muscles are thus forced to take, makes them stronger for the future, just as Exercise makes your arm stronger.

But, the Digestive Juice we waste in doing this today is needed for tomorrow's natural Digestion. We cannot afford to lose it. That's why Cascarets are the only safe medicine for the bowels.

A Pointed Question.

Two cows cost \$40 each per year for keep. One of them yields you 4,000 quarts of milk a year, that bring you \$80. The other yields 120 quarts, that bring you \$20. The latter loses for you about \$14 and reduces the gain on the former from \$46 to \$32. Why do you keep the 1,200-quart cow? You would be better off with the one that clears \$40 for you would have only half the investment, half the work, and half the feeding, and you would gain \$14 each year. There would be no surplus butter on the market for years to come and prices would rule strong if the cows were eliminated which are kept at a loss. Dairy farmers have not yet half waked up to an understanding of the great practical importance of weeding out the unprofitable cows from their herds. Many a man would make a fair profit, that now faces a constant loss, if he would keep only such cows as pay a profit on their keep.—Farm Journal.

IRRIGATION BY CURRENT WHEEL.

Diagram is self-explanatory.

Diagram is self-explanatory. A current wheel to run a chain and bucket gearing is quite feasible for farm irrigation purposes. Herewith is given an illustration of such a wheel for operating a chain and bucket. The diagram is self-explanatory.

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, Imitations and "Just-as-good" are but Experiments, and endanger the health of Children—Experience against Experiment.

What is CASTORIA. Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought Bears the Signature of Chas. H. Fletcher. In Use For Over 30 Years.
