The rain that fell Sunday night was the first we have had for several weeks. Enough fell to do some good, and no heavy dew has followed as some thought. Rain fell over most of the county, and it was a great benefit to the hop crop. No hops are raised in the vicinity of Estacada, though it has been said that they will do well here. Since the rain it is considered the yield of hops will be increased quite a little, as it came in a very opportune time.

A CREAMERY
One May Soon Be Established in Estacada

It is very likely that within the next few months a creamery will be established in Estacada. Such a proposition has received considerable impetus this week. Cashier W. A. Heylman of the Bank of Estacada, and E. E. Buster of Portland have been working the scheme the past week, and the result of their efforts lead them to believe that the people will have a creamery here in a short time. It has not yet been definitely decided whether it will be on the co-operative plan, or a stock company. However, the encouragement met with by the promoters has given them cause to believe the project will succeed. If you have not given your support toward it, why, get on the creamery wagon.
