HAY FEVER MARTIAL LAW

"Having used Peruna for catarrh and hay fever, I can recommend it to all who are suffering with the above diseases. I am happy to be able to say it has helped we wonderfully." -Mayme E. Smith.

MISS MAYME SMITH.

411 East Mound Street Columbus, Ohio HAY FEVER is endemic catarra It is caused by some irritating sub stance in the atmosphere during the late summer months. It is generally thought that the poilen of certain weeds and flowers is the cause of it.

Change of locality seems to the be only rational cure. The use of Peruna however, stimulates the nervous sys tem to resist the effects of the poison ous emanations and sometimes carries the victim through the hay fever sea son without an attack of the disease.

A large number of people rely upor Peruna for this purpose. Those who do not find it convenient to change their location to avoid Hay Fever would do well to give Peruna a trial. It has proven of priceless value to many peo-ple.

He Knew. "I want to get some bird seed," said the customer.

"Don't try to plague me, smarty! cried the new clerk from the country. "Birds grow from eggs, not seeds."-The Catholic Standard and Times.

Greatest Privilege of Citizenship. The right to homestead on the pub-lic domain is the greatest privilege of American citizenship, says Farming. The right to homestead is co-existent with citizenship. Every citizen over 21 years of age, every immigrant who has declared his or her intention of becoming a citizen, every head of a famlly, male or female, even though under 21, may locate a tract not to exceed 160 acres and after five years' resi-dence will receive absolute title there-

A Curious Silk. Sicily supplies a curious silk which is spun by the puina, a Mediterranean shell-fish which has a little tube at the end of its tongue. Out of this tube, spider-fashion, or silkworm-fash-ion, it spins a silk thread, with which it fastens itself on any rock it fancies. When the puina moves its silken cable remains behind. This cable,

FINCHOT ON FOREST RESERVES SEARCH GLOBE FOR RUBBER.

NOW Chief Forester Explains to Irrigation ists Government's Scheme. Boise, Sept. 4 .- The policy of with

Palma is Determined to Crush drawing vast areas of the public domain from entry under the land laws in order LIBERAL LEADERS ARE ARRESTED

session of the National Irrigation con-gress. United States Senator Carter, of Montana, the presiding officer, gave a brief outline of the legislation enacted by congress giving to the president of the United States the extraordinary authority to exercise his discretion in setting apart such reservations. He made the declaration that it could be set down as the definite purpose of the national congress not only to stop fur-ther destruction of the forests, but to set aside reserves" on which new timber may grow and where the headwaters of the streams may be conserved. rovinces of Pinar del Rio, Havana

Havana, Sept. 11.—President Palma tonight issued a decree suspending all constitutional guarantees, with special reference to articles 15, 17, 19, 22, 23, 24 and 27 in the provinces of Pinar de' Rio, Havana and Santa Clara. The law enforcing public order, which is equivalent to martial law, also is put in immediate effect in the three prov-inces named.

A supplemental decree has been issu-ed suspending the decree of August 28 pardoning repentant rebels and order-ing that all rebels be arrested and

and Santa Clara are Scene of

Worst Disorders.

inces named.

eral. Alfredo Ziyas, president of the Liberal party, and several other Liber-

al leaders have disappeared. Havana and Santa Clara provinces

Havana and Santa Clara provinces are quie', but Santiago is reported un-easy. Americans at Santiago state that the report that an army could be raised in Eastern Cuba to equelch Guerrera is groundless, as the sentiment of the peo-ple there is very largely anti-govern-ment, although as yet not beligerent. A dispatch from Manzanilla states that two editors, four city officials and several other Liberals have left that town to organize a rebel band.

KILL OFF REDS.

Governor of Seidlice, Russia, Turns Cannon on Terrorists.

St. Petersburg, Sept. 11.-Advices from Seidl e received during the night are to the effect that fighting and bombarding of houses, which ceased about midday on Monday, was resumed late midday on Monday, was resumed late in the afternoon, apparently in conse-quence of Governor Engelke's demand that the Jewish and Polish populace deliver up to him the members of the Jewish Self Defense association. The bund refused this, preferring death in the open to a tame surrender, and re-sumed the battle. Artillery was again brought into action, but it is not known if the fighting still continues.

if the fighting still continues. It is impossible to obtain full details of the events at Seidlee, as the authoriat the audience: "Hiss, you geese, hiss." The hissing was renewed, and when it had again subsided, Heyburn ties absolutely forbid communication and turn back all correspondents. The Associated Press correspondents at War-eaw, after several times vainly endeav-oring to enter the stricken town of Seidlee, was obliged to give up the effort at midnight. The add again subsided, Heyburn abouted: "Don't try that on me, I am too old a stager to be scared. You will listen to what say." REVOLUTION CONTINUES.

REVOLUTION CONTINUES. At Rudgusowska, 40 miles east of Wareaw, which is the site of the great Two Thirds of People Said to Sym Syzradow mills, conditions similar to those at Seidlce were witnessed. The soldiers are said to have killed 40 perpathize With Insurgents. Havana, Sept. 5 .- As days and weeks

Fugetives from Seidlce report that the revolution, appreciable diminution of the revolution, apprehension increases. Governor Engelke issued an ultimatum declaring that he would bombard the whole town unless the terrorists sur- Pinar del Rio, Havana and Santa Clara into balls by the collectors. It is rendered. In consequence of the pillage is to the effect that two-thirds of the people in the country and small towns of these three provinces are insurgents and destruction, the peasants are suffering for food and water. A telegram received here late last night from Seidlee, from a resident who succeeded in smuggling it through the timately will subdue the insurrection, censorship, says that pillaging com-menced Saturday night instead of Sunbut in the meantime the crops cannot be developed, and it is a grave question whether the rebellious spirit even then lay, and after a few minutes firing in Warsaw street the soldiers broke into gin shops, became drunk and then en tered indiscriminately the apartments of houses of all classes, killing, pillagcan be actually quelled to the extent of restoring the country to a normal self overning status. A realization of this is the cause of

any Perils Are Encountered in Gathering the Gum. From Southern Mexico in the north

to Northern Paraguay in the south; from the Atlantic on the east, right through the devious wandering of the from entry under the land laws in order to create forest reserves or concerve the water supply for purpose of irrigation, which has been vigorously opposed by influential interests in the West, had its defenders and opponents at tonight's session of the National Irrigation con-

the streams may be conserved. Mr. Pinchot stated that the policy of President Roosevelt was "to give every part of the public lands their very best use." The problem he said, was one of the most difficult, and one in which iro. For twenty years he had not heard

ed suspending the decree of August 28 pardoning repentant rebels and order-ing that all rebels be arrested and jailed. Both decrees have been communicat-ed to all officers in the field. Coincident with the issuance of the decrees, which followed tonight's de-cision not to yield to the peace de-mands, the government ordered the ar-rest of practically every prominent Lib-eral. Alfredo Ziyas, president of the stock business of the West, he said, for the chief summer range is in the re-serve. The stockmen could not be kept off entirely at the demand of the irrigationists, nor could the service. 'So you see,'' said Mr Pinchot, ''that the forester stands in the middle and he gets it coming and going.''

"that the forester stands in the middle and he gets it coming and going." The speaker stated that some reserves were practically without a single tree— facts which had been the subject of much criticism—but it was the purpose to put trees there and to restore the the American trees. In that they proto put trees there and to restore the grass on the range. The service, he said, had the biggest job of tree plant-ing on the face of the earth. Mr. Pinchot gave the number of rangers in the service as 1,137 and the uncertainty of the service as 1,137 and the service as

rangers in the service as 1,137 and the supervisors as numbering 105. Under the laws of Prussia, he said, the same reserves would be controlled by 110,000 rangers and 12,000 supervisors. Senator Heyburn was called to the platform and immediately launched in-to a bitter attack on the administra-tion's forestry policy. Some of the delegates were with Heyburn; a far larger element stood by Roosevelt and

The ingredients that enter into S. S. S. and the method of combining and preparing them so that they build up and strengthen every part of the body, make it the greatest of all tonics. S. S. S. is nature's remedy-**PURELY VEGETABLE**—and while it is restoring the lost appe-tite, overcoming that tired, run-down feeling, and other ailments common to Spring, which warn us that it is necessary to take a tonic, it is purifying the blood of all poisons and waste matters so that it can supply to the system the strength and nourishment it needs to keep it in perfect condition during the depressing summer months that are to follow.

AN EFFORT TO PULL THROUGH THE DAY.

AN EFFORT TO PULL THROUGH THE DAY. I have used S. S. S. quite extensively and unhesitatingly recommend it as the best blood purifier and tonio made. I am a machinist by trade and at one time my system was so run down that by 10 o'clock every day I would be com-pletely exhausted, and it was with the greatest effort that I could pull through the balance of the day. Since taking S. S. S., however, all this has disappeared. I am a strong, vigorous man, abundantly able to do my day's work, my appetite has been whetted up so that I can eat anything, my sleep is sweet and refreshing, and I know further that it has purified my blood and put it in good condition. I cannot speak too highly of your great remedy, S. S. S. 817 W. Broad St., Columbus, O. A. B. MONTGOMERY.

SHE FOUND IT THE BEST SPRING TONIC.

On two occasions I have used S. S. S. in the spring with fine results. I can heartily recommend it as a tonio and blood purifier. I was troubled with headache, indigestion and liver troubles, which all disappeared under the ase of S. S. S. My appetite, which was poor, was greatly helped. I can eat anything I want now without fear of in-digestion, and my blood has been thoroughly cleansed of all impurities and made rich and strong again. As a tonic and blood purifier it is all you claim for it. 771 E. Main St., Springfield, O. MRS. G. WIEGEL.

Spring is the season when most every

one needs a tonic. It is nature's time for renewing and changing; and as everything puts on new life, the sap rises in vegetation. the earth thaws out from its winter freezes, and all respond to Spring's call to purge and purify themselves, there is a great change also takes place in our bodies. The blood endeavors to throw off the poisons and accumulations which have formed in the system, and been absorbed by it, from the inactive winter life, and calls upon every member to assist in the elimination. The system is often unequal to the struggle, the appetite grows fickle, the energies give way, the spirits are depressed, and a general rundown condition is the result.

Then the body must have assistanceit must be strengthened and aided by a tonic. and S. S. S. is the ideal one. Being made entirely from roots, herbs and barks, it does

not disagreeably affect the system in any way as do most of the so-called tonics on the market, which contain Potash or some other harmful mineral ingredient to derange the stomach and digestion, unfavorably affect the bowels, or otherwise damage the health. S. S. S. tones up the stomach and digestion and assists in the assimilation of food; it rids the system of that always-tired, worn-out feeling, and imparts vigor and tone to every part of the body. It re-establishes the healthy circulation of the blood, stimulates the sluggish organs, and calms the unstrung nerves which make one feel that he is on the verge of prostration. S. S. S. gives an appetite and relish for food that nothing else does, and by its use we can find our-

selves with as hearty, hungry an appetite in Spring as at any other season. It acts more promptly and gives better and more lasting results than any other remedy, and is absolutely safe because of its vegetable purity. Dyspeptic, irritable, nervous, debilitated people will find S. S. S. is just the medicine that is needed for the purification of the blood, which, from its diseased or impure condition, is causing their trouble, as well as for toning up and helping the entire system. When you take your tonic this Spring do not experiment, but get the best—the tonic with forty years of success behind it, and the one endorsed by the best people all over the country—S. S. S., THE GREATEST OF ALL TONICS. It is necessary at this time, when the system is depleted and weakened at every point, that the right remedy be used—one that is especially adapted to the condition, and S. S. S. has proved itself to be this remedy for many years. If it is taken at the first sign of Spring the system will be so built up and strengthened that the disagreeable affections of the season will not be felt as warmer weather comes on.
