PUBLISHED EVERY THURSDAY BY H. A. WILLIAMS

Entered at the postoffice in Estacada, Or. as second class mail.

Advertising rates made known on application. Copy for publication and change of address must be handed in not later than Wednesday morning to insure publication for that week.

Subscription Rates: One Year \$1.00 Six Months .50 If paid in advance

NOVEMBER 15 1906

Nothing equals the Oregon rain in its illimitable grandness except it be Oregon sunshine.

One reason why the school teachers generally don't get high enough wages is because they don't mix in politics enough.

Mrs. Sage intends to give away much of her millions of dollars to those whom she believes are deserving and need it. Need it! None of it will come to Oregon.

What a prolific field there is in the mountain ranges of the West for rising young reformers to make a loud start. With the woods full of wildcat mining schemes and real estate speculating bubbles, the reformers can find plenty to keep themselves busy.

The Oregon City Courier has improved a great deal this fall, and so has its neighbor, The Enterprise. Both papers are getting out of the old, worn-out rut they existed in so long and the people of the county are better pleased. More news and less political nonsense is what most subscribers like.

There is something significant in the New York election. Hughes, the only republican endorsed by Roosevelt, is the only one elected. The cities voted for Hearst and the country for Hughes. Which voter is the most reliable? There is not much consoling satisfaction in the election at large to anyone except Roosevelt and Bryan.

Many Americans are astonished because they see grave discontent in the midst of unprecedented prosperity. They cannot understand the unrest of many citizens born and naturalized alike, when the times are better than ever before. It is nothing strange. Human ambition feeds on success. The further from actual want men and women get the more they desire. Comfort is conservative, but it is not an opiate. If it were the world would stagnate when it was best able to undertake and carry out great enterprises. There is never enough prosperity to go around, in the important sense of approximate equality. Cleveland Dealer.

The city was flooded on a small scale, Monday, during the heavy rains and afterwards. Not by water that fell within the city, but by water that ran into town from the ravine and country east of us. This water came down from the country, crossed Shafford Street near First, then flowed Northwest to the drain on Second Street, and was carried on through town, passing Main, down Second and across Broadway into the west part of town. The little ditch that was dug a year ago to divert the water that comes down reservoir ravine into a channel leading to the railroad near Currin St. has been filled up, and the water seeks the old route, through the townsite. This old ditch should be made deeper to carry all the water that comes down this ravine during heavy rains. It would cost but a trifle, and would keep the water out of town. A culvert was placed under the railroad between Main and Currin Streets to accommodate the water from this direction. Put it to use.

SCHOOL NOTES

BERT PAGE, EDITOR ROY STRATTON, ASST. EDITOR.

Velma Van Dyke, Floyd Booth and his brother, Frank, returned to school, Monday.

All the grades are to choose mottoes for the year. The motto for the seventh grade will be, "Can't never do anything, but will try" has accomplished wonders.

The total attendance in Miss Stephen's room is fifty-four.

The school boys are very interested in the military drill for the school entertainment.

We are glad to see Priscilla Booth in school again.

One Stevens had a new member

of the primer class. The basement of the school house on the right-hand side is covered with water, so maybe we will have to swim to get to school.

Water ten feet deep was going over the dam, yesterday.

John Halpin, who has superintended work at the brick factory, the past summer, left for his home at Monroeville, Ill. last Monday.

Shipping along the Pacific Coast has been roughly handled by the weather the past ten days, and a few human forms have gone below.

Born, on November 8, to Mr. and Mrs. J. O. Bounds, a fine 8-pound girl. Mr. and Mrs. Bounds moved in from the George country just recently.

John Marehbank has rented the north part of the Berry block, and has fitted it up as a confectionery store. Last Sunday was his opening day.

In a tussle with a big steer this week, Dave Bridenstine got one of his hands between the rope and the pommel of the saddle and had it badly lacerated.

Ed Fagg, an old friend of E. F. Surface spent Sunday here. They were boys together in old Virginia. Mr. Fagg is now living in Portland employed in the Portland hotel.

Earl Day has purchased a 17-acre tract of John Stormer. Mr. Day is going to build on the place and reside there. The piece of land is off the east end of Mr. Stormer's farm.

Mrs. Sadie Burlingame and Mrs. Media Surface, of the Dalles, sister and sister-in-law of E. F. Surface, are visiting their brother and family, and their sister, Mrs. Lou Palmatier.

There is going to be a big bunch of money spent these coming holidays, and the merchant who wants his share must have the goods, and advertise to let the people know he has them.

It may be thought stormy, disagreeable and all that, but Maude can go out into the garden any time of day and pick fresh, crisp lettuce for dinner. And they can't, way down East.

The railway company ordered the local electric light station shut down Saturday. The lights for the city are now supplied from the main, high voltage wires that were recently put up.

Foreman P. C. Boultman at the woodworking factory of Barnes & Lindsley says it is difficult for the company to get cars to make shipments. The first of the week they needed three cars but none were to be had.

John Burk, democrat, has been elected governor of North Dakota. The state is normally 15,000 republican, but to one who saw much of Mr. Burk in the state legislature of '93, his election as governor is no surprise.

W. H. Bonney, who operates a sawmill west of here, has made a 13-horse donkey engine that he will use for logging purposes. He has the machine so geared that he can get 52-horse power from it. The engine is of his own invention.

Grover Douglass, who had been sick at his parents' home in Eagle Creek with diphtheria, returned to his home among the foot hills last week. The quarantine on the Douglass home was raised and the house thoroughly fumigated.

Croup

A reliable medicine and one that should always be kept in the home for immediate use is Chamberlain's cough remedy. It will prevent the attack if given soon as the child becomes hoarse, or even after the croupy cough appears. Sold by the Estacada drug store.

There are about thirty members in the Elk Horn Club. The Club's apartments in the Berry building have been furnished, and they give the young men a pleasant place to spend their evenings in reading, social and other amusements. Electric lights are to be put in.

Sells More of Chamberlain's Cough Remedy Than of all Others Put Together

Thos. George, a merchant of Mt. Elgin Ontario, says: "I have had the local agency for Chamberlain's cough remedy ever since it was introduced into Canada, and I sell as much of it as I do of all other lines I have on my shelf put together. Of the many dozens sold under guarantee I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best results." Sold at Estacada drug store.

The winter weather is now here, and it has caused many families to seek better shelter than they had in

summer time. Families who have been tenting out are coming to town for the winter, and everything in the shape of a house is being put to use.

Work on the Main street grade up Estacada Heights, and the sewer construction on Broadway has been greatly delayed by the rains. The ditches are filling with water and in places are caving in. It appears like it was a difficult proposition for the winter season.

"An old lady, really quite well, was always complaining and 'enjoying good health,' as she expressed it. Her various ailments were to her the most interesting topic in the world. One day a neighbor found her eating a hearty meal, and asked her how she was.

"Poor me," she sighed, "I feel very well, but I always feel bad when I feel well, because I know I am going to feel worse afterward."

School Entertainment and Box Social

The ladies of the school district wish to again call your attention to the entertainment and social to be given, probably in Oddfellow's hall, Friday evening Nov. 23d. The program will begin promptly at 8 o'clock. Boxes containing the lunches should come wrapped in paper. The boxes will be sold for the flat price of 75c each; with the exception of the children's, which will be 35c each. Games are to be played after lunch.

Every one is welcome and cordially invited to be present.

"We are on the verge of moral, political and financial ruin," was the popular populist cry a few years ago. That was when the Man on Platte began to be heard from. Poets, orators and enthusiasts have a license to say most anything for literary effect. But it doesn't make the verge any farther away.

WOULD PAY

No better place for a handle factory than Estacada. With material in any quantity close by, and numerous sawmills to prepare the wood for the factory, such an enterprise, it would appear, should be a paying one. When the great power plant on the Clackamas a mile above here gets completed, and the big sawmill built and running, there will be an enormous lot of lumber that can be used profitably in a furniture and handle factory. Here is a chance for the man looking for what he wants.

A gossip paper says: A rumor comes out of the West that the President's daughter, Mrs. Longworth, is engaged in even more engrossing speculation of the future than the outcome of the campaign, in the interest of which she has canvassed the state of Ohio with her husband. This rumor has caused a flutter of delight in the Presidential household and among Mrs. Longworth's innumerable friends in Washington. If reports are true the approaching winter season will necessarily be one of retirement for Mrs. Longworth.

Cut this out and take it to the Estacada drug store and get a free sample of Chamberlain's stomach and liver tablets. For biliousness and constipation they are unequalled. They improve the appetite, strengthen the digestion and regulate the liver and bowels.

Board of Aldermen Meet

The city fathers held their regular meeting in Fraternity Hall on Tuesday evening. A few small accounts were audited. Marshal Al Havens reported collections as follows, \$5 as fines and \$20 as road poll, which was turned over to the city recorder. On motion it was ordered that the city pay for the cost of planking and putting in good condition a road leading from the plank road across the railroad track from Shafford Street down to the DuBois Lumber Company's loading platform. The council elected Al Havens to act as city marshal for another month. Adjournment was then taken.

In Time of Peace

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the early advantages of those who, so to speak, have shingled their roofs in dry weather. The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before has been settled in the system. Chamberlain's cough remedy is famous for its cures of colds and it should be kept at hand ready for instant use. For sale by the Estacada drug store.

Timber Land act, June 3, 1878 Notice for Publication United States land office, Portland, Oregon, Sept 10, 1906. Notice is hereby given that in compliance with the provisions of the act of congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada and Washington territory," as extended to all the public land states by act of August 4, 1892, Walter C. Wright of Portland, county of Multnomah, state of Oregon, has this day filed in this office his sworn statement 2051, for the purchase of the E 1/2 sec. 1 and N 1/2 of sec. 20 in township 5 S, range 4 E, and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the register and receiver at Portland, Oregon on Wednesday the 28 day of Nov. 1906. He names as witnesses: C. H. Osborn of Portland, Oregon; J. C. Burke of Portland, Oregon; O. M. Stafford of Portland, Oregon; G. L. Lindsay of Portland, Oregon. Any and all persons claiming adversely the above described lands are requested to file their claims in this office on or before said 28th day of Nov. 1906. Algernon S. Dresser, Register.
