In almost every house there is a room that the heat from the other stoves or furnace fails to reach. It may be a room on the "weather" side, or one having no heat connection. It may be a cold hallway. No matter in what part of the house—whether room or hallway—it can soon be made snug and cozy with a

**Do Spiders Like Music?**

It has often been said that spiders are fond of music, but a French investigator, M. Lecallou, now asserts that this is not true. He says that their musical sense must be attributed merely to greed or to hunger. When a fly is caught in a spider's web it buzzes, and the spider immediately makes for the place from which the buzzing comes. M. Lecallou, by experimenting with a violin, some flies, a piano, violoncello and a cornet, found that only those musical sounds which resemble the buzzing of the flies attracted the spiders. The cornet, for instance, invariably frightened it, and so did the piano.

**Many a True Word.**

When, a few years ago, someone in an idle jest worded an advertisement for a housemaid saying that the advertiser would and could give "references" we all laughed and thought it too funny to be true. But it was prophetic. Recently in the newspaper of a suburban city an advertisement appeared for a cook and a housemaid, and the one in want of the servants added in a manner unmistakably meant to be persuasive "first change in ten years." But who among us feels like laughing now? Rather it is sobering in its effect upon us, since it but tells in one more way a story that is vexing and perplexing thousands of housekeepers in the State.—Boston Transcript.

**SKIN DISEASES**  
HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body. One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. **IN THE NATIONAL HALLS OF CONGRESS**

**Monday, Dec. 17.**

Washington, Dec. 17.—A pictorially illustrated message from President Roosevelt portraying conditions as he found them on the isthmus of Panama during his recent visit occupied the senate during the greater portion of its session today. Printed copies of the message, handsomely bound, were placed on the desk of each senator and the reading of the document was closely followed. Preceding the Panama message, the president's recommendation respecting public lands and the naval personnel were received and read.

The senate agreed to the holiday adjournment resolution and will be in recess from the end of the session Thursday next until January 3.

Resolutions were agreed to directing an investigation by the department of Commerce and Labor of the International Harvester company to ascertain whether it effects restraint of trade; also directing the senate judiciary committee to report what authority congress may have under the commerce clause of the constitution to prevent interstate commerce in child-made goods.

Washington, Dec. 17.—The house began the last week before the Christmas holidays with a determination to dispose of as much legislation as possible, to make way for the more active work which will develop on it when congress again convenes. To this end several small bills were passed under suspension of the rules. The Indian appropriation bill was taken up and 15 of the 57 pages completed when it was laid aside for the president's message concerning the Panama canal, which consumed more than an hour in its reading, being listened to by a large number of members.

The pictorial feature of the message afforded an opportunity for good natured comment, the innovation of cuts in a state paper being looked on with favor. Messages from the president on public lands and the naval personnel were also read.

**Wednesday, Dec. 12.**

Washington, Dec. 12.—The house of representatives today went on record in opposition to the new spelling as recommended by the president. By a vote of 142 to 25 the following was adopted as a substitute for the item reported by the appropriations committee in the executive, legislative and judicial appropriation bill:

"No money appropriated in this act shall be used in connection with printing documents authorized by law or prepared by congress or any branch thereof, unless the same shall conform to the orthography recognized and used by dictionaries of the English language."

Washington, Dec. 12.—The senate today confirmed the nominations of William H. Moody, of Massachusetts, to be an associate justice of the Supreme court of the United States; Charles J. Bonaparte, of Maryland, to be attorney general; Victor H. Metcalf, of California, to be secretary of the navy; and Oscar S. Straus, of New York, to be secretary of commerce and labor.

The feature today was a speech by Senator Kayner upholding the states' rights doctrine as involved in the present Japanese question on the Pacific coast.

Resolutions were agreed to calling upon the president for information regarding the seizure by Mexico of the fishing schooner *Silas Stearns*, and directing the secretary of war to furnish information regarding alleged experiments with cholera virus at Manila resulting in 10 or more deaths.

The senate in executive session ratified the general act by the delegates of the powers represented at the conference which met at Algiers, Spain, in April last, to draft a treaty concerning Moroccan affairs. Opposition by the Democrats compelled the adoption of a resolution disclaiming responsibility for the participation of the United States in the program arranged by the conference as to the future of Morocco.

**Friday, Dec. 14.**

Washington, Dec. 14.—But for the convalescence of 100 members of congress the house today would have adopted the amendment to the legislative appropriation bill increasing the salaries of senators and representatives from \$5,000 to \$7,500 per annum. Practically every man who voted against the increase did so from fear that his vote would react and result in his defeat two years hence, and nearly every man who voted negatively saw a grab in the legislation proposed. The legislation was entirely meritorious.

The three congressmen from Washington voted for the increase. Binger Hermann voted against it, but he would not be a beneficiary. French, of Idaho, was not present.

Representative Jones, of Washington, today introduced a bill proposing to increase by 20 per cent the salaries of all civil service employees of the government on July 1 next.

The first salary amendment to the legislative, executive and judicial appropriation bill today was moved by Littauer, of New York, and was as follows:

"On and after March 4, 1907, the compensation of the speaker of the house of representatives and vice president of the United States shall be at the rate of \$12,000 each."

By a vote of 214 to 51 the amendment was adopted. Littauer also introduced an amendment increasing the salaries of the members of the president's cabinet to \$12,000 each, effective on and after March 4, 1907.

On division, the amendment was adopted 204 to 60. Littauer also offered an amendment increasing the salaries of senators, representatives in congress and delegates from territories to \$7,500 per annum. On a rising vote after considerable debate, the amendment was defeated by a vote of 135 to 161.

After disposing of the salary question the house passed the legislative, executive and judicial appropriation bill.

**Thursday, December 13.**

Washington, Dec. 13.—The senate today listened to the second speech which has been made this session against the continuance of Reed Smoot as senator from Utah. It was delivered by Dubois, of Idaho, who, after reviewing in detail the workings of the Mormon hierarchy and Smoot's prominent connection therewith, concluded with the charge that President Roosevelt investigated Hill Lines in January.

Washington, Dec. 12.—Chairman Knapp, of the Interstate Commerce commission, said today that it had not been decided where or when the investigation of the Hill lines will take place. It is known, however, that inquiries will be made at St. Paul and Chicago, and it is probable that Commissioners Prouty and Lane will conduct them. It is not believed that the work will start much before January 15, after the Harriman investigations, in which the inquiries will be made probably December 26 or 27.

**Edgar and Earl Both Fined.**

New York, Dec. 12.—C. Goodloe Edgar and Edwin Earl, members of the firm of William Edgar & Sons, sugar dealers of Detroit, today in the United States court pleaded guilty to accepting rebates on sugar shipments. They were fined \$6,000 each. Edwin and Earl were indicted in connection with the New York Central Railroad company and the American Sugar Refining company. The New York Central was fined \$108,000 and the sugar company \$18,000, after being convicted by jury trial.

**Says Elkins Law is Dead.**

Chicago, Dec. 12.—The fight of the Standard Oil company against the ten injunctions against the Standard Oil company of Indiana which were returned August 29, was commenced today in the United States District court before Judge Landis. The attorneys for the Standard Oil company contend that section 10 of the rate law passed by congress June 29 repeals the Elkins law, under which the government is bringing the action.

**Fifteenth Century Manners.**

The antiquary took down a small, fat volume, vellum-bound, with a brass clasp.

"This is a 'Book of Manners,'" he said. "It was printed in 1470. Here are a few extracts."

And he read:

"Do not gnaw a bone, like a dog, nor suck the marrow out of a bone."

"In peeling a pear, begin at the stalk; but with an apple, begin at the top."

"Do not wipe the hands on the clothes, nor suck them, but use the cloth."

"When you drink, lift the cup in both hands; you must not drink with one hand like a wagoner when he is greasing his cart wheels."

"Wipe your nose and mouth when you have drunk, and do not cough into the cup."

"Do not eat an apple all alone, but cut it in two and give a neighbor a piece."

"Wipe your nose and mouth when you have drunk, and do not cough into the cup."

"Do not use your own knife to cut your meat if the host has set a knife of his own at your place."

"Do not spread butter on bread with your thumb."

**THE LAXATIVE OF KNOWN QUALITY**

There are two classes of remedies: those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers: those who are interested as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of

**Beware of Ointments for Catarrh that Contain Mercury**

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles could never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.
