We Pay 4%

THE ESTACADA STATE BANK
CAPITAL FULLY PAID \$70,000.00

We have opened our savings bank department, and pay 4 per cent. per annum. Interest will be placed to the credit of the depositor on the 1st day of Jan. and July and if allowed to remain will draw interest from date of deposit. No entrance fee will be demanded and no charge for opening an account. This past year has marked a striking chapter in the financial history of our country, because it has illustrated the peculiar dangers of our prosperous times. Unquestionably the special temptation to which the man with the small surplus is subjected is the temptation to turn from a safe and sound financial institution to investments in securities and loans of questionable value. In time of need you may not find such securities negotiable. Try our new savings department. The money will always be ready for use in time of need and will draw 4 per cent. interest while waiting.
