When the Hair Falls

Then it's time to act! No time to study, to read, to experiment! You want to save your hair, and save it quickly, too! So make up your mind this very minute that if your hair ever comes out you will use Ayer's Hair Vigor. It makes the scalp healthy. The hair stays in. It cannot do anything else. It's nature's way.

EXTENSION WORK IS ABANDONED

One Road Alone Reduces Force 50-000-Others Follow in Proportion to Men Employed.

Chicago, May 28 .- Railroad mangers here estimate that by the end of the first week in June the railroads of the country will have discharged between 50,000 and 100,000 men now employed. Some estimates put the number much higher. This does not take into account the large number of laborers and others dismissed because of abandoned extensions and other improvements. Orders were recently issued for the

sions and other improvements. Orders were recently issued for the strictest economy and the reduction of forces to the lowest possible point. The New York Central is to reduce many of its pay-rolls fully one-third. If the order is carried out literally in all departments, it would mean the discharge of 50,000 employes on this system alone.

Railway managers say they rather

Railway managers say they rather upon them during the rush season, and to whom, it is claimed, many wrecks and destruction of life and property can be traced. Aside from this, the roads expect to save a few millions in wages during the summer, when traffic is light. The heaviest cuts will be in the operating departments, in the shops and among clerks.

Many of the employes will be taken back again when business becomes heavy again, but a strong effort will be made to shut out permanently the incompetents and undesirables. The

incompetents and undesirables. The discharged tracklayers and others who were working on extensions and like improvements will not be re-employed until the financial market is more promising and until the new legisla-tion has been given a thorough trial y the roads.

The application of the 2-cent passenger rate will be especially felt by Western roads, and reductions in freight rates and the demands of labor unions, which amount to millions, will affect all roads and call for rigid econmy and a general slowing up until

the way seems clear.

Many states, also, have practically doubled the taxes imposed upon railroads, and the general result requires retrenchment in every direction pos-

FAVORS LIMITED ARMAMENTS.

Will Support America and Britain at The Hague.

Victoria, B. C., May 28.—Japanese newspapers received by the steamship Empress of India from Yokohama contain an interview with Count Okuma, one of Japan's most prominent statesmen, regarding The Hague peace conference, in which he says:

"If Great Britain introduces an armament restriction proposal for debate. Japan will support it, and possibly also the United States. It would be difficult to speculate, though, on the probable attitude of European powers as to the proposal. With regard to the regulations of military and naval battles girlts and distributions. battles, rights and duties of neutrals, regulation of wireless telegraphy and contrabrand of war, Japan and Russia had a claim to advance their views, in iew of their practical experience

view of their practical experience. As far as Japan is concerned, the conference affords the best opportunity of promoting her position in international politics."

Advices were received of large additions to the Nippon Yusen Kaisha fleet. Larger and fasters steamers are to replace some vessels in the American service. The Japanese government just turned over to the company 11 large prize steamers captured during the war, which will be used as freighters.

Strange Accident on Ship. Victoria, B. C., May 28.-Steamer Empress of India, which arrived this morning, brought the body of Mrs. Richard Cadbury, wife of the wellknown English chocolate manufacturer, who was killed as a result of falling down the saloon stairway duraning down the saloon stairway dur-ing a heavy gale encountered on May 21, while the steamer was in mid-Pa-cific. The body was embalmed, and is being taken to England by the four Misses Cadbury, who were accom-panying their mother on a globe-tour-ing trip.

Strike Picket Sent to Pen. Goldfield, Nev., May 28.-Judge Langan today overruled the motion or a new trial in the case of Preston for a new trial in the case of Preston and Smith, convicted of the murder of John or Tony Silva, and sentenced them to the penitentiary, Preston for a term of 25 years, and Smith for a term of 10 years. Preston was the man who did the shooting. He was the picket stationed at Silva's restaurant during a boycott, and Smith was the walking delegate, who sent Preston there. Smith was a leading agitator of the Industrial Workers of the World.

Landlords Must Not Bar Children. Los Angeles, Cal., May 28 .- The city council today, by unanimous vote, instructed the city attorney to prepare an ordinance, which will be passed at the next meeting, making it a misdemeanor, punishable by fine or imprisonment, or both, for a landlord to refuse to rent property to a tenant because the latter is possessed of children.

The council also directed the clerk to send a copy of the ordinance to President Roosevelt.

Two Big Fires.

Lovelock, Nev., May 28.—Half a block of buildings on Main street burned today. One man, identity unknown, was burned to death. The total loss is estimated at \$75,000, with

Rochester, N. Y., May 28.—Fire caused \$100,000 damages today to the building occupied by Oaks & Calhoun, on Main street, East.

Cold Weather at St Louis...

St. Louis, May 28.—The tempera-ture today registered 42 degrees, the coldest May weather recorded in St. Louis in many years.

The most remarkable instance of rapid growth was recorded by the French academy in 1729. It was a boy 6 years of age, 5 feet 6 inches in height. At the age of 5 his voice abanced.

Railroads Laying Off Employes the age of 5 his voice changed; at 6 his beard had grown and he appeared a man of 30. He possessed great physi-cal strength and could easily lift to his shoulders and carry bags of grains weighing 200 pounds. His decline was as rapid as his growth. At 8 his hair and beard were gray, at 10 he tottered in his walk, his teeth fell out and his hands became palsied; at 12 he died with every outward sign of extreme old age.

Strange Thibetan Superstition. A good example of the hocus pocus that the barbarian priests of Asia practice on their fanatic dupes is afforded by the ceremony whereby the Grand Llama of Thibet is supposed to gain eternal life. When this worthy approaches death the priests choose a healthy child 3 or 4 years old, into whose body they pretend to cause the soul of the Grand Llama to migrate. Thus the spirit, although clothed in a new body, remains among the people interminably. The Buddhists believe implicitly in this miraculous rebirth.

Two Hundred Species of Roses There are 200 species of roses in ex-istence, though perhaps not more than fifty clearly defined families. Of these families only two are of American birth. There are thousands of varieties, however, and of these our entervelcome the opportunity to weed out undreds of incompetent, forced pon them during the rush season, and eagerly sought black rose is still unproduced, though a New York florist has a dark-red one which in some lights has the appearance of black velvet

Freaks of Fate. Many wonderful things happen in this country. One of them is the recent election to the United States Senate from a Western State of the son of an century and later married a fellow steerage passenger. But this is not so wonderful as the presence in the Sen-

MRS. LENORA BODENHAMER.

Mrs. Lenora Bodenhamer, R. F. D. 1, Box 99, Kernersville, N. C., writes: "I suffered with stomach trouble and ndigestion for some time, and nothing that I ate agreed with me. I was very nervous and experienced a continual feeling of uneasiness and fear. I took medicine from the doctor, but it did me no good.
"I found in one of your Peruna books

a description of my symptoms. I then wrote to Dr. Hartman for advice. He said I had catarrh of the stomach. I took Peruna and Manalin and followed his directions and can now say that I feel as well as I ever did.

"Ihope that all who are afflicted with the same symptoms will take Peruna, as it has certainly cured me." The above is only one of hundreds who have written similar letters to Dr.

immigrant who came to this country in Hartman. Just one such case as this enthe steerage in the middle of the last titles Peruna to the candid consideration of every one similarly afflicted. If this be true of thetestimony of one person, what ought to be the testimony of ate of another man who came over in the steerage himself and has risen to cere people. We have in cur files a position of power and influence.

The Higher Power.

Bishop Chauncey B. Brewster, for-merly of Detroit, told a story the other day which he says is Mrs. Brewster's favorite. It seems the bishop had other day. Burro Drivers Carry Candles.

In Mexico all vehicles, be they sandcart, automobile or anything beautheart, automobile or anything beaween, must carry a light at night.

Malen's Foot-Ease. A powder. It makes tight or new shoes feel easy. It is a certain cure for one whose feel easy. It is a certain cure for new shoes feel easy. It is a certain feet so new shoes feel easy. It is a certain feel so new shoes feel easy. It is a handcart, automobile or anything between, must carry a light at night.

This rule or law is rigidly enforced. Even the drivers of the poor little burro or mule carts, on their two wheels, must carry a light. So rather than buy lanterns, which cost money, they take a dip candle and, wrapping it in a bit of newspaper to shield it from the wind, carry it in their left hand as they drive along homeward from work after evening has fallen. The effeet is striking as the light, falling on the Indian driver, throws the face of the man into strong relief against the the tendency came from a juvenile
