Attorney Files Formal Complaint Against Southern Pacific.

Salem—John F. Logan, a prominent Portland attorney, has filed in the of-fice of the Oregon Railroad Commission a vigorous complaint against the South-ern Pacific because of its irregular and

uncertain passenger train service north-ward. There is no complaint concern-ing south-bound trains.

Mr. Logan sets forth the incidents of a recent effort to catch a train from a Valley town to Portland. He says the but that station agents were not kept advised as to the time the train would arrive, with the result that he and many others were caused much incon-venience and loss of time. He wants the commission to compel the railroad to establish a schedule it can follow and then keep its agents advised of the time of trains that are delayed.

The afternoon trains going north through the Willamette Valley have not been regular for nearly three months. Farmers near Heppner have filed a complaint against the O. R. & N., 4s serting that the freight rates between Heppper and Portland are experient. Heppner and Portland are excessive. The complaint sets forth that the rate on wheat between Heppner and Port-land, 198 miles, is 18 cents per hundred, while the rate from Pendleton to Portland, 231 miles, is 15% cents per hundred. On other commodities the same difference prevails.

When the bark was taken off the tree When the bark was taken off the tree the surface was very rough, presenting at a short distance the appearance of the hair of a goat. To the ordinary observer that was all that was unusual about it; but Gibson could also see that by sawing straight down the trunk he would get a slab that would not only be a profile of a goat, but that would show the rounded sides, the flanks, legs and head. He sawed out the section, stuck in a He sawed out the section, stuck in a couple of sticks for horns, and had a wooden goat that it would tax the effects of a section of the sect painting he purchased a year ago for less than \$100 as the famous "St. Jerome" painted by Titian about 1531.
