JUNE 13, 1907

In the past history of our country much more has been done for the public good by men in public life who, in early life, have struggled with poverty, than has been done by the public man who, in early life revelled in wealth and luxury. As a rule the world today expects more from its great men who are comparatively poor than it does from those who are wealthy. The recent address of Secretary Taft is along the line of encouraging the wealthy youth to give more time and thought to the welfare of others and less to idle pleasure. Of the other side of life he believes "that material things may become all absorbing. Prosperity may become so great that to share in it may come to seem the one end of life," which condition of things, it appears to us, has already arrived.

Shall the tenth and eleventh grades of school work be added to our present school curriculum? Is there a demand for the additional grades and will the greater expense be easily met by the district? The cost of maintaining a third room would be about \$700 a year. The furnishings for the room would cost at least \$75. We believe the grades should be added, and another teacher employed. The school room is already finished for use. Several of the pupils are finishing the present course and if the work is not extended they will either be forced to stop their school work, or go to some other school. Much better educational results can be obtained with another room, and it will be an inducement for others to come here for school privileges, instead of our own children seeking school advantages elsewhere. Estacada's school district is one of the richest in the county; and its assessment should not be far below \$200,000 since the completion of the electric plant at Cazadero. The district's receipts, from all sources, the closing year amounts to \$1,850. Of this only \$855 goes for teachers' wages, leaving \$995 for other purposes. The school was completed for \$500 and many old warrants have been paid, leaving the district nearly free of outstanding warrant indebtedness. Apparently this places us in a good position to add another room. About \$225 was realized this year from sale of the old school house (\$150) and a public play (\$75) given by the pupils. It is not known just what the last assessment was; however, with a 5 mill levy it seems another room can be run, and besides clear the district of debt, except for bonds.

The rain that visited this part of the county the first of the week did a great deal of good to all kinds of crops. Potatoes, corn and grains especially needed a little moisture to give a better growth, and the late rains answered the purpose.

Oregon City is complaining to the Southern Pacific company of that railroad not having adequate facilities for shippers at that point.

Eagle Creek people signed a remonstrance to the county commissioners and prevented a retail saloon from starting there.

The Oregonian says that Bourne is a rare name, but that is not saying that Bourne is rare.

Important Business

Transacted by Councilmen—
A Cleaning up of Several Standing Questions

The board of city councilmen, at the meeting last Friday evening, ground out a grist of business, and adjourned till Tuesday evening.

After the reading of the proceedings of the previous meeting, and the auditing of a few bills, E. S. Womer handed in his resignation as recorder which was accepted, and on motion A. N. Johnson was appointed to fill the vacancy. In view of the fact that the town's charter requires people holding offices in the city to be residents of the city,

Mrs. Wm. Stubbe was at Oregon City on business yesterday.

Jesse Stubbs is expected home from his claim in Washington.

Mr. and Mrs. W. A. Cunningham took the morning car Wednesday for the city.

Miss Zoa Irwin came home Tuesday from Corvallis, the school year at the college having closed.

Tuesday being class day of the June class of Portland High School the class participated in a trolley ride and picnic at this place. Leaving Portland at 9:30 with many musical and unmusical sounds they at last arrived at their destination at 11 o'clock. The day was spent in games, and all report a fine time. This class is composed of one hundred twenty-five members of which only about half were present. What if the other half had come!

Gleaned By the Wayside

The rains are doing much good; crops of all kinds look fine; farmers happy and every body rejoicing in the country.

Mrs. L. Palmateer returned Saturday from Portland. Glad to see you home again Mrs. Palmateer.

Miss Grace Davis has been sick in bed since Wednesday and in the care of a physician.

Miss Jenny Linn who has been visiting for a week or two at Curriaville returned Sunday to the mill.

Mrs. W. Shriner came over from Boring last Wednesday for a visit in the Garfield neighborhood.

The already attractive home of Mr. and Mrs. W. H. Holder has been made more so lately by the addition of a fine lawn fence of an improved pattern; the Holders believe in doing things well.

Walter Snuffin can be seen every morning coming to town with a load of strawberries which he ships to Portland. Mr. Snuffin has a very nice patch in bearing and several acres lately planted.

The little daughter of Mr. and Mrs. Henry Epperson met with a bad accident Tuesday, having the two middle fingers of the left hand chopped off. Dr. Haviland dressed the wounds. Those who saw the little one were surprised at her fortitude and the admirable patience with which she bore her pain and misfortune.

And now hurry up with that canner in Estacada 50 acres of strawberries will be set out in the next two years if the O. W. P. & Ry. Co. will give reasonable rates for perishable produce on the first passenger car to Portland; as it is now, 50c per crate for strawberries is prohibitive. There is no doubt this is as good a fruit country as Hood River is and people in the neighborhood of Estacada will prove it to be so if they can find a practicable outlet for the produce.

Mrs. S. Leray and family are at Oregon City.

A. A. Allen was in from the farm yesterday, and transacted business.

F. M. Gill returned from Wasco county Saturday, where he had been as a delegate to the meeting of the State grange. He visited his home folks while in Wasco. Mr. Gill will devote some time to photography now.

Rev. C. T. McPherson preaches at Dover and Zion next Sunday. Mrs. McPherson will deliver an address, following Sunday school in Estacada, on the Epworth League—its anniversary. In the evening Mr. McPherson's sermon will be of special interest to the business men.

Ezra Meeker, the Oregon pioneer of 52, who is driving with a yoke of oxen from Puyallup, Wash. to the Atlantic, will drive his unique rig down Broadway, New York City. The wagon he has is the one he drove from Kentucky to Oregon in, in 1852. Mr. Meeker wants the government to make the old Oregon trail a national boulevard.

A much larger quantity of fruit is coming into Estacada from the country this year than last. Among those who are making a specialty of fruit raising is W. H. Holder. He is putting a good portion of his land into fruit. So far his venture has proved successful, and he is now selling his first crop of strawberries of which he has a good yield of different varieties—Clarks, Magoons and Sharpless. The quality and growth is all that could be desired. Mr. Holder set out two acres more into strawberries this spring, besides an equal amount of Logan berries, and different varieties of raspberries, goose berries, etc. The state's experimental apple orchard which is on Mr. Holder's farm is doing well.

Class of '07 Graduate

Estacada's public schools closed the year's work on Tuesday, and in the evening graduation exercises were held in the M. E. church for the eighth and ninth grades. The church was tastily decorated with the classes' colors and flowers, and the crowd that gathered just filled the room's seating capacity. The program lasted an hour and a half, and it was thoroughly enjoyed by all. The audience gave its sincere commendation unfeignedly. The graduates did remarkably well, and the city should feel delighted at the success of its schools. At the close of the program, County School Supt Zinser gave an interesting and instructive address to the classes, and Principal J. E. Stubbs, after a short talk, presented the diplomas. The ninth grade graduates are, Olive K. Wagner, Edna N. Miller, Ava W. Lovelace, Lawrence E. VanDyke and Simcox Smith; and those of the eighth grade are, Kittie E. Reagan, Wm. M. Dale, Paul V. Womer and Mary A. Dale.

Help to start

A Fruit and Vegetable Cannery

By attending the public meeting in Estacada on Friday, June 14. Efforts will be made to have a cannery established here

the office of street superintendent & water commissioner was declared vacant, and E. S. Womer was appointed to the position, with the office of city marshal annexed, at a salary of \$65 a month. Since the departure of R. A. Stratton, a vacancy has existed on the board and it was thought best to fill this owing to the importance of the business soon to be transacted, and L. C. Posson was appointed to the old place of Mr. Stratton. Application by Messrs Johnson and Cooper was made to purchase lot 8 in block 7 of the city, and the recorder and mayor were ordered to execute a deed of the lot to the gentlemen upon payment to the city by them of \$200. A petition was received, signed by a number of the property owners on Broadway, asking that that street be improved by paving. After some discussion it was agreed that the city should enter into a contract with the railway company for electric lighting the streets; placing

a 32-candle incandescent globe on each pole in the business part, and fewer in the residence part of town.

The council was called in special session Monday evening, owing to the members wishing to attend the graduation exercises of the school Tuesday evening. L. C. Posson took the oath of office as councilman. A deal was closed with the Pacific Coast Pipe Company for the gravity system water pipe—9,900 feet 4-inch, 200 feet 5-inch, and 200 feet 6-inch. Work begins at once on the pipe ditch. The source of the new water supply will be the springs on the Vocum farm 1 1/4 miles east of town. The water is said to be perfectly pure, and the flow perpetual. It will cost about \$2,000 to complete the system.

A contract was closed with the Portland Railway, Light & Power Company to light the streets with 25 32-candle incandescent lights at \$1 a light a month; duration of contract, one year.

CITATION

In the county court of the State of Oregon, for Clackamas county In the matter of the estate of Albert Meissner, deceased To Rudolph Meissner and Meissner and to all the heirs of said deceased, known or unknown, greeting:

In the name of the State of Oregon, you and each of you are hereby cited and required to appear in the above entitled court, at the court room thereof at Oregon City in said county and state on the 15th day of July, 1907, at the hour of 10 a. m. of said day then and there to show cause, if any there be, why the petition of the administrator of said estate for the sale of the real property of said estate should not be allowed, and an order made granting the administrator the right to sell said real property, which is described as follows, to-wit: The west half of the northwest quarter, and the northeast quarter of the northwest quarter of Sec. 28, T. 3, S. R. 5 E. of the W M in Clackamas county, Oregon.

This citation is served upon you and each of you by publication by order of the above entitled court made and dated this 10 day of June, 1907.

Witness the Hon. Grant B. Dimick, Judge of the above entitled court with the seal of said court affixed this 10 day of June, 1907.

Attest: F. W. Greenman, Clerk.
Geo. L. Story, Atty for Admr.
J13-J11

Do Not Neglect the Children

At this season of the year the first unnatural looseness of a child's bowels should have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by castor oil as directed with each bottle of the remedy. For sale by the Estacada Drug Store.

SPRINGWATER

Decoration day was well observed at Springwater; quite a number of families congregated at the cemetery and made the graves beautiful with flowers and evergreens.

The children of the Springwater Sunday school are practicing for Children's Day, under the direction of Miss Erma Shibley.

All of the parties on the Springwater telephone line have their phones in and their sing and hum isn't slow.—A Subscriber.

Colic and Diarrhoea

Pains in the stomach, colic and diarrhoea are quickly relieved by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by the Estacada Drug Store.

The Marvelous Prosperity of the United States

By Sir THOMAS LIPTON

A VISIT of some weeks' duration to the United States, wherein I had the opportunity of inspecting the great American manufactures and of examining in detail the progress of American industry, convinces me that the British public has no idea of the kind of prosperity the United States is enjoying today. It is no exaggeration to state that AT NO PREVIOUS PERIOD IN HUMAN HISTORY has such prosperity been known in any country.

Every one in America is making money; not only making money, but making it IN PILES—in such piles that the ordinary standards of comfort and luxury are disappearing and are being replaced by new ideals. The demand for labor is such that it cannot be supplied, whereby work in many places is very much curtailed.

THE PURCHASING POWER OF THE PEOPLE IS RUSHING UP BY LEAPS AND BOUNDS.

The railways' immense prosperity has had an effect on the steel and iron trade, but even America's gigantic iron output is so inadequate that she is driven to buy raw iron abroad. The steel trust alone makes more pig iron than the whole of the works in the United Kingdom. British industries are DWARFED in comparison with those of this prodigious American colossus.

American steel and iron makers are fully booked with orders for the next two years, a state of things which has NEVER been known in England. The cost of food in Britain is now very high, owing chiefly to the short shipments from America, and the day is not far distant when all the food products of America will be required FOR AMERICAN CONSUMPTION.

AMERICAN PROSPERITY DEPENDS UPON THE IMMENSE EXPANSION OF SOLID INDUSTRIES, UPON THE INCREASING PURCHASING POWER OF THE PEOPLE, UPON THE LEGITIMATE DEVELOPMENT OF AGRICULTURE AND THE MINING INDUSTRY. THIS PROSPERITY IS SUCH THAT IT IS PROSECUTING MAMMOTH PUBLIC WORKS FOR WHICH IN LESS FORTUNATE TIMES CAPITAL WOULD BE UNOBTAINABLE.
