

MAN - A - LIN Is An **Excellent Remedy** for Constipation

There are many ailments directly dependent upon constipation, such as biliousness, discolored and pimpled skin, inactive liver, dyspepsia, overworked kidneys and headache

Remove constipation and all of these ailments disappear.

MAN-A-LIN can be relied upon to produce a gentle action of the bowels, making pills and drastic cathartics entirely unnecessary.

A dose or two of Man-a-lin s advisable in slight febrile attacks, la grippe, colds and influenza.

THE MAN-A-LIN CO. COLUMBUS, OHIO, U. S. A.

Odd Coincidence.

Not many years since a pastor New York State read in his pulpit this portion of a hymn:

Well, the delightful day will come When my dear Lord shall take me home

Just then he was stricken with paral ysis and died in a few moments. Thir ty-three years before in the same pulpit another pastor was reading the very same stanza when he, too, was stricken and died.-Scran Book.

Parlor Magie. Mr. Kybosh, who was in search of late copy of a monthly magazine, absent mindedly stepped into the parlor. He was just in time to see the young man hastily remove his arm from the beck of the chair in which Miss Kitty

was sitting.
"Pressed! O! Change!" he muttered instantly stepping back into the sitting For Mr. Kybosh remembered that he was a young man himself many years

NORTHWEST HONORED.

Professor Elliott, of W. S. C., Cor tributes to Ovelopedia.

It is well known that Prof. L. H. Bailey, of Cornell university, has been working for three years past on an ex-tensive publication to be known as The American Cyclopedia of Agriculture.
This is to be published in several volumes and it is expected that it will be accepted by the reading public as the standard reference work on rural affairs.

NO AUTHORITY GIVEN TO GLASS It has been many years since such a work has been attempted and nothing of such an extensive nature has ever been undertaken before in America. Professor Bailey has called to his sid Professor Bailey has called to his sid the best known writers on agriculture throughout the entire country, who have written up the various subjects on which they were recognized as authori-ties. The entire work may be referred to as the combined efforts of the agri-cultural specialists of America and when published will no doubt find a place in the library of years programs.

ers. The article in question consists of about ten thousand words, with numer-ous illustrations, and would be suffiient in itself to make quite a book if published separately. It covers the entire subject of wheat production in merica and at the same time attencion is particularly called to the great regions of the Northwest where the pro-duction and quality of this cereal have placed it in the f.refront. Our wheat growers are to be congratulated in the fact that the article in question has been prepared by one so familiar with the subject and who is doing so much o advance the industry throug the work being done by his department at the state experiment station and at the various cereal stations established in the state as well as through the wheat producers organization which was initiated by him.

AID TO "DRY FARMING."

Washington State College Conducting Extensive Experiments.

The problem of "dry farming" now before the farmers of the semi-arid re-gions of the Pacific Northwest has been taken up by the Experiment Station of Washington, and it is hoped to work out a method of farming for these re-gions which will increase their crop pearing capacity. The present operations of experimentation are largely relative to the physics of soils, and are

method of conserving soil moisture? What is the value of disking the summerfallow early in the spring before it can be plowed? What is the value of the sub-surface packer? If the crop suffers from drouth, is it because there is not sufficient moisture in the soil, or is it because the plants cannot take the moisture from the soil?

In the former case we must endeavo to devise a cultural method to conserve moisture; and in the latter case, we must develop a strain of plants that can take moisture from the soil, which

is a plant breeding problem." Figs Thrive in Polk County.

Figs as large and perfectly develop s those raised in the most favored portion of California are grown at the town nome of Mrs. E. F. Lucas, in Monmouth. Specimens of the fruit were brought to Dallas by Mrs. Martha Cosper, who had been visiting in the nor-mal school town. The figs were of delicious flavor and were far superior to he California fruit usually the Oregon markets.

Mrs. Lucas' tree is seven years old, the cutting having been brought from California in 1900. The tree is making a luxuriant growth and has already reached a height of 12 feet. Three crops of fruit are borne each year. The specimens brought to Dallas by Mrs. Cosper included ripe and green fruit of the second crop and half grown fruit in bearing four years.

Good Money in Peach Crop.

Shipments of early Crawford peaches from Roseburg this year will aggregate a total of nearly 20,000 boxes. This is the estimate given by E. P. Drew, who is handling the shipments of the local fruitgrowers' association, whose membership embraces nearly all of the peach growers have realized good prices for

Growers have realized good prices for their product. Peaches of average size and quality brought form 65 to 85 cents per box, while those of higher grade brought as high as \$1.25 per box. After deducting transportation charges, these prices left the growers a neat margin of profit. Most of the fruit was marketed in Portland.

DID NOT DO BRIBERY

Heard It First From Grand Jury. Says President Scott.

Heney Pursues Purpose to Faster Responsibility for Buying San Francisco Supervisors.

San Francisco, Aug. 27 .- Presiden Henry T. Scott, of the Pacific Tele phone & Telepraph company, was re-called to the stand when the Glass when published will no doubt find a place in the library of most progressive farmers.

It is significant that when it came to the very important subject of wheat that Professor Bailey recognized the great Northwest and its place as one of the leading wheat producing regions by calling on Professor E. E. Elliott, head of the Agricultural department at the State college of Washington, to prepare this most important article. This has been done by Prof. Elliott and the matter is now in the hands of the publishers. The article in question consists of of plans for rebuilding the wrecked plant. The purpose of this testimony was, on the part of the prosecution, to ambush any prospective defense to shunt the bribery blame onto the shoulders of Mr. Picernell.

Mr. Scott, answering a series of ques Mr. Scott, answering a series of ques-tions designed to clinch in the jury's minds the asserted fact that General Manager Glass was in complete con-tral of the company during the alleged bribery period, said that he (Scott) be-tween the date of his election to the presidency and his return from the East, in the latter half of March, 1906, signed no company checks, authorized none, gave no authority to Glass or Halsey to expend any money, and gave no company instructions to any one. Mr. Scott said T. V. Halsey had no stated position with the company, bu that he is drawing a salary of \$175 pe

Mr. Scott declared that 'he gained from the grand jury the first knowledge of the issuance of \$50,000 worth of

NO HOPE FOR CANTEEN

General Grant Says Congress Sees Mistake, But Fears Cranks.

Philadelphia, Aug. 27 .- "The anticanteen law ought to be repealed, but there is little prospect that congress will do anything with it for a good while," said General Frederick D. Grant, in an interview at Willow Grove

"Politicians do not care to antagonize , soil the extreme Prohibition element.
Dis. Congress sees, I think, that it has made the extreme Prohibition element. congress sees, I think, that it has made cussing this problem, Mr. Berry stated:

"Among the questions which we must answer are: What is the best

The general made this statement in answer to an inquiry as to what he

"Element to don't describe the finish my dinner before you are half through with yours."

The existing arrangement provides for the yearly admission of 500 from Japan, but this number is multiplied many times by arrivals from Honolulu. It is proposed to limit the number to 500 from any port. CHANGE LOOKED FOR.

Telegraph Operators Expect Peace

Chicago, Aug. 26 .- A crisis will be sched in the telegraphers' strike within the next few days, according to the expectations of Chicago operators. ement to this effect was made today by Frank Likes, chairman of the local strike committee, at a meeting. Mr. Likes declined to disclose fully his reasons for making this statement, but from other sources it was learned that the operators are expecting that some sort of an offer will be received from the companies within a short time.

In view of the determined stand taken by both corporations against dealing with the strikers collectively, this report was viewed with skepticism in many quarters.

It is said that many of the strikers

would be willing to return to work up-on the promise that they be given free use of typewriters and a moderate wage increase. Recognition of the union, it is declared, would not be insisted upon. The statement of Mr. Likes concerning a possible crisis was made during dispute concerning the advisability of holding a strikers' meeting tomorrow.

DOGS SMUGGLE IN OPIUM.

Customs Officials Make Unique Discovery Near Blaine, Wash.

Seattle, Aug. 26 .- One of the most clever methods of smuggling silk and onium into the United States from British Columbia yet known has been discovered by customs officers at Blaine, Wash., on the international boundary line. Trained dogs were used to carry on the business and the customs officers believe that hundreds of pounds of the contraband drug have been brought into this country in that manner. As a result of the discovery by the officers Thomas Smith is in custody awaiting

Thomas Smith is in custody awaiting trial on a charge of smuggling.

The first inkling that dogs were used for smuggling came a few days ago when Officer Lane, of the Bellingham station, shot a dog which he saw running through the thick timber near Blaine. The canine was loaded down with a leather saddle in which was with a leather saddle in which was found three pounds of opium and a package of silk. Where the dog came from and where he was going were mysteries which the officials at once

began to ferret out.

The officers took a coon dog with them to the boundary line where the first caninel was seen. For three days they waited before another dog came of smuggling.

JUDGE SEARS DEAD.

Saturday. He was about the city, and to many of his friends and associates with a diameter of forty-five one hunsemed in the best of spirits. He retired about 10 o'clock Saturday night, rather earlier than usual, and it was not until Mrs. Sears stepped into his room at 4 o'clock to see if he was sleep-ing well, that it was known he had passed away.

Dr. A. J. Giesy was immediately called, but the judge was past all medical aid. He had ceased breathing when found by Mrs. Sears, and the opinion of the physician is that he had died but a short time before. No scund was heard from his room, and this leads to the belief that the end was peaceful and painless.

Was It Plot of Socialists?

St. Petersburg, Aug. 26 .- At today's St. Petersburg, Aug. 2018. Seesion of the court martial trying persons charged with complicity in the plot against the czar discovered in May, Lieutenant Colonel Spiradovich, chief of the Tsarkoe-Selo gendarmes, raised the question whether the Social Revolutionary party was responsible for the individuals. He said that after the dissolution of the douma the Social revolutionists met in Finland and denounced party delegates who declared the party had no connection with it.

Bank Notes From the Sea

Berlin, Aug. 26.—A package of bank otes of the National Provincial bank of England recently was washed up on the beach of the Island of Foehr, off the Schleswig-Holstein coast, and found by a workman on his way to his factory. It is supposed, as no owner has appeared to claim them, that they belonged to a passenger on the ill fated Berlin, which went down off the Hook of Holland. The notes have been deposited in the safe keeping of the police. If unclaimed in nine months they will be handed over to the finder.

Four Shot in Heldup

Billings, Mont., Aug. 26.—Four men were shot, one fatally and one maimed for life, in an attempted holdup this morning at Huntley, one of the governplans for the dredging of the harbor here. A committee was appointed, consisting mainly of representatives of transportation companies, to report on the matter, and their findings will be sent to the War department. The new sultan declares his intention of appointing another brother kalif of Fez, and then proceed to take with an I-told-you-so air, "now, ma command of the Moorish forces besieging Casa Blanca."

Shure!" exclaimed the old wo with an I-told-you-so air, "now, ma yell kape away from thim Eyetting Casa Blanca.

LIKE THE OLIVE TASTE.

Habit of Smoking Mexican Cis "It has always been a matter of sur ise to me," said a traveler quoted i the Washington Star, "that Mexican cigars and tobacco have not attracted the American taste, inasmuch as we are

nation of smokers.
"I make periodical trips to our si ter republic, and although you might think it was the back-eyed senoritas which first attracted me in the land of the big black cigars that can be bought so cheaply, from the American point of view. There are but few places in this country in the cities where you can get a real Mexican cigar, though hand out the Porto Rico article of rolled tobacco leaf without cracking a

"Mexican tobacco has a flavor pecu llar to itself and unlike that of the real Havana; it is more bitter, and perhaps some men would call it rank, compared with the Cuban product. I have always likened the taste for the Mexican cigar unto that for the olive -it is acquired, and once acquired it ems to stick. The best Mexican cigars come from the province of Veri Crus, just as the best flavored Cubar tobacco comes from a comparatively circumscribed area near the city of Havan in Cuba. The higher grade Vera Cruz cigars, to my mind, have very fine flavor, and they are cor paratively cheap, a good smoke selling for 5 cents each, while the price of cigars in Mexico ranges from 2 cents upward.

"Although Mexican tobacco is very dark, I have not found it as strong of as hard upon the nerves as the dark madure cigars of Cuban make; it seems to be drier, and, aithough black, is not so strong. This is perhaps due to soil influences. It was thought when Porto Rico was made an American posssion that the tobacco and cigars from that island would make heavy inroads upon the domestic and the Cuban products. Although the Porto Rican product is now well sold throughout this country, it has its own particular clientele among smokers, for that to-bacco, like the Mexican, is very dark and of a flavor peculiar to itself. It is much more bitter than the Cuban leaf, which, like its color, is no doubt also due to the soil in which it is grown, and it does not have that peculiar sui generis aroma which accompanies the

"A very fine combination and very hard to obtain may be made of Mexican filler with a Havana wrapper. This along with a pack saddle on its back.

This time there were three dogs loaded down with the drug. The men let them pass, and then, with the aid of first call over all other tobacco comthe coon dog, they traced them to an binations. It may be that the experi-old shack near Blaine. The officers ments with Cuban tobacco seed in some afterwards arrested Smith on a charge of the Southern States in soil which the agricultural department has declared bears an affinity to the original Cuban soil will produce in a generation real Cuban product, but I think the question of the original soil and climatic influences cannot be so easily make time tables for solved. In the meantime we will smoke Kansas City Times. and wait."

> extended use of the word, which is un derstood by comparatively few people outside of army and navy circles and gunmakers. "A 50-callber 6-inch gun." says a naval man, "means one that is fifty times six inches, or twenty five feet long, the length of the bore In the same way a 10.45 pistol means the diameter, or four and a half inches venient because the shooting qualities ot a piece depend in some measure on the ratio of its length to its diameter."-Philadelphia Record,

SKIN DISEASES

HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin cruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while remained the skin and when scratched off the skin and when scratched off the skin acid when scratched off the skin trouble its favorite point of attack is the sca When the blood is pure, fresh and healthy, the skin will be soft, sm
