

A party of surveyors are out on Oak Grove creek 30 miles up the Clackamas from Estacada running lines for building an immense electric power plant. Oak Grove creek is a tributary to the Clackamas and offers wonderful opportunities for power plants. The present plan is to run a ditch for about 8 miles on the hillside which will give about 1000 foot fall, and which will generate 40,000 electric horse power. The cost of construction will be but a trifle compared to the power secured. Before actual work on this plant is begun the railroad will have to be extended up the river, and it is considered that the extension will cost about \$75,000. The name of the company at the head of this enterprise is withheld for obvious reasons. The building of this plant would mean much to Estacada.

Reform in the government of the country seems to be the demand of the people. Reform along republican lines to stop the damaging influence of unscrupulous capital on the country at large. This is going to be the campaign issue next year. It is getting to be as bad for the big corporation to steal as it is for the poor vagabond to steal.

A man named Vanderbilt residing in the Hood River valley raised 40 boxes of Winter Banana apples and received \$12 a box for them. A Vanderbilt can do most anything when it comes to money making.

Manufactured wares to the extent of \$35,000,000 are made by convict labor in the United States each year. So much more taken from the honest laboring man.

It is now believed to be but a short time when the people of the Earth will be communicating with the inhabitants of Mars by means of wireless telegraph.

Grover Cleveland, who is yet far from being an old man, is reported to be in very poor health, and not liable to live long. He is our only living ex-president.

What a lot of filthiness can be covered by good clothes, and pass the wearer into company he is not fit to enter.

A half acre pear orchard up at North Yakima yielded its owner \$4,462.50. Now, Hood River!

The fleet is coming over here to protect China from Japan. Next fact.

Bill Jones has had his gasoline buzz saw buzzing around numerous wood piles the past week, and if all signs don't fail Winter must be just around the bend in the "holler."

Ranger Russ Wilcox came down out of the Government reserve last week for supplies. He said that Mr. Womer intends remaining out until the close of the season—Nov. 1st.

John Honebon brought some magnificent fruit to town last week. It was all raised on his ranch at Garfield, and consisted of Bartlett pears, Gravenstein apples and large Silver prunes.

A good sized crowd purchased tickets for the show and dance at the park pavilion Saturday night. Everybody had a laugh and a good time. Not very many remained to the dance but the firemen are satisfied with the affair.

Every house in town occupied, and people looking for places to rent. What is the matter with Estacada? More houses are needed here. Right here at home is a fine place to invest a few hundred dollars that will bring good returns.

A pleasant evening surprise occurred at the Bronson home on last Thursday in honor of Miss Mary Womer and Mr. Neil Bronson at which many foreigners and even spirits called on them. Games and refreshments were enjoyed, and the

evening was happily spent.

POCKETBOOK LOST

Containing papers valuable to no one but myself. Finder please return & get reward. E. M. Miller, Estacada.

Hatchery to Be Permanent One

Government Finds This Good Place For Hatchery

Supt. Smith of the state salmon hatchery on the Clackamas at Cazadero reports that 2,500,000 eggs have been taken from the Fall run of Chinook, exceeding the most sanguine expectations. Thomas Brown, Supt. of the state hatchery on the Salmon river, has taken 1,035,000 eggs for propagation at his station, and will come down this week for 400,000 more which will leave a trifle more than 1,000,000 to be hatched at the Cazadero station.

State Fish Warden VanDusen, at the beginning of this season, determined upon Cazadero as a site for a temporary hatchery which has been largely in the nature of an experiment, but operations there have been so successful that the state will establish a permanent hatchery there and the P. R. L. & Power Co. is now constructing a fish run-way at the Cazadero dam, and will have it completed in time for the Winter run of salmon to ascend the upper river.

Supt. Smith has stored the racks for future use, and has been given 200 pounds of powder by the state to blast out the rock that in some places make obstructions in the fishing grounds.—Evening Telegram.

NOTICE TO YOUNG PEOPLE Winter is coming on and those intending to get married will save money by calling and examining our nice line of Bedsteads, Dressers, Chiffoniers, China Closets Etc.—H. Cooper & Co.

Attack of Diarrhoea Cured by One Dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy

I was so weak from an attack of diarrhoea that I could scarcely attend to my duties when I took a dose of Chamberlain's colic, cholera and diarrhoea remedy. It cured me entirely and I had been taking other medicine for 9 days without relief. I heartily recommend this remedy as the best to my knowledge for bowel complaints.—R. G. Stewart of the firm of Stewart Bros. Greenville, Ala. For sale by Estacada Drug Store

Meeting At Tracy School Oct. 1st

A meeting will be held in road district No. 10, Garfield, on Oct. 1 to levy a road tax. The meeting is to be at 2 p. m. and will be at the Tracy school house. David Bridenstine, road overseer, expects the county commissioners to be represented.

Will Plank Streets

Plank will be placed on the principal streets of Estacada. This has been decided on by the council as the best manner of putting the city in proper shape for the Winter. It was ordered, at a meeting of the board Tuesday evening, that the city purchase 60,000 feet of 3-inch plank and place them on Main St. from the foot of the heights to 2nd. on Broadway from the track to 3rd. on 2nd west to Jones' barn. Most of the planking is to be wide enough so that teams may pass each other. However, it may yet be decided to place 8-foot plank on all the streets so that 3rd may also be improved. and Main from 2nd to the railroad. The question of extending a plank road from the south end of the Du-bois platform around on the south side of the railway to the Broadway crossing is also before the council. The next meeting will be held Oct. 1st.

The Educational Unit Now Means the Community

HALF a century ago the church and the home, directly or indirectly, gave that moral background and ETHICAL DISCIPLINE which every child and youth must absolutely have. Today the church gets even less hold than the school upon thousands of young people, and the houses of many rich, no less than the tenements of many poor, are MOCKERIES OF HOME. Today, with insignificant exceptions, a boy must pick up his trade education as best he may, and our huge industrial establishments are transmitting potential citizens into replaceable parts of an UNTHINKING MACHINE. Before the civil war the children of New England and the middle west imbibed in the town meeting, the children of the south imbibed in that keeness of political atmosphere, the spirit and ideals of democracy bequeathed by those who MADE America. Today hundreds of thousands are pouring in from every corner of the globe, many of them hostile to all forms of government and knowing no distinction between LIBERTY AND LICENSE, all of them needing to be painfully taught the very ELEMENTS of responsible citizenship. Most significant of all, the development of machinery, with its attendant co-operation and combination of interests, its resulting wealth, luxury, rapid intercommunication, social congestion and complexity, has so bound society together that the moral ruin of the meanest youth or the failure to assimilate the humblest immigrant affects as never before THE WHOLE CIVIC BODY. The educational unit is no longer the individual, no longer the family, no longer even the school. It is the WHOLE COMMUNITY, and what corrupts or destroys one member of that community contaminates the whole. THE OLD EDUCATION WAS INDIVIDUAL, AND THEREFORE SIMPLE; THE NEW EDUCATION MUST BE PRE-EMINENTLY SOCIAL AND THEREFORE MORE AND MORE COMPLEX.
