PLENTY OF EVIDENCE

Lane Has Proof Reaates Were Paid by Southern Pacific.

MPRISONMENT IS THE PENALTY

Interstate Commission Will Call on Bonaparte to Prosecute-Offense Continueb to September.

Washington, Oct. 15. — Interstate Commerce Commissioner Lane, who went to California in response to reports from agents of the commission declaring that the Southern Pacific Railway company was giving rebates and that proof could be obtained, has returned to Washington. He says that the result exceeded his expectations.

Mr. Lane believes that flagrant viola-tion of the law can be proved, and it is the present understanding that as soon as the facts collected are submitted to the full commission, certificates of the illegal operations of the railway will be made to the department of justice, with a request for immediate prosecution of those responsible. The law, as it now stands, provides two years' imprison-

nent for each offense. Whether Mr. Harriman can be inlicted will depend upon whether his responsibility for the alleged violations of the law can be demonstrated. Members of the Interstate Commerce commission believe it can. They say he is the president of the Southern Pacific company, and either knew, or should known, what his subordinates were doing.

According to Mr. Lane, investiga-tions, however, rebates were being paid as late as September 24 of this year.

ANOTHER INSULT.

Drunken Man Falls Into Japanese Laundry at Frisco.

San Francisco, Oct. 15 .- As a result of an attack upon a Japanese laundry last night, the proprietor and one of his employes are in the emergency hospital, many whites are nursing bruises

caused by the clubs of the police and the exterior of the laundry is a wreck. The trouble was occasioned by Joseph King, an intoxicated logger, who crashed into the window of the laundry conducted by T. Umkekeubo, at 422 Fell street. The proprietor and H. Owura rushed out and dragged King into a rear room, where he was placed in charge of a young Japanese, who stood guard armed with a section of grepipe, while the other Japanese hurried to summon the police to arrest

Three intoxicated companions of King witnessed the incident and they planned to rescue their friend. Other whites were called on and there fol-lowed a combined attack on the laundry. The street was scon filled by a large crowd, and a dozen Japanese on the inside sought to repel the invaders. Policeman Thomas Collier was soon

on the scene and attacked the crowd single handed. A riot call which was sounded brought reinforcements. The police charged the crowd with clubs and many were hit.

King was found asleep in the rear

room, innocent of the trouble. JURORS TO TRY FORD AGAIN.

Big Slide in Culebra.

Panama, Oct. 15 .- The American Panama, Oct. 15.—The American engineers are having trouble with the Cuchuracha slide, at the south end of the Culebra cut. This point of land, always a source of trouble to the French when they tried to dig the canal, is again in motion, and will prove a hindrance all during the wet season. About half a million yards of dirt is in motion. All of this dirt must ultimately be removed, but the engineers would rather get it slowly.

Toothache Makes History.

Berlin, Oct. 14.—A learned Egyptologist, who has studied Menephtoh's nummy, declares that the pharaon, who ruled when the children of Israel were delivered from Egyptian bondage, suffered excruciatingly from toothache. The acute agony he endured so angered pharaoh, so "hardened his heart," as the book of Exodus has it, that it was necessary to inflict the plagues on his realm before he would consent to let.

English Officers Arrested

Berlin, Oct. 15.—A correspondent of the Tageblatt, at Emden, telegraphs the Tageblatt, at Emden, telegraphs that according to a dispatch received from Borkum, a yacht with English naval officers on board had been captrued by two Wilhelmshaven torped boats. The officers are suspected of having taken soundings and made photographs in forbidden waters.

SMALL IS OUSTED.

Striking Telegraphers Refuse to Con-

Chicago, Oct. 14 .- The national exeutive board of the Commercial Teleg-raphers' union last night suspended President Small, the order to take effect immediately. The notification adds that the executive board will hereafter direct the strike, and that it will be "run by men with red blood."

New York, Oct. 14 .- Followed by a storm of denunciation and hisses, Samuel J. Small, national president of the Commercial Telegraphers' union, was practically driven out of Clinton hall at a mass meeting of striking operators yesterday afternoon. Mr. Small attempted to explain his action in sending out notices to all locals Saturday night asking them to vote on the question of surrender, but before he could finish shouts of "resign," "get out," and other exclamations even less complimentary described his voice. plimentary drowned his voice.

New York, Oct. 14 .- Following the visit to this city of Labor Commission-er Neil, President Small, of the Com-mercial Telegraphers' union, Saturday afternoon took decisive steps to close the telegraphers' strike. He sent the following telegram to all the leading

cities in the country:
"New York, Oct. 12, 1907.—Pro "New York, Oct. 12, 1907.—Prominent New Yorkers appealed to me to call the strike off. All efforts at negotiations are exhausted, and the company's officials say they will fight to a finish. The treasury is depleted and no more funds are available. Requests for relief from all sides are heavy and urgent. The general assembly cannot meet them. The strike having been ordered without the president's sanction, I recommend that locals vote on the proposition."

CARS STILL SCARCE.

Lane Says the Traffic Grows Faster Than the Supply.

Washington, Oct. 14.-Interstat Commerce Commissioner Lane returned today from a trip to the Pacific coast, thorogubly convinced that the business of the Northwest is going to suffer by reason of the general car shortage. He found throughout that section that, although the railroads are increasing their equipment, some very extensively, bus-iness is growing twice as rapidly, and in consequence the railroads are bound to fall farther and farther behind.

He did not discuss the question in de tail or indicate what action the Interstate Commerce commission is likely to take, for he has not yet had an oppor tunity of conferring with his colleagues.

Mr. Lane said there would be a fuel famine in the Northwest if there should be a long, hard winter. Increase of manufactures and increased use of coal by railroads calls for more coal than the old markets have been accustomed to supply, and wood fuel cannot supply the deficiency for domestic use, because of the high wages demanded by lumber men, making it unprofitable to place wood on the market in large quantities.
If the winter is mild and short, the Northwest may escrape without suffer-ing, otherwise there will be hardship.

COLD PLATES AND HOT PLATES.

"But the hot plate, by no means a dgn of degeneracy, but one marking simply and rationally a desire to rise to our privileges, is everywhere spreading; it will some day everywhere prevall, and meanwhile when we eat where it has not yet come, let us be grateful then for the food."-Washington Post.

A FAD OF THE PAST.

Ha, that was footgear for you-the opper-toed boot. You couldn't wear out. You were defied to! That was in the days when one pair of boots was expected to last you all one winter. No

such foolish notions prevail now, You have become accustomed to buyng a new pair of shoes for each of your children every six weeks. They would turn up their snubby little nose

at copper-toed footwear now. As long as boots were worn by chil-

whether he ever got one or not. There was the grievous sight of toes wearing out while the rest of the boot was good as ever, and without a sound toe the boot was ruined. But the piece of copper at the tip baffled, to a great extent, the mania of the children for kicking their toes on the frosty

ground. The presence of a pair of new redtopped boots (they were always very ornate as to tops) under the Christmas tree was a challenge to the reclplent. "Wear me out if you can!" they seemed to say. Then you would proceed to try you hardest to do so. In the long run you were always victor. But the end was delayed generally to the profit of your father's pocketbook. Now the copper-toed boot has passed

It is an interesting study to note in domestic animals the traits of their wild ancestors. There are some characteristics, of course, which are readily recognizable as being similar to those of animals still in a wild state, and for this reason they give a fair idea of the life and surroundings of progenitors. The habits of the dog and cat are too familiar to comment on, but take the foal and compare his traits with those of the caif.

The foal when a few days old can gallop as fast as he eyer can in after life. He never leaves the dam and takes nourishment in small quantities, avoiding a full meal, which would impede swift escape. In fying down no attempt is made at concealment, and when he stands his head is held high. These habits show that the animal's ancestors spent their lives in the open and not in the forests and that they

were great travelers. The calf, on the contrary, fills him self with milk and is a poor traveler. When danger approaches his first impulse is to conceal himself. All his characteristics point to the fact that the ancestral home of cattle was in a moist, wooded country, while the primeval horse roamed the plains.— London Chronicle.
