# Spring Humors INCREASE IN FORCES

Impure or effete matters accumulated in the blood during the winter cause in the spring such disfiguring and painful troubles as boils, pimples, and other eruptions, also weakness, loss of appetite, that tired feeling.

The best medicine to take is Hood's Sarsaparilla, which thoroughly cleanses the blood, and effects permanent cures by giving healthy functional activity to the stomach. liver, kidneys, bowels and skin.

Sarsatabs are Hood's Sarsapailla in chocolated tablet form. They have identically the same curative proporties as the liquid form, besides accuracy of dose, convenience, economy, run down, from dyspepsia and that tired feel no loss by evaporation, breakage, or leakage, and the same curative promptity of us by mail.

Ogden, Utah, March 31.—The Utah Construction company has been instrucetd by the Harriman officials to dignantly against what was described dignantly against what was described strucetd by the Harriman officials to resume grading a line from Huntington to Homestead, Baker county, Or. This work was halted last fall at the beginning of the financial flurry, and the order to commence activity is looked upon as an encouraging sign of returning confidence in railroad quarters. The road to Homestead is the first link in a cutoff into Lewiston, Idaho.

Alsbams Law is Killed.

#### EXPLOSION IN MINE.

#### Men Fighting Fire Caught in Underground Workings.

Butte, Mont., March 30 .- A special to the Miner from Hanna, Wyo., says: This camp was visited by another big holocaust Saturday afternoon and the lives of 20 men were souffed out by an explosion of gas in Mine No. 1, of the Union Pacific Coal company.

A fire had been raging below the 10th level are leaf.

level since last Saturday, and the force of 200 miners had been laid off for the day as a precaution.

endent Alexander Briggs and Foremen Joseph Burton, Alfred Dodds, James Knox, o' Mines 1, 2, and 3, with a crew of 16 or 17 men, all experience miners, with gas men and fire-fighters, went down into the workings early in the mcrning to fight the conflagration,

will have to find between 250,000 and 300,000 men to mend their tracks and roadbeds and another large army to go into their shops and repair their cars and their locomotives.

The railroads centering in Chicsgo alone will, between April 1 and June 1, alone will, between April 1 and June 1, All knew what had happened, and there was a rush to the mine. Both

there was a rush to the mine. Both entrances had caved in. and the mine imbers had been blown g eat distance

about the outside workings.

The second explosion was more severe than the first, being felt in all parts of the town, and it is feared that 50 to 60 names have been added to the death list.

#### BOMB FOR WELLS.

#### Attempt Made to Blow Up Manager of Telluride Mine.

Telluride, Colo., March 30 .- Eluding the night guard stationed at the Smug-gler-Union mine, at Pandora, two miles south of Telluride, and the searchight which is constantly thrown about the premises during the night from the high tower of the mill as a precautionary measure, an unknown person gained access to the residence of General Bulkley Wells, general manager of the Smuggler-Unica Mining company, Saturday night and planted dynamite under his bed. The dynamite was exploded by ilghting a fuse on the outside of the building about 2 o'clock Sunday morning when the intended victim was asleep. He was hurled against the ceiling and alighted under a mass of debris, but escaped with some scratche

and bruises and impaired hearing. Although a systematic search has been made by Sheriff Fitzpatrick and deputies, aided by hundreds of citizens, no clue has been found to the perpe-trator of the deed. One man who is charged with having said that Wells would be killed has been arrested.

General Wells took a leading part in the suppression of labor troubles in this state in 1904 and I905, and was prominently identified with the recent prosecution of the officers of the Western Federation of Miners at Boise or the charge of complicity in the assassination of ex-Governor Frank Steunen berg, of Idaho.

#### HAS MODIFIED ITS RULING.

#### nterstate Commission Will Re-ope Portland Gateway.

San Francisco, March 30.—A tele-gram was received at the general office of the Southern Pacific company in this city today from Charles S. Fee, passenger traffic manager, who is at present in Chicago, announcing that the recent action of the Interstate Commerce com-Men Lay Down Their Tools Although mission, which was interpreted as clos-Indianapolis, March 31.—The union tating a higher passenger rate by the miners of the Fields company will lay down picks and shovels tonight. Almost 250,000 of them will stop work in Western Pennsylvania Missouri, Iowa, Kansas, Arkansas, Tayas, Mishow, M manner of publishing through rates, and revised tariffs conforming to the commission's wishes will be issued as soon as possible.

This new ruling will be received with great satisfaction in Portland, which was being adversely affected by the higher passenger rates charged from the East to Seattle via Portland than were charged to Seattle over the Great North ern. The Southern Paciefi is equally pleased, for it has been known that its earnings and prestige have suffered by the ruling which has now been modi-Evans' Illness Causes Alarm.

#### San Diego, Cal., March 30.—The news that the flagship Connecticut had been detached from the fleet at Magda lena bay to bring Admiral Evans t assuring reports have been coming from Magdalena bay during the past ten days, but the fact that it is deemed necessary to bring him north two weeks in advance of the fleet is taken to indi-

cate that his condition is not all that could be wished for. Says Dunne is Prejudiced. San Francisco, March 30.—Abraham Ruef today filed an affidavit through which he seeks to disqualify Superior

#### THE LIME. SULPHUR SPRAY.

#### Good Preventive for Apple Scab and Less Harmful Than Some. B. Cordley, Entomologist, Oregon Experime

The serious results in the form of Bordeaux Injury" which often follow applications of Bordeaux mixture render it almost imperative that some means be found of reducing this injury, or that some spray be discovered which may be used as a substitute for Bor-

For the past two or three years I have observed, after winter spraying apple and pear trees with lime-sulphur solu-tions, for San Jose scale, that the fruit upon the sprayed trees was less "scab-by" than that upon unsprayed trees. Upon two different occasions this winter Upon two different occasions this winter application was delayed until the blossoms were about to open and while the spray, which was applied at the full strength, did considerable injury at the time, its decidedly beneficial effects were noticeable when the fruit was gathered. However the generally good results which follow winter applications of lime-sulphur are now well tions of lime-sulphur are now well known and this part of the work re-

quires no further comment.

Nevertheless, these observations suggested to me the probability that lime-sul\_hur solution might be used as a sub-titute for Bordeaux mixture for summer applications and during the past year I have so used it upon vari-

ous plants for various purposes.

It is not proposed at this time to go at all into detail regarding these experiments—I wish only to call attenperiments—I wish only to call attention to some of the results obtained which show conclusively that lime-sulphur solutions may be used as a summer spray without injury to foliage and also point strongly to the probability that by its use apple scab may be effectually controlled without danger of spray injury to the fruit.

Sufficient work has not been done to use the statement that lime sulphur

justify the statement that lime-sulphur is equal to Bordeaux as a preventive of this disease but the results of the single this disease but the results of the single season's work point so strongly to this conclusion that I feel justified in call-ing attention to them, that growers who have suffered loss from Bordeaux injury, and others who are interested, may make comparative tests of the two sprays the coming season.

In carrying out the work the past season it became necessary first of all to determine how strong a solution could be used without injury to the foliage. This, again, made it necessary to adopt some method of "standardizto adopt some method of "standardiz-ing" the spray. After considerable work we adopted what may be termed the "stock solution" method of prepar-ing the spray and adopted as a stand-ard for the work a "stock solution" having a specific gravity of 1.27. (For determining the specific gravity of the solution while at work in the field we have found the specific gravity hydro-meter a very convenient instrument. It is cheap, simple and convenient, and we would recommend every grower who expects to use lime-sulphur as a

summer spray to obtain one.)
This solution, similar to the Rex.
Niagara and Phoenix lime-sulphur sprays upon the market, any of which would undoubtedly do as well, is of a clear, dark amber color, is without sediment, and as stated above had a specific gravity of 1.27. Analysis snowed that seah miles contained in solution that each gallon contained in solution 2.38 pounds of sulphur. During the season of 1907 these

action of the Interstate Commerce commission, which was interpreted as closing the Portland gateway and necession pear, peach, plum, prune, quince, herry, grape, potatoes and celery.

The results obtained indicated that lime-sulphur sprays produced by di-luting 1 gallon of the stock solution with 15 gallons of water may be safely used upon all of the above-named plants, with the exception of the peach unless it may be early in the spring, when very slight injury was produced. For use upon the peach each gallon of solution should be diluted with at least 20 gallons of water.

For the experiments with apple scab a block of 400 Yellow Newtown trees were selected, because this variety is particularly susceptible to this disease and because this block was known to be badly infested.

The entire orchard was sprayed with ime-sulphur for San Jose scale late in February. The orchard was then divided into two plats. One plat was sprayed with Bordeaux mixture on Apirl 20, May 8 and May 17. The other plat was sprayed on the same dates with lime-sulphur solution diluted 1-15. Unsprayed trees were left as checks in each plat. At picking time the fruit was care-

fully gathered, examined and separated into three grades to show per cent of fruit absolutely free from scab, slightly scabby and badly scabbed. It was then regraded to show per cent of fruit

then regraded to show per cent of fruit injured by spray.

The summing of results is shown graphically in the following table.

Column marked A shows per cent of fruit free from scab; B, that showing only small scab spots; O, that badly scabbed and unmarketable; D shows spray injury.

Unsprayed ... 19.9 28.7 51.3 6 Bordeaux ... 49.1 35.4 15.5 31.9 Lime-sulphur ... 79.3 15.3 5.3 0 It must be remembered in interpret-ing these results that they represent only one season's work on one variety.

Lemon Pie. One cup of sugar, two tablespoon fuls of corn starch and a cup of boiling water, butter half the size of an egg the grated rind and fuice of a lemon cook together till clear, and when cold add the yolk of an egg. Next Monday the movement will apply to the pay of many more.

railroad laws unconstitutional; also that the suits brought by the railroads are not in violation of the eleventh constitutional amendment, not being suits against the state. Several of the minor claims were also declared to be invalid.

The most important part of the human system is the blood. Every muscle, nerve, tissue, bone and sinew is dependent on this vital fluid for nourishment and strength necessary to maintain them in health and enable each to perform the different duties nature requires. Even the heart, the very "engine." of life, receives its vigor and motive power from the blood. Since so much is dependent on this vital fluid it can very readily be seen how necessary it is to have it pure and uncontaminated if we would enjoy the blessing of good health. Bad blood is responsible for most of the ailments of mankind; when from any cause it becomes infected with impurities, humors or poisons, disease in some form is sure to follow. Muddy, sallow complexions, eruptions, pimples, etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour, acrid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores or ulcers, which break out on the flesh, often from a very insignificant bruise or even scatch or abrasion. If the blood was pure and healthy the place would heal at once, but being loaded with impurities, which are discharged into the blood and to invigorate and tone up the system. This spring my blood was bad and I was run down in health, and having seen your medicine highly advertised commenced its use.

the wound, irritation and inflammathe wound, irritation and innamma-tion are set up and the sore continues. Bad blood is also responsible for Anaemia, Boils, Malaria, etc.; the weak, polluted circulation cannot fur-nish the nourishment and strength required to sustain the body, and a general run-down condition of health

was run down in health, and having seen your medicine highly advertised I commenced its use. Today my blood is in fine condition and my general health is of the best. Am filling position as fireman for a large concern here, and if I was not in good physical condition it would be impossible for me to fill the place. Your S. S. has been of great service to me and I do not hesitate to give it the credit it qeserves.

WM. F. VANDYKE.
