

# STEAMER WRECKED

## Eleven Men Drown On Yaquina In Storm.

### CAPTAIN AND NINE MEN SAVED

#### Vessel Was Headed South With Big Cargo of Lumber When Gale Struck Her.

NEWPORT, Or., May 5.—Eleven of the officers and crew of the steam schooner Minnie E. Kelton, lumber laden, from Aberdeen, Wash., to San Francisco, were killed or drowned as a result of a gale Friday night. The steamer is lying at anchor half wrecked, about a mile off shore, between Yaquina Heads and Cape Foulweather. Captain James McKenna and nine of his crew were saved.

Friday the Kelton ran into a strong head wind, which increased as the day proceeded, until by midnight it was blowing a hard gale. The vessel continually shipped large volumes of water and labored heavily in the sea. The rough weather continued until the vessel reached a point eight miles southwest of Yaquina, when the deckload shifted and started the bulkhead of the stowage, and the vessel began filling from the bunkers and engine-room to the hold. The pumps proved unavailing against the rush of water.

When she had drifted north of Yaquina Head the captain, seeing the hopelessness of his vessel's condition, ordered the craft abandoned, and directed that the lifeboat, which was large enough to hold the entire crew, be lowered. While engaged in clearing the lifeboat, the vessel suddenly shipped a tremendous sea, which swept overboard the deckload of lumber, and with it the after deckhouse, both boats and 11 of the men. The lifeboat was pitched onto the floating lumber, one end hanging at a sharp angle.

In climbing into the boat the men capsized her. They succeeded in righting her again, and about seven sailors climbed in, leaving four others on the wreck. The captain ordered the lost to pick them up, but for some reason the order was not obeyed. Within a few minutes the lifeboat and the wreckage with the unfortunate on board, drifted away from the Kelton. By this time the steamer had drifted close to shore, and Captain McKenna let go his anchors in hopes they would hold him off shore. Shortly afterward a small boat came from the wreck, and the men on the wreckage. None of them was seen again until three of their bodies were picked up on the beach Sunday.

### ISSUE \$100,000,000 BONDS.

#### Harriman Would Continue Union Pacific Work.

NEW YORK, May 5.—E. H. Harriman announced today that the stockholders of the Union Pacific Railroad Company will be asked at their meeting at Salt Lake tomorrow to authorize an issue of \$100,000,000 of bonds. He said that \$50,000,000 of this amount will be reserved for issue under strictly guaranteed provisions for construction and acquisition of new lines and additions. Mr. Harriman's statement follows:

"The financial requirements of the Union Pacific have been much exaggerated. The maximum amount needed at this time to put the company in funds does not exceed \$25,000,000, but we want to resume development and put our people to work. In no event, however, will over \$50,000,000 of the bonds be issued against properties now owned. Instead of mortgaging new lines as constructed, we acquire and thus having separate mortgages on different divisions, it is deemed best to provide in one mortgage for future extensions and new lines. The meeting is a preliminary step to put the company in a position to take advantage of the favorable opportunities to raise additional capital to the best advantage."

### Rich Copper Deposits.

SANTA FE, N. M., May 5.—Eastern New Mexico, and Roosevelt County in particular, is excited over the discovery of a deposit of copper which may rival that of Michigan or Montana. A few days ago, while drilling a well for water on a homestead claim 10 miles south of the town of La Lando, the drill penetrated a vein of native property of peculiar richness. The news spread rapidly, and within 24 hours after the discovery had become known, 400 claims were staked out in the immediate vicinity. The rush is still on.

### Evans to Join Fleet.

PASO ROBLES, Cal., May 5.—Admiral Evans will leave today for either Monterey or Santa Cruz to rejoin his fleet. He will do this over the stern protest of Surgeon MacDonal, who has treated him since his arrival here. Despite the fact that the admiral claims to feel "fine as silk," Surgeon MacDonal fears that the change from absolute quiet of Paso Robles to constant excitement that must necessarily follow his rejoining the fleet, and the many receptions awaiting him, will cause a relapse.

### Express Robbers in Trails.

LAREDO, Tex., May 5.—The men who robbed the Wells-Fargo Express Company of \$63,000 on the Mexican Central Railway, are in jail here, and both men have confessed. They are Luis Cutting, chief clerk in the general offices of the express company, and Ro-olfo Alvarez, alias Rodriguez, the express messenger, who disappeared in Agua Caliente. The money was found by the police in Cutting's room.

### Snow Drifts West.

CHEYENNE, Wyo., May 5.—The fall of snow which began here last night and continued today was the heaviest since November. Ten inches of snow had fallen up to this afternoon. The precipitation is general throughout Wyoming, and is of great benefit to the farmers and stockmen.

### 60,000 MEN IN PARADE.

#### End of Gr. at Catholic Centennial Celebration.

New York, May 4.—Sixty thousand Roman Catholic laymen marching in procession Saturday brought to a climax and formally ended the week-long celebration of the centenary of the founding of the Roman Catholic diocese at New York.

Along Fifth avenue and through Fifty-seventh street, where the line of march led to the disbanding point hundreds of thousands of persons were massed. The reviewing stand had been built to accommodate 3500 persons, and its whole capacity was placed at the disposal of women and children and the distinguished prelates who have been participating in the observance of the centenary. The prelates in their gorgeous robes occupied a space in the center stands and banked around them, on every side were thousands of women and children.

Of all the 60,000 who took part in the parade, every man save one was on foot. The mounted man was Brigadier-General Thomas Barry, the grand marshal. Behind him trudged thousands, millionaire and laborer. In the van was a delegation from the Catholic club, among them Thomas F. Ryan, Thomas A. Emmett, Justice John W. Goff, Justice Davis and Justice O'Grman, of the supreme court. Bourke Cockran, John D. Crimmins, David McCleure and many other men prominent in the city's life participated.

Many of the large stores and other business places conducted by Catholics had declared a half holiday for today. The parade formed at Washington Square well down town. The line of march covered a distance of approximately three miles.

### NOW UP TO THE HOUSE.

#### National Drainage Bill May Become a Law.

Washington, May 4.—Friends of the national drainage bill are very much encouraged by reason of the fact that that measure has passed the senate, and been referred to the house committee on public lands. While there is very little time left for its consideration in the house, there is a slight possibility that it might get through the lower branch of congress before adjournment, but this will only be possible in the event that there is general support of the measure, both in committee and in the house. If there is as much difference of opinion in the house as prevailed in the senate, the bill will probably go over to the next session.

The bill, in effect, creates a national drainage fund, similar to the national reclamation act, providing that all moneys received from the sale of public lands in states not contributing to reclamation fund shall be utilized in draining swamp and overflowed lands. The drainage fund will be small in comparison to the reclamation fund, for the bulk of the receipts from land sales is utilized for irrigation. However, the cost of reclaiming desert lands, and one dollar in the drainage fund will go as far as five dollars in the reclamation fund.

### Indian Village at Rose Festival.

Portland, Ore., May 2.—C. A. Mount, general agent of the O. R. & N. at Lewiston, Idaho, is arranging to bring to Portland for an extended stay a band of 75 braves from the Nez Perce reservation, the Indians to be here before June 1, so that they may participate in several of the day and night parades which will form a part of the week's program. The Nez Perces are regarded as the most perfect physical types of any race of Indians still existing. They will appear here in full regalia, on horse back, with all the gorgeous trappings which have made the race famous from times long gone by. Their feats of horsemanship are said to excel those of any Indians on the continent. While in Portland they will live in their own village which will be located where the tens of thousands of visitors may at pleasure, witness the forms, rites and ceremonies of the Indians, for they still live in their natural state, while encamped here.

### Awakens After 85 Days.

Los Angeles, Cal., May 4.—After an unbroken sleep which extended over a period of 85 days, Mrs. Beulah Hawkins, a patient at the county hospital, awakened early this morning and asked for a drink of milk. Her return to consciousness was entirely unexpected. A nurse, attracted by the sound of rapping entered Mrs. Hawkins' room to find the patient sitting up in bed with her eyes open. Physicians were summoned and the woman talked rationally with them for some time. It was found that she was able to stand.

### Still Has Two Millions.

New York, May 4.—That Charles W. Morse, the former banker and steamship promoter, was about to pay every dollar of his indebtedness resulting from the collapse of his business, was a statement made today by his counsel. Counsel said Mr. Morse's settlement of the claims of the National Bank of North America was only a beginning and that he intended to settle all claims as rapidly as possible. He declared that Mr. Morse's friends have loyally stood by him and that Mr. Morse will have \$2,000,000 left.

### Linin's Steward a Smuggler.

Philadelphia, May 4.—Taken from the British steamship Haverford as she was steaming down the Delaware river from this port bound for Liverpool, Robert Gordon, of Liverpool, England, the chief steward of the liner, was arrested today by customs officials, charged with smuggling silks, laces and other dutiable goods, and was held in \$1000 bail for trial. The smuggled articles were discovered in a mattress that was landed here by the Haverford.

### Four Suspects Are Held.

Pittsburg, May 4.—Four men, believed to have been implicated in the robbery of the St. Louis express Thursday night, were brought to this city this afternoon by detectives. The identity of the men or where they were arrested cannot be learned.

### GRASSES AND CLOVER.

#### Possibilities of Its Successful Growth in Northern Idaho.

By H. T. French, Director Idaho Experiment Station, Moscow.

Much interest is being manifested in the possibility of growing grasses and clovers in the section about Moscow and other portions of Northern Idaho. This matter is of special interest at this time, for many new settlers are coming into this state from the older states, where these crops constitute a very important part of farm production.

Our experience extends over several seasons and we thought it might be of profit to some to know what is being done in this direction on the experiment station farm.

We have undertaken to establish a seeding of clovers and grasses on a portion of the farm and herewith give a brief account of the results of our work during the past season.

Last April we plowed up ten acres of land on which wheat was grown the year before, and fitted it for the seed by harrowing twice with a fine toothed smoothing harrow. We then sowed broadcast the following mixture, covering six acres, leaving the balance until later, on account of the ground being in a lower position of the field and too wet to work.

40 pounds common red clover.  
5 pounds Alsike clover.  
25 pounds orchard grass.  
5 pounds meadow fescue.  
5 pounds English rye grass.  
10 pounds timothy.  
5 pounds tall meadow oat grass.

This made 16 pounds of the mixture per acre. The balance of the field was sown in the same combination, at the same rate per acre, except eight pounds of alfalfa seed was added to the mixture in place of the alsike clover and timothy seed.

No nurse crop was sown with the grass mixture. And here is where many farmers make a mistake, by sowing wheat, oats or barley with the grass or clover. It is the experience of the best farmers now that it is not wise to sow a nurse crop with the seeding. The more rapidly growing grain crop takes the moisture away from the tender grass, and clover plants, and when the grain is out the hot sun burns these tender plants up. The wild oat which is so abundant in the soil of this locality is quite enough of a nurse crop, and some attention should be given to cutting this out of the way when it reaches the proper stage. We cut two crops of wild oats from our field. The first crop made a fair yield of hay. In cutting the wild oats the mowing machine should be set high enough so that it will not cut the clover or young grass.

The last of November, when the yield was last examined, there was a fine stand of clover and of all the grasses sown, so far as we were able to detect them. Much of the clover headed out last season making a growth one foot high or more.

Unless last season was an exceptionally favorable one there is no reason why clovers and grasses should not be grown in the hill lands in this section. The yield of wheat will not be less when the farmers learn to grow these crops which restore fertility, and the possibilities of diversified farming with stock as an important factor, will be greatly strengthened.

### VARIETIES OF FRUIT.

#### Washington Professor Makes Study of Each Region.

By J. L. Ashlock, Washington State College, Pullman.

During the past year numerous inquiries have come to the State college department of horticulture asking questions which generally can be summed up in the one question: "What kinds of fruit will do best where I live?" This class of queries has given the staff of the state experiment station considerable trouble, since, as stated by Professor Thorner, head of the department of horticulture, unless the staff members know exactly the climatic and soil conditions of the region from which the question came, erroneous information may be given, leading the seeker for information to plant trees not at all adapted to his region.

"Now we have solved the problem," said Professor Thorner, recently. "During the last year we have made a careful survey of the state with reference to the particular varieties of fruits which are adapted to each region. We have classified the lists into 'Western Washington,' 'Inland Valleys,' and 'Upland Valleys.' In this list is included apples, pears, cherries, peaches, apricots, plums, raspberries, prunes, blackberries, gooseberries, cranberries, strawberries and nuts. Early, medium early and late varieties are given where it is necessary. We submit these lists to all inquirers now, and from a dozen or so good varieties of apples, pears, etc., he may choose as he likes, according to the adaptability of the fruit for his region.

"Another experiment we have in hand is one in which we have selected sixty-five good varieties of apples from the eight hundred or so varieties in the state experiment station orchard, and are sending two varieties of each of the sixty-five varieties to ten farmers or fruitgrowers of Washington. We wish to determine by this experiment how each variety will do in the particular region in which it is tried, and in this way we hope to collect much valuable data concerning the possibilities for new varieties of apples in this region."

Brown one-half cup of butter and two large onions (chopped) together until well done. Slice one pint of potatoes and add to the onions and butter. Add enough water to cover and cook until the potatoes are soft. Season to taste with salt and pepper, and last of all, add about a cupful of rich cream. Serve while very hot.

### Still at It.

From hymns that tell of martial deeds Some folks would try to wear us; Which will recall to one and all The mollycoddle genus.

—Cleveland Leader.

### Cabbage Salad.

One head of cabbage chopped fine, two cups of vinegar, one cup of sugar, one cup of water, one tablespoonful of mustard, two eggs; place this on the stove and let it come almost to a boil, then pour over the cabbage, add a little salt and pepper, and mix well together.

All papers left on the trains of the Benigan State railways are appropriated by the government and are utilized in the manufacture of card for tickets.

# We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

You must look well after the condition of your liver and bowels. Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dizziness, and thus preventing the Sarsaparilla from doing its best work. Ayer's Sarsaparilla is a liver and blood purifier. The dose is only one pill at bedtime.

Made by J. C. Ayer & Co., Lowell, Mass. Also manufacturers of HAIR VIGOR, CHERRY PECTORAL.

# HOTEL MOORE

## OPEN ALL THE YEAR

### CLATSOP BEACH SEASIDE, OREGON

Directly on the beach overlooking the ocean. Hot salt baths and sea bathing. Recreational grounds. Electric lights. First-class place and steam heat. Fine walks and drives. Sea food. Special rates by the week. DAN J. MOORE, Proprietor.

### Entirely Superfluous.

"A word to the wise is sufficient," remarked the man with the quotation habit.

"Wrong again," rejoined the contrary person. "A word to the wise is unnecessary."

### In the Long Ago.

Cardinal Wolsey had fallen. "I was trying to dodge an automobile," he explained, "and a roller skater ran into me."

### The Historians, however, with singular obtuseness, have persisted in placing the blame on Henry VIII.—Chicago Tribune.

### \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure, in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only medicine known to destroy the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving it a permanent strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: J. CHENEY & CO., Toledo, O. Sold by all druggists. Take Hall's Family Pills for constipation.

### When Mrs. Carrie became she didn't quite forget.

She took her low, sweet voice along, and but for hubby's just a little slow to answer to her call. She can jar him with a voice that cracks the paper on the wall.

—Chicago Tribune.

# Syrup of Figs and Elixir of Senna

acts gently yet promptly on the bowels, cleanses the system effectually, assists one in overcoming habitual constipation permanently. To get its beneficial effects buy the genuine.

TAKES OUT THE PAIN AT ONCE, REMOVES THE STIFFNESS, PREVENTS ITS RETURN, TOO. FINE FOR BRUISES, SPRAINS AND SORENESS.

Price 25c and 50c.

When writing to advertisers please mention this paper.

### Circumstantial Evidence.

Sir A. Conan Doyle, at the Authors' Club Christmas dinner in London, related that in America some colored people were keeping the festival of Christmas and they were told to hang up their stockings at night. One poor fellow had no stockings, and so he hung up his trousers. In the morning he was asked what he had got. He replied: "I guess I got a man, for my pants are gone."

### Use for Old Tin.

Old tin is put to a variety of uses. For instance cheap trunks are covered with tin from discarded tin cans and other utensils, the tin having been first cut to desired size and straightened and smoothed out. There are also concerns in different parts of the country which make a business of removing the tin coating from old tin cans and scrap tin.

### For the Housewife.

Some active women who pride themselves in housekeeping seem to forget that the object of keeping house is that human beings may be accommodated in it. Their sole idea seems to be that the house may be kept in a certain form and order; and to the performance of the form and order they sacrifice the comfort the house was established to secure.

### Woman Railway Workers.

In the South of France one may see, at the little wayside stations, women attending to the signals of the half dozen daily trains; while the companies regularly economize at the level crossings by employing female labor. The husband can be seen at work at his vines upon the hillside, while the wife waves the green flag and keeps the children quiet.—Detroit News-Tribune.

# General Debility

Day in and day out there is that feeling of weakness that makes a burden of itself. Food does not strengthen. Sleep does not refresh.

### Hood's Sarsaparilla

It vitalizes the blood and gives vigor and tone to all the organs and functions.

In usual liquid form or in chocolate tablets known as Sarsatabs. 100 doses \$1.

### Telephone Carrie's Romance.

Conscientious Carrie always tried to do her best; Never lost her temper—she was different from the rest; Carrie was a "central," with a voice of sweetest tone, and that is why Miss Carrie has a cottage of her own.

—Portland Oregonian.

### A Surprise.

Teacher—Freddy Faugie, you may give the German name of the river Danube.

Freddy—Dunno.

Teacher—Donau! That is right. I am glad you have studied your lesson so well.

Freddy is surprised, but keeps still.

### Closing the Incident.

The famous ball player was looking through the sporting columns of the newspapers.

"See they've quit mentioning me," he said. "I may as well sign."

Upon doing which he secured one more mention in the newspapers.

# HAD CATARRH THIRTY YEARS.

CONGRESSMAN MEEKISON RECOMMENDS PER-UNA

"I have used several bottles of Peruna and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison.

### OTHER REMARKABLE CURES

Mr. Jacob L. Davis, Galena, Stone county, Mo., writes: "I have been in bad health for thirty seven years, and after taking twelve bottles of your Peruna I am cured." Mr. C. N. Peterson, 132 South Main St., Council Bluffs, Iowa, writes: "I cannot tell you how much good Peruna has done me. Constant confinement in my store began to tell on my health, and I felt that I was gradually breaking down. I tried several remedies, but obtained no permanent relief until I took Peruna. I felt better immediately, and five bottles restored me to complete health."

### A SINCERE RECOMMENDATION.

Mr. D. C. Praser, Bravo, Allegan Co., Mich., writes: "Two years ago I was badly afflicted with catarrh of the stomach. I had had a run of typhoid fever, and was very depleted. I could find nothing I could eat without causing distress and sour stomach. Finally I came to the conclusion that I had catarrh of the stomach, and seeing Peruna advertised, began to take it. It helped me soon, and after taking three or four bottles I was entirely cured of stomach trouble, and can now eat anything."

Manufactured by the Peruna Drug Manufacturing Company, Columbus, Ohio.

Juvenile Ignorance. "Paw, why do we have to pay for the water we use? We don't have to buy our air." "That only shows, my son, that you have never had to pay a gas bill."

Uncle Allen. "It's a mystery to me," said Uncle Allen Sparks, "that Senator La Follette, when he was counting up the men that control the money of the country, forgot to include Mrs. Hetty Green."

# S.S.S. FOR BAD BLOOD

The most important part of the human system is the blood. Every muscle, nerve, tissue, bone and sinew is dependent on this vital fluid for nourishment and strength necessary to maintain them in health and enable each to perform the different duties nature requires. Even the heart, the very "engine" of life, receives its vigor and motive power from the blood. Since so much is dependent on this vital fluid it can very readily be seen how necessary it is to have it pure and uncontaminated if we would enjoy the blessing of good health. Bad blood is responsible for most of the ailments of mankind; when from any cause it becomes infected with impurities, humors or poisons, disease in some form is sure to follow. Muddy, sallow complexion, eruptions, pimples, etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour, acid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores or ulcers, which break out on the flesh, often from a very insignificant bruise or even scratch or abrasion. If the blood was pure and healthy the place would heal at once, but being loaded with impurities, which are discharged into the wound, irritation and inflammation are set up and the sore continues. Bad blood is also responsible for Anaemia, Boils, Malaria, etc.; the weak, polluted circulation cannot furnish the nourishment and strength required to sustain the body, and a general run-down condition of health results. S. S. S. is nature's blood purifier and tonic; made entirely of healing, cleansing roots and herbs. It goes down into the circulation and removes every particle of impurity, humor or poison that may be there, restores lost vitality, and steadily tones up the entire system. It adds to the blood the healthful properties it is in need of, and in every way assists in the cure of disease. S. S. S. neutralizes any excess of acid in the blood, making it fresh and pure, and permanently cures Eczema, Acne, Tetter, and all other skin diseases and eruptions. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Malaria, and all other diseases or disorders arising from bad blood. Book on the blood and any medical advice desired free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Your S. S. S., in my opinion, is as good a medicine as can be had; it simply cannot be improved upon as a remedy to purify and enrich the blood and to invigorate and tone up the system. This spring my blood was bad and I was run down in health, and having seen your medicine highly advertised I commenced its use. Today my blood is in fine condition and my general health is of the best. Am filling position as fireman for a large concern here, and if I was not in good physical condition it would be impossible for me to fill the place. Your S. S. S. has been of great service to me and I do not hesitate to give it the credit it deserves.

W. F. VANDYKE, 815 Fifth Street, Deaver Falls, Penn.
