Increase Commodity Rates.

Portland.—Important changes in freight rates to and from the Pacific coast will be made by the new transcontinental tariffs that are to go into effect January 1. All points on the Pacific coast between San Diego, Cal., and Vancouver, B. C., will be effected by the changes. It is said that the tendency will be to increase commodity rates under the new tariff. Some increases as high as 10 per cent are intended, although the average will be from 5 to 10 cents on the hundred. Class rates, it is said, will be slightly reduced.

Prosperous Year for Stockmen.

Vale.—With the close of a prosperous year for farmers, cattlemen and sheepmen in southeastern Oregon, there are abundant signs of prosperity reflected in the growth of the towns of the district. As the gateway to the markets for the greater part of Malheur and Harney counties, Vale, the terminus of the Malheur railroad, which connects with the Short Line at Ontario, is reaping the benefit of the general prosperity prevailing over the territory, and is showing signs of developing into a modern, progressive and energetic community.

College to Raise \$50,000.

Albany.—Albany college has launched a campaign for a \$50,000 endowment. Friday, November 20, will be "college day" in Albany and on that date an effort will be made to raise \$10,000 in this city as a nucleus for the fund. An endowment now seems assured for Albany college by the action of the college board of the Presbyterian church of the United States. The president of this board has promised to give one dollar for an endowment for Albany college for every dollar raised in Oregon up to \$25,000, thus providing for a \$50,000 endowment.

Famine Threatens Klamath.

Klamath Falls.—Flour is now selling in Klamath county at \$2.20 a hundred weight, and it is believed from the present outlook that there will not be enough to last until spring. It is probable that grain and flour will have to be shipped into this country before next season's crop is ready. Wheat is now selling at \$1.50 a hundred weight, and oats and barley about the same. This price is nearly double that of last year.

Road Operated at Loss.

Salem.—The Coos Bay, Roseburg & Eastern railroad has filed its annual report in the office of the railroad commission, showing a total of 31,566 miles of main line and spurs in operation. The capital stock is \$2,000,000, and the funded debt \$25,000. The cost of the road and equipment to date of report is \$2,900,221.95. The net operating income for the year was \$20,221.56, but payment of taxes and interest left a net corporate loss for the year of \$23,553.13.

Has 50,000 Boxes of Apples.

McMinnville.—M. O. Lowrie's apple crop for this year is estimated at 50,000 boxes of marketable fruit. This yield of first-class apples represents a faithful and painstaking attention to spraying and caring for the trees, one of the principal tenets of Mr. Lowrie's every-day religion. The small per cent of apples inferior in size and quality will be made into a fine quality of apple jelly at the farm.

Plans Elaborate Special.

University of Oregon, Eugene.—The class of 1910 of the university of Oregon is planning on an elaborate issue of the "1910 Beaver," the annual issued each spring by the members of the junior class. Oliver Huson, of Portland, has been elected editor-in-chief, and Cary V. Loosely, of Klamath Falls, business manager.

Police Force Dismissed.

Klamath Falls.—The entire police force of Klamath Falls has been dismissed by the city council, on account of complaint that they were not doing their duty in enforcing the liquor and gambling laws. Chief C. C. Low declared the action unjust, as they were not given opportunity to resign. New officers will be appointed by the mayor.

Stock Over Summer Line.

Baker City.—Stockmen of the John Day and Burns country are pleased with the arrangement of the Summer Valley railroad, which permits stock to be shipped over that line in the future. Yards of considerable size have been built at Austin and will accommodate the large herds raised in the interior.

Curry Coal Strike.

Gold Beach.—A three-foot vein of coal of good quality has recently been discovered on the Hume ranch, five miles from Wedderburn. Mr. Hume will put a force of men at work at once to develop the property, and if found in sufficient quantity will ship from Wedderburn.

SHIP SUGAR BEETS.

Union Sending Out an Average of 90 Tons Per Day.

Union.—Within a few days practically all the sugar beet crop of this district will have been gathered and shipped to the factory at La Grande. Last week shipments aggregating 180, 000 pounds, or 90 tons per day, were made, and it will require a few days more to clear the fields. With the cold nights of the last two weeks farmers have been hurrying the crop to market with all haste, and shipments have been made regularly. The plant is running at full capacity, and enough beets are now on hand to keep it in operation for weeks. It is complained generally that the plant at La Grande cannot secure acreage enough of beets to keep the factory in operation long enough in a season to make the business profitable. Around this town a number of colonies have been established, and the fields are used almost exclusively for beet culture, with good profits to the producer. A number of German families have been brought to this season, and labor is more plentiful than ever before.

Institutes in Klamath.

Klamath Falls.—Klamath county farmers have formed an organization and will conduct local institutes in the various towns of the irrigated district during the coming winter. The first of the institutes was held at Klamath Falls last week, at which Hon. J. W. Bailey, state judge and county commissioner, was the principal speaker, and gave the farmers some excellent advice as to the importance of dairy development. The institute was under the auspices of the Klamath chamber of commerce, and aroused considerable interest and enthusiasm. As a result, it is the purpose of the active citizens to keep the good work going.

Improve Marshfield Mines.

Marshfield.—Extensive improvements important to Marshfield have been announced by the Spokane, Yakima & West Coast Railroad company, the Spokane corporation which purchased from the Oregon Coal & Navigation company the Libby coal mine at Marshfield, the steamer M. F. Plant and 3650 acres of land near the city. The president of the company, Colonel D. H. Butte, of New York, and M. N. Knappenburg, the secretary and manager, of Spokane, have been here closing the deal, and are preparing to improve the property.

Improve Coos Bay Road.

Marshfield.—The Coos Bay, Roseburg & Eastern railway, the small road in Coos county owned by the Southern Pacific, will build a new passenger and freight depot at Myrtle Point, the southern terminus of the road. Increase in business at that point makes the improvement necessary. The new depot will be a fine structure, and the road is now in excellent shape. Much grading has been done, bridges repaired, new cars added to the rolling stock and the winter freights formerly overflowed.

Record Building Era.

Brownsville.—Brownsville is assuming metropolitan proportions. Two new brick business blocks have been completed, and fine residences are rising on all sides. There have been more substantial buildings erected during the past year than in any previous ten years. Brownsville's most pressing need is train service. It takes passengers two days to make the trip to Portland and return, a distance of less than 200 miles.

Josephine Irrigation Work.

Grants Pass.—All the material for the new steel bridge across Rogue river in this city is now on hand, and work of construction will begin at once. The construction company hopes to have the bridge raised in many places by the end of 1909. The bridge will have a width of 25 feet, and will be constructed to accommodate both wagons and cars.

HAAS TAKES LIFE.

Would-Be Assassin of Henry Shoots Himself in Jail.

San Francisco, Nov. 16.—Morris Haas, who attempted to assassinate F. J. Henry Saturday night, committed suicide by shooting himself through the middle of his forehead with a pistol he had concealed about his person.

It is reported by District Attorney Langdon that Haas made a confession and named the people who hired him to shoot Mr. Henry, but Mr. Langdon declares he will not divulge the names.

Haas went to bed at 8 o'clock at the county jail, and covered up his face with a blanket. At 8:40 a shot was heard from his cell, and when the guards entered, it was found that he had rolled out of bed and was lying dead on the floor with a bullet-hole in his forehead. A 41-caliber single-shot derringer was grasped in his hand. His left trouser leg was pulled up and examination showed a mark on his leg where the weapon had rested while concealed in his left shoe. Haas wore gaiters with elastic sides, which made this possible.

After he had shot Mr. Henry Haas was searched by Police Captain Duke. Detective Burns and a police officer. After he had been taken to the county jail he was searched again, but at neither time was his shoe examined. Haas went to bed Friday night with his shoes on and again Saturday night, and when he was asked why he did this said that he would rather sleep with them on.

HENEY IMPROVES.

Rests Easy and Recovery is Assured by Physicians.

San Francisco, Nov. 16.—The condition of Francis J. Heney is still most satisfactory, and the attending surgeons report that he is making excellent progress on the road to recovery. He passed a comfortable night, sleeping most of the time, and rested easily yesterday.

How Haas secured the pistol with which he fired the shot which wounded Heney is puzzling the police and special agents of the prosecution. Captain Duke says Haas had no other weapon when arrested, and Captain Kelly, in charge of the jail, says there was no opportunity for a pistol to have been passed to the prisoner in his cell. Detective Burns is said to have worried some sort of admission from Haas that he was encouraged in his threat against Heney, but just how much of a statement was secured from the prisoner before he killed himself, the prosecution refuses to reveal.

Although the bullet has been located, embedded in the left jaw, about an inch in front of the ear, the surgeons have decided not to extract it until Mr. Heney gains more strength, as it has as yet given no trouble.

The swelling in the throat is less than it was a few days ago, and the patient was taken to the hospital, and he is breathing normally.

San Francisco, Nov. 16.—At a meeting of citizens Saturday night, presided over by Mayor E. R. Taylor, resolutions were passed declaring unwavering allegiance to law and a determination to support the district attorney's office in securing the detection and conviction of criminals, high or low, and the full protection of the officers in the discharge of their duty.

The resolution also declared that, if the criminal law was found to be so framed as to permit the escape of civic malefactors, the law must be amended, and if the lax administration of the law was due to misrepresentation by judges, men should be placed upon the bench capable of construing the law.

The meeting was the most significant that has been held since the days of the vigilantes, and demonstrated that public sentiment is fully aroused and determined to bring aid and to the demoralizing conditions of the last two years.

Quarantine Against Anthrax.

Helena, Mont., Nov. 16.—The governor has issued a modification of his recent quarantine proclamation prohibiting the importation into Montana from South Dakota of any domestic animals, and conditionally as respects North Dakota and Wyoming, on account of anthrax. The step is taken at the request of federal inspectors, who state that the authorities have the anthrax outbreak reasonably well in hand. Hereafter shipments from South Dakota will be permitted to enter Montana when accompanied by federal health certificates.

Barricade Office.

San Francisco, Nov. 16.—Hearst's Examiner composition and editorial rooms were barricaded Saturday night and guarded by armed men, as the managers of the newspapers feared that a mob would be formed to attack and clean out the offices. For several months the Examiner has printed daily cartoons ridiculing F. J. Henry, Rudolph Spreckels, W. J. Burns and the entire graft prosecution, and each day at the bottom of its editorial column it has run the legend about the time since the prosecution began.

Lends Coal to France.

Mare Island, Cal., Nov. 14.—The French cruiser *Antinet* is filling her bunkers with 350 tons of coal from the United States navy yard here, loaned by the United States government after Captain H. Richard of the warship had attempted to purchase the fuel in San Francisco. Failing to obtain his steaming supply from private companies, the French commander appealed to Commandant J. S. Phelps of the navy yard, who distributed the navy department of the request. The department wired back its consent.

Careful Guard Over Trial.

San Francisco, Nov. 16.—When the trial of Abraham Ruef, so tragically interrupted by the shooting of District Attorney Francis J. Heney in the open courtroom by Morris Haas, is resumed today, more than a score of plain clothes detectives will mingle with the crowd, armed men will guard the corridors and in front of Carpenter's Hall, on Fulton street, and the streets in the vicinity of the building will be strongly patrolled.

Grand Duke Alexis Dead.

Paris, Nov. 16.—Grand Duke Alexis, uncle of the czar of Russia, died here Saturday morning after a brief illness. The grand duke had been ill for some time, but recently recovered his health sufficiently to plan a trip to England.

Snow in Middle West.

Chicago, Nov. 16.—Winter is here. Snow fell in Chicago yesterday, and in the afternoon lights were necessary in all the homes and offices to dispel the attendant darkness. The snowfall was general throughout the Middle West.

CHINA ON BRINK OF REVOLUTION

Prince Chun fears Reformers May Overthrow Dynasty.

Masses Just Awakening to Death of Dowager Empress and Emperor, and in Panic Following 14 Banks Are Closed—Thousands of Gendarmes Guard Streets.

Pekin, Nov. 17.—China is beginning to realize that the emperor and the dowager empress are dead. Prince Chun, regent of the empire, in fear of increasing excitement and revolutionary movements, has taken a firm grip on affairs and has adopted stringent measures that will result in the maintenance of peace for a time at least.

At noon 3000 gendarmes guarded the streets, and other military forces were held in readiness for any emergency. Every precaution was taken to prevent a recurrence of the revolutionary tactics of last September and May, which were marked by widespread incendiarism. The foreign legations are under guard, special detachments of Chinese troops keeping watch at the approaches. The statement was made at the legations that there was no fear that the Chinese government would be unable to afford ample protection, but those within the legations were more alert than usual and securely armed, and have set at rest the doubts arising from the swift movement of events in the last few days.

There were many occurrences yesterday and today, and 14 native banks closed. The crowds were wild with excitement, and toward the close of the day the police intervened and drove them back. One foreign concern, the Yokohama Specie bank, suffered a big run on its Tientsin notes, but the British, Russian and German institutions were not affected. It is probable that a number of native banks will be closed tomorrow, and it is believed that the government will step in and endeavor to stop the financial panic among the poorer classes.

BULLET IS REMOVED.

Prosecutor Stands Operation Well and Relieves Rapidly.

San Francisco, Nov. 17.—After passing through a most successful operation for the removal of the bullet which was fired at him by Morris Haas during the Ruef trial last Friday, the condition of Francis J. Heney is reported by the doctors to be favorable in every way, and predictions of his ultimate recovery are made by his physicians. The operation followed the taking of X-ray photographs, which plainly showed the location of the leaden pellet in the muscles of the left lower maxillary. Chief Surgeon Terry, of the city hospital service, wielded the instruments, while Drs. Stillman, Moffat and Huntington assisted.

It was found that the bullet, which entered the right side of the head just in front of the ear, had passed downward, crossing the palate and striking the left lower maxillary, which was slightly splintered but not broken. The bullet was deflected backward by striking the bone, and lodged in the muscles of the jaw. It is reported by the doctors that the surgical skill, as it lay close to the big blood vessels of the neck.

Mr. Heney rallied rapidly from the effects of the anesthetic, showing no ill effects from the drug or shock from the operation. He passed a quiet day and slept peacefully last night. At midnight it was said by his attendants that his condition was entirely favorable, and that hopes for his speedy recovery were entertained.

Plan Big Meeting.

Portland, Nov. 17.—The next important convention to be held in Portland will be that of the Northwestern Fruitgrowers' association, which will meet with the Oregon State Horticultural society the first three days of December. Preparations are being made to house a large exhibit of fruit in the building during the week of the convention. British Columbia and the states of Idaho, Washington and Oregon will be represented in the convention, these being the state associations that comprise the Northwestern association.

Asks Change of Venue.

San Francisco, Nov. 17.—With Judge Lawlor's courtroom thronged by policemen, special detectives, deputy sheriffs and other peace officers, while the streets about the building were guarded by mounted police and many patrolmen, the trial of Abraham Ruef was resumed yesterday after its interruption on Friday, by Assistant District Attorney Francis J. Heney was shot. As was expected, the defense asked the court immediately for a change of venue, declaring that Ruef could not obtain in this city a fair and impartial trial.
