

Little Soldiers

In your blood are the millions of corpuscles that defend you against disease.

To make and keep these little soldiers healthy and strong, is simply to make and keep the blood of the right quality and quantity.

This is just what Hood's Sarsaparilla does—it helps the little soldiers in your blood to fight disease for you.

It cures scurvy, eczema, eruptions, catarrh, rheumatism, anemia, nervousness, dyspepsia, general debility, and builds up the whole system.

Prince Waldemar of Denmark is a capital boxer and is ever ready to put on the gloves.

Norway's seaweed used as fuel, yields a greater revenue than its fisheries.

The Alveolar System

Of Replacing Teeth in the Human Mouth is the Greatest Advance Ever Made in Scientific Dentistry

A few years ago Marconi came before the world with the statement that he could transmit messages through the air by electricity without the use of wires. Every telegraph operator in the land scoffed at the idea and said it could not be done.

Likewise the Alveolar System of replacing teeth in the human mouth without the use of cumbersome and ugly plates, which is the latest method to be adopted by scientific dentistry.

If you have two or more teeth in either jaw, either tight or loose ones (we make the loose ones tight and healthy) we guarantee to put in for you a beautiful set of teeth that can hardly be told from natural ones. All work absolutely painless.

These Teeth Will Outlast Those Who Are Wearing Them

If we can beautify your appearance and build up your health with a new set of Alveolar System teeth, or enable you to do away with a wobbly, unclean, partial plate or ill-fitting piece of ordinary bridge-work, wouldn't it be the greatest service that could be done for you?

We make absolutely NO CHARGE for advice. We examine your mouth and advise conscientiously.

The ALVEOLAR SYSTEM is to the old time methods what Wireless is to the ordinary Telegraphy.

"It didn't hurt a bit. Now for my Alveolar Teeth."

In a case like the above, all dentists throw up their hands and say there is no hope except in the use of a false plate. The Alveolar System solves the problem and now plates are seldom necessary unless every tooth is gone. We are positively painless dentists in every branch, and for 30 days we make the following money-saving prices:

22K Gold or Porcelain Crowns \$3.50
 Bridge Work (all kinds) each tooth \$3.50
 Silver Fillings 25c and 50c
 We are expert plate makers \$3.50 up
 Painless Extracting (free with all work) 50c

Write for our Booklet, which will be sent free. "The Great Alveolar Electric System." We are the only real Alveolar Dentists in Portland. Beware of imitators.

We do work for out-of-town people in shortest possible time.

A WEEK WITH OUR STATE LAWMAKERS AT SALEM

Monday, February 15.

Salem, Feb. 15.—The house today passed the general appropriation bill for 1909-10. The deficiency appropriation bill was also passed and \$75,000 for extension of the state postage railway. A great many other measures got through, but for the most part they were of local character.

The senate was in a slaying mood and killed 13 bills. Some of them were important and on less strenuous days would have provoked hours of debate.

The senate also passed the bill increasing the state fair appropriation from \$10,000 to \$15,000 per year.

In the afternoon both houses and many pioneers of the state united in commemorating the 50th anniversary of the admission of this state to the Union. The exercises were held in the hall of representatives and many prominent men spoke.

At a session tonight the senate passed a bill appropriating \$100,000 for a normal school at Portland, as proposed to the legislature by the house for \$315,000 for three normals; cut down the agricultural college maintenance appropriation and voted down a bill for a new \$60,000 agricultural college at Union.

The appropriation bills passed by the house amounted to \$1,727,000, cutting the bills only \$2,440.

Tuesday, February 16.

Salem, Feb. 16.—By a vote of 8 to 18, the senate this afternoon refused to kill Senator Norton's bill requiring long distance telephone companies to connect their lines with local telephone lines.

Senator Johnson's road bill, over which a big fight was expected, passed without much opposition, the objectionable features having been eliminated.

The bill appropriating \$20,000 for maintenance of the Union experiment station was passed.

The senate passed the bill carrying an appropriation of \$10,000 for the employment of a master fire warden for two years.

Salem, Feb. 16.—Beals' bill imposing a state license of \$5 on billiard and pool rooms was killed in the house last night by indefinite postponement, on motion of Campbell of Clackamas.

Wednesday, February 17.

Salem, Feb. 17.—Advocates of three normal schools won the opening skirmish in the normal school fight in the house today. By a vote of 38 to 21 the bill recommended by the committee on ways and means and carrying an appropriation of \$115,000 for one central normal school at Monmouth, was rejected. At the same time the house re-referred the bill to that committee with instructions to make provision for the three schools at Weston, Ashland and Monmouth.

For protection of forests through a fire warden, the state board of forestry is urging passage of Representative Abbott's bill, No. 226, enlarging the powers of the board and appropriating \$15,000 therefor.

The ways and means committee of the house has cut down the sum to \$3,000, but efforts are being made to put back the original figure.

Thursday, February 18.

Salem, Feb. 18.—After being amended so as to apply to the whole state, Representative Davis' bill permitting ten-round boxing contests at points was killed in the house tonight. There were only 20 votes in its favor.

"A. B. C." members of the house tonight killed by indefinite postponement Representative Smith's two bills amending the direct primary law and requiring that arrangement of candidates' names on the primary nominating and general election ballots be determined by drawing lots.

The house today adopted the senate resolution proposing submission to the people of the constitutional amendment increasing the Supreme court from three to five members and giving the Supreme court original jurisdiction over habeas corpus proceedings.

Representative Purdin's bill appropriating \$100,000 towards the construction of a wagon road from Medford, via Crater lake, to Klamath Falls passed the house this afternoon, with 16 votes against it.

For the purchase of the Oregon City locks by the state and the national government, the senate tonight passed the substitute bill introduced by the ways and means committee at request of Representative Jones, of Polk, providing for raising \$100,000 in each of three years so soon as congress shall appropriate \$300,000 for the joint fund. The \$100,000 raised under the old law will be turned into the general fund. Likewise the \$100,000 that will be raised this year. Barrett of Washington voted no.

The recorder of conveyances in Washington county bumped up against executive veto this morning and will probably fail to get a raise in salary. The bill was introduced by the Washington county senators, Barrett and Wood. In vetoing it the governor gave the same reasons as set forth in previous veto messages—that the recorder took the office knowing what his compensation would be, and that the salary should not be raised or lowered during his term.

Friday, February 19.

Salem, Feb. 19.—Discovery by Representative Calkins of a "joker" in substitute house bill 167, providing for precinct elections on the subject of whether or not to be distinguished from whiskey and other liquors, should be sold in those precincts, resulted in the disastrous defeat of that bill in the house this afternoon. Following the exposure by Calkins, McDonald and Patton, members of the committee on alcoholic traffic, who reported the bill favorably, and McCue and Brady, champions of the bill, the floor of the house voted against its indefinite postponement. Only four representatives voted against substituting the

Saturday, February 20.

Salem, Feb. 20.—The senate today passed a bill appropriating \$20,000 for the establishment of tuberculosis sanatoria, as proposed in a number of bills that have been introduced. The bill carries an appropriation of \$20,000 for the purchase of land and construction of buildings, and a maintenance appropriation of \$25,000 a year, making a total for two years of \$70,000.

Sunday, February 21.

Milwaukee—A representative of the Southern Pacific appeared before the Milwaukee city council at its meeting Tuesday night, and submitted for inspection a blueprint of the route of the proposed new line through Milwaukee to the site of the new bridge to be built across the Willamette river near Oswego. It was the first definite step toward obtaining a franchise through the town, for, though the company had an ordinance, tentatively, for a franchise, no action had been taken.

Red Man Looked Like White.

Salem—Warren Davis, formerly a bartender here, has been arrested by a deputy United States marshal and taken to Portland. He is charged with selling liquor to an Indian from the Chemawa school. Davis contends that he has no recollection of selling to an Indian, and as it is understood the red man in question is so nearly white it would be difficult to pick him from a Caucasian, his contention is considered good.

GRIP IS PREVALENT AGAIN.

A prompt remedy is what every one is looking for. The efficiency of Peruna is so well known that its value as a grip remedy need not be questioned. The grip yields more quickly if taken in hand promptly. If you feel grippy get a bottle of Peruna at once. Delay is almost certain to aggravate your case.

For a free illustrated booklet entitled "The Truth About Peruna," address The Peruna Co., Columbus, Ohio. Mailed postpaid.

Perish the Thought!

Glady—If he talks to you like that he's too impertinent. I just wouldn't stand any of his lip.

Esmeralda—His lip! The idea! He has never presumed to far as to kiss me, Miss Goring!

Extremes of Advertising.

"We want to do something big to advertise that new play," said the New York manager.

"Well," answered the press agent, "which kind of a play is it? One to which you invite the attention of the clergy or the attention of the police?"

—Washington Star.

Another Horror.

Exchange Editor—Let me see—Mark Twain had a degree of some kind conferred on him, didn't he?

Literary Editor—Yes; since he incorporated himself I believe he has taken the degree of Ltd.

You Can Get Allen's Foot-Ease FREE.
