MARS MAY BE HAILED.

Professor Pickering Says it Would Cost Only \$10,000,000.

Boston, Mass., April 20 .- "If manaind cares enough about it to put up about \$10,000,000, there is no very good reason why the human race should not be able to talk with Mars, and that so soon as next July."

This is according to Professor William Henry Pickering, Harvard university's celebrated astronomer.

Communication with Mars will be made possible, Professor Pickering declares, by adopting his method of flash-ing messages when Mars approaches the earth to within 35,000,000 miles, Italy has sent a cruiser to Turkey or about 5,000,000 miles nearer than ever before. ABDICATION OF SULTAN.

Tottering Throne of Turkey Seems About to Fall.

Constantinople, April 19.—The mos serious crisis in the history of the Turkish empire is thought to be at hand. It is persistently rumored that Abdul Hamid, forced by the uprising against the tyranny of the party in power, will abdicate the throne.

The committee of union and progress, representing the party of the Young Turks, with whom are allied the revolting Salonica soldiers, are en deavoring to regain the power obtained by the revolution of last July, which has been gradually undermined by the cleverness of the sultan in getting rid of or winning over by bribes the lead-

DOZEN PERISH IN FLIMSY LODGINGS

Refugee Home Erected After San Francisco Quake Burns.

Building Once Condemned as a Fire-Trap Blazes Like Tinder-Mostly Occupied by Laboring Men and Their Families-Had Caused Much Trouble.

San Francisco, April 17 .- Fire in the St. George hotel, a flimsy structure erected shortly after the earthquake, and since used as a lodging house, snuffed out a dozen lives between 3 and 4 o'clock this morning. The buliding, located at Eighth and Howard streets, ourned like tinder, and almost before the sleeping occupants of the structure ould be aroused the fate of many of them was sealed.

The great rookery had 600 rooms, and was mostly occupied by laboring men and their families. Five bodies have already been taken from the ruins, and it is believed that 30 still remain buried in the smoking and mouldering wreckage.

The St. George hotel was of the most flimsy construction, and its pro-prietor, J. W. Shanan, has been in trouble with the board of public works since the building was erected. On December 13, 1906, he was arrested for violating the building law, but was dismissed on promising to make alterations which would increase the safety of the building. According to John T. Horgan, of the board of public works, many complaints have been made against Shanan on the ground that the St. George was a veritable firetrap.

Insurance agents estimated that the fire resulted in a loss of \$82,500.

SULTAN PREPARES TO FLY. Civil War in Turkey is Cause of Panic

in Government Circles. Constantinople, April 17. - Panic reigns in government circles and the sultan is reported to be in readiness for flight. The chief officers are muinous, the Constantinople garrision is rushing preparations to assist the troops said to be advancing upon the city from the Northwest, and the new ministers are resigning as fast as pessible. It is doubtful if the soldiers here can cope with the forces which, it is rumored, are rallying to the standard

of the Young Turks. Business is again at a standstill and private citizens are taking all possible precautions to defend their property in event that the opposing armies shall clash in Constantinople. It is realized here that alarming reports from Salonika may rouse the Young Turks, who are eager to terrorize the city.
