### Good Blood

Means good health, and Hood's Sarsaparilla has an unapproached record as a blood-purifier.

It effects its wonderful cures, not simply because it contains sarsaparilla but because it combines the utmost remedial values of more than 20 different ingredients. There is no real substitute for it. If urged to buy any preparation said to be "just as good" you may be sure it is inferior, costs less to make, and yields the dealer a larger profit. Get Hood's Sarsatarilla today. In usual liquid form or in chocolated tablets known as Sarsatabs.

Baron Munchausen had just told one of his stories, and somebody in the crowd had questioned the truth of it.
"That's all right," said the baron; "

know I'm a liar. But I lie merely for fun. I don't lie either for spite or for profit. I'm not a member of any Ananias Club."

# **REDUCE RATES TO INTERIOR POINTS**

Voluntary Reduction Made in Hope of Satisfying Public.

Average Cut of 15 Per Cent to Be Made - Freight Carriers Decide Not to Appeal From Spokane Ruling, but Will Stand Loss of Revenue to Save Trouble.

Chicago, May 18.—The Record-Herald says:

Thus, while contributing to the incunabula of unveracity, he escaped the imputation conveyed by the short and ugly
word.

Thus, while contributing to the incunall the territory east of the Missouri
train, which was blown from the track.
Four of these are in a serious condition. A new freight rate schedule fron effect on the transcontinental lines July 1.

> The new rates will be based upon the rates which the Interstate Commerce commission ordered the railroads to put in from St. Paul and Chicago to Spokane and will be an average reduc-tion under the present rates of about 15 per cent.

> The railroads decided to do this in One of the officials who are attend-

ing said: "The railroads have decided to try to carry out the principle announced by few small articles to mark the site. decision, instead of appealing to the courts to prevent such a reduction in our revenue.

#### REWARDS TOTAL \$66,000

Sleuths Flock to Spokane in Search of Train Robbers.

Spokane, May 18.—Responding to the offer of rewards aggregating \$66,-000, offered by the Federal authorities and the railroad company for the cap-ture and conviction of the robbers who ern train near Spokane, detectives are gathering here from many places. Several arrived from Denver, and the Pinkerton force here has been increas-

ed to 25. Spokane police believe the robbers nade their way into Spokane and a odging houses. A number of detecives are working on the theory that the desperadoes are hiding in the mountains back of Colbert.

Police and railway men say they de ot believe that Charles McDonald, the notorious train robber who broke jail in Helena, Mont., while awaiting trial for holding up a Great Northern train at Rondo, Mont., shared in last Saturday's crime. They say McDonald would not be likely to again invade territory in which he is known to so many persons.

### GROWL AGAINST KAISER.

Extravagance of His Welcome Angers Austrian Taxpayers.

Vienna, May 18 .- This city is echo ing with gossip and comment in con-nection with the visit of Emperor William. It is agreed that the wel Men and women who are nervous wrecks, who lack energy and ambition, who suffer with nervousness, dread, anxiety and a general inability to be happy or to act naturally and rationally at all times, may try this treatment with a certainty of astonishing results.

Northern passenger train beld up by two masked recommendations were on a scale quite disproportionate were on a scale quite disproportionate to the brief and incidental character of night Saturday night.

Indeed, the extravagance of and the engine were detained to the properties of the saturday come of the august visitor was outhe visit. Indeed, the extravagance of the municipal authorities has aroused the indignation of the already overburdened taxpayers.

As to the real inward welcome of the kaiser, there is less certainty. into the standing train. Despite glowing panegyrics of the support in the dark days of the Balkan crisis, coupled with declarations that the future interests of the two empires the officers. will be still more closely united, politicians are afraid that Austria has join Germany in any foreign policy the latter chooses to adopt.

### Prosperity at Pittsburg.

Somebody's Mother. The woman was old and ragged and grav And bent with the chill of the winter

The street was wet with a recent snow. And the woman's feet were aged and

She stood at the crossing and walted tong, Alone, uncared for, amid the throng, Of human beings who passed her by, Nor heeded the glance of her anxious eye.

Down the street with laughter and shout, Came the boys, like a flock of sheep,

Hastened the children on their wag. Nor offered a helping hand to her,

So meek, so timid, afraid to stir. Lest the carriage wheels or the horses Should crowd her down in the slipper street

The gayest laddie of all the group; He paused beside her, and whispered low "I'll help you across, if you wish to go. Her aged hand on his strong young arm She placed, and so, without hurt or harm He guided the trembling feet along.

Then back again to his friends he went His young heart happy and well content "She's somebody's mother, boys, you

For all she's aged and poor and slow; "And I hope some fellow will lend a hand To help my mother, you understand.

If ever she's poor and old and gray

she said

And "somebody's mother" bowed he In her home that night, and the prayer

Was "God be kind to the noble boy, Who is somebody's son and pride and joy!" Anony nous.

### BENEFIT OF STRIKES.

Their Moral Uplift Explained by Leader John Mitchell. "Not only have the wages of the

workingmen been raised by the strikes in this country, but the whole moral tone of the labor element has been appreciably elevated," said John Mitchel to members of the League for Political Education who gathered in New York city recently, where he addressed them on "The Moral Uplift of the Strike."

"There'is no phase so much discussed and so little understood," he said. "To understand the moral influence of a strike it is necessary to understand the ideals of the strikers. "The American workman wants the

things that make for his physical, moral and mental advancement and in the pursuit of these ideals he is justiwill aid him to achieve these things. "A strike attributed to an apparently trival matter is often caused by a pent up feeling resulting from months

and months of continued aggression. delegate calls a strike for the benefit of his own pocket. This is not true, for every strike means a loss to him. In fact, the remuneration of the walking delegate is like that of the Chinese physician, who is paid only while his patients are in good health.

"Roughly speaking, the average workman has spent less than 1 per cent of his wages in strikes. In other words, the workmen of the United States have lost less time in strikes than from the celebration of the Fourth of July.

"A strike cannot be won by a single action. It requires the greatest endurance and patience. The striker must refrain from any hostility toward the men who have been imported into his town to take his place.

"The amount of violence in strikes is greatly overdrawn. It is a matter of record that there are more people killed on the Fourth of July than have been killed in strikes in the United States since the signing of the Declaration of Independence."

Health and Profits.

Prof. Irving Fisher, of Yale, has been suggesting to the life insurance companies that they establish depart ment of health as a means of prolong ing the life of their policy holders, and thus of increasing their own profits. But there is danger in such a proposi tion. Besides being an unwarranted interference with personal liberty, they might eventually bring about such condition of health as to remove all the chief urgency of life insurance. It would be much better if the life-insurance companies could invent a portable and well-disciplined disease which the agents could carry around with them, but not use until the prospective victim absolutely refused to yield to the ordinary blandishments. The disease should be so constructed that Glendive, Mont., May 17.—At 9:16 disease unit of the containing fifth that would not sugar saturated with cultures of the colock Saturday evening Glendive felt it could readily be withdrawn as soon be tolerated on the clothing is also typhoid bacilli, then allowing them to

### Early Sentiment.

first puff-paste tart-shell," "I can't understand," said a woman lately, "why women are so foolish."

# Save the Babies.

■ NFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

### **Letters from Prominent Physicians** addressed to Chas. H. Fletcher.

Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy." Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm." Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children."

Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile ailments." Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very finest and most remarkable remedies for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency and merits."

Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."
