Two Minute Title Talks

BALKY DEEDS

You know all about balky horses. You know the fellow who bought from the drover, only to find out afterwards that his team would balk. Bought without first trying them. Was he more foolish than the man who paid the last dollar on the price of a tract of land without first looking up the title? The search he afterwards made showed a shaky and defective title—full of balky deeds, conveyances that do not convey—a complete break in the chain. We will furnish the abstract before or after you buy the land.

DODGE

We must apologize for the mistake we made last week regarding the best berry picker. It is not "Bill" it is "Lill."

A few days ago Spencer Nash shot a fine buck.

Miss Ethel Keller is spending a short vacation with her friend, Miss Edna Miller, of Portland.

Oreille Hunt, organist of the Baptist Church of Oregon City, spent last week in Dodge.

That Mr. Geo. Keller enjoys great popularity in this district is very evident for on the occasion of his recent marriage he has been chivalrous no less than three times and on each occasion the revelers have gone away with a good opinion of our worthy couple and a feeling of great fullness. It is a regrettable fact however, that the first one resulted in damage to the amount of several dollars. (Who said "Hoodlum")

At last we have something to boast about. After several weeks of hard work we now have (in the person of one of our best known citizens) a runner of great speed and we challenge him to run across any front garden onto any front porch and back again in less time than any other man. Also we propose to have a speed contest on the aforementioned grounds. (Note) All competitors are prohibited from appearing in full dress costume, for further particulars apply to Ah. Lacey.

On Saturday evening a surprise party was given in honor of Miss Ethel Keller. All the young folks participated and a very jolly time was spent. The chief item of interest being a speech by Mr. Arthur Howell on "My travels through the Catskills and Donaha"

Portland Fair and Livestock Exposition

The primary object in organizing the Portland Fair and Live Stock Exposition was to foster and advance the livestock interests of Oregon and also of the Northwest. With this object in view the business men of Oregon got together and formed such an organization. Among the promoters are Portland's and Oregon's prominent bankers, wholesale and retail merchants. Through their untiring efforts Portland has one of the best equipped fair plants on the pacific coast. \$200,000.00 were spent in securing this plant and today it is the talk of the Pacific coast.

The race track is a regulation mile track, laid out and built on the best plans obtainable. It is considered the fastest track on the coast and this was demonstrated last year when Ray O'Light paced to the coast's three-year-old record of 2:08 1/4.

The grandstand is situated on the north side of the grounds and from it one of the finest panoramic views in Oregon may be seen. Almost every part of the entire grounds is visible from the grandstand and an unequalled view of the races may be seen from it.

Barns for horses, cattle, sheep and swine have been built and each is arranged for its special purpose. The barns are large and roomy and present a nice appearance and exhibitors who were at the fair last year speak very highly of the accommodations.
