NEWS ITEMS OF GENERAL INTEREST FROM THE STATE OF OREGON

WALLOWA HAS FINE HAY.

Autumn Crop Will Be Close to 15,- University Unable to Supply Demand 000 Tons, All Good Grade.

Wallowa-More than 15,000 tons of hay will be shipped from this valley this fall. The crop has been an excelcontracted nearly all the crop that will be shipped, and local stockmen have bought up practically all that remains for sale. One Portland firm has bought

10,000 tons. The hay is mostly alfalfa, timothy Other crops are in proportion to the ping facilities thus afforded.

Land Values Jump. Talent-In the spring of 1901 M. L. Pellett sold his 12-acre tract to William Lamb for \$800. About eight acres of it was seeded to alfalfa. A short time thereafter Mr. Lamb sold the tract to E. R. Oatman for \$1,000, Alfalfa did not look nearly so good to Mr. Oatman as he imagined growing apple trees would and he at once put this notion into operation. spring he set the land to apple trees. I'wo years ago Mr. Oatman set the remainder of the tract to Bartlett pear trees. The consideration of a recent ourchase was \$10,000 cash. It can be easily figured that this particular tract of land has grown in value in eight

vears just \$9,200.

Selecting Crater Lake Route. Klamath Falls-B. F. Herdil, the government engineer who has been ent from Washington to make the preliminary location of the road from Medford and Klamath lake, has returned to the city, after spending several days looking over proposed routes to Crater Lake, both on the east and west sides of Upper Klamath river. Engineer Herdil has not sufficiently compared the several routes to justify a selection yet, and will spend considerable more time in his reconoisance before rendering a decision. Before coming to this side of the nountains he had carefully looked over nore than a dozen routes from Med-

THIRTY BUSHEL WHEAT.

Montana Farmer Makes Success of

Working Dry Land. Caldwell, Mont., Aug. 20.-F. F. Irvine, member of the Montana board of control of the Fourth Dry Farming congress, and one of the successful dry land farmers of this vicinity, is now harvesting 40 acres of wheat, which he estimates will yield about 30 bushels an acre. This grain was planted in September on sod ground that had been plowed in May and June. Being the first crop from this ground Mr. Irvine regards his crop as unusually good. He says the field has been attracting attention and people have been coming in from miles around to see for themselves what can be accomplished by ing principles.

Mr. Levine has informed Secretary John T. Burns, of the Dry Farming congress, that he will send a sample of this crop to Billings, Montana, for exhibition at the Fourth Dry Farming congress, which will meet at Billings, October 26-27-28 next.

BAKER'S CRATER ACTIVE.

Vapor May Be Seen Rising From the Mountain at Times.

Bellingham, Wash., Aug. 18.-Stories of smoke seen arising from Mount Baker's snow-crowned dome following the earthquake in this territory last winter do not appear so far-fetched, following the investigations made by the Mazamas of vents in the crater of the huge extinct volcano. Secretary John A. Lee, who returned to this city today, declares that at a favorable hour in the early morning he has no doubt but that the vapor could easily be seen from this city, 50 miles away, with a good pair of field glasses.

The "vents" in the crater appeared especially active this year to some of the Mazamas. Secretary Lee, however, who ascended the mountain in the flood in the Arkansas river, which 1900 and again in 1966, concludes that

"The actual crater of the mountain," in that section and soon the river, said Mr. Lee, "is that portion lying swollen by mountain torrents near between the secondary peak and the Canon City, had risen eight feet six main peak. It is easy to see that the nches.

The trains of the Denver & Rio and south sides of the crater rim. The

The magnificent Royal gorge, where the Arkansas river rushes through a canyon nearly 3,000 feet deep, was a scene of wild fury. The water had reached a level of the famous hanging bridge. Many of the nearby canyons were washed clear of tracks.

"One of the active vents is situated at the easterly end of this depression, and the other at the westerly end. The east vent is apparently by far the most active, the westerly one consisting at this time merely of cracks and fissures in the snow and ice through which the "One of the active vents is situated vapors escape. The west vent, how-ever, consists of a hole extending down into the snow to the porus rocks beneath. It is perhaps 20 to 30 feet in diameter. The vapor puffs out intermittently, rising up in dense clouds, and the snow is crusted with sulphur deposits. I am inclined to believe that most of the visible vapor is merely washed out and that it will be at least steam arising from the overheated rocks, though the gases sometimes are almost overpowering.

RULE VANDERBILT LINES.

Wizard of Wall Street Has Option on

Control of System. New York, Aug. 18.-The eliminstion of the Vanderbilts from New York. Central lines and the complete ascendency of Edward H. Harriman in the control of more than 12,000 miles of railroad comprised in that system is declared to be the next important move in the railway world.

It is reported on what seems to be

good authority that the Harriman back-

ers have secured an option on the greater portion, if not all, of the Vanderbilt holdings and will soon close a deal in the interest of the "Napoleon" of the railway world. The option which has been obtained, it is stated, is on \$50,-000,000 worth of New York Central, which is to be purchased for Mr. Harriman at \$150 a share.

The last report of the Union Pacific

oad shows that it has in its treasury \$14,000,000 worth of New York Central securities and it is generally believed that Mr. Harriman and a few of his friends have large personal holdings of New York Central securities.

The total capitalization of the New York Central is \$178,632,000 and it is understood that the option, if experout six hours the jury in the case of the four Japanese strike leaders charg. ed with criminal conspiracy brought in a verdict of guilty at 10:45 p. m. yesterday. The defendants, President trol, though not by stock ownership, of

Swedish Strike Dwindles. Stockholm Aug. 18.-The police today prohibited a great demonstration of the same paper, were arrested and arranged by the strikers. > trade. All the newspapers are now Germans Fight Yankees. Paris, Aug. 18.—A dispatch from Port au Prince, Hayti, says that a group of Germans who for years have nonopolized the commerce country, are conducting a violent campaign against the American bankers who are negotiating for a railroad system in Hayti. Germans control the newspapers of the country, which print strongly worded articles against the Americans and predict the annexa-

tion of Hayti by the United States. The Germans fear that if the railroad

ice is seriously affecting their tourist

s built it will end their monopoly. Ship Needed at Inquiry. Vallejo, Cal., Aug. 18.-The Navy lepartment having failed to issue ormander H. O. Stickney and Lieutenant J. O. Fisher, who are members of the leged inefficiency against Edward Kavanaugh, it is expected the South Dakota, on her return to Seattle, will be ordered to return to Mare Island to complete the inquiry.
