Thursday, Sept 30, 1909

Portland, Or., Sept. 28 (Special "Oregon apples will be well represented at the Second National Apple Show at Spokane November 15-20." said Rev. H, Rice manager of the apple show, who was in Portland during the week, "While the crop is generally much smaller than last year, the quality is of the very best and growers in all parts of the state are showing the keenest interest in the various contests. While the first apple show was an an unexpected success, we have assurances that the second exposition will be even more so, as the grow ers want a chance to exhibit their choice apples in comparison with fruit from other states and the prize list gives an opportunity for every apple raiser to compete. The contests include carloads, ten boxes five boxes, single boxes, barrels, jars and plates with cash premiums ranging from \$1000 sweepstakes in the carload classes down to \$3 for a single plate of five apples.

"All the railroads have united in giving a rate of one-and-one-third fare for the round trip to Spokane during apple show week and also allow visitors to go by one line and return via another.

"The National Apple Show dates give growers an opportunity to exhibit at local county fairs and apple shows such as those at Albany, and Hood River and then have plenty of time to ship to Spokane and win additional honors and premiums.

"I have been in many of the fruit growing districts of Washington and Oregon and in nearly all sections the report is the same-a small crop of fine quality."

The Cook and Peary controversy about who discovered the North Pol: is filling considerable space in the big dailies and causing lots of trouble, strife, and envy, and now from reports all over the country comes the news that on last Saturday great disturbance existed in the magnetic realm, telegraph and telephone service between the East and West refused to work as usual, simply went "dead" and the cable did the same. Expert electricians are unable to assign a cause for these disturbances which worked great hardships on companies and individuals who make it a business to give the news of the world, quickly. They attribute it to the Aurora Borealis or northern daybreak, but they might be mistaken, Cook or Peary might have moved the pole or have it packed among some of their undelivered data and now that it has been discovered refuses to work.

One hundred dollars is offered by Phillip S Bates, secretary of the Oregon Threshers' Associations, for the best bushel of wheat grown in Oregon. An additional \$100 will be divided as secondary prizes. All exhibits should be shipped to The Dalles, Saturday, November 27, where the entries will be judged Right for the same class of goods. and prizes awarded. The contest will make a wheat show that will be held in connection with the annual convention of the Oregon Threshers' Association December 2 and 3 at The Dalles. There is no entry fee and all entries should be sent forward in standard twobushel grain sacks, with the grower's name attached and stating where the grain was grown.

President Taft will be in Portland on Saturday and Sunday. No doubt many of our people anxious to see the first citizen of ness and give up the day to welcom- Sunday. ing him so that all employees may have the opportunity to participate. This comes as a request from the

Poultry Secrets

Disclosed!

THERE are secrets in the poultry business, as in any other; the best methods and newest discoveries seldom reach the amateur poultry raiser and the general public for years after they are originated. A new method of absolutely insuring the fertility of setting eggs, for example, has

Enormous Cash Value

and its discoverer is not to be blamed for keeping it to himself. Now, for the
