Wm. Kaake and family, who have been out at Dodge most of the time for a couple of months, are arranging to return to their home in Estacada. They will have another boarder to arrange for, as during their stay in Dodge a little baby girl came to their home.

Last week Chas. Kitching, while returning from lodge in Estacada to his home at Currinsville, had a narrow escape from something. The night was exceedingly dark but as "Charlie" was raised in the woods this made no difference to him. he was homeward bound and meant to get there. Suddenly, and without warning a huge beast appeared in his way, but he, ever on the look out for just such emergencies, escaped the beast and succeeded in reaching the home of friends, where he gave the alarm and roused them to search for the intruder, but it had escaped. Charlie was hunting for a bear, but his friends quietly told us it was a jersey cow.

J. E. Schenk, who recently bought the Kandle place in Springwater, has sold 60 acres from the same to Christ and Peter Siegenthaler, who have recently come in from Alaska. We understand the consideration was about \$1000.

The Eagle Creek Athletic Club seems to be quite popular with the boys. They have a membership of fifteen.

Ben Anderson is going to build a new house. A. L. Baker is the carpenter.

CURRINSVILLE

Mr. E. S. Shankland is having trouble with the plaster in his new house this cold weather.

A young man of Currinsville, while going home from Estacada at a late hour last week, saw a bear in the fence corner near his home. He gave Bruin a wide berth and went on home. Next morning he got several fellows with dogs and guns and started out to capture the bear. But, alas! all things are not as they seem, and the supposed bear was nothing more or less than an old cow quietly chewing her cud. We advise the young man to not stay out so late after this.

The Currinsville Dramatic club is now giving the play, "Ten Nights in a Bar Room" sometime in the near future.

The Good Templars of Currinsville and Springwater are intending to run a special car to the District Convention at Arleta, Saturday. It is thought that a large crowd will go.

SCHOOL NOTES

The report for the second month of this year, the month that has just ended, shows a great growth in the school. Last year at this time we had enrolled 100, this year 163. Last year we had in actual attendance at end of the second month 95, this year 148. Then we had 7 in the High School, now we have 29.

There are only four non-resident pupils in the grades.

In the last three weeks 12 new pupils have entered school. All live in the district but one.

A fine set of maps and a globe have been purchased for the 5th and 6th grade room. They are being used.

The different rooms are preparing to celebrate Thanksgiving with appropriate programs.

The children appreciate a nice clean basement to play in these rainy days. Much credit is due Mr. Stubbe, the janitor, for keeping it so. The children are trying their best to help him.

A warm air pipe has been led to the recitation room. The classes that recite in there are smiling accordingly.

The people of Estacada were praised by the County Superintendent before the Teachers' Institute for the good spirit they have shown in school matters.

A good, lively literary society has been organized in the High School. The following officers were elected: Ellen Erickson, President; Archie Davis, Secretary. Last Friday afternoon the society gave its first program very successfully. The subject for debate was Resolved: Country life is preferable to city life. The leader on the affirmative was Warren McWillis; on the negative Archie Davis. The negative won.

THE IMPORTANCE OF LITTLE THINGS

A two-cent stamp is a small thing to look after, compared with the letter itself.

Yet, if omitted, that letter with its all-important contents would be stopped on its mission, and "held for postage."

There are little things to watch when you deal in real estate. Omitted, serious trouble is invited either now or hereafter.

A little thing may cause a blemish in your title; and a bad title is no little thing. It is a big nuisance.

The two-cent stamp is a bigger tax on your letter than the cost of the abstract is on the value of your land

We have a store house of information regarding the title to your own land.

Call or write us when you are in doubt of any question concerning your title.

President Taft And Governor Benson Each Issue Proclamation

On Monday November 15 President Taft issued a proclamation making Thursday Nov. 25 Thanksgiving day. He said:
"The season of the year has returned when, in accordance with the reverent custom established by our fore fathers, the people of the United States are wont to meet in their usual places of worship on a day of thanksgiving, appointed by the Civil Magistrate to return thanks to God for the great mercies and benefits which they have enjoyed."

"During the past year we have been highly blessed. No great calamities of flood or tempest or epidemic of sickness has befallen. We have lived in quietness undisturbed by wars or rumors of wars. Peace and plenty of bounteous crops and of great industrial production animate a cheerful and resolute people to all the renewed energies of beneficent industry and material and moral progress. It is altogether fitting that we should humbly and gratefully acknowledge the divine source of these blessings.

"Therefore, I hereby appoint Thursday, the 25th day of November, as a day of general thanksgiving, and I call upon the people on that day, laying aside their usual vocations, to repair to their churches and unite in services of praise and thanksgiving to Almighty God."

Governor Benson issued the proclamation designating November 25 as Thanksgiving day last Tuesday. In his proclamation, the Governor says: "I earnestly recommend that our people cease their usual vocations on said day, assemble together in their respective places of worship and there yield their unfeigned thanks to our Heavenly Father for the blessings of life, liberty and happiness; for his goodness and loving kindness to all men; for the returns of the labors of the husbandman and the fruits of the earth.

"Let us beseech him to continue to bestow upon us the favor of his gracious providence, that our land may still yield her increase and that manifold blessings will continue to fall upon our state and nation."
